This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

POLITICAL REGISTER

FOR

1893.

COMPILED BY GEO. E. PLUMBE, A. B., LL. B.

NINTH YEAR.

ISSUED BY

THE CHICAGO DAILY NEWS COMPANY.

PUBLISHED QUARTERLY AT CHICAGO, ILL.,
BY THE CHICAGO DAILY NEWS CO. SUBSCRIPTION PRICE $1.00 PER YEAR.
NO. 1. VOL. IX. JANUARY, 1893.
ENTERED AT THE CHICAGO POSTOFFICE AS SECOND-CLASS MATTER.

PREFACE.

The year 1892 marks an epoch in the political history of the United States, the elections of the year showing a wider and more radical change in the political sentiment of this country than any preceding one. The election tables of the Almanac for 1893, covering more than 100 pages, give the vote in every county (state and territorial), showing exactly where the change of political opinion has been most pronounced. The table of exports and imports by articles for two years enables one to see at a glance the effect of the new tariff legislation on our trade and commerce. A brief history is given of all the presidential nominating conventions and caucuses since Washington. Details of the settlement of our difficulties with Chile and Italy, the progress of the Bering sea dispute and our retaliation on Canada are full of interest. Short sketches of men who became prominent last year and the letters of acceptance from the four presidential candidates are new features in this issue. The World's-Fair matter has been compiled with careful discrimination and will be found of general interest and value. A large assortment of census and other statistics bearing on Indian schools, silver, gold, pensions, education, churches, government receipts and expenditures, the liquor traffic, banks, the currency and a great variety of other subjects of value to every intelligent citizen, are to be found in the present volume.

THE DAILY NEWS ALMANAC FOR 1893 is replete with new and fresh material. Its aim is to be fair, accurate and strictly non-partisan—and no pains or expense have been spared to maintain the high reputation it has already made for completeness and trustworthiness.

CHICAGO, January 15, 1893.

Chicago Daily News Almanac

1893.

NOTE.—The time given in this Almanac is local mean time, except when otherwise indicated.

ECLIPSES.

In the year 1893 there will be two eclipses—both of the Sun.

1. A Total Eclipse of the Sun, April 16, 9:32 o'clock in the forenoon. Invisible in North America. Visible in South America, Atlantic Ocean, Africa, and parts of Europe and Asia.

2. An Annular Eclipse of the Sun, October 9. Visible to the western halves of North and South America, the West Indies, the extreme northeastern tip of Asia and Eastern Pacific Ocean. Invisible east of a line drawn through Bismarck, N. D., Omaha, Memphis and Sapelo Island, Ga. The path of the annulus being in the Pacific Ocean, occurring as a partial eclipse, in standard time, as follows:

PLACE.	*Begins.*	*Ends.*	*Digits Eclipsed.*
	H. M.	H. M.	
Denver	0 13 A.	1 56 A.	2
Salt Lake City	11 47 M.	1 51 A.	3

NOTE.—To ascertain any day of the week first look in the table for the year required and under the months are figures which refer to the corresponding figures at the head of the columns of days below. *For Example:* To know on what day of the week July 4 will be in the year 1893, in the table of years look for 1893, and in a parallel line, under July, is figure 6, which directs to column 6, in which it will be seen that July 4 falls on Tuesday.

*1752 same as 1772 from Jan. 1 to Sept. 2. From Sept. 14 to Dec. 31 same as 1780 (Sept. 3-13 were omitted).—*This Calendar is from Whitaker's London Almanack, with some revisions.*

IMPORTS OF MERCHANDISE, WITH RATE OF DUTY,

For the twelve months ending June 30, 1892, compared with the corresponding period of 1891. (Corrected to July 27, 1892.)

Abbreviation: n. e. s., not elsewhere specified.

IMPORTS—FREE OF DUTY.	*Quantities.*		*Values.*

FAMILIES AND PERSONS TO A FAMILY.

[Census of 1890.]

In 1860 and 1850 the number of families given is for the free population only, as at those censuses the families of the slave population were not returned.

Wisconsin	51,148	8,410	14,360	20,672	7,302	404
Wyoming	22,852	22,852	.....	.....	.....	.....

Up to and including 1880 the country had a frontier of settlement, but at present the unsettled area has been so broken into by isolated bodies of settlement that there can hardly be said to be a frontier line.

NATIONAL NOMINATING CONVENTIONS.

Synopsis of all presidential nominating conventions from 1789 to 1893.

It is not necessary to go very far back in our history to find the origin of our nominating conventions. The constitution of the United States provided only for the election of the president and vice-president, and the idea was that electors should be chosen by the people of the states, who would not only name the candidate but elect him to his high office. In the choice of our first president this idea was for the first and only time carried out, and without being nominated Washington was chosen president by the first electoral college of the country. The number of electoral votes cast in 1789 was 69, all of which were cast for Washington. John Adams received the next highest number, 34, and was declared vice-president. During the next four years the number of electoral votes increased very largely, being 132 at the second presidential election. All of these were cast for Washington, while John Adams received 77 votes for the vice-presidency. The retirement of Washington in 1796-7 opened the doors for a host of presidential candidates, there being no other man whom the people could unite on with so much unanimity. Upon opening the returns for the election of Washington's successor for the term beginning March 4, 1797, there were found to be no less than thirteen distinguished names among those voted

for for the presidential office. These were John Adams, Jefferson, Thomas Pinckney, Burr, Samuel Adams, Ellsworth, Jay, Clinton, Johnstone, Iredell, Henry, C. C. Pinckney and Washington. At this election the number of electoral votes had increased to 139, of which John Adams received 71 and Thomas Jefferson the next highest number, 68.

1800.

The era of "republican simplicity" was now passing away. The gratitude that impelled the unanimous election of Washington was felt in regard to no other man, and the acknowledged leadership which put forward Adams and Jefferson as the two candidates in the third general election was no longer recognized. Hence the date 1800 became an era in our political history, as it was the time of the institution of the nominating caucus. This congressional caucus, which enjoys the honor of being the first, was held in Philadelphia during the year, and after a good deal of discussion resulted in the nomination of Jefferson for president and Burr for vice-president. The presidential contest this year was between these two on one side and Adams and Pinckney on the other. The electoral vote was 138, and stood 73 each for Jefferson and Burr, 65 for Adams, 64 for Pinckney, and 1 for John Jay No choice was made and the election went to the house of representatives, which, after balloting thirty-six times, during six days, resulted in the election of Jefferson and Burr. In 1804 the contest lay between Jefferson and Pinckney for president and Clinton and King, both of New York, for vice-president. Though there must have been a caucus nomination there is no record of such an event. The electoral vote was 176, of which Jefferson and King received 162 and Pinckney and Clinton 14.

1808.

Toward the close of Jefferson's administration the legislature of Virginia fell into discord in regard to the respective claims of Madison and Monroe for the next presidential term and a republican congressional caucus was held in Washington in January, 1808, to decide which should be nominated. There were 135 republican members of congress, of whom 94 attended the caucus and agreed to nominate Madison. No record exists of the manner in which the opposition made their nominations, but the opposing candidate was Pinckney. The electoral vote was 175, of which Madison received 122, Pinckney 47, and Clinton 6. The latter for vice-president received 113 ballots, the scattering votes being divided among a number of rival aspirants.

1812.

In May, 1812, a congressional caucus nominated Madison for a second term. This year is, however, memorable for the first feeble attempt at a nominating convention. The opposition had been growing in strength and called a convention to meet in New York in September, 1812. Eleven states were represented at this first convention, and DeWitt Clinton of New York was placed in nomination, a movement which received the warmest support from the legislature of that state. The records do not show that any candidate for vice-president was nominated at this convention. The election resulted in the choice of Madison. The electoral vote numbered 217, of which Madison, for president, received 128 and Clinton 89, while for vice-president Gerry received 131 and Ingersoll 86. Madison entered upon his second term March 4, 1813, but there is no record of his having taken the oath of office.

1816.

In 1816, just before the close of Madison's second term, the republican congressional caucus again met and nominated James Monroe for president. There were 119 votes in the caucus, of which Monroe received 65 and Crawford of Georgia 54. The opposition federalists were considerably disorganized at this time, since no record exists of any nomination, though their ticket was represented by Rufus King of New York. It hardly seems possible for a convention to have been held of which no records remain, and the more reasonable supposition is that King presented himself as a candidate at the request of his friends. His efforts were in vain, for he was badly beaten. The number of electoral votes cast at the election was 217, of which Monroe received 183 and King 34. The contest for vice-president was more lively, as five candidates contested the election. Harper received 4 votes, Ross 5, Marshall 4, Howard 22 and Tompkins 183.

1820.

In 1820 the federalists were so much scattered and so unable to rally their forces that in effect no opposition was made to the nomination or election of Monroe to his second term. The electoral vote numbered 235, of which Monroe received 231 and John Quincy Adams received 1. As before, five men entered the lists for the vice-presidency. Harper and Rush each received 1 vote, Rodney 4, Stockton 8, and Tompkins 218.

1824.

In 1824 the caucus feature began to be very displeasing to the republicans in general and great numbers of them gave previous notice that they would not be governed by the dictates of the caucus. There were at this time 216 members of congress who were counted as republicans, yet the caucus which nominated Crawford was composed of only sixty-six members, and in consequence of the slim attendance and the non-concurrence of the party the nomination of Crawford was very generally repudiated by the republicans. Three other candidates were brought into the field by legislative and popular nominations—Andrew Jackson, John Q. Adams and Henry Clay—while six nominations for the vice-presidency were made. The number of electoral votes in the contest of 1824 was 261, of which Jackson received 99, Adams 84, Crawford 41, and Clay 37. For vice-president Calhoun received 182 votes, Sandford 30, Macon 24, Jackson 31, Clay 9, and Van Buren 2. No election having been made, the contest went to the house of representatives and Adams was elected by the vote of thirteen states. This "scrub race," as it was called, put an end to the caucus system.

1828.

As soon as the contest of 1824 was decided the legislature of Tennessee announced Jackson as a candidate for the next term. He was opposed by Adams, but no record exists as to the manner of the latter's nomination. Calhoun, Rush and Smith were candidates for the vice-presidency, but how they were designated as such is not known. The contest was a spirited one, and resulted in Jackson's election by a large majority. There were 261 electoral votes, of which Jackson received 178 and Adams 83. For vice-president Calhoun received 171, Rush 83, and Smith 7.

1832.

We now come to what may properly be regarded as the convention period of American politics, which has continued down to the

present time. The first regular national nominating convention of which any record can be found met in Philadelphia in September, 1830. It was called the United States anti-masonic convention, and was composed of ninety-six delegates, who represented New York, Massachusetts, Connecticut, Vermont, Rhode Island, Pennsylvania, New Jersey, Delaware, Ohio, Maryland, and Michigan territory. Francis Granger of New York was president, but no business was transacted except to issue a call for another convention of persons opposed to secret societies, to be held at Baltimore. In compliance with this call the national anti-masonic convention assembled at Baltimore Sept. 26, 1831. There were 112 delegates present, every state being represented, but only New York, Massachusetts and Pennsylvania had the full number of delegates allowed. This movement had its origin in the excitement caused by the alleged killing of Morgan for disclosing the secrets of freemasonry. John C. Spencer of New York was chosen president. The convention nominated William Wirt of Maryland for president, and Amos Ellmaker of Pennsylvania for vice-president.

In May, 1832, the first national democratic convention was held in Baltimore. The party was entirely satisfied with Jackson, and there could be no organized opposition to his renomination, and so it was unanimously confirmed by the convention. The real purpose of the convention was the nomination of a vice-presidential candidate, the party having fallen out with Calhoun. At this convention Gen. Robert Lucas of Ohio presided, and the regular proceedings began with the adoption of the famous two-thirds rule, which has been affirmed in every national democratic convention from that day to this. Delegates to the number of 313 were present. Martin Van Buren was nominated for vice-president, receiving 208 votes.

The republicans recognized the fact that conventions were to be the popular means for nomination of candidates, and accordingly met in convention at Baltimore Dec. 12, 1831. James Barbour was chosen president. There were 157 delegates present, representing seventeen states and the District of Columbia. No formal declaration of principles was made, but an address was published dealing with the shortcomings of Gen. Jackson, in which he and his administration were severely criticised. The unanimous vote of the convention was cast for Henry Clay as the candidate for the presidency, and for John Sergeant for vice-president. The address of the convention recommended another convention of "young men of the republican party," and in pursuance thereof a convention was held May 11, 1832, in Washington. William C. Johnson was chairman, but as the nominations of the party had been made the preceding autumn nothing was left for the convention to do except to pass resolutions, which it did, in favor of industrial protection and internal improvements, and against the rotation in office principle lately promulgated by Jackson.

In the contest of 1832 there were twenty other candidates who ran without having regular party nominations. In the election the electoral votes numbered 288: for president Wirt received 7, Floyd 11, Henry Clay 49, and Jackson 219. For vice-president Ellmaker received 7 votes, Lee 11, Wilkins 30, Sergeant 49, and Van Buren 189.

1836.

The years 1835 and 1836 saw the convention system fairly under way. There were two nominating conventions held. The democratic national convention assembled in Baltimore in May, with representatives from twenty-one states. Andrew Stevenson presided and for the first time there was a long list of honorary vice-presidents. Only one ballot for the presidential nomination was taken, which resulted in the unanimous choice of Martin Van Buren. The ballot for vice-president resulted in 87 votes for Rives and 178 for R. M. Johnson. No platform was adopted by the convention.

A whig state convention held in Harrisburg, Pa., in the latter part of 1835, by acclamation nominated William Henry Harrison and Francis Granger for the national ticket, and a democratic anti-masonic convention held soon after in the same city ratified the nomination of Harrison, but substituted John Tyler in place of Granger for the vice-presidency. A number of other nominations were made by state legislatures and other bodies, whose records have been lost. There were in all five candidates for president and in the election Mangum received 11 votes, Webster 14, White 26, Harrison 73, and Van Buren 176. For vice-president there were four candidates. Smith received 23 votes, Taylor 47, Granger 77, and Johnson 147.

1840.

The years 1839 and 1840 saw three conventions, the first of which was also the first abolition convention ever held in the United States. Its session began at Warsaw, N. Y., Nov. 13, 1839, and lasted several days. Distinct abolition principles were announced in its platform and James G. Birney was nominated for president, Francis J. LeMoyne for vice-president. Although these candidates declined the nominations, they received 7,609 votes in the northern states.

The whig national convention met at Harrisburg, Pa., Dec. 4, 1839. Twenty-one states were represented by 254 delegates, and James Barbour presided. Balloting was carried on in the committee of the whole for several days, but no result was reached until the Scott delegates went over to Harrison. The first ballot in the convention resulted in 16 votes for Winfield Scott, 90 for Henry Clay, and 148 for William Henry Harrison. There was no contest over the vice-presidency, John Tyler being the unanimous choice of the convention.

The national democratic convention assembled at Baltimore June 5, 1840. Delegates from twenty-one states were present and William Carroll presided. Van Buren was unanimously nominated for president, but when the question of vice-president arose the dissension was so serious that no choice was made, but the designation of a candidate was left to the people. In this election the number of electoral votes was 294, of which Van Buren received 60 and Harrison 234. There were four candidates for vice-president. Polk received 1 vote, Tazewell 11, Johnson 48, and Tyler 234.

1844.

The canvass of 1844 was preceded by three national conventions. The liberal party national convention began at Buffalo, N. Y., Aug. 30, 1843. It was virtually the abolition party under a new name and adopted an extended declaration of belief embodying the principles of abolitionism afterward openly expressed by the republican party. Leicester King presided, and the nominees were James G. Birney for president and Thomas Morris for vice-president.

The whig national convention assembled in Baltimore May 1, 1844, and was composed of delegates from every state in the union. Ambrose Spencer was president and Henry Clay was nominated for president without a dissenting voice. The choice of a vice-president

was more difficult and three ballots were taken before a choice was made. On the last ballot Frelinghuysen received 155 votes, Davis 79, and Fillmore 40.

The democratic national convention met in Baltimore May 27, 1844. The two-thirds rule was responsible for the convention being a hot one. Nine ballots were taken, there being four candidates on the first. Of the votes cast Van Buren received 146, Cass 83, Johnson 29, and Buchanan 4. There was not much change in the balloting until the eighth, when Van Buren received 104, Cass 114, Buchanan 2, Calhoun 2, and Polk 44. This was the first ballot in which Polk's name was mentioned. On the ninth ballot Polk received 233 votes, Van Buren 2, and Cass 29. Silas Wright was nominated for vice-president, but he declined and George M. Dallas was substituted. The result was the election of Polk, he receiving 170 electoral votes and Clay 105.

1848.

Three conventions preceded the contest of this year. The democratic convention was held in Baltimore May 27, 1848. There was considerable trouble at the outset with the credentials of the delegates who claimed recognition. New York sent two delegations, one commonly known as "barnburners" and the other as "hunkers." The convention sought to please all by admitting both, but neither delegation was satisfied unless the others were excluded, and accordingly both withdrew. Andrew Stevenson presided. Four ballots were taken, the candidates being Cass, Woodbury, Buchanan, Calhoun, Dallas, Worth and Butler. Cass began with 125 votes on the first ballot and ran up to 179 on the fourth, and was nominated. Three ballots were taken for vice-president, on the first of which William O. Butler received 114 and Jefferson Davis 1, the remainder being scattered among several candidates. Butler gained on the second and was nominated on the third ballot. The "barnburners," who bolted the convention, were so incensed at the nomination of Cass and Butler that they called a convention at Utica, N. Y., June 22. Samuel Young presided, and Van Buren was made the nominee for president and Henry Dodge for vice-president.

The whig national convention met in Philadelphia June 7, 1848. John M. Morehead presided. The candidates were Taylor, Clay, Scott, Webster, Clayton and McLean, and four ballots were taken. The number of votes was 270, and on the last ballot Taylor, who had started with 111, received 171, and was declared the nominee. Fillmore was nominated on the second ballot for vice-president.

Aug. 9, 1848, a free-soil convention assembled at Buffalo, having representatives from eighteen states. Charles Francis Adams presided, and Van Buren and Adams were made the nominees of the convention. In a long platform the convention protested vigorously against the action of the whig and democratic conventions and demanded the freedom of the slaves in the style used later by the abolitionists. Nothing came of the movement and Van Buren and Adams received no votes at the fall election. The electoral vote in 1848 was 290, of which Taylor secured 163, and Cass 127.

1852.

The campaign of 1852 was a spirited one and opened in a spirited way. The democratic convention met in Baltimore June 1 and was presided over by John W. Davis of Indiana. There were ten candidates, and forty-nine ballots were taken before a candidate was nominated. The ballot sheet is called one of the greatest curiosities in American politics and is given complete:

BALLOTS.	*Cass.*	*Buchanan.*	*Douglas.*	*Marcy.*	*Butler.*	*Houston.*	*Dodge.*	*Lane.*	*Dickinson.*	*Pierce.*

The persistence of the solitary voter who voted forty-eight times for Daniel S. Dickinson and the introduction of Franklin Pierce's name on the thirty-fifth ballot, which resulted in nomination on the forty-ninth, has no parallel in the history of American political conventions. William R. King was nominated on the second ballot for vice-president.

The whigs met at Baltimore June 16 and an uproarious session of six days followed. There were no sudden or startling changes, as in the democratic convention, but the gain of the successful candidate was slow and gradual. The candidates were Scott, Webster and Fillmore and the number necessary to a choice was 147. Scott began with 131 votes and increased his number slowly until the fifty-third ballot, when he had 159. Fillmore began with 133 and ended with 112. Webster began with 29 and ended with 21. William A. Graham was nominated on the second ballot for vice-president.

The free-soil democrats held their convention at Pittsburg Aug. 11. Henry Wil-

son presiding. All the free and several of the slave states were represented. John P. Hale and George W. Julian were nominated for president and vice-president respectively but at the subsequent election received no electoral votes. The number of electoral votes was 296 and of these Pierce and King received 254, while Scott and Graham received only 42. In this contest Pierce and King carried all the states except Tennessee, Kentucky, Massachusetts and Vermont.

1856.

Four conventions were held in 1856, The first in order was that of the American national council which met in Philadelphia Feb. 19 and was presided over by E. B. Bartlett. Three days were spent in adopting a platform, which was mainly a "know-nothing," anti-administration declaration. A president was nominated on the first ballot, which stood: Fillmore 179, Law 24, Raynor 14, McLean 13, Davis 10, and Houston 10. Andrew J. Donelson was nominated for vice-president on the first ballot.

The democrats met at Cincinnati June 2, John E. Ward presiding. Pro-slavery and state-rights resolutions of the strongest character were adopted and seventeen ballots were taken before a nomination was made. The candidates were Buchanan, Pierce, Cass and Douglas. Buchanan began with 135 votes and gained steadily to 296, a unanimous nomination. Pierce began with 122 and fell off gradually until the last ballot. Douglas began with 33 votes, rose to 121, and on the last ballot had 3½ votes. The highest vote received by Cass was 7. Ten candidates sought the vice-presidential nomination, but on the second ballot all withdrew except Breckenridge, who was unanimously nominated.

The first republican national convention assembled in Philadelphia June 17, Henry S. Lane of Indiana being chosen presiding officer. The platform was decidedly anti-slavery. An informal ballot for president was taken to test the preferences of the delegates, and showed 359 votes for John C. Fremont, against 196 for McLean. The nomination of Fremont was at once declared unanimous. An informal ballot for vice-president was taken, which resulted as follows: Henry C. Carey received 3 votes, S. C. Pomeroy 8, John A. King 9, Henry Wilson 9, A. C. M. Pennington 1, N. P. Banks 46, W. F. Johnston 2, J. R. Giddings 2, Jacob Collamer 15, Cassius M. Clay 4, Charles Sumner 35, Thomas Ford 7, David Wilmot 43, Abraham Lincoln 110, and William L. Dayton 259. The latter was unanimously nominated, but this informal ballot will always be memorable as showing the popularity of Mr. Lincoln at this early day.

The whigs met at Baltimore Sept. 17, Edward Bates presiding. The platform deprecated the reign of strong partisan feeling and advocated peace and quiet. Fillmore and Donelson were unanimously nominated, but in the subsequent election carried only Maryland.

Of the 296 electoral votes Buchanan and Breckenridge received 174, Fremont and Dayton 114, and Fillmore and Donelson 8.

1860.

The year 1860 marks a new era in American politics and the conventions of this year show the great upheaval that had taken place in the minds of the people. An account of the conventions of this year is given more in detail for this reason. The national democratic convention met at Charleston April 23. Every state in the union was represented by full delegations, but the party dissensions in Illinois and New York caused the sending of two delegations from each of these states. Francis B. Flournoy was chosen temporary chairman. The exclusion of the "Wood" delegation from New York and the admission of the Douglas delegation from Illinois inflamed the southern members of the convention at the very start and much angry debate followed. Caleb Cushing was chosen permanent chairman and a platform committee was selected, it being insisted that a platform was necessary before a candidate was nominated. The platform committee wrangled four days and were unable to agree and accordingly four platforms were submitted to the convention from which to select one. The platform presented by the majority of the committee declared "that congress had no power to abolish slavery in the territories; that the territorial legislature had no power to abolish slavery in the territories, nor to prohibit the introduction of slavery therein, nor any power to destroy or impair the right of property in slaves by any legislation whatever;" and "that it is the duty of the federal government to protect the right of persons and property on the high seas, in the territories or wherever else its jurisdiction extends." These ultra pro-slavery declarations were dissented from by others of the committee who, headed by Henry B. Payne, brought in a minority report, reaffirming the Cincinnati platform of 1856, which advocated the non-interference of congress with slavery in the territories and declared that slavery was a question of property—as such should be decided by the Supreme court—and pledged the democracy to abide by the decision of that court. This minority report was signed by members of the committee from Maine, New Hampshire, Vermont, Rhode Island, Connecticut, New Jersey, Ohio, Indiana, Illinois, Michigan, Wisconsin, Iowa, Minnesota, New York and Pennsylvania. A third report was presented by Gen. B. F. Butler, which indorsed the Cincinnati platform with some trivial alterations. A fourth report was presented by J. A. Bayard, which also affirmed the Cincinnati platform with the proviso that all citizens had equal rights in the territories. These reports were all sent back to the committee and on the next day Mr. Avery brought in a modified platform from the majority. This asserted the rights of the slave-holders in the territories and when a sufficient number of inhabitants were in any territory the same should be admitted as a state without taking the slavery question into consideration at all. The minority report was brought in by Mr. Samuels of Iowa and embodied the same measures that were urged by the three minority reports previously submitted. The majority report was adopted by the convention by a vote of 165 to 138. This action of the convention was bitterly resented by the southern delegates and the delegation of Alabama offered a protest to the proceedings and afterward withdrew from the convention. The delegations from Florida, Mississippi and Texas followed the lead of Alabama. Parts of the delegations from Louisiana, South Carolina, Arkansas, Delaware and North Carolina also withdrew. After the withdrawal of these delegates the convention proceeded to ballot for president. The full convention contained 303 members, but a large number had withdrawn, so that a two-thirds vote of 202 members would be difficult for any one candidate to secure. The two-thirds rule prevailed and the result was that no nomination was made at Charleston. Fifty-seven ballots were taken, however, the candidates being Douglas, Guthrie, Hunter,

Dickinson, Andrew Johnson, Lane, Jefferson Davis, Toucy and Pierce. The candidate who had the highest vote was Douglas, who received 152⅛. The convention adjourned to meet at Baltimore on the 18th of June. At the appointed time full representations were present from all those states which had not withdrawn from the Charleston convention, and the delegations that had left that convention were excluded from this. Enraged at this exclusion of the seceding delegates the delegations from Virginia, North Carolina, Tennessee, California and Delaware, together with portions of the delegations from Maryland, Kentucky, Massachusetts and Missouri, retired from the convention. Mr. Cushing, the chairman, also retired and Gen. Todd of Ohio was chosen in his place. Balloting for president began, Douglas, Breckenridge and Guthrie being placed in nomination. Two ballots were taken. On the first Breckenridge received 5 Guthrie 10 and Douglas 173½. On the second Guthrie received 5½, Breckenridge 7⅛ and Douglas 181½. After the second ballot Douglas was unanimously nominated. Fitzpatrick was nominated for vice-president, but declined, and Herschel V. Johnson of Georgia was substituted.

The seceders from the Baltimore convention met in that city June 28. In all, twenty-one states were fully or in part represented, but there were no delegates from Connecticut, Illinois, Indiana, Iowa, Maine, Michigan, New Hampshire, New Jersey, Ohio, Rhode Island, South Carolina or Wisconsin. Caleb Cushing presided. The two-thirds rule was adopted and the delegates who had been refused admission to the regular convention were urged to unite with this body. The Avery platform, upon which the Charleston convention had split, was unanimously adopted. One ballot was taken for president, John C. Breckenridge receiving 105 votes, being the whole number of delegates present. Joseph Lane of Oregon was nominated on the first ballot for vice-president.

The band of seceders from the Charleston convention met at Richmond June 11 and organized by choosing John Erwin as chairman. Delegates were present from Alabama, Arkansas, Texas, Louisiana, Mississippi, Georgia, South Carolina, Florida, Tennessee and Virginia. This convention did nothing more than ratify the nominations of Breckenridge and Lane made by the Baltimore seceders.

A constitutional union convention was held at Baltimore May 9. It promulgated strictly union and constitutional principles. The candidates for president were John Bell, Sam Houston, John M. Butts, John McLean, J. J. Crittenden, Edward Everett, W. L. Goggin, W. A. Graham, W. L. Sharkey and W. C. Rives. Bell and Everett were unanimously nominated.

The republican national convention met in Chicago May 16. It was called to order by David Wilmot and was composed of delegates from all the free states, together with representatives from Delaware, Maryland, Virginia, Kentucky, Kansas, Nebraska and Missouri. George Ashmun of Massachusetts was chosen permanent chairman. The majority rule in nominating candidates was adopted. The platform adopted boldly declared the condition to which the country had been reduced was due to the continued years of democratic rule and promulgated republican doctrines in regard to slavery in the territories. The eighth plank in the platform was specially directed against slavery and declared it to be a shameless institution and that it should not be spread in the territories of the United States. The candidates for president were many, including Seward, Lincoln, Wade, Cameron, Bates, McLean, Reade, Chase, Dayton, Sumner, Fremont, Callamer, and C. M. Clay. The result of the balloting was as follows:

	1.	2.	3.
Seward	173⅜	184½	180
Lincoln	102	181	231½
Wade	3	.....	.....
Cameron	50⅛	.....	.....
Bates	48	35	22
McLean	12	8	5
Reade	1	.....	.....
Chase	49	42½	24½
Dayton	14	10	1
Sumner	1	.....	.....
Fremont	1	.....	.....
Callamer	10	.....	.....
Clay	.....	2	1

After the third ballot Lincoln lacked only 2⅛ votes of a nomination. A change of 4 votes in Ohio from Chase to Lincoln made his nomination assured. Changes rapidly followed until the nomination was made unanimous. The balloting for vice-president was:

	1.	2.
Clay	101½	86
Banks	38⅛	.....
Reeder	51	.....
Hickman	58	18
Hamlin	194	367
Read	1	.....
Davis	8	.....
Dayton	3	.....
Houston	6	.....

The whole number of electoral votes was 315, of which Lincoln and Hamlin received 180, Breckenridge and Lane 72, Bell and Everett 39, and Douglas and Johnson 12.

1864.

The war was in progress in 1864 and the nominating conventions were few and devoid of any interest except such as arose from the question of preservation of the union.

The republicans met in Baltimore June 7, William Dennison of Ohio presiding.

There was a very full representation of delegates, many being admitted from the states actually in rebellion. The convention was unanimously in favor of Lincoln's renomination and on the first ballot he received 497 votes, being the entire vote of the convention except 22 votes from Missouri, which were given to Gen. Grant. The vice-presidential candidates were Hamlin, L. H. Rosseau, D. S. Dickinson and Andrew Johnson. As the first ballot was taken every one perceived the great numerical strength of Johnson and he was nominated on the first ballot.

The democrats met in Chicago Aug. 19. Horatio Seymour was the permanent president. The attendance of delegates was by no means full and little interest was manifested in the convention either by the people or the delegates. George B. McClellan was nominated for president on the first ballot, receiving 202½ votes, while Seymour received 23¾. The candidates for vice-president were Pendleton, Guthrie, D. W. Voorhees, G. W. Cass, August Dodge, J. D. Catron, Powell and Phelps. Before the second ballot all had withdrawn, leaving Mr. Pendleton a clear field, and he was nominated. The number of elect-

oral votes was 331 and of these Lincoln and Johnson received 212 and McClellan and Pendleton 21.

1868.

The republicans led off in the conventions of the year, meeting at Chicago May 20, with Gen. Hawley as presiding officer. There was only one sentiment in the party regarding a presidential candidate and Gen. Grant received every vote in the convention on the first ballot. For the vice-presidency there was more difference of opinion. Colfax, Wade, Hamlin, Fenton, Wilson, Curtin, Kelly, Harlan, Pomeroy, Speid, and Cresswell all sought the nomination. Five ballots were taken and Colfax was unanimously nominated on the fifth.

The democrats met in the city of New York on July 4. Horatio Seymour presided. There were a large number of aspirants for the presidential nomination, including Hancock, Hendricks, Seymour, English, Doolittle, Johnson, Chase, McClellan, Field, Hoffman, Blair and Pendleton. Twenty-two ballots were taken and Seymour was nominated while seated in the chair guiding the deliberations of the convention. Frank P. Blair was nominated on the first ballot for vice-president.

The number of electoral votes was 294, of which Grant and Colfax received 214 and Seymour and Blair 80.

1872.

The first convention of the year was that of the national prohibition party. This party had been organized at a meeting called for that purpose at Chicago Sept. 1, 1869. The name first adopted was the anti-dramshop party, but before the meeting adjourned the name was changed. The party convention met at Columbus, O., Feb. 22, 1872. The Rev. John Russell called the convention to order; the Hon. Henry Fish was chosen temporary and the Hon. S. P. Chase permanent chairman. The platform declared for prohibition in the sale of intoxicating liquors and for suffrage without regard to "color, race, former social condition, sex or nationality." The subject of nominations was referred to a committee of thirteen, who reported the name of James Black of Pennsylvania for president and that of the Rev. John Russell of Michigan for vice-president.

The chief interest, however, in the campaign of 1872 centered in the liberal republican movement. This movement originated in Missouri in 1870, its chief instigators being Carl Schurz and B. Gratz Brown. It consisted of moderate democrats and disgruntled republicans, who united in a state campaign in support of the "libera. ticket." A mass state convention was called by the republican wing of the party to meet at Jefferson City Jan 24, 1872, and at this meeting nearly every county in the state was represented It closed its proceedings by issuing a call for a national convention at Cincinnati on the first Monday in May "to take such action as their convictions of duty and of public exigencies may require." Jan. 9 the democratic state central committee of Missouri issued an address favoring the making of no nominations in 1872 and the support of the candidate of the disaffected republicans. On May 1 a large convention of liberal republicans assembled in Cincinnati and organized by making Carl Schurz of Missouri the permanent chairman. A platform was adopted which was believed to be broad enough to accommodate democrats as well as republicans. Without the formal naming of candidates the balloting for president began. Six ballots were taken, with the following result:

BALLOTS.	*C. F. Adams.*	*Horace Greeley.*	*Lyman Trumbull.*	*David Davis.*	*B. G. Brown.*	*A. G. Curtin.*	*S. P. Chase.*	*Charles Sumner.*	*John M. Palmer.*
1	203	147	100	92½	95	62	23½	1	...
2	233	239	148	81	2	...	1	...	...
3	264	258	150	44	2	...	...	...	...
4	279	251	141	51	2	...	...	...	...
5	309	258	91	30	2	...	24	...	...
6	324	332	19	6	2	...	32	...	1

Before the sixth ballot was announced Minnesota changed 9 votes from Trumbull to Greeley. Pennsylvania changed her vote to 50 for Greeley and 6 for Davis. Indiana changed her 27 to Adams. Other changes followed and the chairman announced the result as 482 for Greeley and 187 for Adams. For vice-president B. Gratz Brown was nominated on the second ballot, receiving 495 against 175 for G. W. Julian, 75 for S. C. Walker, 3 for T. W. Tipton, and 8 for John M. Palmer. Many of the liberal republicans were dissatisfied with the nomination of Greeley, and a meeting was held in New York May 30, composed of such persons. In compliance with the views of this meeting a conference was subsequently held on June 20 of persons invited. The invitation to this conference was signed by Carl Schurz, Jacob D. Cox, William Cullen Bryant, Oswald Ottendorfer, David A. Wells, and Jacob Brinkerhoff. A series of resolutions was adopted, and William S. Groesoeck of Ohio was nominated for president and F. L. Olmsted of New York for vice-president. During the excitement of this canvass this ticket was lost sight of and at the ensuing election received no votes.

The republicans assembled in Philadelphia June 5. Morton McMichael was made the temporary and Thomas Settle the permanent chairman. The demand of the party was unanimously for Gen. Grant for a second term and he was renominated by acclamation. For the vice-presidency Henry Wilson received 364½ votes to 312½ for Schuyler Colfax and Mr. Wilson was nominated.

The democrats met at Baltimore July 9 and were presided over by James R Doolittle. Resolutions were adopted that were in harmony with the Cincinnati platform of the liberal republicans. There were 732 delegates in the convention, and the vote, in the nominating of a candidate for the presidency, stood as follows: Horace Greeley 686, James A Bayard 15, Jeremiah Black 21, William S. Groesbeck 2, blank 8. Mr. Greeley received more than two-thirds and was declared the nominee. B. Gratz Brown received 713 votes for vice-president.

Some democrats who were opposed to the nomination of Greeley met in Louisville Sept. 3 to nominate a so-called "straight-out" democratic ticket The convention was called to order by Blanton Duncan, and James Lyons was made the permanent chairman. The platform declared that "we proclaim to the world that principle is to be preferred to power; that the democratic party is held together by the cohesion of time-honored principles, which they will never surrender

in exchange for all the offices which presidents can confer. The pangs of the minorities are doubtless excruciating, but we welcome an eternal minority under the banner inscribed with our principles, rather than an almighty and everlasting majority purchased by their abandonment." Charles O'Conor of New York was nominated for the presidency and John Quincy Adams of Massachusetts for the vice-presidency. Mr. O'Conor persistently refused to be a candidate, and Mr. Adams consented only on the condition that Mr. O'Conor withdraw his declination. This was not done, and a small number of votes was given for the ticket in the country.

There were 349 votes in the electoral college, of which Grant and Wilson received 286, Thomas A. Hendricks 42, B. Gratz Brown 18, Charles J. Jenkins 2, and David Davis 1. Mr. Greeley died after the election and the democrats scattered their votes.

1876.

Four tickets were in the field in the campaign of 1876. The national prohibition reform party assembled at Cleveland May 17. Over 100 delegates were present, representing the states of Connecticut, Illinois, Kansas, Kentucky, Michigan, Minnesota, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, and Wisconsin. The Rev. H. A. Thompson was permanent chairman. The Hon. Green Clay Smith of Kentucky was nominated for president and the Hon. G. T. Stewart of Ohio was nominated for vice-president. At the ensuing election no electoral votes were cast for the nominees.

A convention of independents, commonly called the national greenback convention, assembled at Indianapolis May 17. Nineteen states were represented by 239 delegates. The platform demanded "the immediate and unconditional repeal of the specie resumption act of Jan. 14, 1875, and the rescue of our industries from the ruin and disaster resulting from its enforcement." Peter Cooper of New York was nominated for president and Newton Booth of California for vice-president. Mr. Booth subsequently declined, and Samuel F. Cary of Ohio was substituted in his place. No electoral votes were given the candidates.

The republicans met in Cincinnati June 14, and organized their convention by electing Edward McPherson chairman. There were a number of candidates for the presidential nomination, and seven ballots were taken, with the following result:

BALLOTS.	*James G. Blaine.*	*B. H. Bristow.*	*Roscoe Conkling.*	*J. F. Hartranft.*	*M. Jerell.*	*O. P. Morton.*	*R. B. Hayes.*	*E. B. Washburne.*	*W. A. Wheeler.*
1	285	113	99	58	11	124	61	..	32
2	268	114	93	63	..	111	64	1	33
3	293	121	90	68	..	113	67	1	32
4	292	126	84	71	..	108	68	3	32
5	286	114	82	69	..	95	104	5	33
6	308	111	81	50	..	85	113	4	32
7	351	21	..	..	..	....	384	..	..

William A. Wheeler was then nominated for vice-president.

The democratic national convention met in St. Louis June 28 and was organized by the choice of John A. McClernand as chairman. The platform was called the reform platform because it proposed to reform all the alleged abuses which had grown up under the republican rule. One of the planks denounced "the present tariff levied upon nearly 4,000 articles as a masterpiece of injustice, inequality, and false pretense. It yields a dwindling, not a yearly rising revenue. It has impoverished many industries to subsidize a few. It prohibits imports that might purchase the products of American labor. It has degraded American commerce from the first to an inferior rank on the high seas. It has cut down the sales of American manufacture at home and abroad and depleted the returns of American agriculture—an industry followed by half our people. * * * It promotes fraud, fosters smuggling, enriches dishonest officials and bankrupts honest merchants. We demand that all custom-house taxation shall be for revenue only." There were 738 delegates. The vote for presidential candidate stood: First ballot, Samuel J. Tilden 404½, William Allen 54, A. G. Thurman 3, Thomas A. Hendricks 140½, T. F. Bayard 33, Joel Parker 18, W. S. Hancock 75, M. Broadhead 16. The second ballot stood: Tilden 535, Allen 54, Thurman 2, Hendricks 85, Bayard 4, Hancock 58; necessary for a choice 492. Mr. Hendricks was nominated for vice-president.

There being a dispute over the electoral votes of Florida, Louisiana, Oregon and South Carolina, they were referred by congress to an electoral commission composed of eight republicans and seven democrats, which by a strict party vote awarded 185 electoral votes to Hayes and Wheeler and 184 to Tilden and Hendricks.

1880.

Gen. Grant returned to the United States from a trip around the world late in 1879. He had everywhere been received with a distinguished consideration that was gratifying to the pride of the American people. His return under these circumstances caused his name to be connected with the republican nomination for the presidency for a third term. No sooner was this done than a strong opposition to his nomination appeared in the republican party. So strong was this sentiment that a republican anti-third term convention was held in St. Louis on May 6, presided over by J. B. Henderson, at which strong resolutions were adopted opposing the nomination of Gen. Grant. In many states, notably New York, the sentiment in favor of Grant was equally prominent. The national convention met in Chicago June 2 and a six days' session followed. George F. Hoar was both temporary and permanent president of the convention. A long controversy ensued over the power of state conventions to name delegates from the congressional districts and bind their action by instructions. Several days were spent in debating this question, and it was finally decided that state conventions had not the power to bind district delegates by instructions. This decision resulted in the loss of many votes for Gen. Grant. The platform did not differ greatly from previous party utterances. The fifth plank, however, contained this sentence: "We affirm the belief, avowed in 1876, that the duties levied for purposes of revenue should so discriminate as to favor American labor." This was all that was said regarding a tariff. The first ballot for president was taken on the 7th, the fifth day of the convention, and before a nomination was made 36 ballots were necessary. The vote in detail was as follows:

BALLOT.	Grant.	Blaine.	Sherman.	Edmunds.	Washburne.	Windom.	Garfield.
1	304	284	93	34	30	10	....
2	305	284	94	32	31	10	....
3	305	282	93	32	31	10	1
4	305	281	95	32	31	10	1
5	305	281	95	32	31	10	1
6	305	281	95	31	31	10	2
7	305	281	94	32	31	10	2
8	306	284	91	32	31	10	1
9	308	282	90	31	32	10	2
10	305	282	92	31	32	10	2
11	305	281	93	31	32	10	2
12	304	283	92	31	33	10	1
13	305	285	89	31	33	10	1
14	305	285	89	31	35	10	....
15	309	281	88	31	36	10	....
16	306	283	88	31	36	10	....
17	308	284	90	31	36	10	....
18	305	283	91	31	35	10	....
19	305	279	96	31	32	10	1
20	308	276	93	31	35	10	1
21	305	276	96	31	35	10	1
22	305	275	97	31	35	10	1
23	304	275	97	31	36	10	2
24	305	279	93	31	35	10	2
25	302	281	94	31	35	10	2
26	303	280	93	31	36	10	2
27	306	277	95	31	36	10	2
28	307	279	91	31	35	10	2
29	305	278	116	12	35	7	2
30	307	279	118	11	33	4	1
31	308	276	118	11	37	3	1
32	309	270	119	11	35	3	1
33	309	270	110	11	44	4	1
34	312	275	107	11	30	4	17
35	313	257	99	11	28	3	50
36	307	42	3	..	5	..	399

Besides these 1 vote was cast for Harrison on the third ballot, 1 for Hayes on each of the tenth, eleventh, twelfth and thirteenth ballots, 1 for McCrary on the thirteenth and 1 for Hartranft on each of the nineteenth, twentieth, twenty-first and twenty-second ballots. Chester A. Arthur was nominated on the first ballot for vice-president.

The greenback or national greenback-labor party took an active part in the canvass, its convention being held at Chicago on the 9th of June. The first ballot for a presidential candidate was informal and resulted as follows: James B. Weaver 224½, Herrick B. Wright 12¾, Stephen B. Dillage 119, B. F. Butler 95, Solon Chase 99, E. P. Ahls 41, and Alexander Campbell 21. By a change of votes before a result was announced Gen. Weaver was unanimously nominated. Gen. James B. Chambers was nominated for vice-president.

The prohibitionists met at Cleveland June 17. The number of delegates present was 142. The Rev. A. A. Miner was chosen permanent chairman. Neal Dow of Maine and A. H. Thompson of Ohio were nominated for president and vice-president by a rising vote.

The democratic convention was held at Cincinnati June 22. It was expected that Mr. Tilden would be the nominee, but two days prior to the meeting of the convention he published a letter withdrawing his name. Gen. Stevenson was chosen permanent chairman. The platform declared for "no sumptuary laws, separation of church and state, common schools fostered and protected, home rule, honest money, consistency of gold and silver and paper convertible into coin on demand, the strict maintenance of the public faith, state and national, and a tariff for revenue only." Three ballots were taken, resulting as follows:

	1.	2.	3.
Hancock	171	320	705
Hendricks	49½	31	30
Bayard	153½	111	2
Tilden	38	6	1
Thurman	68½	50	.....
Field	65	65½	.....
Randall	6	128½	.....
English	1	19	.....
Morrison	62	.....	.....
Seymour	8	.....	.....
Payne	81	.....	.....
Ewing	10	.....	.....
McClellan	3	.....	.....

William H. English was chosen for vice-president on the first ballot.

The result of the election was: Garfield and Arthur 214 electoral votes, and Hancock and English 155 electoral votes.

1884.

The republican national convention met in Chicago June 3. John B. Henderson was chosen permanent chairman. The platform was reported by William McKinley, Jr., of Ohio, and contained the first declaration in favor of a protective tariff ever made by the party. It was as follows:

"It is the first duty of a good government to protect the rights and promote the interests of its own people. The largest diversity of industry is most productive of general prosperity and of the comfort and independence of the people. We therefore demand that the imposition of duties on foreign imports shall be made, not for revenue only, but that in raising the requisite revenues for the government such duties shall be so levied as to afford security to our diversified industries and protection to the rights and wages of the laborer, to the end that active and intelligent labor, as well as capital, may have its just reward and the laboring man his full share in the national prosperity."

The balloting for a presidential candidate followed the adoption of the platform and resulted as follows:

	1.	2.	3.	4.
James G. Blaine	334½	349	375	541
Chester A Arthur	278	276	274	207
G. F. Edmunds	93	85	69	41
John A. Logan	63¾	61	53	7
John Sherman	30	28	25	.....
J. R. Hawley	13	13	13	15
Robert T. Lincoln	4	4	8	2
W. T. Sherman	2	2	2	.....

Gen. Logan was nominated for vice-president without opposition.

The democrats met in Chicago July 8. William F. Vilas of Wisconsin being the presiding officer. The platform stated: "We therefore denounce the abuses of the existing tariff, and, subject to the pending limitations, we demand that federal taxation shall be exclusively for public purposes and shall not exceed the needs of the government economically administered." The platform was very long. Gen. Butler submitted a minority report, which was a formal and explicit declaration in favor of a protective tariff, but the report was rejected by a vote of 97½ yeas to 714½ nays. Two ballots were taken for presidential nominee, which stood as follows:

	1.	2.
Grover Cleveland	392	683
T. F. Bayard	170	81½
Joseph McDonald	56	2
S. J. Randall	78	4
A. G. Thurman	88	4
J. G. Carlisle	27	.....
George Hoadly	3	.....
T. A. Hendricks	1	45½
S. J. Tilden	1	.....
R. P. Flower	4	.....

Mr. Hendricks was nominated for vice-president.

The prohibition convention assembled at Pittsburg July 23, there being 416 accredited delegates present from thirty-one states and territories. Samuel Dickie of Michigan was chosen permanent chairman. John P. St. John of Kansas was nominated for president and William Daniel of Maryland for vice-president. The platform demanded prohibition in the manufacture and sale of intoxicants, the ballot for women, and arraigned both the old parties for the ills that beset the people.

A national convention of the anti-monopoly party met in Chicago May 14 and nominated Benjamin F. Butler for president. The national greenback-labor party met at Indianapolis May 27, and was presided over by Gen. J. B. Weaver. Gen. Butler was asked if he would accept the presidential nomination from the party, and, responding in the affirmative, he was nominated on the first ballot. Absalom M. West was selected for the vice-presidency. The platform favored substituting greenbacks for national bank notes, the destruction of "land, railroad, money and other gigantic corporate monopolies," and favored raising the revenues by duties on luxuries. The electoral college had 401 votes, of which Cleveland and Hendricks received 219, and Blaine and Logan 182.

1888.

The democratic convention met in St. Louis June 5, and organized with Patrick A. Collins for permanent chairman. For some time before the meeting the renomination of Mr. Cleveland was conceded, and the only interest centered in the vice-presidency. For the second office only two names were before the convention—Isaac P. Gray of Indiana and Allen G. Thurman of Ohio. Mr. Thurman was nominated on the first ballot, receiving 680 votes to 105 for Mr. Gray and 25 for John C. Black of Illinois.

The republicans met at Chicago June 19. In the early part of the year it seemed probable that Mr. Blaine would be the nominee of the convention, but on the 12th of February, in a letter addressed by him to B. F. Jones, dated in Florence, he said that as personal reasons would prevent him from entering the contest his name "would not be presented to the convention." No serious efforts had been made in behalf of any candidate except John Sherman, whose nomination had been urged by the Ohio state convention in July, 1887. After the letter of Mr. Blaine other state conventions recommended the nomination of "favorite sons." May 30 Mr. Blaine wrote another letter in which he said that he could not accept the nomination without showing bad faith toward those candidates who, relying on his former letter, were already in the field, and therefore he could not accept at all. The convention organized by choosing John M. Thurston temporary and M. Estee for permanent chairman. The platform was presented on the third day. On the tariff the platform said: "We are uncompromisingly in favor of the American system of protection; we protest against its destruction as proposed by the president and his party. They serve the interests of Europe; we will support the interests of America. We accept the issue and confidently appeal to the people for their judgment. The protective system must be maintained." Eight ballots were taken in nominating a presidential candidate, as follows:

	1.	2.	3.	4.	5.	6.	7.	8.
Alger	84	116	122	135	143	137	120	100
Depew	99	99	91	...	...	...	...	...
Gresham	107	108	113	98	87	91	91	59
Hawley	13	...	...	...	...	...	...	...
Phelps	25	18	5	...	...	...	...	...
Sherman	229	249	244	235	224	244	230	118
Lincoln	3	2	...	1	...	...	2	...
Allison	72	75	78	88	99	73	76	...
Fitler	24	...	...	...	...	...	...	...
Harrison	85	91	94	216	212	231	279	544
Ingalls	28	16	...	...	...	...	...	...
Rusk	25	20	18	...	...	...	...	...
Blaine	35	33	35	42	48	40	15	5
McKinley	2	3	8	11	...	12	16	4
Foraker	...	...	...	1	...	...	...	...
Douglas	...	...	...	1	14	...	...	...

The vice-presidency went to Levi P. Morton on the first ballot.

The prohibitionists met at Indianapolis May 30 and organized by choosing H. C. Delano for temporary and Gen. St. John for permanent chairman. Gen. Clinton B. Fisk was nominated for president and John A. Brooks for vice-president. Considerable discussion arose over the platform, especially upon the subject of woman suffrage, which was decided in favor of unlimited suffrage.

The united labor party held its convention May 15 at Cincinnati, 274 delegates being present. This party was formed Feb. 22, 1887, at a convention held in the same city, to which delegates had been invited from the labor and farmer organizations, including knights of labor, wheelers, the corn-growers, the homesteadry, farmers' alliances, greenbackers and grangers. The convention nominated A. J. Streeter of Illinois for president and C. E. Cunningham of Arkansas for vice-president. The platform, after reciting the hardships of farmers and laborers, declared against land monopoly, for government ownership of railroads, postal savings banks, free coinage of silver, arbitration in strike disputes, a service pension bill, a graduated income tax, popular election of senators, exclusion of the Chinese and female suffrage.

The union labor convention was held in Cincinnati May 16. The party was made up from the greenbackers, farmers' organizations and other labor reformers. The convention consisted of ninety delegates, representing nine states. Robert H. Cowdrey of Illinois was nominated for president and W. H. T. Wakefield of Kansas for vice-president. The platform demanded public ownership of land, taxing of land according to value instead of area, government ownership of railroads and telegraphs, reduction in hours of labor, simplification of court proceedings, and denounced both the old parties as "hopelessly and shamelessly corrupt."

The national convention of the American party was held at Washington Aug. 14, 126 delegates being present, more than half of whom were from New York. The opposition to the dictation of New York led to the withdrawal of twenty-five delegates from other states. James L. Curtis of New York was nominated for president and James R. Greer

of Tennessee for vice-president. The platform demanded full citizenship as a qualification for voting, a protective tariff, restriction of immigration, repeal of naturalization laws, and denial of the right of aliens to hold real estate.

Several minor conventions were held during the year. The first of these was the industrial reform convention, held at Washington Feb. 22, which nominated Albert E. Redstone of California for president and John Colvin of Kansas for vice-president. The new party had no support at the polls and cut no figure in politics. The national equal rights party was another political nonentity. It held a convention at Des Moines, Iowa, May 15, and nominated Mrs. Belva A. Lockwood for president and A. H. Love for vice-president. Mr. Love declined and Charles S. Wells was substituted. A demand for woman suffrage and equal rights of man and woman was the only important feature of the platform. The greenbackers met at Cincinnati Sept. 12, but as only eight delegates were present no nominations were made. There were 401 votes in the electoral college, and of these Harrison and Morton received 233 and Cleveland and Thurman 168.

1892.

The republicans led off in the conventions of 1892, meeting at Minneapolis June 7. J. Sloat Fassett was chosen temporary and William McKinley permanent chairman. Preceding the convention the exciting question had been as to whether Mr. Blaine would accept the nomination if tendered him. He had previously addressed a note to Mr. Clarkson saying his name would not go before the convention, but his friends declared he would accept the nomination if tendered to him. There was no other name mentioned for the nomination except that of Mr. Harrison. Mr. Blaine's resignation of the secretaryship of state was deemed to answer the question of his acceptance in the affirmative. A question arose early in the convention which settled the strength of the two factions. Two reports from the committee of credentials were presented. The Harrison men favored the majority report, the Blaine men the minority report, the former of which was adopted. The platform re-affirmed the doctrine of ultra-protection and will be found complete among the national platforms. President Harrison was nominated on the first ballot, 905 votes being cast; of these Harrison had 535 1-6, McKinley 182, Blaine 181 5-6, Reid 4, and Lincoln 1.

The democrats met in Chicago June 21. W. C. Owens was made temporary and W. L. Wilson permanent chairman. The convention was in many respects a peculiar one in the history of party meetings. It was evident before the convention that Mr. Cleveland was the choice for a large majority of the rank and file of the democratic party and that he was opposed by the politicians of his party, the bitterest opposition to him being in his own state. The regular delegation from that state was unanimous for David B. Hill's nomination and in favor of any candidate to beat Cleveland. Only one vote was taken in the convention. The number of delegates was 910. The vote stood: Cleveland 617½, Boies 103, Hill 114, Gorman 36½, Carlisle 14, Stevenson 16½, Morrison 3, Campbell 2, Russell 1, Whitney 1, and Pattison 1. The vote on vice-president stood: Stevenson 402, Gray 343, Mitchell 45, Morse 36, Watterson 26, Cockran 5, Tree 1, and Boies 1.

The prohibitionists met at Cincinnati June 29. Gov. St. John was temporary and Eli Ritter was permanent chairman. The important question before the convention was that of fusion with some of the new parties, but the idea met with no favor. Gen. John Bidwell was nominated on the first ballot, the vote standing: Bidwell 590, Demorest 139, Stewart 179. The vote for vice-presidential candidate stood: Cranfill 386, Levering 330, Satterlee 26, Carskadon 21. Before the vote was announced enough changes were made to give Cranfill 416, or nine more than enough. Bidwell and Cranfill were declared the nominees of the party.

The people's party convention met at Omaha July 4. The permanent chairman was H. L. Loucks of South Dakota. Only one ballot was taken for president and was as follows: Weaver 995, Kyle 265. J. G. Field was nominated for vice-president on the first ballot.

A convention of socialists was held in New York Aug. 28. The nominee for president was Simon Wing of Massachusetts and for vice-president Charles H. Matchett of New York.

The platforms of all national conventions held this year will be found complete elsewhere.

FOREIGN IMMIGRATION.

Statement showing by nationalities the number of immigrants arriving in the United States during the fiscal years 1892 and 1891.

COUNTRIES.	FISCAL YEARS.	
	1892.	1891.
Austria-Hungary:		
Bohemia	8,496	11,758
Hungary	37,301	28,366
Other Austria (except Poland)	34,368	30,915
Total	80,165	71,039
Denmark	10,478	10,637
France	6,519	6,763
Germany	130,622	113,531
Italy	60,944	75,143
Netherlands	7,259	5,206
Poland	33,160	27,491
Russia (except Poland)	84,279	47,401
Sweden and Norway	57,153	49,392
Switzerland	7,402	6,811
United Kingdom:		
England and Wales	50,182	53,787
Scotland	11,505	12,554
Ireland	55,381	55,634
Total	117,068	121,975
All other countries	24,291	20,107
Total	619,320	555,496

NOTE.—Immigrants from the British North American Possessions and Mexico are not included in the statistics of immigration owing to the absence of law providing for the collection of accurate data in regard thereto. The arrivals of immigrants in the customs districts above specified comprise about 99 per cent of the entire immigration into the country.

VALUATION OF PROPERTY.

[Census of 1890.]

Statement showing by states and geographical divisions the assessed valuation of real and personal property in the United States separately for 1890 and 1880, also the true valuation of all property by states, with per capita of such value, as estimated by the tenth census for 1880:

SALES OF MALT LIQUORS FOR 1892.

The *Brewers' Journal* for July publishes the following statistics, compiled from the books of the commissioner of internal revenue, of the sales of malt liquors in the various states and territories and in the leading cities of the country for the year 1892, as compared with the six years preceding. The sales in Kansas still continue to decrease. Maine and Vermont still have no sales to be recorded. For the first time we are able to obtain figures of the decrease in the Dakotas under the prohibitory law—nearly 75 per cent, with a slight reaction in 1892. Iowa, in response to the ferocious attack that has been made upon her prohibitory law, shows an increase. The theory that "beer drives out whisky" receives a forcible illustration in Kentucky, where there has been a considerable decrease. We give the figures as they are furnished by the liquor-trade organ:

STATES AND TERRITORIES.	1886.	1887.	1888.	1889.	1890.	1891.	1892.	Incr'se* over '91.

COAL PRODUCT OF THE UNITED STATES.

[Census of 1890.]

The following table gives, by states and territories, the total production of coal in the United States for the year 1889, together with the wages, cost, capital, etc.

STATES AND TERRITORIES.	Mines.	Total Product of Coal of All Grades for Year 1889.	Total Number of Employes.	EXPENDITURES.		Capital Invested.	Total Amount Received for Coal Sold in 1889.	Av. Price of Coal on Cars at the Mines.
				Grand Total of Wages.	Grand Total of all Expenditures.			
Grand total	12,552	141,229,513	299,550	$109,130,928	$146,536,280	$342,757,929	$160,226,328	$1.13

THE SETTLEMENT WITH ITALY.

Our difficulty with Italy, growing out of the massacre of eleven Italians in the jail at New Orleans on the 15th of March, 1891, was discussed in the Daily News Almanac of 1892 (page 35), the record closing with the transmission to the secretary of state of the report of the grand jury of New Orleans, which fully investigated the matter. This was on the 19th of May, 1891.

Early in 1892 a marked improvement took place in the attitude of Italy toward the United States, although our government did nothing more than maintain the respectful dignity it had assumed from the first. No notice was taken of the affront offered by Italy to the United States by the recall of Baron Fava, the Italian minister at Washington. Mr. Porter, our minister to Rome, came home on a leave of absence in the summer, but it was distinctly given out that such absence from Italy was not a retaliation for the recall of Baron Fava. The United States left freely open the way of mending the breach between the two countries when Italy should move in that direction. The first step taken by Italy was in October, 1891, when she voluntarily opened her markets to American pork, which had for a long time been excluded from the country. This was followed by a very pleasant reference to Italy by President Harrison in his message to congress in December 1891, which, being noted by the Italian premier, Rudini, on the 10th of December, brought out from him in the chamber of deputies a statement of confidence that the questions at issue between Italy and the United States would soon be amicably settled.

The feeling between the two countries continued to grow more friendly during the year, which resulted in a correspondence between the two governments that has resulted in a complete restoration of the amicable relations that preceded the cause of the trouble. The government of the United States voluntarily took the initiative in closing the breach, and without committing itself to the recognition of any claim for indemnity, but simply as an act of justice and from motives of comity, placed in the hands of the Marquis Imperiali, the Italian charge d'affaires at Washington, the sum of 125,000 francs, or $25,000, for distribution among the heirs of the three Italians who were killed at New Orleans and were found to be subjects of the Italian

government. It is understood the money was taken from the annual appropriation of $80,000 to enable the president to provide for unforeseen emergencies in the diplomatic and consular service, so that it was unnecessary to call upon congress for a specific appropriation. By this action on the part of the United States government the disagreeable complications in the relations of the two governments were removed and the diplomatic relations between them restored to the amicable status existing before the New Orleans tragedy. Minister Porter returned to Rome and a minister from Italy took up his post at Washington. The full text of the correspondence on the subject is given below in the following letters:

BLAINE'S LETTER.

Department of State, Washington, D. C., April 12, 1892. Sir: I congratulate you that the difficulties existing between the United States and Italy, growing out of the lamentable massacre at New Orleans in March of last year, are about to be terminated. The president, feeling that for such an injury there should be ample indemnity, instructs me to tender you 125,000 francs. The Italian government will distribute this sum among the families of the victims.

While the injury was not inflicted directly by the United States, the president nevertheless feels that it is the solemn duty as well as the great pleasure of the national government to pay a satisfactory indemnity. Moreover, the president's instructions carry with them the hope that the transaction of to-day may efface all memory of the unhappy tragedy; that the old and friendly relations of the United States and Italy may be restored, and that nothing untoward may ever again occur to disturb their harmonious friendship.

I avail myself of this occasion to assure you that your prolonged service at this capital as charge d'affaires has been marked by every quality that renders you grateful and acceptable to the government of the United States, and to renew to you the assurance of my high consideration. JAMES G. BLAINE.

To Marquis Imperiali, charge d'affaires of Italy.

ITALY'S ANSWER.

Washington, D. C., April 12, 1892.—His Excellency James G. Blaine, Secretary of State—Mr. Secretary of State: You were pleased to inform me, by your note of to-day, that the federal government had decided to pay to Italy, by way of indemnity, the sum of 125,000 francs, to be distributed by the Italian government among the families of the royal subjects who were victims of the massacre which took place March 15, 1891, in the city of New Orleans. Your excellency also expressed the hope that the decision reached by the president would put an end to the unfortunate incident to which the deplorable occurrence gave rise, and that the friendly relations between the two countries would be firmly established.

After having taken note with much pleasure of the language used by the president in his message of December last, and after having fully appreciated the words of regret and censure uttered with so much authority by the chief magistrate of the republic, and likewise the recommendations to congress that were suggested to his lofty wisdom by the unhappy incident, the government of his majesty is now glad to learn that the United States acknowledges that it is its solemn duty and at the same time a great pleasure to pay an indemnity to Italy.

The king's government does not hesitate to accept the indemnity without prejudice to the judicial steps which it may be proper for the parties to take, and considering the redress obtained sufficient, it sees no reason why the relations between the two governments, which relations should faithfully reflect the sentiments of reciprocal esteem and sympathy that animate the two nations, should not again become intimate, cordial and friendly, as they have traditionally been in the past, and as it is to be hoped they will ever be in the future.

In bringing the foregoing to your knowledge, in virtue of the authorization given me by his excellency, the Marquis di Rudini, president of the council, minister of foreign affairs, in the name of the government of his majesty, the king of Italy, my august sovereign, I have the honor to declare to your excellency that the diplomatic relations between Italy and the United States are from this moment fully re-established. I hasten, moreover, in obedience to instructions received, to inform you that, pending the minister's return to this capital, I have taken charge of the royal legation in the capacity of charge d'affaires. Be pleased to accept, etc., IMPERIALI.

Both the United States minister, the Hon. A. G. Porter, and the Italian minister, Baron Fava, have returned to their respective posts. The former arrived in Rome May 31, 1892, and the latter in Washington May 15, 1892.

MEN OF THE YEAR 1892.

Brief sketches of men prominent in 1892.

BENJAMIN HARRISON.

REPUBLICAN NOMINEE FOR THE PRESIDENCY.

Benjamin Harrison, twenty-third president of the United States, was born in North Bend, O., Aug. 20, 1833. He is the grandson of William Henry Harrison, ninth president of the United States. He attended school near Cincinnati, and was graduated at Miami university. He studied law and was admitted to the bar, after which he was appointed crier in the federal court at Cincinnati, which brought him $2 a day during term time.

In 1854 he removed to Indianapolis, Ind., in which city he has since resided. He continued the practice of his profession, and in 1860 was elected reporter of the Supreme court. Upon the breaking out of the war he recruited the 70th Indiana regiment and became its colonel. He served with distinction for two years, when the war department detailed him for special service in Indiana. In five weeks he completed the work and was given the command of a brigade and transferred to Nashville. After Sherman reached Savannah Gen. Harrison was ordered to join him, which he did at Goldsboro, N. C., where he remained until the close of the war. He was mustered out of the service in June, 1865, with the rank of brigadier-general. Returning to civil life, Gen. Harrison became a member of the law firm of Porter, Harrison & Fishback. In 1876 he was candidate for governor on the republican side, but was defeated. He was appointed on the Mississippi river commission in 1879. Mr. Harrison was elected United States senator for Indiana in 1880 as the successor of Joseph E. McDonald, and took his seat on March 4, 1881. His term of service expired

March 3, 1887. In the republican national convention in June, 1888, there were fourteen candidates voted for on the first ballot, Gen. Harrison receiving 83 votes. On the eighth ballot Gen. Harrison received 544 votes and became the nominee of his party. At the November election following he received the electoral vote of every northern state except Connecticut and New Jersey, 233, defeating Mr. Cleveland, who received 168. He was inaugurated president March 4, 1889. At the republican national convention at Minneapolis in 1892 Gen. Harrison was renominated by his party.

WHITELAW REID.

REPUBLICAN NOMINEE FOR THE VICE-PRESIDENCY.

Whitelaw Reid was born in Xenia, O., in October, 1837. His parents gave him a good education. At 15 he entered the Miami university at Oxford, Butler county, O., where he was graduated in 1856. He began the active duties of life as principal of the graded schools in South Charleston, Clark county, in the same state, but did not continue in this occupation long. In 1857 he bought the Xenia News, and did such good work on that journal as to give it a reputation wide as the state. This led to his engagement by the Times and Gazette of Cincinnati and the Herald of Cleveland as their Columbus correspondent. The war gave him an opportunity of distinguishing himself as a correspondent at the front. He served the Cincinnati Gazette in this capacity and in 1862 became a stockholder of that journal, the publication of which he assisted in subsequently in the capacity of associate editor. His connection with the New York Tribune began with his being the editor in charge of its Washington bureau. He ventured upon the publication of a volume in the year 1865. It was entitled "After the War—A Southern Tour," and recorded observations made in company with Chief Justice Chase on an extensive range of travel. Reid published another book in 1868, "Ohio in the War," a work of considerable length and value. He became permanently an editor on the staff of the Tribune in 1870, and when Horace Greeley was a candidate for the presidency assumed the position of managing editor. Mr. Reid is a wealthy man. He married the daughter of D. O. Mills, many times a millionaire, and lives in fine style in an aristocratic up-town district in New York. President Harrison appointed Mr. Reid minister to France, and he has proved a successful and exceedingly popular diplomate. In the spring of 1892 Mr. Reid returned from France, having resigned his position in Paris.

GROVER CLEVELAND.

PRESIDENT-ELECT OF THE UNITED STATES.

Grover Cleveland, twenty-second president of the United States, was born at Caldwell, N. J., March 18, 1837. His educational opportunities were at that time limited, and when 14 years old he removed with his parents to Fayetteville, N. Y., where he began his career as clerk in a store. Then came an opportunity for Grover to attend a local academy, and it was here he received training that later in life led him to adopt the legal profession. Drifting westward, he became a student in a law office at Buffalo, N. Y., and in May, 1859, he was admitted to the bar. His industry and evident ability led to his appointment as assistant district attorney when only 25 years of age. He made such a record while in that office that his name became a synonym for industry and honesty. Then followed in sequence of official terms of office his election to the posts of sheriff of Erie county in 1870, mayor of Buffalo in 1881, governor of New York in 1882, president of the United States in 1884.

His first Waterloo came in 1888, when, nominated for a second term at the white house by the St. Louis convention, he was defeated by President Harrison by sixty-five electoral votes. During the earlier part of his administration Mr. Cleveland was wedded to Miss Frances Folsom of Buffalo, N. Y. The story of how the ex-president wooed and won his bride is somewhat romantic. She was the daughter of Cleveland's former law partner. It is said that Miss Folsom became engaged to Mr. Cleveland about the time he began his term as president. He had always held her in fond regard since the time he trotted her on his knee when she was a little girl. He treasured her picture all through the days of his bachelorhood. Frances Folsom Cleveland added vastly to the luster of Grover Cleveland's administration, endearing herself almost to the extent of being idolized by a large part of the American people. In October, 1891, a daughter was born to Mr. and Mrs. Cleveland.

A. E. STEVENSON.

THE VICE-PRESIDENT-ELECT OF THE UNITED STATES.

Mr. Stevenson was born in Christian county, Ky., Oct 23, 1835, but belongs to an old North Carolina family. His father was of Scotch-Irish parentage, and during his residence in Kentucky was a planter. In 1853 the family removed to Bloomington, this state, and there Mr. Stevenson commenced the study of law in the office of R. E. Williams. He was admitted to the bar in 1858, and soon after went to Metamora, Woodford county. He settled in that place for ten years. From 1861 to 1863 Mr. Stevenson was a master in chancery, and from 1864 to 1868 was state's attorney. In 1868 he returned to Bloomington and formed a law partnership with the Hon. James S. Ewing. He was presidential elector in 1864, and ten years later was nominated for congress from the Bloomington district, at that time considered reliably republican by 3,000 majority. To the surprise of the republicans this majority was decreased 1,285. Again in 1876 Mr. Stevenson received a second nomination, and while the party lines were more tightly drawn in the presidential election he was defeated by only 250 plurality. Two years later he carried every county in the district. His own county, that had given Hayes and Garfield 2,000 majority, gave him a majority. In 1880 at another presidential election Mr. Stevenson was defeated by only 200 votes. In 1882, when the state had been redistricted by the republican legislature and not a doubtful county was supposed to be left in the Bloomington district, Mr. Stevenson, who had accepted a renomination, was defeated by only 350 votes. At the following election the old opponent of Mr. Stevenson was elected by 2,700 majority. He was a delegate to the democratic national convention of 1884, and after the election of Grover Cleveland was appointed first assistant postmaster-general. Later he resumed the practice of law in Bloomington. Mr. Stevenson was a delegate to the present convention and chairman of the Illinois delegation. In 1866 Mr. Stevenson was married to Miss Letitia Green, daughter of Dr. Louis Green, president of Center college, Danville, Ky., and an eminent presbyterian minister.

GEN. JAMES B. WEAVER.

THE PEOPLE'S PARTY NOMINEE FOR THE PRESIDENCY.

James B. Weaver was born in Dayton, O., June 12, 1833, was graduated at the law school

of the Ohio university at Cincinnati in 1854, enlisted as a private at the beginning of the war and advanced in rank with a rapidity equaled in very few cases. He was elected first lieutenant of company G of the 2d Iowa infantry, attained the rank of major Oct. 3, 1862, and as both his colonel and lieutenant were killed at the battle of Corinth he was made colonel. Finally he was brevetted brigadier-general "for gallantry on the field, to date from March 13, 1863."

In 1856 he was elected district attorney of the 2d judicial district of Iowa, and in 1867 was appointed assessor of internal revenue for the 5th district of the state, an office he held for six years. He then edited the Iowa Tribune of Des Moines and was elected as an independent republican to the XLVIth congress. Men of his way of thinking, however, were even then organizing a new party, and in 1880 he became the greenbackers' candidate for president. Excluding doubtful and fusion tickets, he received 307,740 votes. He then resumed private life and professional duties for a time, but in 1884-6 was re-elected to congress.

No man in the Lth congress was better informed on parliamentary rules, as he conclusively proved by holding the house in a deadlock for several days on a question regarding the Oklahoma reservation. Even then he was regarded as a sort of stormy petrel in politics, not a straight-out democrat, and certainly not a republican. In his first campaign he scarcely had the backing of any party, and his nomination was, in the politician's phrase, "decidedly irregular," yet he made a cross-roads canvass among the farmers and defeated one of the brainiest republicans in the state.

In 1884 the republican candidate, Capt. Frank T. Campbell, was a national banker; so the old greenbackers rallied to Gen. Weaver, and in 1886 something else handicapped the republicans. Seeing him thus victorious in a confessedly republican district, the country began to look on Gen. Weaver as a mascot, but in 1888 the republicans succeeded in uniting on a strong man and remanded the general to private life and people's party politics.

GEN. JAMES FIELD.

THE PEOPLE'S PARTY NOMINEE FOR VICE-PRESIDENT.

Gen. James Field, the vice-presidential nominee of the people's party, was born in Culpepper county, Virginia, in 1826, and spent his boyhood there. He was educated a lawyer, and became a democrat of "the old-fashioned kind," as he puts it. In 1859 he was appointed commonwealth attorney for Culpepper county. At the opening of the war, in April of 1861, he resigned his position and volunteered with the Culpepper minute-men. That company became noted for having a rattlesnake for its emblem and "Don't Tread on Me" for its motto. The company marched to Harper's Ferry and assisted in the capture of the federal arsenal.

Gen. Field was promoted from the ranks to major in the Virginia forces and subsequently was assigned to a position on the staff of Gen. A. P. Hill. He was in the service from April 17, 1861, to the surrender at Appomattox, and won distinction for his gallantry. He was wounded at the first battle of Cold Harbor in 1862 and again at Slaughter's Mountain (an engagement known in the north as the battle of Cedar Creek) on Aug. 9, 1862. As a result of the latter he lost his right leg below the knee, and now uses an artificial limb and a crutch. He was out of active service until May, 1863, when he rejoined the army at Fredericksburg. He was with the army in the Gettysburg campaign, returned with it to Virginia, and was continuously in service till the close of the war.

After Lee's surrender Gen. Field resumed the practice of law. In 1877 he was appointed by the governor of Virginia to fill an unexpired term as attorney-general of the state, and in November of that year he was elected to congress for a full term of four years beginning January 1, 1878. Since 1882 he has been a practicing lawyer and a farmer, residing on a considerable estate in Albemarle county.

Though never a member of an alliance, a grange or any other industrial organization, Gen. Field has since 1885 proclaimed from the stump throughout Virginia that redress for the grievances of the people could only be had through a reform organization. He held that the influence of the party caucus had grown superior to the will of the constituents of the party and, therefore, unwise legislation could neither be repealed nor prevented; therefore, a new party was a necessity. Gen. Field is a baptist, and has for some time been at the head of the state organization of that church in Virginia.

GEN. JOHN BIDWELL.

PROHIBITION CANDIDATE FOR THE PRESIDENCY.

John Bidwell was born in Chautauqua county, New York, Aug. 5, 1819. In 1829 his parents removed to Erie county, Pa., and in 1831 again removed to Ashtabula county, Ohio, where he was educated at Kingsville academy. During the winter of 1838-9 he taught school in Darke county, and subsequently for two years in Missouri. In 1841 he emigrated to California, being one of the first to make the journey overland, which, at that time, occupied six months. On the Pacific coast he had charge of Bodega and Fort Russ, and also of Gen. Sutter's Feather river possessions. He served in the Mexican war until its close, rising from second lieutenant to major. He was among the first to discover gold on Feather river in 1848. In 1849 he was a member of the state constitutional convention and during the same year became a member of the senate of the new state. He was one of a committee appointed to convey a block of gold-bearing quartz from California to Washington in 1850. In 1860 he was a delegate to the famous democratic national convention at Charleston. Since then he has been brigadier-general of the state militia. In 1864 he was elected to congress and served from Dec. 4, 1865, to March 3, 1867. He was a delegate to the national convention of his party in 1866. In 1875 he was candidate for governor of California, but was defeated.

J. B. CRANFILL.

PROHIBITION NOMINEE FOR THE VICE-PRESIDENCY.

Mr. Cranfill was born in Parker county, Texas, in 1857. He was raised on a farm, but studied medicine and became a physician. He started the Gatesville Advance, which he published until 1886. In August of that year he called the first prohibition party convention ever held in Texas.

In December, 1886, Dr. Cranfill moved to Waco. Soon thereafter the great campaign for constitutional prohibition began in Texas, and Dr. Cranfill took a position at once as the leading journalist on that side of the issue and his paper was regarded as the principal exponent of the amendment in Texas. The amendment having failed, Dr. Cranfill sold his paper in 1888 and began work as financial secretary of Baylor university at Waco. In

October, 1889, he was elected to the superintendency of baptist mission work in Texas, and this placed him at the head and front of this great denomination in his native state. Under his administration the mission work of the state was doubled, and he has the distinction of having been the leader of the largest state mission work ever done in the history of the United States. In January, 1890, Dr. Cranfill was ordained as a baptist preacher by the First Baptist church at Waco. In March, 1892, he resigned his position as superintendent of missions to take charge with the Rev. M. V. Smith, D. D., of the Texas Baptist Standard, which is the leading baptist newspaper in Texas. This position he at present fills.

GEORGE SHIRAS, JR.

JUSTICE OF THE UNITED STATES SUPREME COURT.

George Shiras, jr., is 60 years old. He was born in Pittsburg, Pa., in 1832, descends from a well-known pioneer family and is a cousin of ex-Secretary Blaine. His father was a brewer and owned a brewery at the Point. It is a landmark and still stands. In 1840 the elder Shiras retired from business, having amassed a comfortable fortune. He turned his attention to the education of his children. Early in life the future Supreme court justice showed that he was possessed of an unusual order of intellect. His mother was a daughter of Dr. Francis E. Herron, the first pastor of the First Presbyterian church.

Mr. Shiras is a graduate of Yale, of the class of 1853, taking the Greek prize. He was a classmate of Chauncey M. Depew and President White of Cornell. He returned to Pittsburg and began to read law with Judge Hopewell Hepburn of the District court. Judge Hepburn was considered one of the legal lights of his time. After becoming a member of the bar young Shiras went into partnership with Judge Hepburn for a few years.

About 1860 Mr. Shiras, who had acquired considerable prestige as a lawyer by that time, started out for himself. His career since has been an almost unbroken series of legal triumphs. He has figured in dozens of cases that have been recorded as precedents.

His practice has been along many lines, and he has frequently argued in the court to which he has been called.

Mr. Shiras has been engaged in much important litigation. In the case of Hartupee vs. the City of Pittsburg Mr. Shiras represented the city. A late case in which Mr. Shiras was engaged was that of the Junction railroad, in which the Supreme court affirmed that railroad's right to cross the tracks of the Allegheny Valley railroad at 43d street. Mr. Shiras acted as counsel for the Monongahela Navigation company in its case against the government which asked for the condemnation of lock No. 7. In the riot case of 1877 of Gibson against Allegheny county for indemnity on goods destroyed during the riot Mr. Shiras was one of the counsel for the county.

Mr. Shiras is the forty-sixth citizen appointed to the associate justiceship of the Supreme court of the United States since its organization in 1789. In that time there have been eight chief justices. The first appointment to the bench from Pennsylvania was James Wilson, the second Henry Baldwin of Pittsburg, the third Robert Cooper Grier, the fourth W. Strong, and Mr. Shiras is the fifth from Pennsylvania.

ANDREW D. WHITE.

UNITED STATES MINISTER TO ST. PETERSBURG, RUSSIA.

Andrew Dickson White, scholar, educator, philanthropist, publicist and diplomatist, is a native of New York state, having been born in Homer, Cortland county, Nov. 7, 1832. When 7 years of age he removed with his family to Syracuse, where his boyhood and youth were passed. His father was an enterprising business man, a banker and railroad operator. In 1849 young Andrew entered Hobart college at Geneva, remained one year and then entered the class of 1853 at Yale, which numbered among its members Edmund Clarence Stedman, George W. Smalley and Isaac H. Bromley. Upon the completion of his college course he went abroad to study, remaining nearly three years in the College of France and the University of Berlin. He was for several months an attache of the United States legation at St. Petersburg during the period embracing the most stirring events of the Crimean war. He returned to America in 1856, and the following year became professor of history and English literature in the University of Michigan. In 1861 he resigned the professorship and went abroad for health and study, remaining two years.

In 1863 Mr. White was elected a state senator from the district comprising the counties of Onondaga and Cortland, N. Y. In 1865 he was re-elected. It was while in the senate in 1864 that he met Ezra Cornell. The latter was wealthy and determined to found a college "where any man could be educated in any study" at Ithaca, N. Y. Mr. White aided him in obtaining a state charter for the college and then a United States land grant of 990,000 acres for its endowment.

Mr. White was elected the first president of the university, and sketched the plans upon which it was founded. He gave all his strength, mental and physical, to the school for many years.

After twenty years of service as president of Cornell, Mr. White resigned in 1885. He is still identified, however, with the university as a trustee. During the last fifteen years of his term as president of the college he found time in which to serve his country in diplomatic labors. In 1871 he was one of the United States commissioners to Santo Domingo. The same year he was also chairman of the republican state convention. In 1879 he was appointed minister to Germany by President Grant. He was held in esteem by the German government at Berlin and was a man of influence. He was a delegate-at-large to the national republican conventions of 1872, 1876 and 1884. Last September he was prominently mentioned for governor before the New York convention which nominated J. Sloat Fassett.

GEN. EUGENE A. CARR.

THE NEW BRIGADIER-GENERAL OF THE ARMY.

Gen. Carr was born March 20, 1830, in Erie county, New York. He was appointed as a cadet at the military academy in September, 1846. He was commissioned in the regular service as second lieutenant June 30, 1851; as first lieutenant of cavalry March 3, 1855; as captain 4th cavalry June 11, 1858; as major 5th cavalry July 17, 1862; as lieutenant-colonel 4th cavalry Jan. 7, 1873, and as colonel 6th cavalry April 29, 1879. During the war Gen. Carr received the following brevets in the regular service: That of lieutenant-colonel Aug. 10, 1861, for gallant and meritorious service in the battle of Wilson Creek, Mo.; that of colonel May 18, 1863, for gallant and meritorious service in the action of the Black River Bridge, Miss.; that of brigadier-general March 13, 1865, for gallant and meritorious service in the capture of Little Rock, Ark., and that of major-general March 13, 1865, for gallant and meritorious service during the war. The

record of Gen. Carr has been a long, faithful and active one, and from its beginning, with two expeditions to the Rocky mountains in 1852-3, through several Indian engagements in 1860, down to and including the war of the rebellion, his services as an officer of the army have been of the highest order. During the war of the rebellion Gen. Carr participated in many of the battles of the union army, and displayed daring, coolness and judgment which won for him the praise of his senior officers and the gratitude of the people of the north.

Since the war Gen. Carr has led several successful expeditions against the Indians in the southwest and northwest. For these operations he received joint resolutions of thanks from the legislatures of Nebraska and Colorado. He served in the regular army in Arizona several years and in the northwest under Gen. Merritt in 1876. During the railway riot in Chicago in 1877 he commanded a cavalry battalion. In the fall of 1879 he was promoted to the colonelcy of the 6th cavalry, then stationed in New Mexico. The 6th cavalry is now stationed at Fort Niobrara.

Up to date Gen. Carr has held twenty-nine commands ranking higher than his command at the time. He was four times wounded and participated in thirty-eight battles, of which sixteen were with Indians and fourteen since the close of the rebellion.

When the Sioux outbreak of February, 1891, occurred Gen. Carr and his regiment were stationed at San Francisco, but such was his record as an Indian fighter that as soon as the outbreak assumed importance he was ordered to the scene with his men, and to him was largely due the favorable termination of the outbreak.

AUGUSTUS G. WEISSERT.

COMMANDER-IN-CHIEF OF THE GRAND ARMY OF THE REPUBLIC.

Augustus Gordon Weissert was born at Canton, O., Aug. 17, 1844. He attended the schools at Racine, Wis., the state of his adoption. Graduating from the Racine high school he entered the University of Michigan. He was distinguished in his studies and bore off the degree of LL. D. He was admitted to practice in Wisconsin, and was winning fame at the Milwaukee bar when the war broke out. As soon as the tocsin sounded he enlisted in the 8th Wisconsin infantry, the "Live-Eagle" regiment of history, and shared its fortunes till the battle of Nashville. There he was grievously wounded, receiving a bullet just over the knee, which he still carries. Convalescing sufficiently to rejoin his regiment, he did so on crutches. After four years' gallant service he was brevetted captain from the date of the battle of Lake Chicol, Ark., June 6, 1864, for meritorious service in that fight and at the battle of Nashville on Dec. 15 following, and for extraordinary bravery throughout the Red river expedition. He refused the tender of a West Point cadetship by reason of his wound. He joined the Grand Army of the Republic at Madison, Wis., in 1866, and has filled creditably every position from comrade and officer of the day up to department commander. He has since been called upon to administer the office of commander-in-chief. He was chairman of the executive council of the citizens' committee that made the twenty-third national encampment at Milwaukee a success. At the Detroit encampment he received the second highest number of votes for the office to which he has been elected. In the capacity of senior vice-commander he visited all the departments of the east in company with Commander-in-Chief R. A. Palmer. Just now he is a member of E. B. Wolcott post of Milwaukee.

ABRAHAM J. SEAY.

GOVERNOR OF OKLAHOMA TERRITORY.

The appointment of Judge Abraham Jefferson Seay as governor of Oklahoma territory gives general satisfaction, and he has been congratulated heartily by men of all parties, who have long admired him for his energy and probity of character. Gov. Seay was born in Amherst county, Virginia, Nov. 28, 1832. When he was 3 years old his parents moved to Osage county, Missouri. His early education was very limited, and when he reached the age of 21 he could scarcely more than read and write. He started out with a determination to win, however, and surely he has succeeded. Working by the day he earned sufficient money to pay his way through the Steeleville (Mo.) academy, and then studied law in the same town, paying his way by his own exertions. He was admitted to the bar three days before the firing on Fort Sumter, and, though most of his people sided with the confederacy, he soon enlisted in the union army and marched away for four years of hard work and fighting. He entered as a private, but in August, 1864, he was mustered out a colonel of the 82d infantry, Missouri volunteers. He then began the practice of law at Steeleville, and in the course of time was county attorney, circuit attorney and circuit judge, sitting on the bench in the latter capacity twelve years. All the time he was an active republican, on the stump in every campaign, and twice ran for congress against Richard Bland, the great silver champion. In May, 1890, he was appointed associate justice of the Supreme court of Oklahoma, and until appointed governor filled that position with honor to himself and satisfaction to the people of the territory.

BISHOP W. PERKINS.

UNITED STATES SENATOR FROM KANSAS.

Bishop W. Perkins was born at Rochester, O., Oct. 18, 1832. He was educated in the public schools and at Knox college, Galesburg, Ill. After leaving college he went to Colorado, and on his return in 1862 enlisted in company D, 83d Illinois volunteer infantry. He served as sergeant and lieutenant, and in December, 1863, was appointed adjutant of the 16th Colorado infantry. Later he was assigned to duty as captain of company C of the same regiment. He served as judge-advocate on the staff of Gen. Gillem, and also in the same position on the staff of Gen. Steadman; was mustered out at Nashville in May, 1866; returned to Illinois, and resumed the study of law, reading with O. C. Gray at Ottawa.

After being admitted to the bar in 1867 he located at Pierceton, Ind., where he remained until he went to Oswego, Kas., in April, 1869. The same year he was appointed county attorney and the following year probate judge, which office he held till Feb. 1, 1873, when he was elected judge of the 11th judicial district. He was re-elected in 1874 and 1878, and in November, 1882, was elected a member of congress. He was appointed United States senator Jan. 1, 1892, to succeed Preston B. Plumb, deceased.

Mr. Perkins is a republican, sincere in his convictions and aggressive in his expressions. He was a delegate to the Chicago convention in 1880. He was elected member of congress from the 3d district, and was re-elected for three successive terms, but met defeat a year ago at the hands of the Farmers' alliance. He was editor and proprietor of the Oswego Register from 1871 until appointed district judge in 1873.

THE BERING SEA DISPUTE.

Our account of the differences in connection with the seal fisheries between the United States and Great Britain in the Daily News Almanac for 1892 (page 44) closed with the agreement between the two countries for the appointment of a joint high commission which should settle finally the matter in dispute.

Considerable delay took place in the signing of the treaty for a joint commission, and it was not until Feb. 29, 1892, that it was formally signed, but it was not ratified by the United States senate until a month later. The number of arbitrators was increased from five to seven. The joint commission spent several months in Bering sea gathering all the information possible to bear on the proposed arbitration. It was expected that the four commissioners would be able to formulate a joint report that would be accepted by the board of arbitration as an ultimate criterion of all points raised regarding the seal industry. The report of the commission was not satisfactory, and no agreement between the two countries was arrived at. It was shown, however, that since Alaska came into the possession of the United States the number of seals had gradually diminished, and this decrease was shown to be due to the destruction of the animals by sealers. There was a disagreement as to the source of this destruction, the United States commissioners charging it to the deep-sea killing carried on by Canadian sealers, while the British representatives attributed it to the killing of seals permitted under contract by the United States treasury.

A new difficulty now arose, for it was apparent that whatever might be the result reached by the commissioners or arbitrators it could not be reached in time to be operative during the sealing season which was approaching. Steps were at once taken by the United States to secure a continuance of the modus vivendi, which would expire on the 1st of May, 1892. To protect our own rights the president issued on the 19th of February, 1892, a proclamation warning all persons of their liability to arrest and punishment if they should be found sealing in Bering sea in violation of the laws of the United States.

The British government opposed the renewal of the modus vivendi as requested by the United States. Lord Salisbury based his refusal upon the report of the British commissioners that sealing in the open sea would not endanger the destruction of the species, and he objected to another year's suspension of the industry which was important to Canada. Lord Salisbury, however, proposed that sealing should be prohibited within thirty miles of the Pribilof islands and that the catch by Americans in those islands should be limited to 30,000 seals. On the 29th of February, 1892, a treaty was signed in Washington by Mr. Blaine on the part of the United States and Sir Julian Pauncefote on the part of Great Britain, by which the whole controversy was relegated to an international arbitration commission to be composed of seven members. On the 8th of March the treaty was sent to the senate for ratification, but the president and his cabinet decided to maintain its demand for a renewal of the modus vivendi. The points to be submitted to arbitration were set out in the sixth article of the treaty as follows:

1. What exclusive jurisdiction in the sea known as the Bering sea, and what exclusive rights in the seal fisheries therein did Russia assert and exercise prior and up to the time of the cession of Alaska to the United States?

2. How far were these claims of jurisdiction as to the seal fisheries recognized and conceded by Great Britain?

3. Was the body of water now known as Bering sea included in the phrase "Pacific ocean" as used in the treaty of 1825 between Great Britain and Russia, and what rights, if any, in Bering sea were held and exclusively exercised by Russia after said treaty?

4. Did not all the rights of Russia as to jurisdiction and as to the seal fisheries in Bering sea east of the water boundary, in the treaty between the United States and Russia of the 30th of March, 1867, pass unimpaired to the United States under that treaty?

5. Has the United States any right, and if so what right, of protection of property in the fur seals frequenting the islands of the United States in Bering sea when such seals are found outside the ordinary three-mile limit?

These points were to be decided by seven arbitrators, two to be named by the president, two by the queen, one by the president of the French republic and one each by the king of Italy and the king of Sweden and were to meet in Paris.

The treaty did not touch the question of damages for illegal sealing on the one hand or for illegal seizure of vessels on the other. This, however, was settled by an agreement between Mr. Blaine and Lord Salisbury under which the claims for damages followed the award of the commission. No answer had been returned to our demand for a renewal of the modus vivendi of March 8 and on the 16th Lord Salisbury's attention was again called to the subject. On the 19th of March Lord Salisbury replied, declining to renew the modus vivendi for various reasons. The president on the 22d of March replied very vigorously to Lord Salisbury and declared that the United States should insist upon the right to prevent deep-sea sealing as a matter of "honor and self-respect." He further said: "If her majesty's government proceeds during the sealing season upon the basis of its contention as to the rights of the Canadian sealers no choice is left this government but to proceed upon the basis of its confident contention that pelagic sealing in Bering sea is an infraction of its jurisdiction and property rights." For a time it looked as if the differences between the United States and Great Britain would become serious and it was not until Lord Salisbury's reply to the president's note of the 22d, which was received on the 26th, that matters assumed a more pacific appearance. In this note Lord Salisbury expressed a willingness to agree to a renewal of the modus vivendi on the condition that the nation which was defeated in the arbitration should pay to the other such damages as might be assessed by the commission as a result of a suspension of sealing. The question of damages was settled to the satisfaction of both governments and on the 18th of April Secretary Blaine and Sir Julian Pauncefote concluded a new modus vivendi providing for a close season, as did that of 1891, but including the agreements as to damages, and it was sent to the senate April 19, 1892.

Briefly stated, these articles prohibit the British and Americans from seal-killing in Bering sea and islands, save 7,000 seals to be taken on the islands for the subsistence of the natives during the arbitration, provide for the seizure of offending vessels and permit the residence of British agents on the islands during the season. Articles 3 and 6 read as follows:

"Article 3. If the result of the arbitration be to affirm the right of British sealers to take seals in Bering sea within the bounds

claimed by the United States under its purchase from Russia, then compensation shall be made by the United States to Great Britain for the use of her subjects for abstaining from the exercise of that right during the pendency of the arbitration upon the basis of such a regulated and limited catch or catches as in the opinion of the arbitrators might have been taken without an undue diminution of the seal herds, and on the other hand, if the result of the arbitration shall be to deny the right of British sealers to take seals within the said waters, then compensation shall be made by Great Britain to the United States (for itself, its citizens and lessees) for this agreement, to limit the island catch to 7,500 seals upon the basis of the difference between their number and such larger catch as in the opinion of the arbitrators might have been taken without an undue diminution of the seal herd. The amount awarded, if any, in either case shall be such as, under all the circumstances, is just and equitable and shall be promptly paid.

"Article 6. This convention may be renounced by either of the high contracting parties at any time after the 31st day of October, 1893, on giving to the parties two months' notice of its termination and at the expiration of this notice the convention shall cease to be in force."

The seventh and last article simply provides for the exchange of ratifications as early as possible.

The ratification of the treaty of arbitration and the modus vivendi were exchanged in London May 7.

Of the seven arbitrators mentioned in the treaty six have already been chosen. The United States arbitrators are Justice John M. Harlan of the United States Supreme court and Senator John T. Morgan of Alabama. The British arbitrators are Lord Hannen and Sir John S. D. Thompson, Canadian minister of justice.

The counsel of the United States consists of Edward J. Phelps of Vermont, ex-minister to Great Britain, and Judge Henry W. Blodgett of Chicago. The British government will be represented by Mr. C. Robinson of Toronto, Canada, and Sir W. H. Cross, member of the British parliament. France selected as arbitrator Senator Baron de Courcelles and Italy Marquis Visconti Venosta.

THE DIFFICULTY WITH CHILE.

A very grave trouble, that at one time threatened war between the United States and Chile, was settled during the last year with great credit to our own government. During the Chilean rebellion the insurgents conceived a great dislike of the United States for the supposed complicity of Mr. Egan, the United States minister at Valparaiso, with Balmaceda, the president of Chile. The defeat of the president and his subsequent suicide intensified the dislike of the successful insurgents against the United States. The United States man-of-war Baltimore was dispatched to Valparaiso to protect American interests in that country. The Baltimore was therefore in the harbor at Valparaiso by virtue of that general invitation which nations are held to extend to the war vessels of other powers with which they have friendly relations. The vessel reached the harbor of Valparaiso Sept. 14, 1891, and the city officials extended the hospitalities of the city to its officers and crew, as is customary. The incidents that led to the difficulty are given in detail in the message of the president to congress Jan. 26, 1892, as follows:

"On the 16th of October last Capt. Schley, commanding the United States steamship Baltimore, gave shore leave to 117 petty officers and sailors of his ship. These men left the ship about 1:30 p. m. No incident of violence occurred; none of our men was arrested; no complaint was lodged against them; nor did any collision or outbreak occur until about 6 o'clock p. m. Capt. Schley states that he was himself on shore and about the streets of the city until 5:30 p. m.; that he met very many of his men who were on leave; that they were sober and were conducting themselves with propriety, saluting Chilean and other officers as they met them. Other officers of the ship and Capt. Jenkins of the merchant ship Keweenaw corroborate Capt. Schley as to the general sobriety and good behavior of our men. The sisters of charity at the hospital to which our wounded men were taken, when inquired of, stated that they were sober when received. If the situation had been otherwise we must believe that the Chilean police authorities would have made arrests.

"About 6 p. m. the assault began, and it is remarkable that the investigation by the judge of crimes, though so protracted, does not enable him to give any more satisfactory account of its origin than is found in the statement that it began between drunken sailors. Repeatedly in the correspondence it is asserted that it was impossible to learn the precise cause of the riot. The minister of foreign affairs, Matta, in his telegram to Mr. Montt, under date Dec. 31, states that the quarrel began between two sailors in a tavern and was continued in the street, persons who were passing joining in it. The testimony of Talbot, an apprentice who was with Riggin, is that the outbreak in which they were involved began by a Chilean sailor spitting in the face of Talbot, which was resented by a knockdown. It appears that Riggin and Talbot were at the time unaccompanied by any others of their shipmates.

"These two men were immediately beset by a crowd of Chilean citizens and sailors, through which they broke their way to a street car and entered it for safety. They were pursued, driven from the car, and Riggin was so seriously beaten that he fell in the street apparently dead.

"There is nothing in the report of the Chilean investigation made to us that seriously impeaches this testimony. It appears from Chilean sources that almost instantly, with a suddenness that strongly implies premeditation and preparation, a mob, stated by the police authorities at one time to number 2,000 and at another 1,000, was engaged in the assault upon our sailors, who are represented as resisting 'with stones, clubs, and bright arms.' The report of the intendente of Oct. 30 states that the fight began at 6 p. m. in three streets, which are named, that information was received at the intendencia at 6:15, and that the police arrived on the scene at 6:30, a full half hour after the assault began. At that time, he says, a mob of 2,000 men had collected and that for several squares there was the appearance of 'a real battlefield.'

"The scene at this point is very graphically set before us by the Chilean testimony. The American sailors, who, after so long an examination, have not been found guilty of any breach of the peace so far as the Chilean authorities are able to discover, unarmed and defenseless, are fleeing for their lives, pursued by overwhelming numbers and fighting only

to aid their own escape from death or to succor some mate whose life is in greater peril. Eighteen of them are brutally stabbed and beaten, while one Chilean seems, from the report, to have suffered some injury; but how serious or with what character of weapon, or whether by a missile thrown by our men or by some of his fellow-rioters, is unascertained."

In the Chilean investigation that followed that government made the most strenuous efforts to show that the difficulty was brought on by the sailors, but the great preponderance of evidence shows that the assault was committed by an excited mob of Chileans actuated solely and only by a hatred of the uniforms the men wore and of the flag under which they served.

The judicial inquiry in Chile terminated Jan. 8, 1892, having been instituted Oct. 17, 1891. It was presided over by Judge Henry Foster of the Criminal court of Valparaiso. This court reported: "1. That the incident originated in a brawl between intoxicated sailors of both nations. The riot grew in proportions on account of the special ward in which it occurred, full of houses of bad reputation and sailors. 2. The policemen from the first moment did all they were expected to do to suppress the riot. The correct course of the police has been acknowledged by every one of the witnesses and of the American sailors, except two. 3. Only one isolated shot was fired. It was from a revolver. The police are armed with carbines."

There is a wide difference between the findings of the Chilean court and the result of the inquiry by the officers of the Baltimore. The report of the medical officer of the vessel states that Riggin was killed by a rifle ball, and there was abundant evidence to prove that the attack was premeditated and that the sailors were assaulted in six different places at about the same time. Capt. Schley states that in an interview with Judge Foster soon after the riot the latter said that the riot was caused by the hatred that the lower class of Chileans had for Americans because of the belief that the Americans had aided or sympathized with Balmaceda through the Chilean struggle. Chile made no offer to apologize for the unjustifiable affront to the dignity of the United States, but after three months of delay made the claim that the chain of legal formalities was not yet complete, but that other links still remained in the shape of a trial before the judge of crimes on the indictments of some men who had been arrested for the riot.

President Harrison therefore decided that the time had come when further delay in a reparation on the part of Chile could not be permitted. Such was the condition when congress convened. The publication in Chile of that part of his message to congress that bore on this matter aroused considerable resentment in Chile, and on Dec. 11, 1891, the then minister of foreign affairs, Senor Manuel Matta, not only stated that the American minister and consul at Valparaiso had concealed testimony which might have cleared up the matter, but he also addressed a circular to the Chilean legations in the United States and Europe accusing the American minister and the American naval officers of making reports to Washington that were deliberately false and of engaging in intrigues for creating trouble between the two countries.

THE MATTA CIRCULAR.

The premier's circular was as follows:

"Having read the portion of the report of the secretary of the navy and of the message of the president of the United States I think proper to inform you that the statements on which both report and message are based are erroneous or deliberately incorrect. With respect to the persons to whom an asylum has been granted, they have never been threatened with cruel treatment, nor has it been sought to remove them from the legation, nor has their surrender been asked for. Never has the house or the person of the plenipotentiary, notwithstanding indiscretions and deliberate provocations, been subjected to any offense, as is proved by the eleven notes of September, October and November.

"With respect to the seamen of the Baltimore there is, moreover, no exactness or sincerity in what is said at Washington. The occurrence took place in a bad neighborhood of the city, the maintop of Valparaiso, and among people who are not models of discretion and temperance. When the police and other forces interfered and calmed the tumult there were already several hundred people there and it was ten squares or more from the place where it had begun.

"Mr. Egan sent, on the 26th of October, a note that was aggressive in purpose and virulent in language, as is seen by the copy and the note written in reply on the 27th.

"On the 18th the preliminary examination had already been commenced; it had been delayed owing to the non-appearance of the officers of the Baltimore and owing to undue pretensions and refusals of Mr. Egan himself. No provocation has ever been accepted or initiated by this department. Its attitude, while it has ever been one of firmness and prudence, has never been one of aggressiveness, nor will it ever be one of humiliation, whatever may be or has been said at Washington by those who are interested in justifying their conduct or who are blinded by erroneous views.

"The telegrams, notes and letters which have been sent to you contain the truth, the whole truth, in connection with what has taken place in these matters, in which ill-will and the consequent words and pretensions have not emanated from this department. Mr. Tracy and Mr. Harrison have been led into error in respect to our people and government; the instructions (recommending) impartiality and friendship have not been complied with, either now or before. If no official complaint has been made against the minister and the naval officers it is because the facts, public and notorious both in Chile and the United States, could not, although they were well proved, be urged by our confidential agents. Proof of this is furnished by the demands of Balmaceda and the concessions made in June and July, the whole Itata case, the San Francisco at Quintero and the cable companies. The statement that the North American seamen were attacked in various localities at the same time is deliberately incorrect.

"As the preliminary examination is not yet concluded it is not yet known who and how many the guilty parties are. You no doubt have the note of Nov. 9, written in reply to Minister Egan, in which I request him to furnish testimony which he would not give, although he had said that he had evidence showing who the murderer was and who the other guilty parties of the 16th of October were. That and all other notes will be published here. You will publish a translation of them in the United States. Deny in the meantime everything that does not agree with these statements, being assured of their exactness, as we are of the right, the dignity, and the final success of Chile, notwithstanding the intrigues which proceed from so low (a source) and the threats which come from so high (a source)."

This circular was permitted to go for a month unnoticed and it was not until it had been transmitted to the Chilean congress and had been officially published in the newspapers.

becoming thus a public document, that our government felt called upon to accord to it the notice it demanded. No other document in all the correspondence was so fraught with danger. Its reflections upon the honor of the American civil and naval officers in Chile and its language concerning President Harrison and Secretary Tracy aroused universal indignation in the United States. The government of Chile saw that the circular was a great mistake and it was withdrawn.

On Jan. 21, 1892, the ultimatum of the United States was served by Secretary Blaine on the Chilean government through its representative in Washington, Senor Pedro Montt. The same day Minister Egan was cabled full information of the status of affairs.

THE ULTIMATUM.

The ultimatum contained three specific demands:

1. That an apology should be given for the murderous assault upon the sailors of the Baltimore in the streets of Valparaiso.

2. That an indemnity should be given to the sailors who had been injured and to the families of those who had been killed.

3. That the insulting circular of Minister Matta should be absolutely withdrawn.

No answer having been received up to noon of Jan. 25, four days after the ultimatum had been delivered, the president sent to congress the whole volume of official correspondence relating to the subject matter of the dispute. The next day it came up for consideration. A note of explanation and apology from the Chilean government, in reply to the ultimatum of Jan. 21, had actually been sent on the very day that the president sent his message to congress. It had not, however, been received by the president, nor had our government any indication of its character. Chile's answer to the ultimatum of the United States proved satisfactory to our government. It contained a complete apology for the Baltimore incident, and its whole tone gave evidence of the anxiety of Chile to end the difficulty on terms acceptable to the United States. All the demands of the ultimatum were unconditionally granted; the Chilean authorities offered to leave to the United States supreme court the question of reparation to the victims of the mob in Valparaiso. The offensive Matta circular and the demand for Mr. Egan's recall were withdrawn with adequate expressions of regret and with an emphatic declaration that Chile desired none but the most friendly relations with the United States. This conciliatory reply disposed of all the points at issue, and the president, in transmitting it to congress Jan. 28, 1892, intimated that further negotiations might now be safely committed to the executive branch of the government.

Seventy-five thousand dollars were paid by Chile to be distributed among the heirs of the two sailors who were killed and to compensate those who were injured.

UNITED STATES AND CANADA--RETALIATION.

On the 20th of June, 1892, the president sent to congress a message recommending retaliation on the Dominion of Canada for an unjust discrimination against American vessels navigating Canadian canals. On the 21st of July following congress passed an act authorizing the president to retaliate on Canada for such discrimination, and on the 20th of August the president issued the following proclamation:

THE PRESIDENT'S PROCLAMATION.

Whereas, By an act of congress, approved July 26, 1892, entitled "An act to enforce reciprocal commercial relations between the United States and Canada, and for other purposes," it is provided "that, with a view of securing reciprocal advantages for the citizens, ports and vessels of the United States on and after the 1st day of August, 1892, whenever and so often as the president shall be satisfied that the passage through any canal or lock connected with the navigation of the St. Lawrence river, the great lakes, or the waterways connecting the same, of any vessels of the United States, or of cargoes or passengers in transit to any port of the United States, is prohibited or is made difficult or burdensome by the imposition of tolls or otherwise, which, in view of the free passage through the St. Mary's Falls canal now permitted to vessels of all nations, he shall deem to be reciprocally unjust and unreasonable, he shall have the power and it shall be his duty to suspend by proclamation to that effect for such time and to such extent, including absolute prohibition, as he shall deem right, the right of free passage through the St. Mary's Falls canal so far as it relates to the vessels owned by the subjects of the government so discriminating against the citizens, ports or vessels of the United States or to any cargoes, portions of cargoes or passengers in transit to the ports of the government making such discrimination, whether carried in vessels of the United States or of other nations. In case and during such suspension tolls shall be levied, collected and paid as follows, to-wit: Upon freight of whatever kind or description, not to exceed $2 per ton; upon passengers, not to exceed $5 each, as shall be from time to time determined by the president.

Provided, That no tolls shall be charged or collected upon freight or passengers carried to and landed at Ogdensburg or any port west of Ogdensburg and south of a line drawn from the northern boundary of the state of New York through the St. Lawrence river, the great lakes, and their connecting channels, to the northern boundary of the state of Minnesota.

Sec. 2. All tolls so charged shall be collected under such regulations as shall be prescribed by the secretary of the treasury, who may require the master of each vessel to furnish a sworn statement of the amount and kind of cargo, the number of passengers carried, and the destination of the same, and such proof of the actual delivery of such cargo or passengers at some port or place within the limits above named as he shall deem satisfactory, and until such proof is furnished such freight and passengers may be considered to have been landed at some port or place outside of those limits, and the amount of tolls which would have accrued if they had been so delivered shall constitute a lien, which may be enforced against the vessel in default wherever and whenever found in the waters of the United States; and

Whereas, The government of the Dominion of Canada imposes a toll amounting to 20 cents a ton on all freight passing through the Welland canal in transit to a port of the United States and also a further toll on all vessels of the United States and on all passengers in transit to a port of the United States, all of which tolls are without rebate; and

Whereas, The government of the Dominion of Canada, in accordance with an order in council April 4, 1892, refunds 18 cents per ton of the 20-cent toll at the Welland canal on

wheat, Indian corn, peas, barley, rye, oats, flaxseed and buckwheat, upon condition that they are originally shipped for and carried to Montreal or some port east of Montreal for export, and that if trans-shipped at intermediate points such trans-shipment is made within the Dominion of Canada, but allows no such nor any other rebate on said products when shipped to a port of the United States or when carried to Montreal for export if trans-shipped within the United States; and

Whereas, The government of the Dominion of Canada, by said system of rebate and otherwise, discriminates against the citizens of the United States in the use of said Welland canal in violation of the provisions of article 27 of the treaty of Washington, concluded May 8, 1871; and

Whereas, Said Welland canal is connected with the navigation of the great lakes, and I am satisfied that the passage through it of cargoes in transit to ports of the United States is made difficult and burdensome by said discriminating system of rebate and otherwise, and is reciprocally unjust and unreasonable; now, therefore, I, Benjamin Harrison, president of the United States of America, by virtue of the power to that end conferred upon me by said act of congress, approved July 26, 1892, do hereby direct that from and after Sept. 1, 1892, until further notice, a toll of 20 cents per ton be levied, collected, and paid on all freight of whatever kind or description passing through the St. Mary's Falls canal in transit to any port of the Dominion of Canada, whether carried in vessels of the United States or of other nations, and to that extent I do hereby suspend from and after said date the right of free passage through said St. Mary's Falls canal of any and all cargoes or portions of cargoes in transit to Canadian ports. In testimony whereof, etc. BENJAMIN HARRISON.

HISTORY OF THE DIFFICULTY.

May 30, 1890, the steamer J. R. Langdon, of the Ogdensburg Transit company, left Chicago with 36,500 bushels of corn destined for export to foreign countries via Montreal. The grain was to be trans-shipped at Ogdensburg, instead of Kingston, as it had been from time immemorial. On the St. Lawrence river route, by which grain is sent to foreign countries, the transfer from lake vessels to St. Lawrence river barges, which are shallow enough to pass through the St. Lawrence river canals, has been made for many years at Kingston. It was the principal industry of that Canadian town on the north shore of Lake Ontario. The grain was transferred from lake vessels to river barges by means of floating elevators. When there were no barges at hand the lake vessels had to wait until some came back from Montreal. When the barges reached Montreal before the ocean steamers had arrived which were to take the grain across the Atlantic the barges lay around Montreal harbor until the ocean steamers were ready. It was a primitive way of handling grain, but the Canadians, whose conservatism is proverbial, were indisposed to adopt any other.

It was in the spring of 1890 that the Ogdensburg Transit company, which had built elevators and followed the modern methods in the grain trade at Ogdensburg, a town farther down on the St. Lawrence river, entered the field as a competitor in the Montreal grain trade. From the first shippers took most kindly to Ogdensburg as the place of transfer. It enabled them to have their boats unloaded quickly, and the grain was held in elevators until the ocean steamer which was to take it from Montreal was about ready to receive it. Lake vessels made the run of sixty miles from Kingston to Ogdensburg without extra charge owing to the rapidity with which they could be unloaded at the latter point. St. Lawrence river barges, which were compelled to pass Ogdensburg on their way to Kingston, saved a tow of 120 miles by stopping at Ogdensburg and taking their grain from there. The charges by the new route were made the same as from Kingston. During 1890 450,414 bushels of corn and 25,000 bushels of oats were sent abroad over the St. Lawrence river route which was transferred at Ogdensburg. The Canadian government at the beginning of the trade by Ogdensburg allowed that city the same advantages as it had been giving Kingston. On the grain which was bound for export by the way of Montreal a rebate of 18 cents of the 20 cents per ton canal tolls levied at the Welland canal was allowed and a "let-pass" was issued permitting the grain to go through all the lower Canadian canals to Montreal without further toll.

The initial season of the Ogdensburg route indicated plainly that Kingston would soon lose her grain trade. At this juncture the Canadian elections came on. Sir John Macdonald's home borough was Kingston. He pledged his constituents, if they gave him their votes, so to manipulate canal tolls that Kingston would no longer fear the deadly competition of the American port of Ogdensburg. He kept his promise, and an order in council was issued in the spring of 1891 that canal tolls would no longer be rebated on the grain trans-shipped from lake vessels to river barges unless at a Canadian port. This manifest discrimination against Americans in the use of Canadian canals on the same terms as all other nations has never been explained. It was a high-handed act taken by the Dominion cabinet because it was thought that the American city of Ogdensburg could not help herself. Kingston did not make a move to introduce modern methods in the handling of her grain trade. She relied solely upon the puissance of Sir John Macdonald, whom she had returned to parliament and to power.

The Ogdensburg people did not give up the struggle. Shippers were anxious to send their grain by that route, and with the belief that the American government would come to their aid they kept on in the Montreal grain trade during the spring of 1891. The full Welland canal tolls were paid by the Ogdensburg people and the St. Lawrence river canal tolls were also paid on this grain. It was hoped that the American government would make a stand against the discrimination and that the tolls would be finally rebated. When September came and not a move had been made, the Ogdensburg people gave up the contest. Up to that time in 1891 they had handled from Chicago 321,495 bushels of corn and 206,418 bushels of wheat. This business had been done at a heavy loss.

It was nearly six months after Ogdensburg had retired from the Montreal grain trade that President Harrison finally saw the discrimination of which the Canadians were guilty. Then came his message to congress advising retaliation on Canadian commerce passing through the American canal at Sault Ste. Marie, Mich., and Senator Davis' bill putting retaliatory measures into effect.

The retaliation was a body blow to the Canadians. If they insist upon continuing the order in council which has driven Ogdensburg from the grain trade, the losses of the Canadian marine will be beyond computation. The great bulk of the wheat raised in Manitoba finds its way to Lake Superior ports and is from there shipped by water to the lower lakes. A heavy toll at Sault Ste. Marie will drive all this grain to American ports and it will then be shipped in American vessels in bond through the United States. The Cana-

dian Pacific operates a line of passenger steamers between Owen sound and Georgian bay and Port Arthur, its port on Lake Superior. The Grand Trunk has lines of steamers running fom Sarnia to Lake Superior. Nine-tenths of all the business done by Canadian vessels either originates on Lake Superior or is freight sent to Lake Superior ports. Every one of the craft engaged in the traffic must pass through the American canal at Sault Ste. Marie. A prohibitory toll, such as the president is empowered to levy, will drive the Canadian vessels out of business altogether. Even a moderate toll, with the keen competition now existing in the carrying trade, will give traffic to American vessels.

IMPORTANT LEGISLATION.

While a large number of bills were introduced into the first session of the LIId congress that convened in December, 1891, few bills of much importance were passed. This was, in part, owing to the fact that while the house of representatives was strongly democratic the senate was republican and each prevented the other from passing measures of a radical nature. The following were the most notable measures passed:

TO ENCOURAGE AMERICAN SHIPPING.

This bill authorized and directed the secretary of the treasury to grant registers, as vessels of the United States, to such foreign-built steamships now engaged in freight and passenger business and sailing in an established line from a port in the United States, as are of a tonnage of not less than 8,000 tons and capable of a speed of not less than twenty knots per hour, according to the existing method of government test for speed, of which not less than 90 per centum of the shares of the capital of the foreign corporation or association owning the same was owned Jan. 1, 1890, and has continued to be owned until the passage of this act by citizens of the United States, including as such citizens corporations created under the laws of any of the states thereof, upon the American owners of such majority interest obtaining a full and complete transfer and title to such steamships from the foreign corporations owning the same: Provided, That such American owners shall, subsequent to the date of this law, have built, or have contracted to build, in American shipyards, steamships of an aggregate tonnage of not less in amount than that of the steamships so admitted to registry. Each steamship so built or contracted for to be of a tonnage of not less than 7,000 tons. * * *

Sec. 2. That the secretary of the treasury, on being satisfied that such steamships so acquired by American citizens, or by such corporation or corporations as above set forth, are such as come within the provisions of this act, and that the American owners of such steamships, for which an American registry is to be granted under the provisions hereof, have built or contracted to build in American shipyards steamships of an aggregate tonnage as set forth in the first section hereof, shall direct the bills of sale or transfer of the foreign-built steamships so acquired to be recorded in the office of the collector of customs of the proper collection district, and cause such steamships to be registered as vessels of the United States by said collector. After which each of such vessels shall be entitled to all the rights and privileges of a vessel of the United States, except that it shall not be employed in the coastwise trade of the United States.

Sec. 3. That no further or other inspection shall be required for the said steamship or steamships than is now required for foreign steamships carrying passengers under the existing laws of the United States, and that a special certificate of inspection may be issued for each steamship registered under this act; and that before issuing the registry to any such steamship as a vessel of the United States the collector of customs of the proper collection district shall cause such steamships to be measured and described in accordance with the laws of the United States, which measurement and description shall be recited in the certificate of registry to be issued under this act.

Sec. 4. That any steamships so registered under the provisions of this act may be taken and used by the United States as cruisers or transports upon payment to the owners of the fair actual value of the same at the time of the taking, and if there shall be a disagreement as to the fair actual value at the time of taking between the United States and the owners, then the same shall be determined by two impartial appraisers, one to be appointed by each of the said parties, who, in case of disagreement, shall select a third, the award of any two of the three so chosen to be final and conclusive. [Approved May 10, 1892.]

EXCLUSION OF THE CHINESE.

Sec. 1 continues all acts prohibiting Chinese immigration for ten years.

Sec. 2 provides for the removal of all Chinese not here lawfully to the country of which they are citizens.

Sec. 3 makes it obligatory on the Chinaman arrested here to establish, by affirmative evidence, his right to be here.

Sec. 4 provides for punishing those not lawfully here by confinement at hard labor for one year. The other sections provide as follows:

Sec. 5. That after the passage of this act on an application to any judge or court of the United States on the first instance for a writ of habeas corpus, by a Chinese person seeking to land in the United States, to whom this privilege has been denied, no bail shall be allowed, and such application shall be heard and determined promptly without unnecessary delay.

Sec. 6. And it shall be the duty of all Chinese laborers within the limits of the United States, at the time of the passage of this act, and who are entitled to remain in the United States, to apply to the collector of internal revenue of their respective districts, within one year after the passage of this act, for a certificate of residence, and any Chinese laborer, within the limits of the United States, who shall neglect, fail, or refuse to comply with the provisions of this act, or who, after one year from the passage hereof, shall be found within the jurisdiction of the United States without such certificate of residence, shall be deemed and adjudged to be unlawfully within the United States, and may be arrested by any United States customs official, collector of internal revenue or his deputies, United States marshal or his deputies, and taken before a United States judge, whose duty it shall be to order that he be deported from the United States as hereinbefore provided, unless he shall establish clearly to the satisfaction of said judge, that by reason of accident, sickness or other unavoidable cause, he has been unable to procure his certificate, and to the satisfaction of the court, and by at least one credible white witness, that he was a resident of the United States at the time of the passage of this act; and if upon the hearing it shall appear that he is so entitled to a certificate, it shall be granted upon his paying the cost. Should it appear that said Chinaman

had procured a certificate which has been lost or destroyed, he shall be detained and judgment suspended a reasonable time to enable him to procure a duplicate from the officer granting it, and in such cases the cost of said arrest and trial shall be in the discretion of the court. And any Chinese person other than a Chinese laborer having a right to be and remain in the United States, desiring such certificate as evidence of such right, may apply for and receive the same without charge.

Sec. 7. That immediately after the passage of this act the secretary of the treasury shall make such rules and regulations as may be necessary for the efficient execution of this act, and shall prescribe the necessary forms and furnish the necessary blanks to enable collectors of internal revenue to issue the certificates required hereby and make such provisions that certificates may be procured in localities convenient to the applicants; such certificates shall be issued without charge to the applicant and shall contain the name, age, local residence and occupation of the applicant, and such other description of the applicant as shall be prescribed by the secretary of the treasury, and a duplicate thereof shall be filed in the office of the collector of internal revenue for the district within which such Chinaman makes application.

Sec. 8. That any person who shall knowingly and falsely alter or substitute any name for the name written in such certificate or forge such certificate, or knowingly utter any forged or fraudulent certificate, or falsely personate any person named in such certificate, shall be guilty of a misdemeanor, and upon conviction thereof shall be fined in a sum not exceeding $1,000 or imprisoned in the penitentiary for a term of not more than five years.

Sec. 9. The secretary of the treasury may authorize the payment of such compensation in the nature of fees to the collectors of internal revenue, for services performed under the provisions of this act in addition to salaries now allowed by law as he shall deem necessary, not exceeding the sum of $1 for each certificate issued. [Approved May 5, 1892.]

CANADIAN RETALIATION.

This act provides that, with a view of securing reciprocal advantages for the citizens, ports and vessels of the United States, on and after the 1st day of August, 1892, whenever and so often as the president shall be satisfied that the passage through any canal or lock connected with the navigation of the St. Lawrence river, the great lakes or the waterways connecting the same, of any vessels of the United States or of cargoes or passengers in transit to any port of the United States, is prohibited or is made difficult or burdensome by the imposition of tolls or otherwise which, in view of the free passage through the St. Mary's Falls canal, now permitted to vessels of all nations, he shall deem to be reciprocally unjust and unreasonable, he shall have the power, and it shall be his duty, to suspend, by proclamation to that effect, for such time and to such extent (including absolute prohibition) as he shall deem just, the right of free passage through the St. Mary's Falls canal, so far as it relates to vessels owned by the subjects of the government so discriminating against the citizens, ports or vessels of the United States or to any cargoes, portions of cargoes or passengers in transit to the ports of the government making such discrimination, whether carried in vessels of the United States or of other nations.

In such case and during such suspension tolls shall be levied, collected and paid as follows, to-wit: Upon freight of whatever kind or description, not to exceed $2 per ton; upon passengers, not to exceed $5 each, as shall be from time to time determined by the president: Provided, That no tolls shall be charged or collected upon freight or passengers carried to and landed at Ogdensburg or any port west of Ogdensburg and south of a line drawn from the northern boundary of the state of New York through the St. Lawrence river, the great lakes and their connecting channels to the northen boundary of the state of Minnesota.

Sec. 2. All tolls so charged shall be collected under such regulations as shall be prescribed by the secretary of the treasury, who may require the master of each vessel to furnish a sworn statement of the amount and kind of cargo and the number of passengers carried and the destination of the same, and such proof of the actual delivery of such cargo or passengers at some port or place within the limits above named as he shall deem satisfactory; and until such proof is furnished such freight and passengers may be considered to have been landed at some port or place outside of those limits, and the amount of tolls which would have accrued if they had been so delivered shall constitute a lien, which may be enforced against the vessel in default wherever and whenever found in the waters of the United States. [Approved July 26, 1892.]

INDIAN-WAR PENSIONS.

This act provides that the secretary of the interior be, and he is hereby, authorized and directed to place on the pension roll the names of the surviving officers and enlisted men, including marines, militia, and volunteers of the military and naval service of the United States, who served for thirty days in the Black Hawk war, the Creek war, the Cherokee disturbances, or the Florida war with the Seminole Indians, embracing a period from 1832 to 1842, inclusive, and were honorably discharged, and such other officers, soldiers, and sailors as may have been personally named in any resolution of congress, for any specific service in said Indian wars, although their term of service may have been less than thirty days, and the surviving widows of such officers and enlisted men: Provided, That such widows have not re-married: Provided further, That this act shall not apply to any person not a citizen of the United States.

Sec. 2. That pensions under this act shall be at the rate of $8 a month, and payable from and after the passage of this act, for and during the natural lives of the persons entitled thereto.

Sec. 3. That before the name of any person shall be placed on the pension roll under this act proof shall be made, under such rules and regulations as the secretary of the interior may prescribe, of the right of the applicant to a pension; and any person who shall falsely and corruptly take any oath required under this act shall be deemed guilty of perjury; and the secretary of the interior shall cause to be stricken from the pension roll the name of any person whenever it shall be made to appear by proof satisfactory to him that such name was put upon such roll through false and fraudulent representations, and that such person is not entitled to a pension under this act. The loss of the certificate of discharge shall not deprive any person of the benefits of this act, but other evidence of service performed and of an honorable discharge may be deemed sufficient.

Sec. 4. That this act shall not apply to any person who is receiving a pension at the rate of $8 a month or more, nor to any person receiving a pension of less than $8 a month, except for the difference between the pension now received (if less than $8 a month) and $8 a month.

Sec. 5. That the pension laws now in force, which are not inconsistent or in conflict with this act, are hereby made a part of this act, so far as they may be applicable thereto.

Sec. 6. That section 4716 of the revised statutes is hereby repealed, so far as the same relates to this act or to pensioners under this act. [Approved July 27, 1892.]

IN AID OF THE WORLD'S FAIR.

This act is as follows: "That for the purpose of aiding in defraying the cost of completing in a suitable manner the work of preparation for inaugurating the World's Columbian Exposition, authorized by the act of congress approved April 25, A. D. 1890, to be held at the city of Chicago, in the state of Illinois, there shall be coined at the mints of the United States silver half-dollars of the legal weight and fineness, not to exceed 5,000,000 pieces, to be known as the Columbian half-dollar, struck in commemoration of the World's Columbian Exposition, the devices and designs upon which shall be prescribed by the director of the mint, with the approval of the secretary of the treasury; and said silver coins shall be manufactured from uncurrent subsidiary silver coins now in the treasury, and all provisions of law relative to the coinage, legal-tender quality, and redemption of the present subsidiary silver coins shall be applicable to the coins issued under this act, and when so recoined there is hereby appropriated from the treasury the said 5,000,000 of souvenir half-dollars, and the secretary of the treasury is authorized to pay the same to the World's Columbian Exposition, upon estimates and vouchers certified by the president of the World's Columbian Exposition, or in his absence or inability to act, by the vice-president, and by the director-general of the World's Columbian Commission, or in his absence or inability to act, by the president thereof, and the secretary of the treasury, for labor done, materials furnished, and services performed in prosecuting said work of preparing said Exposition for opening as provided by said act approved April 25, 1890; and all such estimates and vouchers shall be made in duplicate, one to be filed with the secretary of the treasury, the other to be retained by the World's Columbian Exposition. Provided, however, That before the secretary of the treasury shall pay to the World's Columbian Exposition any part of the said 5,000,000 silver coins, satisfactory evidence shall be furnished him showing that the sum of at least $10,000,000 has been collected and disbursed as required by said act. And provided, That the said World's Columbian Exposition shall furnish a satisfactory guaranty to the secretary of the treasury that any further sum actually necessary to complete the work of said Exposition to the opening thereof has been or will be provided by said World's Columbian Exposition; but nothing herein shall be so construed as to delay or postpone the preparation of the souvenir coins hereinbefore provided for. And there is hereby appropriated, out of any moneys in the treasury not otherwise appropriated, the sum of $50,000, or so much thereof as may be necessary to reimburse the treasury for loss on the recoinage herein authorized."

Section 2 provides that the cost and expenses of maintaining the fair shall be paid out of the funds of the World's Columbian Exposition.

Sec. 3 provides for 50,000 bronze medals and 50,000 diplomas to be awarded exhibitors.

Sec. 4 is as follows: "That it is hereby declared that all appropriations herein made for, or pertaining to, the World's Columbian Exposition are made upon the condition that the said exposition shall not be opened to the public on the first day of the week, commonly called Sunday; and if said appropriations be accepted by the corporation of the State of Illinois, known as the World's Columbian Exposition, upon that condition, it shall be, and it is hereby made the duty of the World's Columbian Commission, enacted by the act of congress of April 25, 1890, to make such rules or modification of the rules of said corporation as shall require the closing of the Exposition on said first day of the week, commonly called Sunday." [Approved Aug. 6, 1892.]

HOURS OF DAILY SERVICE.

This act provides that the service and employment of all laborers and mechanics who are now or may hereafter be employed by the government of the United States, by the District of Columbia, or by any contractor or sub-contractor upon any of the public works of the United States or of the said District of Columbia, is hereby limited and restricted to eight hours in any one calendar day, and it shall be unlawful for any officer of the United States government or of the District of Columbia or any such contractor or sub-contractor whose duty it shall be to employ, direct, or control the services of such laborers or mechanics to require or permit any such laborer or mechanic to work more than eight hours in any calendar day except in case of extraordinary emergency.

Sec. 2. That any officer or agent of the government of the United States or of the District of Columbia, or any contractor or subcontractor whose duty it shall be to employ, direct or control any laborer or mechanic employed upon any of the public works of the United States or of the District of Columbia, who shall intentionally violate any provision of this act, shall be deemed guilty of a misdemeanor, and for each and every such offense shall, upon conviction, be punished by a fine not to exceed $1,000, or by imprisonment for not more than six months, or by both such fine and imprisonment, in the discretion of the court having jurisdiction thereof.

Sec. 3. The provisions of this act shall not be so construed as to in any manner apply to or affect contractors or sub-contractors, or to limit the hours of daily service of laborers or mechanics engaged upon the public works of the United States or of the District of Columbia for which contracts have been entered into prior to the passage of this act. [Approved Aug. 1, 1892.

GRANTING PENSIONS TO ARMY NURSES.

This act provides that all women employed by the surgeon-general of the army as nurses, under contract or otherwise, during the late war of the rebellion, or who were employed as nurses during such period by authority which is recognized by the war department and who rendered actual service as nurses in attendance upon the sick or wounded in any regimental post, camp or general hospital of the armies of the United States for a period of six months or more and who were honorably relieved from such service and who are now or may hereafter be unable to earn a support, shall, upon making due proof of the fact according to such rules and regulations as the secretary of the interior may provide, be placed upon the list of pensioners of the United States and be entitled to receive a pension of $12 per month, and such pension shall commence from the date of filing of the application in the pension office after the passage of this act: Provided, That no person shall receive more than one pension for the same period. No fees for prosecuting claims of this character are allowed. [Approved Aug. 5, 1892.]

PRESIDENTIAL SUCCESSION.

This act provides that the secretary of agriculture shall be next after the secretary of the interior in the presidential succession.

THE PRICE OF SILVER IN PENCE AND FRACTIONS.

[From Gold and Silver, by John S. Hanson.]

The price of silver is made in London and is quoted for an ounce of silver, English standard, which is .925 fine and contains 444 grains of pure silver. The American standard ounce is .900 fine and contains 432 grains of pure silver. The "fine" ounce is, of course, 1000 fine and contains 480 grains of pure silver. The American silver dollar is 412½ grains standard, or 371¼ grains pure, and the dollar of fractional silver 385.8 grains standard, or 347.22 grains pure. To make the bullion value of a silver dollar equal to the par value, silver would have to be quoted at 59 pence per ounce, English standard, making the fine ounce worth $1.2929+, and the American standard ounce worth $1.164+. The following table shows the value of the three different standard ounces and of the silver dollar and a dollar of subsidiary silver coin at different prices ranging from 30 to 60 pence in London, and also at one penny and fractions thereof:

PENCE.	*English oz., 444 Grains.*	*American oz., 432 Grains.*	*Fine oz., 480 Grains.*	*Silver Dollar, 371¼ Grains.*	*Subsidiary Silver, 347.22 Grains.*

15-16	1.9010	1.8496	2.0551	1.5895	1.4866
1	2.0277	1.9729	2.1921	1.6954	1.5857

From the above the bullion value may be calculated at any price without trouble. As, for instance, if silver were quoted in London at 40 7-16 pence, the value of a silver dollar and of a dollar of fractional silver would be as follows:

	Silver Dollar.	*Dollar of Subsidiary Silver.*
40 pence	67.8195 cents.	63.4297 cents.
7-16 pence	.7418 cents.	.6938 cents.
40 7-16 pence.	68.5613 cents.	64.1235 cents.

The bullion value of a silver dollar, with silver quoted in London at 40 7-16 pence per ounce, is 68.56 cents and of one dollar of fractional silver 64.12 cents.

BROKERS' TECHNICALITIES.

A bull is one who operates to raise the value of stocks, that he may buy for a rise.

A bear is one who sells stocks for future delivery, which he does not own at time of sale.

A corner is when the bears cannot buy or borrow the stock to deliver in fulfillment of their contracts.

Overloaded is when the bulls cannot take and pay for the stock they have purchased.

A put and call is when a person gives so much per cent for the option of buying or selling so much stock on a certain fixed day, at a price fixed the day the option is given.

Short is when a person or party sells stocks when they have none and expect to buy or borrow in time to deliver.

Long is when a person or party has a plentiful supply of stocks.

A pool or ring is a combination formed to control the price of stocks.

A broker is said to carry stocks for his customer when he has bought and is holding it for his account.

A wash is a pretended sale by special agreement between buyer and seller for the purpose of getting a quotation reported.

COINS OF THE UNITED STATES.

GOLD.

DENOMINATIONS.	Coinage Commenced.	Amount Coined from 1793 to June 30, 1891.	Standard Weight, Grains.	Weight Prior to 1834, Grains.	Abrasion Allowed in Gr'ns.	Least Current Weight in Grains.	Unless Artificially Reduced Should Continue Current.
Double eagle	1850	$1,103,292,980	516.	.....	2.58	513.42	50 years.
Eagle	1795	202,173,470	258.	270.	1.29	256.71	35 years.
Half-eagle	1795	191,704,755	129.	135.	.64	128.36	20 years.
Three dollars	1854	1,619,376	77.4	.....	.38	77.02	.....

John H. Vincent	Topeka, Kas.
James W. Fitzgerald	New Orleans, La.
Isaac W. Joyce	Chattanooga, Tenn.
John P. Newman	Omaha, Neb.
Daniel A. Goodsell	San Francisco, Cal.

PRESBYTERIAN CHURCH.

Moderator, Rev. William C. Young, D. D., LL. D., Danville, Ky.
Stated Clerk, Rev. W. H. Roberts, D. D., Cincinnati, O.
Permanent Clerk, Rev. W. E. Moore, D. D., Columbus, O.

THE BOARDS OF THE CHURCH.

Home Missions, Rev. John Hall, D. D., LL. D., president, New York.
Foreign Missions, Rev. John D. Wells, D. D., president, Brooklyn, N. Y.
Education, Rev. G. D. Baker, D. D., president, Philadelphia, Pa.
Publication and Sunday-School Work, Hon. R. N. Wilson, president, Philadelphia, Pa.
Church Erection, Rev. S. D. Alexander, D. D., president, New York.
Ministerial Relief, George Junkin, LL. D., president, Philadelphia, Pa.
Freedmen, Rev. E. P. Cowan, D. D., president, Pittsburg, Pa.
Aid for Colleges, Rev. Herrick Johnson, D. D., LL. D., president, Chicago, Ill.

CONGREGATIONAL CHURCH.

A. B. C. F. M., R. S. Storrs, D. D., LL. D., president, Brooklyn, N. Y.
College and Education Society, Hon. Nathaniel Shipman, president, Hartford, Conn.
Congregational Association, Hon. Rufus S. Frost, president, Chelsea, Mass.
Church Building Society, W. M. Taylor, D. D., LL. D., president, New York.
Home Missionary Society, Gen. O. O. Howard, president, Amherst, Mass.
Missionary Association, Merrill E. Gates, LL. D., president, New York.
Sunday-School and Pub. Society, S. B. Capen, president, Boston, Mass.
New West Education Commission, W. E. Hale, president, Chicago.

BAPTIST DENOMINATION.

Missionary Union, Augustus H. Strong, D. D., president, Rochester, N. Y.
Publication Society, S. A. Crozier, president, Upland, Pa.
Home Mission Society, Hon. E. Nelson Blake, president, Arlington, Mass.
Historical Society, Hon. J. L. Howard, Hartford, Conn.
Education Society, Rev. R. M. Dudley, president, Georgetown, Ky.

SOUTHERN BAPTIST CONVENTION.

Judge Jonathan Haralson, pres., Selma, Ala.
Foreign Mission Board, H.H. Harris, D.D., LL.D., president, Richmond, Va.; H. A. Tupper, D.D., corresponding secretary, Richmond, Va.
Home Mission Board, Hon. J. D. Stewart, president; I. T. Tichenor, D. D., corresponding secretary, Atlanta, Ga.

LEGAL HOLIDAYS.

There is no national holiday—that is, one by order of an act of congress. The different states have set apart certain days as legal holidays as follows:

New Year's Day (Jan. 1)—All the states except Delaware, Massachusetts, New Hampshire and Rhode Island.

Jan. 8, Louisiana.

Jan. 19 (Lee's Birthday)—Georgia and Virginia.

Feb. 12 (Lincoln's Birthday)—Illinois.

Feb. 22 (Washington's Birthday)—All the states except Arkansas, Delaware, Iowa, Mississippi and Vermont.

Mardi-Gras—Alabama and Louisiana.

March 2 (Anniversary of Texan Independence)—Texas.

March 4 (Firemen's Anniversary)—Louisiana.

State election day (First Wednesday in April)—Rhode Island.

Good Friday—Alabama, Louisiana, Maryland, Pennsylvania and Tennessee.

April 21 (Anniversary of the Battle of San Jacinto)—Texas.

April 26 (Memorial Day)—Alabama and Georgia.

May 10 (Memorial Day)—North Carolina.

May 20 (Anniversary of the Signing of the Mecklenburg Declaration)—North Carolina.

May 30 (Decoration Day)—Arizona, California, Colorado, Connecticut, Iowa, Illinois, Indiana, Kansas, Maine, Massachusetts, Michigan, Minnesota, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, Tennessee, Utah, Vermont, Wisconsin, Washington and Wyoming.

June 3 (Jeff Davis' Birthday)—Florida.

July 4—In all the states.

July 24 (Pioneers' Day)—Utah.

Sept. 4, 1893 (Arbor Day)—Colorado, Connecticut, Illinois, Indiana, Iowa, Kansas, Maine, Massachusetts, Montana, Nebraska, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, South Dakota and Washington.

Oct. 31 (Admission Anniversary)—Nebraska.

November (General Election Day)—Arizona, California, Florida, Idaho, Indiana, Kansas, Maryland, Missouri, Montana, Nevada, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oregon, South Carolina, South Dakota, Tennessee, Texas, Washington, Wisconsin and Wyoming.

November, Last Thursday of (Thanksgiving Day)—All the states except Alabama, Louisiana and Mississippi.

Dec. 25 (Christmas)—In all the states.

Arbor Day—In Idaho, Kansas, Rhode Island and Wyoming is appointed by the governor. In Nebraska it is April 22, in California Sept. 9 and in Colorado it is the third Friday in April.

Military Societies of the United States.

SOCIETY OF THE CINCINNATI.

The Order of Cincinnati was instituted at the cantonments of the continental army on the Hudson river May 10, 1783. Membership is restricted to the eldest male descendant of an original member or to the eldest male descendant of any continental or French officer of the revolution who was qualified by his service to become an original member. There are seven state societies, there having been originally thirteen. Gen. Washington was the first president-general and Alexander Hamilton was the second. Ex-Secretary of State Fish is the ninth. The number of members May, 1890, was 439. Among the honorary members are President Harrison, President-elect Cleveland, Maj.-Gen. Howard and Maj.-Gen. Schofield.

General Officers.

President-General, Hon. Hamilton Fish, LL. D., of New York, New York city.
Vice-President-General, Hon. Robert M. McLane of Maryland, Baltimore.
Treasurer-General, Mr. John Schuyler of New York, New York city.
Assistant Treasurer-General, Dr. Herman Burgin of New Jersey, Germantown, Pa.
Secretary-General, Hon. Asa Bird Gardiner, LL. D., of Rhode Island, Garden City, N. Y.
Assistant Secretary-General, Thomas P. Lowndes, Charleston, S. C.

State Societies.

Massachusetts—Organized June 9, 1783; Winslow Warren, president.
New York—Organized June 9, 1778; Hon. Hamilton Fish, LL. D., president, New York city.
Pennsylvania—Organized Oct. 4, 1783; Hon. William Wayne, president, Paoli, Chester county, Pa.
Maryland—Organized Nov. 21, 1783; Hon. Robert Milligan McLane, president, Baltimore, Md.
Rhode Island—Organized June 24, 1783; Hon. Nathaniel Greene, president, Newport, R. I.
New Jersey—Organized June 11, 1783; Hon. Clifford Stanley Sims, president, Mount Holly, N. J.
South Carolina—Organized Aug. 29, 1783; Rev. Charles Cotesworth, Pinckney, D. D., president, Charleston, S. C.
France—Organized at Paris Jan. 7, 1784; reinstituted July 1, 1887; Marquis de Rochambeau, president, 51 Rue de Naples, Paris.

SOCIETY OF THE SONS OF THE AMERICAN REVOLUTION.

[Organized June 29, 1876.]

General Officers.

Elected April 30, 1892.

President-General—Gen. Horace Porter, 15 Broad street, New York city.
Honorary Vice-President-General — Chauncey M. Depew, LL. D., New York city.
Honorary Vice-President-General — Hon. Thomas F. Bayard, Wilmington, Del.
Honorary Vice-President-General—Gen. Bradley T. Johnson, Baltimore, Md.
Vice-President-General—Jonathan Trumbull, Norwich, Conn.
Vice-President-General—Gen. J. C. Breckinridge, U. S. A., Washington city.
Vice-President-General—Hon. Henry M. Shepard, Chicago, Ill.
Vice-President-General — Theodore S. Peck, Burlington, Vt.
Vice-President-General—Paul Revere, Morristown, N. J.
Secretary-General—A. Howard Clark, Smithsonian Institution, Washington city.
Treasurer-General—C. W. Haskins, 2 Nassau street, New York city.
Registrar-General—G. Brown Goode, Washington city.
Historian-General—Henry Hall, New York city.
Surgeon-General—Aurelius Bowen, M. D., Nebraska.
Chaplain-General—The Rt.-Rev. Charles Edward Cheney, D. D., Chicago, Ill.

State Societies and Officers.

Alabama—J. F. Johnson, president, Birmingham.
Arkansas—S. W. Williams, president, Little Rock.
California—John W. Moore, U. S. N., president, Mare Island navy yard.
Connecticut—Jonathan Trumbull, president, Norwich.
Delaware—Hon. Thos. F. Bayard, president, Wilmington.
District of Columbia—Gen. A. W. Greely, president, Washington.
Illinois—H. M. Shepard, president, Chicago.
Indiana—W. E. Niblack, president, Indianapolis.
Kansas—Avery Washburn, president, Topeka.
Kentucky — John W. Buchanan, president, Louisville.
Louisiana—W. H. Jack, president, Natchitoches.
Maine—J. E. DeWitt, president, Portland.
Maryland—Bradley T. Johnson, president, Baltimore.
Massachusetts—E. S. Barrett, president, Concord.
Michigan—H. B. Ledyard, president, Detroit.
Minnesota—Albert Edgerton, president, St. Paul.
Missouri—Nathan Cole, president, St. Louis.
Nebraska—W. W. Copeland, president, Omaha.
New Hampshire — Hon. George C. Gilmore, president, Manchester.
New Jersey—John Whitehead, president, Morristown.
New York — Chauncy M. Depew, president, New York city.
Ohio—Gen. Henry M. Cist, president, Cincinnati.
Oregon and Washington—Col. Thomas M. Anderson, president, Vancouver barracks, Washington.
Rhode Island—Alfred Stone, president, Providence.
South Carolina—J. P. Richardson, president, Columbia.
Tennessee—D. C. Kelly, president, Nashville.
Vermont — Hon. Levi K. Fuller, president, Brattleboro.
Virginia—W. W. Henry, president, Richmond.
West Virginia—J. J. Jacob, president, Wheeling.
Wisconsin—Don J. Whittemore, president.

SONS OF THE REVOLUTION.

[Organized 1875.]

General Officers.

General President.....John Lee Carroll, Md.
General Vice-President....William Wayne, Pa.
General Treasurer.....R. M. Cadwalader, Pa.
General Secretary.....J. M. Montgomery, N.Y.
General Asst.-Secretary.T. M. Cheeseman, N.Y.
General Chaplain....D. C. Weston, D. D., N.Y.

There are six other state societies of the Sons of the Revolution now organized and others are being formed. The Pennsylvania society numbers 420 members and the officers are: President, William Wayne; vice-president, Richard M. Cadwalader; secretary, Dr. George H. Burgin. The District of Columbia society numbers 104 members and the officers are: President, Gov. John Lee Carroll; vice-president, T. B. M. Myers; secretary, Arthur H. Dutton. The Iowa society has been formed under the presidency of the Rt.-Rev. William Stevens Perry, bishop of Iowa, and flourishing societies have been organized in Massachusetts, Georgia and New Jersey.

[These two societies (Sons of the American Revolution and Sons of the Revolution) are alike in their aims and objects. These are fostering among themselves and their descendants the patriotic spirit of the men who in the naval, military or civil service of the colonies assisted in advancing the independence of the United States, and to collect and preserve the history of the revolutionary war and to promote intercourse and fraternal feeling among the members. Eligibility to membership in each is confined to male descendants from an ancestor who as a soldier, sailor or civil official assisted in establishing American independence during the war of the revolution.]

MILITARY ORDER OF THE LOYAL LEGION OF THE UNITED STATES.

[Instituted 1865.]

Commander-in-Chief—Bvt. Maj.-Gen. R. B. Hayes, U. S. V., Fremont, Ohio.
Senior Vice-Commander-in-Chief — Rear-Admiral J. J. Almy, U. S. N., Washington, D. C.
Junior Vice-Commander-in-Chief—Col. Nelson Cole, U. S. V., St. Louis, Mo.
Recorder-in-Chief—Bvt. Lieut.-Col. J. P. Nicholson, U. S. V., Philadelphia, Pa.

Commanderies.

Pennsylvania—Bvt. Maj.-Gen. D. McM. Gregg, U. S. V., commander; Bvt. Lieut.-Col. John P. Nicholson, U. S. V., recorder, Philadelphia.
New York—Bvt. Maj.-Gen. Wager Swayne, U. S. A., commander; Bvt. Lieut.-Col. Charles N. Swift, U. S. V., recorder, New York.
Maine—Bvt. Brig.-Gen. T. W. Hyde, U. S. V., commander; Bvt. Maj. Henry S. Burrage, U. S. V., recorder, Portland.
Massachusetts—Bvt. Brig.-Gen. Thomas Sherwin, U. S. V., commander; Col. Arnold A. Rand, U. S. V., recorder, Boston.
California—First Lieut. Samuel W. Backus, U. S. V., commander; Bvt. Lieut.-Col. William R. Smedberg, U. S. A. recorder, San Francisco.
Wisconsin—Bvt. Lieut.-Col. Joseph McC. Bell, U. S. V., commander; Capt. A. Ross Houston, U. S. V., recorder, Milwaukee.
Illinois—Capt. Eugene Cary, U. S. V., commander; Lieut.-Col. Chas. W. Davis, U. S. V., recorder, Chicago.
District of Columbia—Col. Redfield Proctor, U. S. V., commander; Bvt. Maj. William P. Huxford, U. S. A., recorder, Washington.
Ohio—Maj.-Gen. Jacob D. Cox, U. S. V., commander; Capt. Robert Hunter, U. S. V., recorder, Cincinnati.
Michigan—Bvt. Brig.-Gen. William H. Withington, U. S. V., commander; Bvt. Col. James T. Sterling, U. S. V., recorder, Detroit.
Minnesota—Bvt. Maj.-Gen. Wesley Merritt, U. S. A., commander; Bvt. Maj. George Q. White, U. S. A., recorder, St. Paul.
Oregon—Col. Daniel B. Bush, U. S. V., commander; Capt. Gavin E. Cankin, U. S. V., recorder, Portland.
Missouri—Maj. Charles E. Pearce, U. S. V., commander; Capt. William R. Hodges, U. S. V., recorder, St. Louis.
Nebraska—Bvt. Gen. John B. Brooke, U. S. A., commander; Maj. Horace Ludington, U. S. V., recorder, Omaha.
Kansas—Capt. George R. Peck, U. S. V., commander; Capt. Forrest H. Hathaway, U. S. A., recorder, Fort Leavenworth.
Iowa—Capt. Charles E. Putnam, U. S. V., commander; Capt. Voltaire P. Twombly, U. S. V., recorder, Des Moines.
Colorado—Bvt. Col. George E. Randolph, U. S. V., commander; Bvt. Capt. James R. Saville, U. S. V., recorder, Denver.
Indiana—Maj.-Gen. Lewis Wallace, U. S. V., commander; First Lieut. Benjamin B. Peck, U. S. V., recorder, Indianapolis.
Washington—Bvt. Brig.-Gen. Luther P. Bradley, U. S. A., commander; First Lieut. Alanson B. Case, U. S. V., recorder, Tacoma.
Vermont—Brig.-Gen. Stephen Thomas, U. S. V., commander; First Lieut. William L. Greenleaf, U. S. V., recorder, Burlington.

GRAND ARMY OF THE REPUBLIC.

[Organized 1866.]

Commander-in-Chief—A. G. Weissert, Milwaukee, Wis.
Senior Vice-Commander-in-Chief—R. A. Warfield, San Francisco, Cal.
Junior Vice-Commander-in-Chief — Peter B. Ayars, Wilmington, Del.
Surgeon-General—William C. Wile, Danbury, Conn.
Chaplain-in-Chief—D. R. Lowell, Ft. Riley, Kas.
Adjutant-General— E. B. Gray, Milwaukee, Wis.
Quartermaster-General—John Taylor, Philadelphia, Pa.
Inspector-General—George L. Goodale, Medford, Mass.

The headquarters of the Grand Army of the Republic are established at 450 Broadway, Milwaukee, Wis.

Department Commanders.

Alabama—William Snyder, comdr., Birmingham; W. J. Pender, A. A. G., Birmingham.
Arizona—Ed Schwartz, comdr., Phœnix; C. D. Belden, A. A. G., Phœnix.
Arkansas—Wm. H. H. Clayton, comdr., Eureka Springs; S. K. Robinson, A. A. G., Fort Smith.
California—J. B. Fuller, comdr, Marysville; T. C. Masteller, A. A. G., San Francisco.
Colorado and Wyoming—John C. Kennedy, comdr., Denver; J. W. Anderson, A. A. G., Denver.
Connecticut—B. E. Smith, comdr., Willimantic; John H. Thacher, A. A. G., Hartford.
Delaware—G. W. Stradley, comdr., Bridgeville; E. A. Finley, A. A. G., Wilmington.
Florida—J. De V. Hazzard, comdr., Eustis; T. S. Wilmarth, A. A. G., Jacksonville.

Georgia—T. F. Gleason, comdr., Savannah; Henry Burns, A. A. G., Macon.
Idaho—A. O. Ingalls, comdr., Murray; William King, A. A. G., Murray.
Illinois—Edwin Harlan, comdr, Marshall; F. W. Spink, A. A. G., Chicago.
Indiana—J. B. Cheadle, comdr., Frankfort; Irvin Robbins, A. A. G., Indianapolis.
Indian Territory—R. H. Hill, comdr., Muskogee; A. W. Robb, A. A. G., Muskogee.
Iowa—J. J. Steadman, comdr., Council Bluffs; M. M. Leonard, A. A. G., Des Moines.
Kansas—A. R. Green, comdr., Lecompton; A. B. Campbell, A. A. G., Topeka.
Kentucky—E. H. Hobson, comdr., Greensburg; J. T. Russell, A. A. G., Greensburg.
Louisiana and Mississippi—A. S. Badger, comdr., New Orleans; C. W. Keeting, A. A. G., New Orleans.
Maine—Isaac Dyer, comdr., Skowhegan; C. F. Jones, A. A. G., Skowhegan.
Maryland—W. A. Bartlett, comdr., Baltimore; L. M. Zimmerman, A. A. G., Baltimore.
Massachusetts—J. K. Churchill, comdr., Worcester; H. O. Moore, A. A. G. Boston.
Michigan—H. S. Dean, comdr., Ann Arbor; C. V. R. Pond, A. A. G., Ann Arbor.
Minnesota—L. M. Lange, comdr., Marshall; J. L. Brigham, A. A. G., St. Paul.
Missouri—C. W. Whitehead, comdr., Kansas City; T. B. Rodgers, A. A. G., St. Louis.
Montana—J. J. Sloane, comdr., Missoula; J. J. York, A. A. G., Butte.
Nebraska—C. J. Dillworth, comdr., Hastings; J. W. Bowen, A. A. G., Lincoln.
New Hampshire—Daniel Hall, comdr., Dover; James Minot, A. A. G., Concord.
New Jersey—R. A. Donnelly, comdr., Trenton; B. W. Mains, A. A. G., Trenton.
New Mexico—S. W. Dorsey, comdr., Raton; T. W. Collier, A. A. G., Raton.
New York—T. L. Poole, comdr., Syracuse; W. A. Wallace, A. A. G., Albany.
North Dakota—S. G. Roberts, comdr., Fargo; E. C. Geary, A. A. G., Fargo.
Ohio—Isaac F. Mack, comdr., Sandusky; J. B. Davis, A. A. G., Sandusky.
Oklahoma—D. F. Wyatt, comdr., Kingfisher; J. P. Jones, A. A. G., Hennessey.
Oregon—H. H. Northup, comdr., Portland; R. S. Greenleaf, A. A. G., Portland.
Pennsylvania—J. P. Taylor, comdr., Reedsville; S. P. Town, A. A. G., Philadelphia.
Potomac—A. F. Densmore, comdr., Washington; A. Hendricks, A. A. G., Washington.
Rhode Island—D. S. Ray, comdr., E. Providence; E. F. Prentiss, A. A. G., Providence.
South Dakota—J. B. Hart, comdr., Aberdeen; John Ackley, A. A. G., Aberdeen.
Tennessee—H. C. Whitaker, comdr., New Market; Frank Seaman, A. A. G., Knoxville.
Texas—O. G. Peterson, comdr., Springtown; J. C. Bigger, A. A. G., Dallas.
Utah—J. R. Elliott, comdr., Ogden; C. M. Brough, A. A. G., Ogden.
Vermont—Hugh Henry, comdr., Chester; B. Cannon, Jr., A. A. G., Bellows Falls.
Virginia and North Carolina—Edgar Allen, comdr., Richmond; W. N Eaton, A. A. G., Portsmouth.
Washington and Alaska—J. S. Brown, comdr., Spokane; A. J. Smith, A. A. G., Spokane.
West Virginia—C. E. Anderson, comdr., Weston; T. C. Miller, A. A. G., Fairmont.
Wisconsin—C. B. Welton, comdr., Madison; J. H. Whitney, A. A. G., Madison.

SONS OF VETERANS.

Officers of Commandery-in-Chief.

Commander-in-Chief—Marvin E. Hall, Hillsdale, Mich.
Senior Vice-Commander-in-Chief—George W. Pollitt, Paterson, N. J.
Junior Vice-Commander-in-Chief—John W. Miller, Helena, Mont.
Adjutant-General—Elias P. Lyon, Hillsdale, Mich.
Quartermaster-General—R. Loebenstein, 84 La-Salle street, Chicago, Ill.

Division Commanders.

Alabama and Tennessee—W. D. Good, Greenville, Tenn.
Arkansas—Lewis E. Finney, Huntington.
California—Thomas M. Gilbert, Fresno.
Colorado—Abraham L. Fugard, Pueblo.
Connecticut—A. E. Chandler, Norwich.
Florida—J. W. V. R. Plummer, Key West.
Illinois—Edward A. Wells, Murphysboro.
Indiana—Newton J. McGuire, Rising Sun.
Iowa—Lewis A. Dilley, Davenport.
Kansas—Frank A. Agnew, Newton.
Kentucky—W. R. Heflin, Maysville.
Maine—F. E. Fairfield, Augusta.
Maryland—Robert W. Wilson, Baltimore.
Massachusetts—Walter H. Delano, Canton.
Michigan—Frank M. Gier, Hillsdale.
Minnesota—Francis G. Drew, Minneapolis.
Missouri—E. W. Raymond, St. Louis, 904 Olive street.
Montana—W. S. Votaw, Helena.
Nebraska—P. A. Barrows, St. Edwards.
New Hampshire—Frank C. Smith, Lebanon.
New Jersey—Louis L. Drake, Elizabeth.
New York—Winfield S. Oberdorf, Dansville.
Ohio—Filmore Musser, Portsmouth.
Oregon—C. E. Drake, Portland.
Pennsylvania—Walter E. Smith, Allentown.
Rhode Island—T. M. Sweetland, Pawtucket.
South Dakota—D. L. Printup, Britton.
Vermont—Frank L. Greene, St. Albans.
Washington—Harry Rosenhaupt, Spokane.
West Virginia—G. Ed. Sylvis, Wheeling.
Wisconsin—R. L. McCormick, Hayward.

All camps in the territories of Idaho and Utah are under the jurisdiction of the commander of the division of Montana. All camps in the territories of Arizona, New Mexico and Wyoming are under the jurisdiction of the commander of the division of Colorado. All camps in Texas are under the jurisdiction of the commander of the division of Arkansas. All camps in the states of Louisiana, Mississippi and Georgia are under the jurisdiction of the commander of the division of Alabama and Tennessee. All camps in Virginia, North and South Carolina and Delaware are under the jurisdiction of the commander of the division of Maryland. All camps in Canada are under the jurisdiction of the commander of the division of Vermont. All camps in Alaska are under the jurisdiction of the commander of the division of Washington.

SOCIETY OF THE WAR OF 1812.

A society with this title was founded by veterans of the war in Philadelphia, Pa., in 1854. It has been inactive for some years and until recently. The present officers are: *Pres.*, John Cadwalader, Pa.; *Vice-Pres'ts*, Rear-Admiral Roe, U. S. N.; Col. M. I. Ludington, U. S. A.; Edward Trenchard, N. Y.; John Biddle Porter, Pa.; Appleton Morgan, N. Y.; *Registrar*, A. J. Reilly, Pa.; *Ex.-Com.*, Capt. H. H. Bellas, U. S. A.; James Glentworth, Pa.; C. H. Murray, N. Y.; H. M. Hoyt, W. Va.; A. Nelson Lewis, Pa.; R. W. Wilcox, M. D., N. Y.; H. D. Warren, Mass.; W. E. Bullus, Pa.; D. M. Hobart, Pa.; *Sec.*, P. S. Hay, Philadelphia, Pa., the present headquarters, where the general meeting the society is held annually, Feb. 18.

HISTORY OF THE UNITED STATES FLAG.

The quartermaster-general of the army has issued the following bulletin regarding the history of the American flag:

The American congress, in session at Philadelphia, established by its resolution of June 14, 1777, a national flag for the United States of America. The resolution was as follows:

"*Resolved*, That the flag of the thirteen united states be thirteen stripes, alternate red and white; that the union be thirteen stars, white in a blue field, representing a new constellation."

Although nearly a year previous, July 4, 1776, these thirteen united states had been declared independent, this resolution is the first legislative action recorded relating to a national flag for the new sovereignty.

The use of thirteen stripes was not a new feature, as they had been introduced (in alternate white and blue) on the upper left-hand corner of a standard presented to the Philadelphia Light Horse by its captain in the early part of 1775, and moreover the union flag of the thirteen united colonies raised at Washington's headquarters, at Cambridge, Jan. 2, 1776, had the thirteen stripes just as they are this day; but it also had the crosses of St. George and St. Andrew on a blue ground in the corner. There is no satisfactory evidence, however, that any flag bearing the union of the stars had been in public use before the resolution of June, 1777.

It is not known to whom the credit of designing the stars and stripes is due. It is claimed that a Mrs. John Ross, an upholsterer, who resided on Arch street, Philadelphia, was the maker of the first flag combining the stars and stripes. Her descendants assert that a committee of congress, accompanied by General Washington, who was in Philadelphia in June, 1776, called upon Mrs. Ross and engaged her to make the flag from a rough drawing which, at her suggestion, was redrawn by General Washington, with pencil, in her back parlor, and the flag thus designed was adopted by congress. Although the resolution establishing the flag was not officially promulgated by the secretary of congress until Sept. 3, 1777, it seems well authenticated that the stars and stripes were carried at the battle of the Brandywine, Sept. 11, 1777, and thenceforward during all the battles of the revolution.

Soon after its adoption the new flag was hoisted on the naval vessels of the United States. The ship Ranger, bearing the stars and stripes and commanded by Captain Paul Jones, arrived at a French port about Dec. 1, 1777, and her flag received on Feb. 14, 1778, the first salute ever paid to the American flag by foreign naval vessels. The flag remained unchanged for about eighteen years after its adoption. By this time two more states (Vermont and Kentucky) had been admitted to the union, and on Jan. 13, 1794, congress enacted that from and after the 1st day of May, 1795, the flag of the United States be fifteen stripes, alternate red and white; that the union be fifteen stars, white in a blue field.

This flag was the national banner from 1795 to 1818, during which period occurred the war of 1812, with Great Britain. By 1818 five additional states (Tennessee, Ohio, Louisiana, Indiana and Mississippi) had been admitted to the union, and therefore a further change in the flag seemed to be required. After considerable discussion in congress on the subject, the act of April 4, 1818 was passed, which provided:

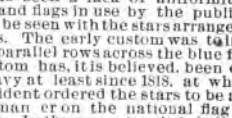
"1. That from and after the 4th day of July next the flag of the United States be thirteen horizontal stripes, alternate red and white; that the union have twenty stars, white in a blue field.

"2. That on the admission of every new state into the union one star be added to the union of the flag and that such addition shall take effect on the 4th of July next succeeding such admission."

The return to the thirteen stripes of the 1777 flag was due in a measure to a reverence for the standard of the revolution, but it was also due to the fact that a further increase of the number of stripes would have made the width of the flag out of proportion to its length unless the stripes were narrowed, and this would have impaired their distinctness when seen from a distance. A newspaper of the time said:

"By this regulation the thirteen stripes will represent the number of states whose valor and resources originally effected American independence, and the additional stars will mark the increase of the state since the present constitution."

No act has since been passed by congress altering this feature of the flag, and it is the same as originally adopted, except as to the number of stars in its union. In the war with Mexico the national flag bore twenty-nine stars in the union; during the late civil war thirty-five, and since July 4, 1891, forty-four stars. In none of the acts of congress relating to the flag has the manner of arranging the stars been prescribed, and in consequence there has been a lack of uniformity in the matter, and flags in use by the public generally may be seen with the stars arranged in various ways. The early custom was to insert the stars in parallel rows across the blue field, and this custom has, it is believed, been observed in the navy at least since 1818, at which time the president ordered the stars to be arranged in such manner on the national flag used in the navy. In the army, too, it is believed, the stars have always been arranged in horizontal rows across the blue field, but not always in vertical rows; the effect however being about the same as in the naval flag. Hereafter there will be no difference in the arrangement between the army and navy, as an agreement has been arrived at between the war and navy department on the subject. Since July 4, 1891, the arrangement of stars in the flag of the army and ensigns in the navy is as follows:



The national flags hoisted at camps or forts are made of bunting of American manufacture. They are of the following three sizes: The storm and recruiting flag, 8 feet in length by 4 feet 2 inches in width; the post flag, measuring 20 feet in length by 10 feet in width, the garrison, measuring 36 feet in length by 20 feet in width (this flag is hoisted only on holidays and great occasions). The union is one-third of the length of the flag and extends to the lower edge of the fourth red stripe from the top. The national colors carried by regiments of infantry and artillery and the battalion of engineers, on parade or in battle, are made of silk and are 6 feet 6 inches long and 6 feet wide and mounted on staffs. The field of the colors is 31 inches in length and extends to the lower edge of the fourth red stripe from the top.

The National Government.

EXECUTIVE DEPARTMENT.

President, Benjamin Harrison (Ind.)....$50,000
Priv. Sec., Elijah W. Halford (Ind.)..... 5,000
Vice-President, Levi P. Morton (N. Y.).... 8,000

HOW TO ESCAPE CHOLERA.

The New York department of health has issued some general directions as to food and attention to person believed to be essential in a time of cholera epidemic. The recommendations are as follows:

Healthy persons "catch" cholera by taking into their systems through the mouth, as in their food or drink, or from their hands, knives, forks, plates, tumblers, clothing, etc., the germs of the disease, which are always present in the discharges from the stomach and bowels of those sick with cholera.

Thorough cooking destroys the cholera germs; therefore,

Don't eat raw, uncooked articles of any kind, not even milk.

Don't eat or drink to excess. Use plain, wholesome, digestible food, as indigestion and diarrhœa favor an attack of cholera.

Don't drink unboiled water.

Don't eat or drink articles unless they have been thoroughly and recently cooked or boiled, and the more recent and hotter they are the safer.

Don't employ utensils in eating or drinking unless they have been recently put in boiling water; the more recent the safer.

Don't eat or handle food or drink with unwashed hands or receive it from the unwashed hands of others.

Don't use the hands for any purpose when soiled with cholera discharges; thoroughly cleanse them at once.

Personal cleanliness and cleanliness of the living and sleeping rooms and their contents and thorough ventilation should be rigidly enforced. Foul water-closets, sinks, Croton faucets, cellars, etc., should be avoided, and when present should be referred to the health board at once and be remedied.

The successful treatment and the prevention of the spread of this disease demand that its earliest manifestations be promptly recognized and treated; therefore,

Don't doctor yourself for bowel complaint, but *go to bed* and send for the nearest physician *at once.* Send for your family physician; send to a dispensary or hospital; send to the health department or send to the nearest police station for medical aid.

Don't wait, but *send* at once.

If taken ill in the street seek the nearest drug store, dispensary, hospital or police station and demand prompt medical attention.

Don't permit vomit or diarrheal discharges to come in contact with food, drink or clothing. These discharges should be received in proper vessels and kept covered until removed under competent directions. Pour boiling water on them, put a strong solution of carbolic acid in them—not less than one part of acid to twenty of hot soapsuds or water.

Don't wear, handle or use any articles of clothing or furniture that are soiled with cholera discharges. Pour boiling water on them or put them into it and scrub them with the carbolic acid solution mentioned above, and promptly request the health board to remove them.

Don't be frightened, but *do* be cautious and avoid excesses and unnecessary exposures of every kind.

THE NAMES OF COINS.

The florin, one of the most famous of modern coins, originated in Florence. Some say that it gave the name to the city, while others assert that it was first so called because it had on it a fleur-de-lis, from the Italian florone or "flower," for the same reason that an English silver piece is called a "crown," or certain gold pieces in France indifferently a "Napoleon" or a "Louis," or the ten-dollar gold piece in America an "eagle."

For several hundred years and down to a comparatively recent date money was coined at from twenty-five to thirty different cities in France that had inherited the privilege. Now all French money is coined at the Paris mint.

Few French gold pieces are, however, in circulation, except those bearing the head of Napoleon III., and silver pieces of the same coinage are almost as common. French silver coins wear admirably and pieces of the reign of Charles X., Louis XVIII. and Napoleon I. are very common.

The standard coins on the continent are—in France, the franc; in Spain, the peseta; in Italy, the lira; in Holland and Austria, the florin; in Germany, the mark; in Russia, the ruble.

Belgium and Switzerland use the French name for the piece of twenty sous. Each of these pieces is, like the American dollar, divided into one hundred parts, called kopeck in Russia, pfennig in Germany, kreutzer in Austria, cent in Holland, and in Italy, France and Spain by the word meaning hundredth.

The word shilling is of German derivation, like penny, which comes from the German "pfennig." The word "crown" comes from the image placed on the coin. The name franc was given by King John, who first coined these pieces in 1360.

They bore the motto "Le Roi Frank" (king of the Franks) and were of two kinds, one representing the king on horseback, the other on foot.

The franc was formerly also called the livre (pound), though the connection with any special weight is not evident. The name of the German coin, mark, meaning a weight of eight ounces, was formerly in general use in Europe.

The name of the Italian coin that corresponds with the franc (lira) also means pound. The coins in present use in Spain have their names from other sources. The five-cent piece, which corresponds with the American dollar, is called escude (shield).

"Peseta," the name of the small coin representing the monetary standard, means simply "little piece." "Ruble" is from the word meaning "to cut," and was so called because originally the coin was made with an ornamental edge.

Few persons have ever troubled themselves to think of the derivation of the word dollar. It is from the German thal (valley) and came into use in this way some three hundred years ago. There is a little silver mining city or district in northern Bohemia called Joachimsthal, or Joachim's Valley.

The reigning duke of the region authorized this city in the sixteenth century to coin a silver piece which was called "Joachimthaler." The word "joachim" was soon dropped and the word "thaler" only retained.

The piece went into general use in Germany and Denmark, where the orthography was changed to "daler," whence it came into English and was adopted by the Americans with still further changes in the spelling. The Mexican dollar is generally called "piastre" in France and the name is sometimes applied to the United States dollar.

The appellation is incorrect in either case, for the word piaster or piastre has for the last fifty years been only applied with correctness to a small silver coin used in Turkey and Egypt which is worth from 5 to 8 cents.

Fifty-Second Congress.

From March 4, 1891, to March 4, 1893.

Salary of Members, $5,000 and mileage.

Party Platforms.

UTTERANCES OF NATIONAL CONVENTIONS, 1892.

Republican.

Adopted at Minneapolis June 9.

The representatives of the republicans of the United States assembled in general convention on the shores of the Mississippi river, the everlasting bond of an indestructible republic, whose most glorious chapter of history is the record of the republican party, congratulate their countrymen on the majestic march of the nation under the banners inscribed with the principles of our platform of 1888, vindicated by victory at the polls and prosperty in our fields, workshops and mines, and make the following declaration of principles:

We reaffirm the American doctrine of protection. We call attention to its growth abroad. We maintain that the prosperous condition of our country is largely due to the wise revenue legislation of the republican congress.

We believe that all articles which cannot be produced in the United States, except luxuries, should be admitted free of duty, and that on all imports coming in competition with the products of American labor there should be levied duties equal to the difference between wages abroad and at home.

We assert that the prices of manufactured articles of general consumption have been reduced under the operations of the tariff act of 1890.

We denounce the efforts of the democratic majority of the house of representatives to destroy our tariff laws by piecemeal, as is manifested by their attacks upon wool, lead and lead ores, the chief products of a number of states, and we ask the people for their judgment thereon.

We point to the success of the republican policy of reciprocity, under which our export trade has vastly increased, and new and enlarged markets have been opened for the products of our farms and workshops. We remind the people of the bitter opposition of the democratic party to this practical business measure, and claim that, executed by a republican administration, our present laws will eventually give us control of the trade of the world.

DECLARATION FOR BIMETALLISM.

The American people, from tradition and interest, favor bimetallism, and the republican party demands the use of both gold and silver as standard money, with such restrictions and under such provisions, to be determined by legislation, as will secure the maintenance of the parity of values of the two metals, so that the purchasing and debt-paying power of the dollar, whether of silver, gold or paper, shall be at all times equal. The interests of the producers of the country, its farmers and its workingmen, demand that every dollar, paper or coin, issued by the government shall be as good as any other.

We commend the wise and patriotic steps already taken by our government to secure an international conference to adopt such measures as will insure a parity of value between gold and silver for use as money throughout the world.

We demand that every citizen of the United States shall be allowed to cast one free and unrestricted ballot in all public elections, and that such ballot shall be counted and returned as cast; that such laws shall be enacted and enforced as will secure to every citizen, be he rich or poor, native or foreign born, white or black, this sovereign right guaranteed by the constitution. The free and honest popular ballot, the just and equal representation of all the people, as well as their just and equal protection under the laws, are the foundation of our republican institutions, and the party will never relax its efforts until the integrity of the ballot and the purity of elections shall be fully guaranteed and protected in every state.

We denounce the continued inhuman outrages perpetrated upon American citizens for political reasons in certain southern states of the union.

FOREIGN RELATIONS.

We favor the extension of our foreign commerce, the restoration of our merchant marine by home-built ships and the creation of a navy for the protection of our national interests and the honor of our flag; the maintenance of the most friendly relations with all foreign powers, entangling alliances with none; and the protection of the rights of our fishermen.

We reaffirm our approval of the Monroe doctrine and believe in the achievement of the manifest destiny of the republic in its broadest sense.

We favor the enactment of more stringent laws and relations for the restriction of criminal, pauper and contract immigration.

We favor efficient legislation by congress to protect the life and limb of employes of transportation companies engaged in carrying on interstate commerce, and recommend legislation by the respective states that will protect employes engaged in state commerce, in mining, and in manufacturing.

The republican party has always been the champion of the oppressed and recognizes the dignity of manhood, irrespective of faith, color, or nationality; it sympathizes with the cause of home rule in Ireland and protests against the persecution of the Jews in Russia.

The ultimate reliance of free popular government is the intelligence of the people and the maintenance of freedom among men. We therefore declare anew our devotion to liberty of thought and conscience, of speech and press, and approve all agencies and instrumentalities which contribute to the education of the children of the land, but while insisting upon the fullest measure of religious liberty we are opposed to any union of church and state.

OPPOSITION TO TRUSTS.

We reaffirm our opposition declared in the republican platform of 1888 to all combinations of capital, organized in trusts or otherwise, to control arbitrarily the condition of trade among our citizens. We heartily indorse the action already taken upon this subject and ask for such further legislation as may be required to remedy any defects in existing laws and to render their enforcement more complete and effective.

We approve the policy of extending to towns, villages, and rural communities the advantages of the free delivery service now enjoyed by the larger cities of the country, and reaffirm the declaration contained in the republican platform of 1888, pledging the reduction of letter postage to one cent at the earliest possible moment consistent with the maintenance of the postoffice department and the highest class of postal service.

MISCELLANEOUS MATTERS.

CIVIL SERVICE—We commend the spirit and evidence of reform in the civil service and the wise and consistent enforcement by the republican party of the laws regulating the same.

NICARAGUA CANAL—The construction of the Nicaragua canal is of the highest importance to the American people, but as a measure of national defense and to build up and maintain American commerce it should be controlled by the United States government.

TERRITORIES—We favor the admission of the remaining territories at the earliest practicable date, having due regard to the interest of the people of the territories and of the United States. All the federal officers appointed for the territories should be selected from bona fide residents thereof and the right of self-government should be accorded as far as practicable.

ARID LANDS—We favor cession, subject to the homestead laws, of the arid public lands to the states and territories in which they lie, under such congressional restructions as to disposition, reclamation, and ocupancy by settlers as will secure the maximum benefits to the people.

THE COLUMBIAN EXPOSITION—The World's Columbian Exposition is a great national undertaking and congress should promptly enact such reasonable legislation in aid thereof as will insure a discharging of the expense and obligations incident thereto, and the attainment of results commensurate with the dignity and progress of the nation.

INTEMPERANCE—We sympathize with all wise and legitimate efforts to lessen and prevent the evils of intemperance and promote morality.

PENSIONS—Ever mindful of the services and sacrifices of the men who saved the life of the nation, we pledge anew to the veteran soldiers of the republic a watchful care and recognition of their just claims upon a grateful people.

HARRISON'S ADMINISTRATION—We commend the able, patriotic and thoroughly American administration of President Harrison. Under it the country has enjoyed remarkable prosperity and the dignity and honor of the nation at home and abroad have been faithfully maintained, and we offer the record of pledges kept as a guarantee of faithful performance in the future.

Democratic.

Adopted at Chicago June 22.

The representatives of the democratic party of the United States, in national convention assembled, do reaffirm their allegiance to the principles of the party as formulated by Jefferson and exemplified by the long and illustrious line of his successors in democratic leadership, from Madison to Cleveland; we believe the public welfare demands that these principles be applied to the conduct of the federal government through the accession to power of the party that advocates them; and we solemnly declare that the need of a return to these fundamental principles of free popular government, based on home rule and individual liberty, was never more urgent than now, when the tendency to centralize all power at the federal capital has become a menace to the reserved rights of the states that strikes at the very roots of our government under the constitution as framed by the fathers of the republic.

FEDERAL CONTROL OF ELECTIONS.

We warn the people of our common country, jealous for the preservation of their free institutions, that the policy of federal control of elections to which the republican party has committed itself is fraught with the gravest dangers, scarcely less momentous than would result from a revolution practically establishing monarchy on the ruins of the republic. It strikes at the north as well as the south, and injures the colored citizen even more than the white; it means a horde of deputy marshals at ever polling place armed with federal power, returning boards appointed and controlled by federal autnority, the outrage of the electoral rights of the people in the several states, the subjugation of the colored people to the control of the party in power and the reviving of race antagonisms, now happily abated, of the utmost peril to the safety and happiness of all; a measure deliberately and justly described by a leading republican senator as "the most infamous bill that ever crossed the threshold of the senate." Such a policy, if sanctioned by law, would mean the dominance of a self-perpetuating oligarchy of office-holders, and the party first intrusted with its machinery could be dislodged from power only by an appeal to the reserved right of the people to resist oppression which is inherent in all self-governing communities. Two years ago this revolutionary policy was emphatically condemned by the people at the polls, but in contempt of that verdict the republican party has defiantly declared in its latest authoritative utterance that its success in the coming elections will mean the enactment of the force bill and the usurparion of despotic control over elections in all the states.

Believing that the preservation of republican government in the United States is dependent upon the defeat of this policy of legalized force and fraud, we invite the support of all citizens who desire to see the constitution maintained in its integrity with the laws pursuant thereto which have given our country a hundred years of unexampled prosperity; and we pledge the democratic party, if it be intrusted with power, not only to the defeat of the force bill, but also to relentless opposition to the republican policy of profligate expenditure which, in the short space of two years, squandered an enormous surplus and emptied an overflowing treasury, after piling new burdens of taxation upon the already overtaxed labor of the country.

PROTECTION DENOUNCED.

We denounce republican protection as a fraud; a robbery of the great majority of the American people for the benefit of the few. We declare it to be a fundamental principle of the democratic party that the federal government has no constitutional power to impose and collect tariff duties except for the purpose of revenue only, and we demand that the collection of such taxes shall be limited to the necessities of the government when honestly and economically administered.

We denounce the McKinley tariff law enacted by the LI congress as the culminating atrocity of class legislation; we indorse the efforts made by the democrats of the present congress to modify its most oppressive features in the direction of free raw materials and cheaper manufactured goods that enter into general consumption, and we promise its repeal as one of the beneficent results that will follow the action of the people in intrusting power to the democratic party. Since the McKinley tariff went into operation there have been ten reductions of the wages of laboring men to one increase. We deny that there has been any increase of prosperity to the country since that tariff went into operation, and we point to the dullness and distress, the wage reductions and strikes in the iron trade, as the best possible evidence that no such prosperity has resulted from the McKinley act.

We call the attention of thoughtful Americans to the fact that after thirty years of restrictive taxes against the importation of foreign wealth, in exchange for our agricultural surplus, the homes and farms of the country have become burdened with a real-

estate mortgage debt of over $2,500,000,000, exclusive of all other forms of indebtedness; that in one of the chief agricultural states of the west there appears a real-estate mortgage debt averaging $165 per capita of the total population; and that similar conditions and tendencies are shown to exist in other agricultural exporting states. We denounce a policy which fosters no industry so much as it does that of the sheriff.

TRADE RECIPROCITY.

Trade interchange on the basis of reciprocal advantages to the countries participating is a time-honored doctrine of the democratic faith, but we denounce the sham reciprocity which juggles with the people's desire for enlarged foreign markets and freer exchanges by pretending to establish closer trade relations for a country whose articles of export are almost exclusively agricultural products with other countries that are also agricultural while erecting a custom-house barrier of prohibitive tariff taxes against the richest countries of the world that stand ready to take our entire surplus of products and to exchange therefor commodities which are necessaries and comforts of life among our own people.

TRUSTS AND COMBINATIONS.

We recognize in the trusts and combinations which are designed to enable capital to secure more than its just share of the joint product of capital and labor a natural consequence of the prohibitive taxes which prevent the free competition which is the life of honest trade, but believe their worst evils can be abated by law, and we demand the rigid enforcement of the laws made to prevent and control them, together with such further legislation in restraint of their abuses as experience may show to be necessary.

LANDS FOR ACTUAL SETTLERS.

The republican party, while professing a policy of reserving the public land for small holdings by actual settlers, has given away the people's heritage till now a few railroad and non-resident aliens, individual and corporate, possess a larger area than that of all our farms between the two seas. The last democratic administration reversed the improvident and unwise policy of the republican party touching the public domain, and reclaimed from corporations and syndicates, alien and domestic, and restored to the people nearly one hundred million (100,000,000) acres of valuable land to be sacredly held as homesteads for our citizens, and we pledge ourselves to continue this policy until every acre of land so unlawfully held shall be reclaimed and restored to the people.

COINAGE.

We denounce the republican legislation known as the Sherman act of 1890 as a cowardly makeshift fraught with possibilities of danger in the future, which should make all of its supporters, as well as its author, anxious for its speedy repeal. We hold to the use of both gold and silver as the standard money of the country, and to the coinage of both gold and silver without discriminating against metal or charge for mintage, but the dollar unit of coinage of both metals must be of equal intrinsic and exchangeable value or be adjusted through international agreement or by such safeguards of legislation as shall insure the maintenance of the parity of the two metals and the equal power of every dollar at all times in the markets and in the payment of debts; and we demand that all paper currency shall be kept at par with and redeemable in such coin. We insist upon this policy as especially necessary for the protection of the farmers and laboring classes, the first and most defenseless victims of unstable money and a fluctuating currency.

REPEAL OF STATE BANK TAX DEMANDED.

We recommend that the prohibitory 10 per cent tax on state bank issues be repealed.

CIVIL-SERVICE REFORM.

Public office is a public trust. We reaffirm the declaration of the democratic national convention of 1876 for the reform of the civil service, and we call for the honest enforcement of all laws regulating the same. The nomination of a president, as in the recent republican convention, by delegations composed largely of his appointees, holding office at his pleasure, is a scandalous satire upon free popular institutions and a startling illustration of the methods by which a president may gratify his ambition. We denounce a policy under which the federal office-holders usurp control of party conventions in the states, and we pledge the democratic party to reform these and all other abuses which threaten individual liberty and local self-government.

FOREIGN POLICY.

The democratic party is the only party that has ever given the country a foreign policy consistent and vigorous, compelling respect abroad and inspiring confidence at home. While avoiding entangling alliances, it has aimed to cultivate friendly relations with other nations and especially with our neighbors on the American continent whose destiny is closely linked with our own, and we view with alarm the tendency to a policy of irritation and bluster which is liable at any time to confront us with the alternative of humiliation or war. We favor the maintenance of a navy strong enough for all purposes of national defense and to properly maintain the honor and dignity of the country abroad.

THE OPPRESSED IN RUSSIA AND IRELAND.

This country has always been the refuge of the oppressed from every land—exiles for conscience's sake—and in the spirit of the founders of our government we condemn the oppression practiced by the Russian government upon its Lutheran and Jewish subjects and we call upon our national government, in the interest of justice and humanity, by all just and proper means to use its prompt and best efforts to bring about a cessation of these cruel persecutions in the dominions of the czar and to secure to the oppressed equal rights.

We tender our profound and earnest sympathy to those lovers of freedom who are struggling for home rule and the great cause of local self-government in Ireland.

IMMIGRATION.

We heartily approve all legitimate efforts to prevent the United States from being used as the dumping-ground for the known criminals and professional paupers of Europe; and we demand the rigid enforcement of the laws against Chinese immigration and the importation of foreign workmen under contract to degrade American labor and lessen its wages, but we condemn and denounce any and all attempts to restrict the immigration of the industrious and worthy of foreign lands.

PENSIONS.

This convention hereby renews the expression of appreciation of the patriotism of the soldiers and sailors of the union in the war for its preservation, and we favor just and liberal pensions for all disabled union soldiers, their widows and dependents, but we demand that the work of the pension office shall be done industriously, impartially and honestly. We denounce the present administration of that office as incompetent, corrupt, disgraceful and dishonest.

WATERWAY IMPROVEMENTS.

The federal government should care for and improve the Mississippi river and other great waterways of the republic, so as to secure for the interior states easy and cheap transportation to tidewater. When any waterway of the republic is of sufficient importance to demand aid of the government, such aid should be extended upon a definite plan of continuous work until permanent improvement is secured.

NICARAGUA CANAL.

For purposes of national defense and the promotion of commerce between the states, we recognize the early construction of the Nicaragua canal and its protection against foreign control as of great importance to the United States.

THE WORLD'S FAIR.

Recognizing the World's Columbian Exposition as a national undertaking of vast importance, in which the general government has invited the co-operation of all the powers of the world, and appreciating the acceptance by many of such powers of the invitation so extended and the broad and liberal efforts being made by them to contribute to the grandeur of the undertaking, we are of opinion that congress should make such necessary financial provision as shall be requisite to the maintenance of the national honor and public faith.

THE SCHOOL QUESTION.

Popular education being the only safe basis of popular suffrage, we recommend to the several states most liberal appropriations for the public schools. Free common schools are the nursery of good government, and they have always received the fostering care of the democratic party, which favors every means of increasing intelligence. Freedom of education, being an essential of civil and religious liberty as well as a necessity for the development of intelligence, must not be interfered with under any pretext whatever. We are opposed to state interference with parental rights and rights of conscience in the education of children as an infringement of the fundamental democratic doctrine that the largest individual liberty consistent with the rights of others insures the highest type of American citizenship and the best government.

ADMISSION OF THE TERRITORIES.

We approve the action of the present house of representatives in passing bills for admitting into the union as states the territories of New Mexico and Arizona, and we favor the early admission of all the territories having the necessary population and resources to entitle them to statehood, and while they remain territories we hold that the officials appointed to administer the government of any territory, together with the District of Columbia and Alaska, should be bona fide residents of the territory or district in which their duties are to be performed. The democratic party believes in home rule and the control of their own affairs by the people of the vicinage.

PROTECTION OF RAILWAY EMPLOYES.

We favor legislation by congress and state legislatures to protect the lives and limbs of railway employes and those of other hazardous transportation companies, and denounce the inactivity of the republican party, and particularly the republican senate, for causing the defeat of measures beneficial and protective to this class of wage-workers.

THE SWEATING SYSTEM DENOUNCED.

We are in favor of the enactment by the states of laws for abolishing the notorious sweating system, for abolishing contract convict labor and for prohibiting the employment in factories of children under 15 years of age

SUMPTUARY LAWS.

We are opposed to all sumptuary laws as an interference with the individual rights of the citizen.

AND ON THIS THE PARTY STANDS.

Upon this statement of principles and policies the democratic party ask the intelligent judgment of the American people. It asks a change of adminstration and a change of party in order that there may be a change of system and a change of methods, thus assuring the maintenance unimpared of institutions under which the republic has grown great and powerful.

People's Party.

Adopted at Omaha July 4.

Assembled upon the 116th anniversary of the declaration of independence, the people's party of America in their first national convention, invoking upon their action the blessing of Almighty God, puts forth, in the name and on behalf of the people of this country, the following preamble and declaration of principles:

PREAMBLE.

The conditions which surround us best justify our co-operation. We meet in the midst of a nation brought to the verge of moral, political, and material ruin. Corruption dominates the ballot-box, the legislatures, the congress, and touches even the ermine of the bench. The people are demoralized; most of the states have been compelled to isolate the voters at the polling places to prevent universal intimidation or bribery. The newspapers are largely subsidized or muzzled; public opinion silenced; business prostrated; our homes covered with mortgages; labor impoverished, and the lands concentrating in the hands of the capitalists. The urban workmen are denied the right of organization for self-protection; imported pauperized labor beats down their wages; a hireling standing army, unrecognized by our laws, is established to shoot them down, and they are rapidly degenerating into European conditions. The fruits of the toil of millions are boldly stolen to build up colossal fortunes for a few, unprecedented in the history of mankind; and the possessors of these, in turn, despise the republic and endanger liberty. From the same prolific womb of governmental injustice we breed the two great classes—tramps and millionaires.

The national power to create money is appropriated to enrich bondholders; a vast public debt payable in legal tender currency has been funded into gold-bearing bonds, thereby adding millions to the burdens of the people.

Silver, which has been accepted as coin since the dawn of history, has been demonetized to add to the purchasing power of gold by decreasing the value of all forms of property as well as human labor and the supply of currency is purposely abridged to fatten usurers, bankrupt enterprise and enslave industry. A vast conspiracy against mankind has been organized on two continents and it is rapidly taking possession of the world. If not met and overthrown at once it forebodes terrible social convulsions, the destruction of civilization or the establishment of an absolute despotism. We have witnessed for more than a quarter of a century the struggles of the two great political parties for power and plunder, while grievous wrongs have been inflicted upon the suffering people. We charge that the controlling influences dominating both these parties have permitted the existing dreadful conditions to develop without serious effort to prevent or restrain them. Neither do they now promise us any substan-

tial reform. They have agreed together to ignore in the coming campaign every issue but one. They propose to drown the outcries of a plundered people with the uproar of a sham battle over the tariff, so that capitalists, corporations, national banks, rings, trusts, watered stock, the demonetization of silver and the oppressions of the usurers may all be lost sight of. They propose to sacrifice our homes, lives and children on the altar of Mammon; to destroy the multitude in order to secure corruption funds from the millionaires.

Assembled on the anniversary of the birthday of the nation, and filled with the spirit of the grand generation who established our independence we seek to restore the government of the republic to the hands of "the plain people," with whose class it originated. We assert our purposes to be identical with the purposes of the national constitution—"to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare and secure the blessings of liberty for ourselves and our posterity."

We declare that this republic can only endure as a free government while built upon the love of the whole people for each other and for the nation; that it cannot be pinned together by bayonets; that the civil war is over and that every passion and resentment which grew out of it must die with it, and that we must be in fact, as we are in name, one united brotherhood of freemen.

Our country finds itself confronted by conditions for which there is no precedent in the history of the world. Our annual agricultural productions amount to billions of dollars in value, which must within a few weeks or months be exchanged for billions of dollars of commodities consumed in their production; the existing currency supply is wholly inadequate to make this exchange; the results are falling prices, the formation of combines and rings, the impoverishment of the producing class. We pledge ourselves that if given power we will labor to correct these evils by wise and reasonable legislation in accordance with the terms of our platform.

We believe that the powers of government, in other words, of the people, should be expanded (as in the case of the postal service) as rapidly and as far as the good sense of an intelligent people and the teachings of experience shall justify, to the end that oppression, injustice and poverty shall eventually cease in the land.

While our sympathies as a party of reform are naturally upon the side of every proposition which will tend to make men intelligent, virtuous and temperate, we nevertheless regard these questions—important as they are—as secondary to the great issues now pressing for solution, and upon which not only our individual prosperity but the very existence of free institutions depend; and we ask all men to first help us to determine whether we are to have a republic to administer before we differ as to the condition upon which it is to be administered; believing that the forces of reform this day organized will never cease to move forward until every wrong is remedied and equal rights and equal privileges securely established for all the men and women of this country. We declare therefore:

DECLARATION OF PRINCIPLES.

1. That the union of the labor forces of the United States this day consummated shall be permanent and perpetual—may it spirit into all hearts for the salvation of the republic and the uplifting of mankind.

2. Wealth belongs to him who creates it, and every dollar taken from industry without an equivalent is robbery. "If any will not work neither shall he eat." The interests of rural and civic labor are the same; their enemies are identical.

3. We believe that the time has come when the railroad corporations will either own the people or the people must own the railroads, and should the government enter upon the work of owning and managing any or all railroads, we should favor an amendment to the constitution by which all persons engaged in the government service shall be placed under a civil-service regulation of the most rigid character so as to prevent the increase of the power of the national administration by the use of such additional government employes.

FINANCE AND CURRENCY.

We demand a national currency, safe, sound and flexible, issued by the federal government only, a full legal-tender for all debts, public and private, and that without the use of banking corporations, a just, equitable, and efficient means of distribution direct to the people, at a tax not to exceed 2 per cent per annum to be provided as set forth in the sub-treasury plan of the Farmers' alliance, or a better system; also by payments in discharge of its obligations for public improvements.

1. We demand free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1.

2. We demand that the amount of circulation medium be speedily increased to not less than $50 per capita.

3. We demand a graduated income tax.

4. We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all state and national revenues shall be limited to the necessary expenses of the government, economically and honestly administered.

5. We demand that postal savings banks be established by the government for the safe deposit of the earnings of the people and to facilitate exchange.

TRANSPORTATION.

Transportation being a means of exchange and a public necessity, the government should own and operate the railroads in the interest of the people.

(a) The telegraph and telephone, like the postoffice system, being a necessity for the transmission of news, should be owned and operated by the government in the interest of the people.

LAND OWNERSHIP.

The land, including all the natural sources of wealth, is the heritage of the people and should not be monopolized for speculative purposes, and alien ownership of land should be prohibited. All land now held by railroads and other corporations in excess of their actual needs, and all lands now owned by aliens, should be reclaimed by the government and held for actual settlers only.

A SUPPLEMENTAL PLATFORM.

The following supplementary report of the committee on resolutions was presented at a later session:

Your committee on platform and resolutions beg leave unanimously to report the following:

WHEREAS, Other questions have been presented for our consideration, we hereby submit the following, not as a part of the platform of the people's party, but as resolutions expressive of the sentiment of this convention:

Resolved, (1) That we demand a free ballot and a fair count in all elections; and pledge ourselves to secure it to every legal voter, without federal intervention, through the

adoption by the states of the unperverted Australian or secret ballot system.

Resolved, (2) That the revenue derived from a graduated income tax should be applied to the reduction of the burden of taxation now levied upon the domestic industries of this country.

Resolved, (3) That we pledge our support to fair and liberal pensions of ex-union soldiers and sailors.

Resolved, (4) That we condemn the fallacy of protecting American labor under the present system, which opens our ports to the pauper and criminal classes of the world and crowds out our wage-earners; and we denounce the present ineffective laws against contract labor and demand the further restriction of undesirable emigration.

Resolved, (5) That we cordially sympathize with the efforts of organized workingmen to shorten the hours of labor, and demand a rigid enforcement of the existing eight-hour law on government work and ask that a penalty clause be added to the said law.

Resolved, (6) That we regard the maintenance of a large standing army of mercenaries, known as the Pinkerton system, as a menace to our liberties and we demand its abolition: and we condemn the recent invasion of the state of Wyoming by the hired assassians of plutocracy, assisted by federal officers.

Resolved, (7) That we commend to the thoughtful consideration of the people and the reform press the legislative system known as the ab initio ad referendum.

Resolved, (8) That we favor a constitutional provision limiting the office of president and vice-president to one term and providing for the election of senators of the United States by a direct vote of the people.

Resolved, (9) That we oppose any subsidy or national aid to any private corporation for any purpose.

Prohibition.

Adopted at Cincinnati June 30.

The prohibition party, in national convention assembled, acknowledging Almighty God as the source of all true government and his law as the standard to which all human enactments must conform to secure the blessings of peace and prosperity, presents the following declaration of principles:

PROHIBITION OF LIQUOR TRAFFIC.

1. The liquor traffic is a foe to civilization, the arch-enemy of popular government and a public nuisance. It is the citadel of the forces that corrupt politics, promote poverty and crime, degrade the nation's home life, thwart the will of the people and deliver our country into the hands of rapacious class interests. All laws that under the guise of regulation legalize and protect this traffic or make the government share in its ill-gotten gains are "vicious in principle and powerless as a remedy."

We declare anew for the entire suppression of the manufacture, sale, importation, exportation and transportation of alcoholic liquors as a beverage by federal and state legislation and the full powers of the government should be exerted to secure this result. Any party that fails to recognize the dominant nature of this issue in American politics is undeserving of the support of the people.

WOMAN'S SUFFRAGE.

2. No citizen should be denied the right to vote on account of sex and equal labor should receive equal wages without regard to sex.

AS TO MONEY.

3. The money of the country should be issued by the general government only, and in sufficient quantities to meet the demands of business and give full opportunity for the employment of labor. To this end an increase in the volume of money is demanded, and no individual or corporation should be allowed to make any profit through its issue. It should be made a legal tender for the payment of all debts, public and private. Its volume should be fixed at a definite sum per capita and made to increase with our increase in population.

THE TARIFF.

4. Tariff should be levied only as a defense against foreign countries which levy tariff upon or bar out our products from their markets, revenue being incidental. The residue of means necessary to an economical administration of the government should be raised by levying a burden on what the people possess instead of upon what we consume.

CONTROL OF RAILROADS.

5. Railroad, telegraph, and other public corporations should be controlled by the government in the interest of the people and no higher charges allowed than necessary to give fair interest on the capital actually invested.

IMMIGRATION LAWS.

6. Foreign immigration has become a burden upon industry, one of the factors in depressing wages and causing discontent, therefore our immigration laws should be revised and strictly enforced. The time of residence for naturalization should be extended and no naturalized person should be allowed to vote until one year after he becomes a citizen.

ALIEN LAND-OWNERS.

7. Non-residents should not be allowed to acquire land in this country, and we favor the limitation of individual and corporate ownership of land. All unearned grants of lands to railroad companies or other corporations should be reclaimed.

THE RECENT LYNCHINGS.

8. Years of inaction and treachery on the part of the republican and democratic parties have resulted in the present reign of mob law, and we demand that every citizen be protected in the right of trial by constitutional tribunals.

ONE DAY OF REST.

9. All men should be protected by law in their right to one day's rest in seven.

FAVORING ARBITRATION.

10. Arbitration is the wisest and most economical and humane method of settling national differences.

SPECULATION IN MARGINS.

11. Speculations in margins, the cornering of grain, money and products, and the formation of pools, trusts, and combinations for the arbitrary advancement of prices should be suppressed.

PENSIONS.

12. We pledge that the prohibition party if elected to power will ever grant just pensions to disabled veterans of the union army and navy, their widows and orphans.

THE SCHOOL QUESTION.

13. We stand unequivocally for the American public school and opposed to any appropriation of public moneys for sectarian schools. We declare that only by united support of such common schools, taught in the English language, can we hope to become and remain an homogeneous and harmonious people.

ARRAIGNMENT OF THE OLD PARTIES.

14. We arraign the republican and democratic parties as false to the standards reared by

their founders; as faithless to the principles of the illustrious leaders of the past to whom they do homage with the lips; as recreant to the "higher law," which is as inflexible in political affairs as in personal life; and as no longer embodying the aspirations of the American people or inviting the confidence of enlightened, progressive patriotism. Their protest against the admission of "moral issues" into politics is a confession of their own moral degeneracy. The declaration of an eminent authority that municipal misrule is "the one conspicuous failure of American politics" follows as a natural consequence of such degeneracy, and is true alike of cities under republican and democratic control. Each accuses the other of extravagance in congressional appropriations and both are alike guilty. Each protests when out of power against the infraction of the civil-service laws, and each in power violates those laws in letter and spirit. Each professes fealty to the interests of the toiling masses but both covertly truckle to the money power in their administration of public affairs. Even the tariff issue as represented in the democratic Mills and the republican McKinley bill is no longer treated by them as an issue upon great and divergent principles of government, but is a mere catering to different sectional and class interests. The attempt in many states to wrest the Australian ballot system from its true purpose and to so deform it as to render it extremely difficult for new parties to exercise the rights of suffrage is an outrage upon popular government. The competition of both the parties for the vote of the slums and their assiduous courting of the liquor power and subserviency to the money power has resulted in placing those powers in the position of practical arbiters of the destinies of the nation. We renew our protest against these perilous tendencies and invite all citizens to join us in the upbuilding of a party that has shown in five national campaigns that it prefers temporary defeat to an abandonment of the claims of justice, sobriety, personal rights and the protection of American homes.

National Socialists.

Adopted at New York Aug. 28.

1. Reduction of hours of labor in production.
2. The United States shall obtain possession of the telegraphs, telephones, and all other means of public transportation.
3. The municipalities to obtain the local railroads, ferries, water works, gas works, electric plants and all industries requiring municipal franchises.
4. The public land to be declared ineligible. Revocation of all land grants to corporations or individuals the conditions of which have not been complied with.
5. The incorporation by the states of local trades unions which have no national organization.
6. The United States to have the exclusive right to issue money.
7. Congressional legislation, providing for the scientific management of the waterways and prohibiting the waste of natural resources of the country.
8. Inventions to be free to all, the inventors to be remunerated by the Union.
9. Progressive income tax and tax inheritance, the smaller income to be exempt.
10. School education of all children under fourteen years of age to be compulsory, gratuitous and accessible to all by public assistance in meals, clothing, books, etc., where necessary.
11. Repeal of pauper, tramp, conspiracy and sumptuary laws; unabridged right of combination.
12. Official statistics concerning the condition of labor. The prohibition of the employment of children of school age, and of the employment of female labor in occupations detrimental to health or morality. Abolition of the convict labor contract system.
13. All wages to be paid in lawful money of the United States. Equalization of woman's wages to those of men where equal service is performed.
14. Laws for the protection of life and limb in all occupations, and an efficient employers' liability law.

POLITICAL DEMANDS.

1. The people to have the right to propose laws and to vote upon all measures of importance according to the referendum principle.
2. Abolition of the presidency, vice-presidency and senate of the United States. An executive board to be established, whose members are to be elected, and may at any time be recalled by the house of representatives, as the only legislative body. The states and municipalities to adopt corresponding amendments of the constitution and statutes.
3. Municipal self-government.
4. Direct vote and secret ballots in all elections. Universal and equal right of suffrage without regard to color, creed or sex. Election days are to be legal holidays. The principle of minority representation to be introduced.
5. All public officers to be subject to their constituencies.
6. Civil and criminal law throughout the United States. Administration of justice free of charge. Abolition of capital punishment.

STATE PLATFORMS OF 1892.

Illinois Republicans.

Adopted at Springfield May 4.

The republicans of Illinois in state convention assembled, pledging anew their devotion to those principles of government which under republican auspices have achieved such signal triumphs in the promotion of the public welfare, do hereby declare:

We recognize in the present unexampled industrial prosperity of the nation the most forcible demonstration of the wisdom of the policy of the protection of the republican party as expressed in the McKinley tariff law, and pledge our unfaltering support for such further national legislation as shall under changing economic conditions or the republican doctrine of reciprocity further stimulate industrial activity and guarantee to American workingmen immunity to the utmost from the cheapening and degrading influence of free-trade foreign competition.

We heartily indorse the wise, patriotic and thoroughly American administration of President Harrison, and we hereby instruct the delegates at large from this convention to the national republican convention at Minneapolis to give their support and votes for his renomination for president of the United States. We express our admiration of the prudent and brilliant conduct of the state department by Secretary Blaine and commend the vigor and wisdom which has characterized the navy and other departments of the federal government.

We arraign the democratic party for its treachery to the cause of honest money and indorse the republican defense against the spoliation and degradation of our national currency in the threatened free coinage of

silver at a fictitious face value. We favor such measures as shall by international conference and agreement permit the restoration of silver to a parity in recognition and value in the monetary systems of the world.

We condemn the crimes perpetrated against the ballot in the suppression of the vote of the colored citizens of the south and the democratic defense in congress of such crimes as expressed in the virulent opposition to remedial legislation. We demand that congress, subordinate to the federal constitution, shall obey its emphatic mandate not only to pass but to enforce laws protective of the suffrage rights of all American citizens.

We earnestly favor legislation, national and state, which shall protect natural competition in trade and suppress "trusts" and other forms of iniquitous industrial tyranny. We commend the anti-trust legislation of the last congress and favor such governmental supervision and control as shall subordinate all corporations to the public welfare, and to this end demand proper amendment and rigorous enforcement of the interstate-commerce act and the establishment by the government of a postal telegraph and telephone system under the direct control of the government in connection with the postal department.

In view of the inestimable value of the services rendered by the department of agriculture we urge the establishment of a department of labor, having jurisdiction of measures for promoting the dignity and effectiveness of labor and the conservation of the best interests of American workingmen in all occupations, including the enactment of laws which shall lessen the hours of the working day.

We heartily approve the immigration laws enacted by the last congress and demand such further legislation as shall most effectively exclude paupers, criminals, "contract labor" and other elements hostile to the welfare of the American people and the genius of American institutions.

The gratitude of the American people to the union heroes of the civil war has repeatedly been expressed by the enactment of pension laws which testify to continued republican support of such further legislation as patriotism shall in the full measure of its devotion be able to bestow upon its scarred defenders, their widows and orphans.

We indorse the invulnerable administration of Gov. Fifer and testify our appreciative recognition of its wisdom, its fidelity to the people and its loyalty to his party and personal pledges. We indorse the official record and faithful services of Senator Cullom and the Illinois republican representatives in congress.

Upon the important subject of education we declare:

That since the success of universal suffrage and of popular government requires universal intelligence, therefore the free common schools of Illinois are the chief bulwarks of the commonwealth and the safeguards of liberty. That the education in elementary branches of each child in the state should be required by law. That all persons and those standing in the parental relation should be left absolutely free to choose in what schools and in what manner they will educate their children. That in no case shall school officers or civil authorities be given authority by law to interfere with private or parochial schools.

In pursuance of these principles we pledge ourselves to repeal the present compulsory school act and in lieu thereof to enact a law in harmony with the view herein stated.

We favor protection against every form of convict labor and demand such legislation as shall give full force and effect to the constitutional provisions relating thereto; we demand the prohibition of the employment of young children in factories and mines; protection of the employes in factories, mines, in the railway service and other hazardous occupations, from every danger that can be removed or diminished; the arbitration of differences between employer and employe. We declare our opposition to any system which directly or indirectly fosters the so-called truck store system, or which compels workingmen to accept payment for their labor in merchandise, and we favor such constitutional amendment as may be required for legislative prohibition of the said system and for the enforcement of weekly payments to employes.

We demand the adoption of a system of uniform rates of appraisement of real and personal property to the end that equal and just corresponding taxation shall prevail and the existing inequalities be removed. We demand a more stringent enforcement of the law and supplemental legislation, if need be, to secure the proper listing and appraisement of all property subject to taxation.

We regard with much gratification the enactment under a republican administration of a ballot reform law and the protection it affords as demonstrated by experience of the rights of voters and the purity of our election.

We favor the addition of two delegates at large to the state central committee.

Illinois Democrats.

Adopted at Springfield April 26.

The democracy of Illinois, in convention assembled, reaffirms its devotion to democratic principles and pledges itself to untiring effort for their supremacy. It believes that the powers delegated by the people should be strictly construed; that the autonomy of the states and their rights of local self-government and home rule should be zealously guarded as essential to the preservation of our form of government; that no money should be taken from the people under any pretext for other than public purposes; that the strictest economy should be exercised in all governmental expenditures, whether local, state, or national, and that legislation should be confined to the legitimate objects of government.

We recognize that the tariff is a tax and that all taxation is a burden. Where it is imposed justly and fairly to meet the necessary expenditures of an economical and prudent administration of public affairs it will be cheerfully borne by the people. When levied upon the suggestion of private greed to promote monopoly and extortion, to build up the fortunes of a few beneficiaries and favored classes at the expense of the general welfare, it is leavened with injustice and oppression and a burden, is intolerable to freedom and inconsistent with every principle of sound government.

The republican party has sought to fasten an iniquitous and oppressive system of taxation upon the American people. The effect of its legislation on this subject is to fetter trade and commerce, those swift agencies of civilization, and disorganize and disarrange every element of industry, to foster injurious combinations, and enhance the prices of the necessaries of public life, and to demoralize the public confidence.

We indorse to the fullest extent the patriotic administration of Grover Cleveland, and declare without reservation our full and complete approval of the views contained in his message to congress on the tariff in 1887.

We demand an immediate revision of the tariff, free raw material, a reduction in the duties on the necessaries of life, and such changes in the shipping and navigation laws as shall restore the American merchant marine and the supremacy of the American flag on the high seas.

We reiterate our allegiance to the historic policy of the democratic party in favor of honest money, the gold and silver coinage provided by the constitution of the United States and of a currency convertible into such coinage without loss to the holder, and we recommend an invitation by our government to the commercial powers of the world for an international conference for the purpose of fixing a ratio between the values of gold and silver, so that parity may be maintained between the two metals and all mints be thrown open to free coinage.

We denounce the reckless extravagance of the billion-dollar congress, controlled by a republican majority, and distinguished only by the passage of the oppressive McKinley bill and the wicked waste of the people's money.

We believe firmly that public officers should be faithful servants of the people, and that in every instance of appointment to office the test should be rather capacity for efficient public service than past or prospective political activity.

We are proud of our common school system and pledge ourselves to uphold and improve it, for free institutions cannot exist without universal education.

We denounce the republican party for enacting a law which tends to bring the cause of popular education into disrepute; a law which takes from the parent the right to educate his child according to the dictates of his conscience; a law which creates a state inquisition over schools toward which the state contributes nothing; a law which gives the absolute power to every local school board, no matter how ignorant or spiteful its actions, to harass and persecute a large class of people who are among our best citizens and who do their full duty, both toward the state and their children, and who, by their labor, their patriotism and intelligence, have contributed very much to our prosperity and greatness.

Such a law is further to be condemned as an invasion of that religious liberty guaranteed by the constitution, and in effect amounts to an interference by the state with the church. This law is antagonistic to democratic institutions and we demand its unconditional repeal, and we pledge our candidates for the legislature to vote and work to that end.

We favor the election of United States senators by a direct vote of the people.

We denounce the creation of trusts which, however disguised, have for their end the stifling of competition and the control of production and prices, with a view of oppressing the people; and we demand from our legislature the passage of stringent laws to aid the judicial branch of the state in stamping out such iniquitous devices of monopolists to defraud the people.

We believe that in a free country the curtailment of the absolute rights of the individual should only be such as is essential to the peace and good order of the country.

The limit between the proper subjects of governmental control and those which can be more fittingly left to the moral sense and self-imposed restraint of the citizen should be carefully kept in view. Thus laws unnecessarily interfering with the habits and customs of any people which are not offensive to the moral sentiment of the civilized world, and which are consistent with good citizenship and public welfare, are unjust and vexatious.

The constitution of this state provides "That it shall be unlawful for the commissioners of any penitentiary or other reformatory institutions in the state of Illinois to let by contract to any persons or corporation the labor of any convict confined within such institution. We denounce the present republican state administration for its gross violation of this provision of the constitution and for unlawful methods to evade and nullify the same.

We favor the prohibition of child labor with all its debasing consequences.

We favor the establishment of boards of arbitration, that will adjudicate all controversies between capital and labor, so that protracted strikes, with their ruinous consequences, may be averted, and we believe the great moral influences a just and equitable ruling would have on questions at issue would generally lead to a speedy adjustment.

We demand the protection of life and property of American citizens at home as well as abroad, regardless of race, color or previous condition.

We favor all laws that can be enacted under the present constitution that will prohibit the truck system, enforce weekly payment of wages in cash, and fair weights and measures wherever used in fixing compensation. And if the present constitution will not admit of the enactment and enforcement of such laws, then we favor an amendment to the constitution under which laws can be enacted.

We congratulate the democracy of Illinois and the whole country under the great triumph achieved by the democrats of Illinois in the election of that grand man, patriot, soldier and statesman, Gen. John M. Palmer, to the senate of the United States, and should it be deemed expedient to come to the great west for a candidate for the presidency to lead the democratic hosts to victory, we commend him to the favorable consideration of the national democratic convention and instruct our delegates to that convention to present his name and use all honorable means to secure his nomination.

Resolved, That the delegates chosen by this convention to the democratic national convention are hereby instructed to cast the vote of the state as a unit on all questions and candidates in accordance with a vote of a majority thereof.

Illinois People's Party.

Adopted at Danville May 19.

The people's party of the state of Illinois, through its regularly elected delegates, assembled in convention at Danville, makes this official declaration of its principles, purposes and demands:

Resolved, That we reaffirm the declaration of principles adopted by the St. Louis conference of Feb. 22, and pledge our entire loyalty to it.

Resolved, That we demand the immediate and condign punishment of all officials who shall attempt to interfere with the constitutional right of free speech, free press or free public assemblage.

Resolved, That we demand the enactment of adequate laws providing for the actual attendance in school of all children of school age for a term not less than four months of each year, and to this end we are in favor of free text books.

Resolved, That we condemn and denounce those hard and oppressive conditions of life produced by unjust laws which drive men to crime and then use their labor to crush out honest industry, and we charge both the old parties with directly conniving at a flagrant and open violation of the amendment to the constitution overwhelmingly adopted by the people forbidding contracts for convict labor and recognizing the cruelty of confinement of men without employment. Therefore we demand that all convicts in this state hereafter be employed in the winter months in preparing material for, and in the summer months in making, permanent roads and other state

improvements, and we futher demand that all railroads in this state be required by law to carry men and material for this purpose at actual cost of transportation.

Resolved, That we condemn in unmeasured terms the practice of both republican and democratic officers of the state in appropriating the interest on the public funds to their own private uses, and demand that accumulations of all state funds be covered into the treasury.

Resolved, That our state constitution be so amended as to permit the enforcement of the law providing for a weekly pay day and the abolition of the truck store system.

Resolved, That we demand that the legislature submit to a vote of the people as a separate issue the subject of an amendment to the state constitution allowing to women the full right of suffrage.

Resolved, That our present system of minority representation falls far short of the object sought to be attained by the same, and we recommend the favorable consideration of the quota system of representation to the people of this state.

Resolved, That we condemn the extortions of the corporation known as the Union stockyards of Chicago, and we condemn the existence by law of boards of trade that deal in options on the necessaries of life, and demand that they be abolished.

Resolved, That we denounce the projected increase of the regular army and regard the formation of permanent forts and garrisons near the great centers of population as a menace to our free institutions.

Resolved, That we recognize in the employment of private standing armies in the interest of corporations and great monopolies a serious menace to the liberties of the people, and demand that the Pinkerton and like forces be disbanded.

Illinois Prohibition.

Adopted at Springfield June 1.

We, the prohibitionists of Illinois, in convention assembled, acknowledging Almighty God as the source of all just power in government, do declare and adopt the following as our platform of principles upon which we appeal to the intelligent and patriotic voters of the state of Illinois for their suffrages in the approaching election:

More than a billion of dollars are expended annually by the victims of strong drink for alcoholic beverages. No equivalent is received for the money thus expended. Alcohol is neither a food nor a heat producer. It gives nothing of economic value in return for its cost. The money spent for these beverages supports a population of about four millions of people who are living, and many of them becoming rich, upon the profits of this traffic without returning anything to society for what they receive. Consumers who are nonproducers always impoverish society. Were this whole business abolished the victims of the traffic could pay the hundred million of dollars which the government receives therefrom and have at least nine hundred million of dollars left with which to purchase the necessaries of life.

The farmers of our country get less than $20,000,000 annually for all the produce furnished the distiller and lose hundreds of millions which would be spent for bread, meat and other products of the farm were it not for the liquor traffic, which is a prolific source of pauperism and hard times. The liquor traffic is a relentless foe of the laboring classes. The use of alcoholic beverages not only produces poverty and disease, but is everywhere the enemy of society as a producer of domestic infelicity, social impurity and all kinds of private and public vice. The legal prohibition of the importation, manufacture and sale of alcoholic beverages is, therefore, the imperative duty of government, state and national.

The power conferred upon municipalities in our state to license dramshops, while the farmer is disfranchised and yet has to pay his share of the tax used by the saloon, is an unjust discrimination against the farmer. All laws that license crime are wrong in principle and vicious in practice. High license is a legalized monopoly; it is a system of bribery by which the state "justifies the wicked for a reward." It cloaks an evil with the garb of respectability and gives sanction to a great crime. We agree with the Supreme court of the United States in denying the right of legislature to bargain away the public health or the public morals, and we therefore deny the right of any legislative body to injure the public health or morals by legalizing the liquor traffic. Such legislation is usurpation.

We declare in favor of a loyal and steadfast maintenance of our American public school system as an institution vital to the public wellbeing and the preservation of our republican institutions. We denounce any attempt to appropriate any portion of the public funds for sectarian purposes, as well as all plans of partnership or association between our public school officials and any religious sect in the work of instruction. We denounce the democratic and republican parties of Illinois for their cowardly and unpatriotic proposal to surrender our present compulsory education law, and we avow our purpose to maintain the law as it stands, with all its provisions intact. We further declare in favor of the state furnishing all school text books free of cost.

Suffrage should not be made to depend upon any distinction of race, color or sex.

We declare ourselves opposed to the alien ownership of land or mines, and to the unlimited acquisition thereof by individuals or corporations, and we are in favor of the forfeiture of all unearned land grants in the hands of railroad corporations.

We declare that all money should be issued by the government directly to the people without the intervention of banks, and to be a full legal tender for all debts both public and private. To this end we favor an open mint for the unlimited coinage of gold and silver, the products of the mines of the United States, on like terms, and if the difference between the value of gold and silver bullion and gold and silver coin at the rate of one to sixteen is so large as to endanger the circulation of either coin, we then favor an equitable adjustment of the ratio between the coin values of gold and silver, to the end that both coins may pass current at par.

We declare in favor of the control of railroads, telegraph and telephone lines by the government, so as to limit earnings to a reasonable return on the cash value of the property.

We declare that all articles, the like of which cannot be successfully produced in this country, together with all raw materials not coming into injurious competition with American producers, should be placed upon the free list, and that the burden of taxation should be removed from the necessaries and imposed upon the luxuries of life.

We declare that taxation to be just must be uniform as to person and property. The present system of taxation by which all notes, bonds and mortgages held by non-residents of the state, as well as many held by residents of the state, escape taxation, while the debtor who holds mortgaged real and personal property is compelled to pay taxes upon the full

value thereof without deducting the amount of the mortgaged debt, is unjust, and we demand that our tax laws be revised and amended to the end that all notes, bonds and mortgages or other written evidence of indebtedness secured by mortgage shall be listed for taxation in the township, county and state where the mortgaged property is situated and that any of such notes, bonds or mortgages or other evidences of indebtedness not so listed shall be uncollectible in any court. We demand a graduated tax upon incomes.

We declare against the pernicious system of speculating in margin, cornering of grain or gambling in money, land produce or anything else and we favor such legislation as will effectually prohibit the same and thereby turn all legitimate trade into natural and lawful channels.

We declare in favor of a service pension for all honorably discharged union soldiers, based on a monthly allowance of 1 cent for every day of service actually rendered.

We are in favor of the election of United States senators by direct vote of the people.

We declare in favor of a restrictive immigration law, so framed as to exclude the pauper, the criminal, the insane and the anarchist. We further declare in favor of requiring of each immigrant to this country upon landing upon our shores an oath of allegiance to the constitution of the United States.

We also demand the suppression of all trusts and combinations which are designed to enrich the few at the expense of the many: the reduction of the contract rate of interest to 6 per cent; that the interest arising from the funds of the state be turned into the treasury and the infamous truck system be rendered impossible by adequate legislation.

We also declare in favor of a civil Sabbath law and the enforcement thereof: securing to the laborer one day in seven for rest.

With the foregoing purposes and principles we say: Be buried forever the grudges of sectional and civil war: we know no north, no south, no east, no west, but one country under one flag and one constitution, and we, therefore, ask all citizens of every legitimate and helpful business or occupation, regardless of former party affiliations, to unite with us at the ballot box on the above declaration and platform, with malice toward none and charity for all.

Indiana Republican.

Adopted at Ft. Wayne June 28.

The republicans of Indiana heartily approve the declaration adopted by the republican national convention at Minneapolis. As citizens of Indiana we congratulate the people of the state upon the nomination for president of the United States of Benjamin Harrison.

The administration of the national government under his leadership has been marked by such wisdom and patriotism as to impress the whole country and give abundant assurance that its continuance will add luster to the American nation and increase the comfort of the American home. We commend the candidates of the republican party of the nation as worthy of the suffrages of an intelligent and patriotic people.

The democratic party has often demonstrated its incapacity for governing in both national and state affairs. In Indiana, believing that it was intrenched behind a gerrymander of surpassing iniquity, it has shown a reckless disregard of the people's interest and welfare, imposing intolerable burdens without benefit. We therefore condemn the democratic management of our state affairs as incompetent, wasteful, and in the interest of party managers, and in this connection direct attention especially to the subjects hereafter mentioned.

Debt and democracy are synonymous terms with the taxpayers of Indiana. Unparalleled extravagance in public expenditures has marked the course of the democracy in Indiana during the past decade, until the state is burdened with a debt of $9,000,000. The current expense of the state government has increased by reckless management. The burdens thus imposed have become too oppressive to be endured. Our progress as a people has become greatly impeded, and the credit of the state will soon become seriously impaired unless radical changes in the conduct of our public business are speedily introduced. Relief lies with the people, and we invite the voters of all political opinions to unite in turning out of power the party that has always been false to its pledges of economy and reform.

We arraign the democratic party of Indiana for enacting an unequal and unjust tax law. It imposes upon the farmer, laborer and householder an excessive and unjust share of public burden; it creates a great number of unnecessary officers hitherto unknown to law. To the burden of taxation, already too heavy, it adds more than $100,000 for the fees, salaries and expenses of these offices and officers. We demand its speedy revision. We pledge ourselves to enact such amendments to the present tax law as shall relieve the farm and the home from the unjust taxation now borne by them; which shall place a just share of the public burden on capital and provide a more simple and less expensive system.

We condemn the action of the last democratic legislature in largely increasing the fees and salaries of the state and county officers. It made many sinecures by providing for the performance of official duties by deputies, paid out of the public funds.

The law passed by the last democratic assembly apportioning the state for legislative and congressional purposes was designed and wickedly framed so as to deny to many counties and localities fair and equal representation in the legislative department of the state and nation; to place and retain under democratic control in this state all its public institutions and affairs and to give that party an increased and unfair representation in congress and the legislature. Such a policy is dangerous and destructive of all good government and merits the condemnation of all patriotic people. And we now pledge the republican party to continue the war against this dishonest policy of the democratic party until the state shall be honestly apportioned by giving to each county and locality its fair and equitable representation in proportion to its numbers.

We denounce the purpose of the democratic party, clearly avowed in the national platform, to repeal the law imposing a 10 per cent tax on state bank issues, and thus remove the only barrier to a return of the system of "wildcat" money which once disgraced our state and largely impoverished our people.

The democratic party deserves the emphatic condemnation of every citizen of the state for its refusal to place our benevolent institutions upon a nonpartisan basis, when murder, cruelty, debauchery, fraud and incompetency mark that party's management of those institutions, and for still persisting in retaining partisan control of the helpless and unfortunate that they may be made the coin in payment for party services. We therefore demand an absolute non-partisan management of the benevolent and reformatory institutions of the state, through boards whose members shall be appointed by the governor from the different political parties of the state, to

that end that they may be relieved from the present profligate management.

We favor the enactment by congress of a law thrice recommended by President Harrison compelling the use of standard safety car-couplers for the protection of the lives and limbs of employes engaged in interstate commerce. The people in the employ of railroad companies in this state form a large percentage of its population and are justly entitled to such legislation as will place them on an equality with such corporations before the law, and we are opposed to railways maintaining insurance companies by coercing their employes to become members of them. The employers of labor should be liable in damages for injuries to persons or destruction of life where the employer is more at fault than the employe. We also favor a law governing convict labor in the penal institutions of the state that will work the least possible injury to free labor. We are in sympathy with all well-directed efforts of laboring men to improve their condition, by united action or otherwise, and pledge ourselves to give them such legislation as will tend to advance the interests of wage-workers.

We most heartily indorse the generous pension laws enacted by republicans in congress and congratulate the country that during the administration of President Harrison no pension bill has been vetoed. We demand that suitable and proper provisions be made for the care and maintenance of indigent soldiers and their wives and widows, to the end that no soldier, or the wife or widow of a soldier, shall ever be an inmate of a poorhouse in the state of Indiana; and that such provisions be made that the soldier when overtaken by poverty and adversity shall not in his declining years be separated from the wife of his youth. We therefore advocate the establishment by the state in connection with the Indiana department of the Grand Army of the Republic of a suitable state soldiers' home for the care and maintenance of indigent soldiers and their wives and widows, upon the plan recommended by the Grand Army of the Republic.

The people of Indiana cherish the memory of Alvin P. Hovey. He was a native of this state, and with only such opportunities as were open to all, arose to high position in the state and nation and distinguished himself as a jurist, soldier and statesman. The republicans of Indiana lament his death as the loss of a trusted leader and statesman who crowned a long and useful career by a courageous and manly defense of the constitution he helped to frame and of the just powers of the state's chief executive.

We tender to that eminent republican leader James G. Blaine, and to the members of his family, our sincere sympathy, and with them mourn the loss of those who so recently formed part of their family circle.

Indiana Democrat.

Adopted at Indianapolis April 21.

The democracy of Indiana, in convention assembled, reaffirms its devotion to the time-honored principles of its historic party. It believes that the powers delegated by the people should be strictly construed: that the autonomy of states and the rights of local self-government and home rule should be zealously guarded; that no money should be taken from the people under any pretext for other than public purposes; that the strictest economy should be exercised in all government expenditures, whether local, state or national; that legislation should be confined to the legitimate objects of government; that public office is a solemn public trust. It is uncompromisingly opposed to the enlargement and concentration of federal powers; to the usurpation by the central government of the functions of the states; to subsidies in every form; to every species of class legislation and government partnership with private enterprise; to the whole theory of paternalism. We believe that in a free country the curtailment of absolute rights of the individual should only be such as is essential to the peace and good order of the community, and we regard all legislation looking to the infringement of liberty of person or conscience not absolutely necessary to the maintenance of public order as vicious in principal and demoralizing in practice.

We arraign the administration of Benjamin Harrison for its subserviency to the interests of the money power which created it and its indifference to the welfare of the people; for its brazen violation of its solemn pledges to the country to elevate and purify the public service; for its shameless prostitution of the public patronage to the vilest partisan purposes, as illustrated by the sale of a cabinet office to John Wanamaker, by the employment of the pension bureau as a party machine, and by the promotion of William A. Woods to a high post in the federal judiciary as a reward for his services in saving the "blocks of five" conspirators from the penitentiary; for its contemptuous repudiation of its promises to the veteran soldiers of the union; for its wicked attempt to fasten upon the country the odious and un-American force bill, intended to deprive the people of the right to regulate their own elections; for its weak and demagogical policy, which has exhibited the American government to the world as a bully toward the feeble and a truckler to the powerful.

We favor such a radical and comprehensive measure of tariff reform as shall relieve the necessities of the people and the crude material of our manufactures from federal taxation. We condemn the so-called reciprocity policy as a transparent attempt to impose on the American people the shadow of commercial freedom for its substance in order to perpetuate the existing system of licensed spoliation for the benefit of trusts and monopolies, which are the chief support of the republican party.

We believe that there should be kept in constant circulation a full and sufficient volume of money, consisting of gold, silver and legal tender paper currency at par with each other. We favor the election of United State senators directly by the people and commend Senator Turpie for his efforts in congress to secure this great reform. We indorse the course of our distinguished senators, Daniel W. Voorhees and David Turpie.

We most heartily applaud the action of our two last legislatures in passing the school-book laws, thereby giving the people of Indiana a complete series of school text-books equal to those formerly used, at one-half the old trust prices. We pledge ourselves to resist every attempt of the schoolbook combine to regain their control of Indiana, and by that means bring about frequent expensive charges in books, of which the people justly complained in former years.

We approve the Australian election system introduced in Indiana by the democratic party. It has stood the test of experience and we are in favor of maintaining it in the act.

This convention hereby renews the expression of appreciation of the patriotism of the union soldiers of Indiana in the war for the preservation of the union, and we favor just and liberal pensions for all disabled soldiers, their widows and dependents, and most heartily indorse the action of the Grand Army of the

Republic looking to the establishment of a state home where crippled and indigent soldiers may pass their few remaining days with their wives. But we demand that the work of the pension office shall be done industriously, impartially and honestly. We denounce the administration of that office by the present commissioner, Green B. Raum, as incompetent, corrupt, disgraceful and dishonest, and we demand his immediate removal from office.

We heartily indorse the new tax law as a wise and beneficent act, by which the increased revenues necessary for the support of the state government are raised entirely from the corporations of the state, that had heretofore unjustly escaped their fair proportion of taxation. We commend the legislature for refusing to adopt Gov. Hovey's recommendation to increase the state levy from 12 cents to 25 cents on the $100 and for meeting the necessary expenses of the state's benevolent institutions by a levy of 6 cents on the $100.

We denounce the infamous conspiracy of the republican county commissioners, township trustees and other officials of Indiana, who, for the purpose of creating unfair prejudice against the new tax law, have wantonly and needlessly increased the local taxes in the forty-six counties controlled by them more than $1,250,000—a sum greater than the total increase of state taxes in the entire state. We call on the tax-payers of those counties to rebuke at the polls those local officials who have put this needless and oppressive burden upon them. That the law is in the interest of the masses is attested by the fact that corporate wealth has arrayed itself against it and is now engaged in a desperate struggle in the courts for its overthrow.

Inasmuch as the exemption of the greenback currency from taxation by national law is not only unjust in principle but also is the occasion of much fraudulent evasion of local tax laws, and inasmuch as inter-state transportation companies are exempted from equitable taxation by the constitutional powers conferred on congress, we demand that the Indiana senators and representatives in congress use their influence to secure the passage of laws making greenbacks taxable as other money and making inter-state commerce taxable on the same terms as the domestic commerce.

We congratulate the tax-payers of Indiana on the adoption by the last legislature of the system of paying public officials stated salaries instead of giving them power to compensate themselves by fees and perquisites.

We reaffirm our unswerving devotion to the interests of public education, not only as identified with the common-school system but also in connection with the higher institutions of learning, free public libraries and all other legitimate means for promoting and preserving the virtue and intelligence of the people.

The democratic party stands by its record as the friend of the masses as against the classes, and calls the attention of the laboring men of Indiana to the fact that it has given to them the eight-hour law, the law to prevent blacklisting, the law prohibiting "pluck-me" stores, the law for the protection of miners, and laws which make it impossible for Pinkerton detectives to arrest or slay laboring men in Indiana because of their efforts toward self-protection. For twenty-five years the republican party has legislated for the rich and powerful and in the interest of corporate wealth. The democratic party pledges itself to remedy the evils growing out of such class legislation and in all future contests to stand by the great producing masses, whose toil and self-sacrifice are at the foundation of all natural wealth. We commend the organizations of the industrial classes for self-protection against trusts, combines and monopolies, and call the attention of the farmers and laborers to the fact that every evil complained of by them is the result of republican legislation.

Resolved, That this convention indorses the wise and patriotic administration of Grover Cleveland; that the presidential campaign of 1892 should be conducted on the issue of tariff reform as defined in the presidential message of 1887; that upon this issue Mr. Cleveland is the logical candidate of the democratic party.

Resolved, That the democratic party of Indiana expresses its unalterable confidence in and attachment to its gallant leader, Isaac P. Gray; that it holds him to be worthy of any honor in the gift of the American people, and that his name be presented to the convention by the delegation this day appointed, and in the event that the national convention deems the nomination of Mr. Cleveland inexpedient, the delegation is instructed to use every honorable effort to secure the nomination of ex-Gov. Isaac P. Gray for the presidency.

Indiana People's Party.

Adopted at Indianapolis May 27.

Preamble—In view of the great social, industrial and economic revolution now dawning on the civilized world, and the new and living issues confronting the American people, and recognizing that in all ages and all civilizations the great middle class has been the bulwark of civil liberty—the breakwater against fanaticism, whether in church or state; and as the life of this republic, the spirit of civil and religious liberty, must find their "city of refuge" in the homes and their citadel of safety in the hearts of the great middle class of our people, the people's party believes the time has arrived for a crystallization of the reform forces of our state. Therefore, we invite all persons who are desirous of bettering their condition to join with us in eradicating the evils which are now so rapidly destroying the body-politic.

Finance—We demand a national currency, safe, sound and flexible, issued by the general government only, a full legal tender for all debts, public and private, and that without the use of banking corporations; a just, equitable and efficient means of distributing direct to the people at a tax not to exceed 2 per cent. to be provided as set forth in the sub-treasury plan of the Farmers' alliance or some better system; also by payments in discharge of its obligations for public improvements.

We demand the free and unlimited coinage of silver, and condemn President Harrison for calling the international monetary conference and inviting other nations to assist us in fixing a value on our silver. We regard it as an effort to demonetize the silver dollar by an international agreement.

We demand that the amount of the circulating medium be speedily increased to not less than $50 per capita.

We demand a graduated income tax.

We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all national and state revenues shall be limited to the necessary expenses of the government, economically and honestly administered.

We demand that postal savings banks be established by the government for the safe deposit of the earnings of the people and to facilitate exchange.

Transportation—Transportation being a means of exchange and a public necessity, the government should own and operate the railroads in the interest of the people.

The telegraph and telephone, like the post-office system, being a necessity for the transmission of news, should be owned and operated by the government in the interest of the people.

Land—The land, including all the natural sources of wealth, is the heritage of the people and should not be monopolized for speculative purposes; an alien ownership of land should be prohibited; all lands now held by railroads and other corporations in excess of their actual needs and all lands now owned by aliens should be reclaimed by the government and held by actual settlers only.

State Demands—We demand that our present election law be so amended as to allow all political parties representation on the election boards.

We demand that the state be redistricted with absolute fairness, and that in making up the representative, senatorial and congressional districts no efforts be made to disfranchise any class of citizens.

We demand an amendment of the present tax law to the extent that all property be valued for the purpose of taxation according to the net receipts derived therefrom.

We demand that all official fees be covered into the public treasury and officers be paid what their services are worth in the open market.

We demand that county superintendents be elected by a vote of the people.

We demand that the office of county assessor be abolished and that the township assessors constitute the county board of equalization.

We demand such revision of the law for the listing of property for taxation that shall compel all property, both real and personal, to be listed at a fair cash value and proper credit be given for all bona-fide indebtedness.

Resolved, We demand that the government issue legal-tender notes and pay the union soldiers the difference between the price of the depreciated money in which they were paid, and gold.

Resolved, That we favor the enactment of laws under which the people may vote periodically upon doctrine and policies, without the intervention of parties or candidates, the results of these elections to be considered as instructions to our legislative servants, and to be enforced by impeachment when such instructions are disregarded.

Our national convention is respectfully asked to adopt this plank.

Resolved, That the right to vote is inherent in citizenship without regard to sex.

Resolved, That excessive wealth and extreme poverty are the two great causes of intemperance. We believe that in the proper distribution of the wealth of the country by a correct adjustment of our medium of exchange intemperance would be greatly reduced.

Indiana Prohibitionists.

Adopted at Indianapolis May 26.

Believing in Almighty God as the Ruler of the nations, and recognizing the people as the true source of political power, and affirming that all legislation should be in the interest of all the people, and appealing to the patriotism of our citizens, the prohibition party of Indiana adopts the following platform:

1. We declare that the traffic in alcoholic beverages should be made a public crime and adequately punished as such, and that the manufacture, importation, exportation and transportation of such beverages should be prohibited by law.

2. Believing that all class legislation is wrong and that "equal rights to all and special privileges to none" should be the motto of our government in all its relations to the people, therefore we declare that the general government, without the intervention of banks, should issue the circulating medium of a sufficient volume for the transaction of the business of the country in a manner which will be just to the debtor as well as the creditor class. Said circulating medium to consist of gold and silver coin and United States treasury notes, each to be a full legal tender for all debts, public and private, and each to be taxable.

3. We favor the government control in the interest of the people, to the extent of ownership, if necessary, of the public means of transportation and communication.

4. We favor such a graduated system of taxation as will place the burdens of government in just proportions upon the wealth of the country, and the removal of all tariff from the necessaries of life.

5. That we recognize the W. C. T. U. as a faithful and powerful influence in the work of moral reforms, the purification of politics and perpetuation of our civil and religious liberty, and declare that all restrictions on suffrage should apply equally to both sexes.

6. We favor the passage of laws prohibiting the alien ownership of lands, and that all lands now held by railroads and other corporations in excess of their actual needs be reclaimed by the government, in accordance with the principles of justice, and held for actual settlers.

7. Our immigration laws should be so revised as to exclude from our shores all diseased persons, paupers and criminals. The time of residence for naturalization should be extended, and no naturalized person should vote within two years after such naturalization.

8. All official fees should be covered into the public treasury, and officials be paid reasonable salaries for services actually rendered.

9. We favor the election of United States senators by direct vote of the people.

10. We favor the establishment of postal saving banks by the general government.

11. The speculation in margins, the cornering of grain, money and products, for the arbitrary control of production and prices, should be prohibited.

12. We denounce as infamous the so-called "age of consent" laws, and declare for the removal of all such means of defense for the violation of chastity.

13. We favor the enactment of laws prohibiting the employment of children under 15 years of age in factories, mines and workshops.

14. We favor the abolition of contract convict labor.

15. Every honorably discharged union soldier and sailor of the war merits and should have a pension, based upon service and disability, without regard to rank.

16. With full faith in our cause, as embodied in the foregoing platform, we invite the cooperation of all voters of this country in securing such reforms.

Iowa Republicans.

Adopted at Des Moines June 29.

Resolved, That the republican party of Iowa in convention assembled hereby ratifies in terms of unqualified approval the nomination of Gen. Benjamin Harrison and the Hon. Whitelaw Reid as our standard-bearers in the national campaign. The prosperity of the nation under the able and patriotic administration of President Harrison commands the admiration of all good citizens.

Resolved, That the platform enunciated by the republican national convention is broad enough, strong enough, and all-sufficient as

the basis of union in the contest before us. While we unhesitatingly ratify and indorse that platform in all its parts we point with special pride to the attitude upon the tariff issue, the silver problem, the temperance question, and its demands for a pure and untrammeled ballot.

Resolved, That we denounce the democratic party for its declaration in its recent national convention in Chicago in insisting upon the abolition of the national tax on the issue of state banks. That after more than a quarter of a century of continuous prosperity with a sound currency under the wise and beneficent system evolved and maintained by the republican party, we condemn and denounce the attempt to reinstate wildcat money and worthless bank notes, which at one time ruined all financial interests of the country.

Iowa Democrats.

Adopted at Davenport Aug. 18.

1. The democrats of Iowa in convention assembled heartily indorse the platform of principles enunciated at the national convention held at Chicago and the nomination of Grover Cleveland and Adlai E. Stevenson for president and vice-president. The administration of Grover Cleveland of the high office of president for four years was wise, courageous, honest, and conservative, and his nomination for the third time by the representatives of the national democracy gives special force to the reforms suggested in his official messages and his public utterances. We hail the opportunity for a full discussion and a determination by ballot of the paramount issues which the national platform and the candidates suggest—to wit, radical reform of the tariff and the maintenance and perpetuity of the doctrine of local self-government; and we pledge our earnest and united support to these principles.

2. We renew with pride and pleasure our commendation of Gov. Horace Boies. His faithful, honorable, and wise administration of the office intrusted to his care merits the approval of every patriotic citizen within the state.

3. We recognize the effort of the popular branch of the congress of the United States to secure a reform of the tariff, and we condemn the republican senate for its failure to consider measures passed by the popular branch, particularly when the people themselves had declared against the high protection policy represented by the McKinley bill by an overwhelming majority in the election of 1890. The failure of the republican national administration and the republican senate to bow to the verdict of the people at the polls is a denial of the right of the popular sovereignty such as was not contemplated by the founders of the republic, and such as would not be tolerated in any other civilized country on the globe.

4. We are in thorough sympathy with the multitude of honest toilers throughout the land, and we observe with deep solicitude the conflicts between capital and labor which manifest themselves in the ever-increasing number and scope of lockouts and strikes. These conditions are chargeable to the policy of the republican party, which has for its object the disbursement of taxes among the favored few and the maintenance of privileged classes at the expense of the masses.

5. We reiterate the principles enunciated in the platforms of the democracy of Iowa in 1889 and since that time touching the regulation of the liquor traffic, and commend the democratic members of the last general assembly for their honest efforts to secure a reform in legislation upon this question. The doctrine of license and local option, as declared by the democratic party of this state, has in two successive state elections been approved by a majority of voters; and with the continued approval of the people we pledge ourselves to the enactment of laws which shall give the people in their respective localities the management and control of this traffic.

6. The present system of managing our state institutions through separate boards of trustees has led to extravagance, both in their construction and their maintenance, until more than two-thirds of the entire revenues of the state are annually absorbed by them. This system was the natural outgrowth of conditions which left the state in the exclusive control of one political party for more than a third of a century, and required of such party that it furnish places for a worse than useless number of ambitious partisans We demand the abolition of these separate boards of trustees and the substitution therefor of a single board of control, nonpartisan in its character, impartial as between the several institutions, and thoughtful of their interests and those of the state alike.

7. We declare our purpose to nominate candidates for the United States senate in general convention, and demand such a change in our national constitution as will permit the election of the same by a direct vote of the people.

8. We insist on just and equal taxation for state and local purposes, and hence we hail with joy the efforts now made and making to change our present cumbersome and incongruous system for raising the necessary revenue to a general and harmonious plan that shall rest on proper and correct principles.

9. Recognizing their vast importance to all interests, we are heartily in favor of the movement for better roads which has been successfully inaugurated in our state and commend the same to the active support of the public.

10. We denounce as un-American any society or organization that is pledged to deprive any citizen of his right to vote or hold office on account of his religious beliefs or nationality.

Iowa People's Party.

Adopted at Des Moines June 7.

We demand a national currency, safe, sound and flexible, issued by the general government only, a full legal tender for all debts, public and private, and that without the use of banking corporations, a just, equitable and efficient means of distribution direct to the people at a tax not to exceed 2 per cent be devised, as set forth in the sub-treasury plan of the Farmers' alliance, or some better system; also by payments in the discharge of its obligations for public improvements.

We demand the free and unlimited coinage of silver.

We demand that the amount of circulating medium be speedily increased to not less than $50 per capita.

We demand a graduated income tax.

We believe that the money of the country should be kept as much as possible in the hands of the people, and we demand that all state and national revenues shall be limited to the necessary expenses of the government economically and honestly administered.

We demand that postal savings banks be established by the government for the safe deposit of the earnings of the people and to facilitate exchange.

The land, including all the natural sources of wealth, is the heritage of all the people and should not be monopolized for speculative purposes, and alien ownership of land

should be prohibited. All lands now held by railroads and other corporations in excess of their actual needs and all lands now owned by aliens should be reclaimed by the government and held for actual settlers only.

Transportation being a means of exchange and a public necessity, the government should own and operate the railroads in the interest of the people. The telegraph and the telephone, like the postal system, being a necessity for the transmission of news, should be owned and operated by the goverment in the interest of the people.

The following resolutions were passed as an expression of the sentiments of your committee:

Resolved, That we condemn the nine members of congress who, elected on expressed and implied pledges to secure to our people the free and unlimited coinage of silver, basely betrayed the trust reposed in them and violated their pledges by their votes. And that we condemn President Harrison and his administration for calling an international monetary conference and inviting other nations to assist us in fixing a value on our silver. We regard this as an effort to demonetize the silver dollar by and with the aid of the enemies of our flag and our free institutions.

Resolved, By the people's party of Iowa in state convention assembled, that we take delight in saying to the Omaha convention that we have in Iowa a man under whose leadership her citizens would delight to go forth to battle in the coming struggle for industrial emancipation; a man whom we believe the whole country would delight to honor—namely, Gen. James B. Weaver; and while we thus declare ourselves as his supporters for the exalted position, we as unhesitatingly yield to the wisdom of the national convention and as firmly pledge ourselves to the nominee of its choice.

Iowa Prohibition.

Adopted at Des Moines June 1.

The prohibition party in the state of Iowa in convention assembled, acknowledging Almighty God as the source of all power in government, and the holy scriptures as the basis of all civil law, do hereby declare:

That we favor the absolute prohibition of manufacture, transportation and sale of alcoholic liquors as a beverage.

We demand the right of suffrage to all natural-born or properly naturalized citizens without regard to sex.

We favor arbitration as the method of settlement of all local, inter-state and international difficulties.

We demand that the American laborer shall be protected from competition with foreign and home criminal labor, and that all laborers shall receive equal pay for equal work in cash.

We demand that educational and moral qualification shall be added to a residence of five years in the United States as a condition of naturalization.

That this convention oppose the opening of the gates of the Columbian Exposition on the sabbath day.

Michigan Republicans.

Adopted at Detroit April 14.

The republicans of Michigan feel a common pride with their compatriots throughout the union over the continued gratifying success of the great principles which have inspired its energy and controlled its actions since the organization of the party. We review with profound satisfaction the record it has made in the past and its unparalleled achievements, so conducive to and so manifestly indicative of the broad character of national statesmanship. Admiration of this uninterrupted progress under its auspices toward an ideal government of the people, by the people and for the people is not less thorough nor more gratifying than are the bright prospects of further advantage and future triumphs.

We most heartily indorse the glorious work of the republican majority in the LIst congress of the United States, and will do all in our power to uphold and sustain the victories already won for the grand triple policy of protection, reciprocity and honest money.

In the language of the republican platform of 1888, we demand effective legislation by congress to secure the integrity and purity of national elections, and that our representatives in the United States congress do all in their power to secure a law which will give to every elector a free ballot and to every vote a fair count.

We heartily approve of the forceful, fearless and dignified policy of the administration of President Benjamin Harrison, who has been so ably assisted in all his sagacious and loyal endeavors by that noble patriot and statesman, James G. Blaine, in the promulgation of true and progressive American principles.

While the republicans of Michigan recognize the sterling worth and ability of our distinguished fellow-citizen, Gen. Russell A. Alger, whose claims to recognition as a presidential standard-bearer have been familiar to the people of this nation since his name was first presented to the convention at Chicago in 1888, we can safely leave to the collective judgment of the representatives of the party at Minneapolis in June next the selection of a leader who will head the triumphant march of our hosts to victory at the polls in November, pledging to the nominee of the convention our unqualified co-operation and unswerving devotion.

Michigan Democrats.

Adopted at Grand Rapids Aug. 17.

We congratulate the country and the democratic party on the nomination made at Chicago of Grover Cleveland and Adlai E. Stevenson for president and vice-president respectively, as it gives assurance of a repetition of the wise statesmanship and economical administration with which the country was blessed from 1885 to 1889, and we pledge them our hearty support.

We commend the honest, faithful and economical administration of Gov. Edwin B. Winans, who has set an example well worthy of emulation by his successor and of well-earned gratitude of the people of the state.

The democratic party is the only party founded upon the principles of the immortal declaration of American independence and the constitution of the United States, whereby all citizens are regarded as equal before the law, and the rights of freedom of speech, freedom of the press, freedom of action and freedom of conscience, or religious freedom are fully guaranteed and maintained, so far as the exercise thereof does not interfere with the constitutional and legal rights of others, and no abridgments of such rights shall be tolerated. It has always been the friend and defender of the masses of the people against the encroachments upon their rights and privileges by the self-constituted aristocracy of the land. It believes that a people least governed is the best governed; that the intelligence and patriotism of the masses is a sufficient and sure guaranty to the stability of the national union of the states and the safety and peace and prosperity of its citizens. That

the civil authorities of the state are the constitutional conservators of the peace and that the military should only be called into requisition in cases of great emergency, and then only as aids and subordinates to the civil authorities, and we denounce the employment by private individuals and corporations of armed bodies of men, no matter under what pretense, as a menace to the peace and welfare of the country and states, and we demand at the hands of our legislators the enactment of such laws as will in the future prohibit the employment and use of such forces, and severe punishment therefor, to the end that Pinkertonism and kindred organizations may be relegated to obscurity and disgrace.

We denounce the McKinley tariff law as the culminating atrocity of class legislation. It has not increased the price of the products of our farms nor increased the wages of labor and we indorse the action of the present democratic congress in attempting to repeal its most oppressive features.

Resolved, That we condemn the republican party for demonetizing and degrading silver, and thus bringing upon the country the train of evils resulting therefrom, and would commend to our representatives in congress the fact that a large majority of the people of this state are in favor of restoring silver to its time-honored and rightful place as the coin of the nation, co-equal with gold. We demand that henceforth the issuing of all circulating medium be made under acts of congress through the national treasury in such amounts as the business wants of the country require.

WHEREAS, Recent labor troubles at Homestead and elsewhere have caused general disaster and great injustice; and

WHEREAS, This convention desires to affirm the democratic doctrine that all such disputes should be settled by fair and judicial arbitration; therefore,

Resolved, That it is the duty of the state legislature to establish a proper tribunal, with power to summon defendants before it, adjust all disputes and enforce its judgments by proper process; that we pledge the democracy of the state of Michigan to the establishment of such a tribunal, where laboring men and labor organizations can have a fair hearing and proper redress.

For the better protection of our mines and mining laborers we favor the amendment of existing laws relating to mine inspectors so as to provide for the election of such officers by direct vote of the people.

Resolved, That the action of Gov. Winans in recommending to the legislature in special session a commission to devise means for the improvement of our country roads meets with our hearty commendation and that we hope that the next legislature will take prompt action upon this subject.

WHEREAS, The present methods adopted in the management of our penal and reformatory institutions, whereby the goods produced by the employment of convict labor are brought in ruinous competition with the products of law-abiding citizens engaged in legitimate enterprises, which competition is destructive of the interests of the workmen and mechanic as well as the capital employed; therefore be it

Resolved, That we heartily recommend the adoption of such legislation as will change the present system, under which the prisoners of the state are employed, by diverting from the legitimate avenues of trade the proceeds of their labor either by engaging them in constructing the highways of the state or such other manner as the legislature may deem best calculated to render their operations least harmful to the success of honest labor or least dangerous to the existence of legitimate established industries.

Michigan People's Party.

Adopted at Jackson Aug. 3.

Resolved, That in order to vouchsafe to the people liberty of thought and conscience, and speech and press, we demand:

1. The absolute and continued separation of church and state.

2. That there shall be no appropriation of either state or municipal funds, or property, to any religious, sectarian or religio-politico institutions.

3. That all schools for the general education of the young shall be under the supervision and inspection of the state.

Resolved, That a private army is a standing menace to the liberty of the American people; and we denounce that band of mercenaries known as Pinkertons.

Resolved, That the system of employing convicts in our penal institutions, in any industry that enters into competion with free labor, should be abolished.

Resolved, That our convict labor should be employed in improving our public highways.

Resolved, That all manufactured articles should bear the name of the manufacturer, and that the destroying, defacing, or covering up in any way the name of the manufacturer shall be deemed a misdemeanor.

Resolved, That as the proprietors of manufacturing institutions and mines are attempting to make inoperative the Australian or secret-ballot system by compelling their employes to work on election days, we demand that all election days be made legal holidays.

Resolved, That mine inspectors should be elected by the people instead of by the board of supervisors who are now controlled by the mining corporations.

Resolved, That all lands sold for delinquent taxes shall be purchased by the state; the title, after a reasonable time, if not redeemed, to become absolute and held for actual settlers in limited quantities.

Resolved, That the people should have the right to propose laws and to vote upon all legislative measures of importance; and we demand the initiative and the referendum.

Resolved, That we are in favor of equal suffrage with an educational qualification.

And finally we declare ourselves uncompromisingly opposed to all monopolistic trusts and combines of whatever nature they may be.

Resolved, That in cases of difficulty between employers and employes we favor its submission to arbitration.

Michigan Prohibitionists.

Adopted at Owosso Aug. 11.

We favor and when we come into power will establish a practical and efficient system of the civil service, based upon the present system.

WHEREAS, Many young men, whose habits are not formed and who have anxious parents deeply interested in their welfare, enlist in the service of the state and attend the annual encampment of our state troops, we believe it to be the duty of our state authorities to surround all young men in such service with moral influences. We therefore regard with abhorrence the act of our state government in providing for the sale of intoxicating liquor to the troops while in the service of the state. Akin to this is the equally burning disgrace of permitting the debauching of the youth of our state and nation in attendance at our state educational institution by the refusal of both

old party legislatures to protect them from the open saloon and brothels at the very doors of these. We call upon all voters to help in ousting from power parties who now, by permitting such outrages, have proved themselves traitors to the best home and moral interests of the state.

All pay for public services should be reasonable salaries and not by fees, and where fees are exacted they should be covered into the public treasury.

The granting of passes by railroads to public officers should be prohibited and their acceptance should be made a misdemeanor.

We further favor a graduated income tax.

We render the White Rose league our sincere thanks for its efficient aid in the prohibition party work and rejoice in its rapidly widening influence in the state and nation.

We arraign for public condemnation the pusillanimous and truckling utterances of the democratic and republican national platforms on the liquor question. The anti-sumptuary declaration of one and the expression of sympathy for temperance by the other are equally unmeaning and misleading and show the utter weakness of such old organizations. It is equally apparent that the newly launched craft, the so-called people's party, after numerous fruitless attempts to indorse prohibition as an issue, has already fatally stranded on this rock.

Recognizing the vital importance of the thorough organization of the prohibition students of our land, we heartily indorse the Inter-Collegiate Prohibition Association of the United States, organized at Cincinnati last June, and we commend its work to the consideration and support of all true prohibitionists.

We repudiate the principle of local option as a humiliating and degrading compromise with wrong, and a base subterfuge used by dominant parties, in league with the saloon power, to quiet an awakening public conscience and yet retain the temperance voters in the rural districts without alienating the slum votes of the city

Property covered by delinquent taxes, after ample time for redemption, should revert to the state and not be sold to speculators.

We insist upon the right of the state to require that all of its youth be educated in the common branches of the English language, and that all schools, public and private, shall be under state inspection and supervision, and that no public aid shall be granted to any educational institution not maintained by the state.

The right of suffrage should be granted to all citizens, regardless of sex.

No person should hereafter be given the ballot who is unable to read and write the official language of our country.

The chairman of the 6th district moved that the resolutions be read by their title the second time, and that those planks which the convention was satisfied with remain and those not favorably considered be changed.

Minnesota Republicans.

Adopted at St. Paul July 28.

The republicans of Minnesota, through their delegates in convention assembled, do affirm and declare as follows:

1. We indorse and approve the platform of the republican national convention adopted at Minneapolis June 10, 1892.

2. We indorse the wise, pure, firm and intensely American administration of President Harrison.

3. From its very infancy and for upward of a third of a century our state has been managed and guided by men and principles of the republican party. During that period the state has grown from a mere outpost of scattered settlements to a commonwealth of 1,500,000 souls, prosperous and aggressive and equal in moral, intellectual and commercial vigor to the best of the older states. Such a people, so prosperous and so growing, have not been badly governed. Our state administrations have been clean, able, and always loyal to the best interests of the people. The administration of Gov. William R. Merriam has been in no way inferior to those of his predecessors, and may justly be regarded as a model of faithfulness to a great public trust.

4. Recognizing that in some states force and fraud are used to defeat the expression of the will of the people, the republicans of Minnesota are in favor of all wise means to secure to every citizen a free ballot and a fair count.

5. Trusts and combinations to control and unduly enhance the price of commodities are a great evil, the outgrowth of human cupidity, and exist in all civilized communities, regardless of tariff laws. We are opposed to the same and are in favor of all proper legislation to eradicate and repress the evil. In this connection we refer with pride to the establishment and maintenance at the state prison at Stillwater of the manufacture of binding twine, which has been the means of protecting and defending our farmers against one of the great trusts and monopolies.

6. We believe in protecting the laboring man by all necessary and judicious legislation, and to this end we favor the enactment of suitable laws to protect the health, life and limb of all employes of transportation, mining and manufacturing companies while engaged in the service of such companies; (2) the establishment in some form of boards or tribunals of conciliation and arbitration for the peaceful settlement of all disputes and disagreements between capital and labor, touching wages, hours of labor and such questions as pertain to the safety and physical and moral well-being of the laborer; (3) the exclusion from our shores, by suitable laws and regulations, of all paupers, criminals, contract labor and other dangerous classes; and (4) the preservation of the public domain for actual and bona-fide settlers under the homestead law.

7. The farmers of this state, who constitute the chief element of our productive wealth-creating population, are entitled to the cheapest and best facilities for storing, shipping and marketing their products, and to this end we favor such laws as will give them cheap, safe and easily obtainable elevator and warehouse facilities and will furnish them promptly and without discrimination, at fair and reasonable rates, proper transportation facilities to all accessible markets.

8. Railroad, telegraph and telephone companies and all corporations or individuals charged with and performing any public service or employment are amenable to public control, and we favor the enactment and enforcement of such laws as will compel them to render the best and most approved service at a fair, just and reasonable rate, without discrimination as to persons or places.

9. The convention approves and readopts the resolutions passed by the last republican state convention, urging upon congress the passage of the Washburn-Hatch anti-option bill.

10. Realizing the importance to the people of good public highways, we are in favor of the enactment of laws for the systematic improvement and maintenance of the same.

11. The debt of this nation to the men who preserved it cannot be computed from the standpoint of dollars and cents. A nation's gratitude is theirs, and in proof thereof the republican party of Minnesota, not grudgingly,

but heartily, cordially and earnestly favors a system of pensions so liberal as to properly provide for the living and tenderly protect from want the widows and orphans of the dead. And we rejoice that the nation's growth and great prosperity of the government they served warrant us in making this pledge.

12. We recommend the work and the object of the State League of Republican clubs and advise a continuance of the same.

13. The republicans of the state are heartily in favor of the protection of its farmers so far as consistent with its general interest.

14. WHEREAS, The republicans of Minnesota, recognizing the conspicuous ability and fidelity of Senator Cushman K. Davis, have manifested substantial unanimity in demanding his re-election to the position he has so ably filled; and,

WHEREAS, Notable precedents are on record for the nomination by state conventions of men who are evidently the popular choice for United States senator, thus making them the recognized candidates of the party for that high office; therefore,

Resolved, That this convention hereby presents the name of Cushman K. Davis as the chosen nominee and candidate of the republican party of the state of Minnesota for re-election to the United States senate by the legislature of 1893.

Minnesota Democrats.

Adopted at Minneapolis Aug. 3.

The democratic party of Minnesota gathered in delegate convention mingle their rejoicing with that of their fellows in the nation that the earnest voice of the rank and file of the party was heard and obeyed by the national convention and found expression in the nomination of the able and courageous Cleveland for our leader, and in the bold, explicit declaration that republican protection is a fraud, as a proof of which we point to Homestead, where the militia of the state is keeping peace in a quarrel over the spoils between the real and the supposed beneficiaries of protection.

We denounce the rapacious and conscienceless combination which has grown up in the state. With the connivance of republican legislatures our grain markets have been monopolized and our farmers robbed of the fruits of their hard labors. We reaffirm our belief that the combination rests upon the fact that the railroads of this state have abjured one of their primary functions, the provision of suitable means for handling grain, and have given the same over to the control of private persons; and we again declare our belief that the remedy, simple, but efficacious, lies in legislation requiring the roads to resume this proper function, thus giving to every station a free and open market.

We recognize the great conspicuous fact that the property of our government rests upon labor, and that all legislation should be shaped, so far as possible, to relieve it of all unjust burdens and secure it its just share of the benefit of our general prosperity.

We are opposed to state interference with parental rights and rights of conscience in the education of children as an infringement of the fundamental democratic doctrine that the largest individual liberty consistent with the rights of others insures the highest type of American citizenship and best government.

We again call the attention of the voters to the manifest injustice and inequality of our tax laws, under which wealth easily evades its share of the public burdens and compels moderate accumulations to bear the part it shirks. And we again invite the coming legislature to a serious consideration of the subject, to the end that a just, evenly bearing system may be adopted.

The democratic party has always been and is to-day the consistent opponent of all legislation the result of which is to create law-made wealth, which impoverishes the poor and those of moderate means in order to enrich the few. We condemn all use of the taxing powers for this purpose. We call the attention of the people of this state to the fact that the mineral wealth at the northern part of this state is not bearing its just share of the public burdens. The non-resident millionaires who own iron mines whose value is, at a moderate estimate, $2,000,000, under our present statutes pay less than $9 per annum in taxes. In exchange for the votes of 2,000 employes, coerced into voting the republican ticket, the republican party has covenanted to perpetuate this system and to deliver to these men the government of one of the counties of this state. We demand that this condition of things be rectified.

We denounce all bounties and exemptions, and demand that all taxes to be raised in this state shall be as nearly equal as may be and that all property on which taxes are to be levied shall have a cash valuation and be equalized and uniform.

And we call upon all good citizens without distinction of party to join with us in defeating the proposed constitutional amendment known as chapter 2 of the general laws of 1891, to be voted upon this fall, which seeks to perpetuate this unjust system of taxation; and while it pretends to levy taxes upon sleeping cars it repeals the existing constitutional tax of 3 per cent upon the gross earnings of our railroads, now realizing for the state a revenue of $725,000 and annually increasing and places the rate of taxation upon the earnings of such railroads at the caprice of the legislature.

We especially call attention to and denounce the form of the ballot for this proposed amendment to be voted upon at the coming election, which is known as "Senate file No. 124," as being especially designed to mislead the voters, and we call upon all honest citizens to assist in rebuking such trickery.

Resolved, That we are in favor of a radical change in the laws of this state, and demand such legislation as will provide for intelligent and economical supervision of the building and maintenance of our country roads.

Resolved, That for the better security of our government we recommend an amendment to the federal constitution extending the presidential term to six years and making a president ineligible to re-election.

We favor also the election of president and vice-president and senators of the United States by a direct vote of the people.

Believing the contract system in force in the state penitentiary to be wrong in principle, prejudicial to the interests of the state, the welfare of the convicts and an injustice to honest labor, we demand its discontinuance at the expiration of the present contracts, and that the legislature prohibit any future contracts and provide for the employment by the state and for the state of all convicts and persons confined in the penal and reformatory institutions of the state.

Minnesota Prohibitionists.

Adopted at St. Paul June 1.

Recognizing the necessity of Divine guidance to a wise administration and believing that all government should be conducted for the common welfare of the people, we make the following declaration of principles:

The overshadowing question of the times is the suppression of the liquor traffic. The

organized liquor traffic is the most formidable, insidious and dangerous of all foes of good government, social order and material prosperity.

We therefore demand the repeal by the state of all laws licensing, permitting the traffic in intoxicants or deriving any revenue therefrom, and the absolute prohibition of their manufacture and sale for beverage purposes.

We also demand the entire prohibition by the federal government within its jurisdiction of the importation, exportation and manufacture of intoxicants and all traffic therein for beverage purposes, and also the repeal of all federal laws storing or taxing intoxicants, or licensing or permitting their manufacture, importation or sale for beverage purposes or deriving any revenue therefrom, and the enactment of adequate laws preventing the transportation thereof into states having prohibitory laws to be used contrary to the laws of such states.

We believe that all laws legalizing the saloon are in direct conflict with the objects set forth in the preamble to the constitution of the United States and of the several states, and such laws should be and we believe will be declared void.

We believe in the political equality of all men and women and in the right and duty of all citizens of proper age possessed of adequate intelligence and education (not disqualified by crime) to share in the honors and responsibilities of government, including the elective franchise, without distinction of race or sex; but suffrage should be based upon full citizenship and a proper educational qualification. We favor the Australian system, so framed as to insure equal justice to all political parties and a free official ballot at public expense; and we denounce the political chicanery of the old-party legislators in certain states that seek, by incorporation of unjust features into the system, to disfranchise voters of weaker organizations, or so discriminate against them as to render it extremely difficult for them freely to exercise their right of suffrage.

We favor the election of president, vice-president and United States senators by direct vote of the people.

We demand the abolition of official patronage and the wretched "spoils of office" system, and the placing of the civil service upon a basis of merit alone, under supervision of a competent pan-partisan commission; the inhibition of all class legislation, and of the improvident granting away (or leasing) of people's franchises, the public domain, the state mineral lands or other resources of the people; the suppression of lotteries, of gambling in options, futures, produce and stocks, and of all combinations for the control of production, transportation or the people's markets.

Money should be in gold and silver, and of treasury notes redeemable in gold or silver, at the option of the government; and all money should be equally a legal tender for all purposes. It should be issued by the general government only, and the volume of the currency should be increased to an amount sufficient to meet all the demands of the nation's business and to relieve all embarrassing monetary stringency.

The accumulation of vast fortunes, the centralization of wealth into a few hands, the enormous increase of corporate wealth and power and the acquisition of vast possessions in lands should be discouraged as against public policy; and alien ownership thereof, land monopolies and the holding of lands by railroad corporations free from taxation should be prohibited. The public lands shou'd be appropriated in limited quantities to actual settlers only, and the distribution of real estate in small holdings in fee among the people should be aided and encouraged by the government, as a promotive of good citizenship and the general public welfare.

Every one enjoying the protection of government should share in the burdens of taxation for its support in proportion to his ability to bear them and to the magnitude of his material interests protected; and to permit the wealthy to evade this duty of fealty is to encourage the malign spirit of disloyalty and oppression.

We favor a graduated tax annually by the government upon all incomes above a reasonable exemption and upon the corporate property of every corporation exceeding such amount not already so taxed; and we favor such amendment of the state laws as will effectually subject all private property in excess of a reasonable exemption, including that of railroad companies, to a just proportion of all taxes.

We are opposed to all covert indirect taxation permitting the ostensible payer thereof to exact it again, with additional and often oppressive tribute, from the consumers of the necessaries of life; except only such duties upon imports as are made expedient or necessary by the conditions of discriminating tariffs imposed by foreign governments, and of differences of wages and cost of production; and the duties so imposed should be adjusted from time to time by a permanent pan-partisan commission of expert business men upon the basis of an equitable adjustment of those differences only, and in the spirit of true reciprocity with all nations, and not with such countries as promise special advantages to favored classes.

Railroads should be made in the fullest sense public highways, and should be controlled in their management and rates, for the equal interest of all people, on the basis of a reasonable compensation to transportation companies in view of their actual necessary investments (not including any watered stock), and the state should in due time become the owner of the railroads as highways.

We also favor the establishment and control by the federal government of a general postal telegraph and telephone system, and of postal savings banks, under the management of the postoffice department, in the interest of the people.

We demand the complete suppression of polygamy, the social evil, and the indecent publication of scandalous details of immorality and crime; the entire equality of the sexes before the law and in the field of industry, the vigilant protection of womanly virtue, the increasing of the "age of consent" to 16 years; rigid and humane restriction and regulation in the employment of child labor; enforced, radical, healthful and just reform in labor employments, wherever needed in the promotion of justice, health and good morals; the settlement of disputes between capital and labor, or between employers and employes, by arbitration upon principles of mutual justice and equity.

We believe in the maintenance and constant improvement of free public schools, with free text-books, for universal and mandatory education of the youth, including scientific instruction in the nature and evil effects of alcohol upon the human system; the complete separation of the public schools and all educational funds from the use or the control of every religious sect or association; the protection alike of all sects by equal laws, with entire freedom of faith and worship, and the preservation and the guaranty to all persons of a weekly sabbath day of rest, in ac-

cordance with their own conscientious views as to the day to be observed.

As a check upon the corrupting power of the monied lobby and the alarming venality of municipal and legislative bodies, we favor a judicious referendum system in state and municipal legislation touching police regulations and the political, economical and industrial interests of the people.

We denounce the barbarous practice of hanging, shooting and burning supposed criminals without trial by jury, especially as now practiced on the colored citizens of this country.

Minnesota People's Party.

Convention at St. Paul July 14.

The convention indorsed the platform adopted by the Omaha convention, which will be found among the national platforms.

Nebraska Republicans.

Adopted at Lincoln Aug. 4.

The republicans of Nebraska, in convention assembled, affirm their faith in the principles enunciated in the platform adopted by the national republican convention at Minneapolis, and most heartily indorse the wise, clean, and truly American administration of President Harrison. The party is the friend of labor in the factory, mill, mine and on the farm; it will at all times stand ready to adopt any measure that may improve its condition or promote its prosperity.

We deplore the appearance of any conflict between labor and capital. We denounce the agitation of demagogues, designed to foment conflicts, and we most earnestly disapprove the use of private armed forces in any troubles to settle them. We believe that an appeal to law and its officers is ample to protect property and preserve the peace, and favor the establishment in some form of boards of tribunals of conciliation and arbitration for the peaceful settlement of all disputes between capital and labor and such questions as pertain to the safety and physical and moral well-being of the workingmen. We believe in protecting the laboring men by all necessary and judicious legislation, and to this end we favor the enactment of suitable laws to protect health, life and limb of all employes of transportation, mining and manufacturing companies while engaged in the service of such companies. * * *

The farmers of this state, who constitute the chief element of our productive, wealth-creating population, are entitled to the cheapest and best facilities for storing, shipping and marketing the products, and to this end we favor such laws as will give them cheap, safe and easily obtainable elevator and warehouse facilities, and will furnish them promptly and without discrimination, at a just and equitable rate, proper transportation facilities for accessible markets. We demand the enactment of laws regulating the rates charged by express companies within the state, to the end that such rates may be reasonable. * * *

We favor the adoption of the amendment to the constitution providing for an elective railroad commission, empowered to fix local passenger and freight rates. * * *

We are in favor of the postal telegraph and postal savings banks systems and free delivery. * * *

Trusts and combinations to control and unduly enhance the price of commodities are a great evil, and we favor all proper legislation to eradicate and repress them. * * *

The revenue laws of this state should be carefully revised by a commission of competent persons, representing the prominent industries of the state, to the end that all property rightfully subject to taxation may be made to pay its just proportion of the public revenues. * * *

The debt of this nation to the men who preserved it can never be paid in dollars and cents. The republican party of Nebraska cordially and earnestly favors a system of pensions so liberal as to properly provide for the living and tenderly protect from want the widows and orphans of the dead.

Resolved, That we indorse the movement inaugurated by the American College League, and pledge our hearty support toward advancing the college movement in Nebraska.

Nebraska Democrats.

Adopted at Lincoln Aug. 31.

The democracy of Nebraska, in convention assembled, hereby renew their devotion and fealty to the principles and policies of popular government as exemplified by the record of the democratic party since the days of Thomas Jefferson. We cordially indorse the democratic platform adopted at the Chicago convention, emphasizing its utterances upon the question of protection and the passage of a force bill.

We congratulate the people of the country on the nomination of Grover Cleveland and Adlai E. Stevenson.

Railroads and all other corporations of whatsoever kind must be held subservient to the law-making power of this state, and within constitutional limitations, railroads and all other corporations in Nebraska are and must continue amenable to legislative restrictions and regulations. To better effect a reconciliation between popular and corporate interests in Nebraska, and for the purpose of establishing justice and maintaining an identity of interests between the common carriers and the people of this state, and between servants and masters, we recommend the adoption of the constitutional amendment now pending creating a board of railway commissioners elected by the people of the state. We favor reasonable and just laws regulating railroad charges.

We believe that senators of the United States should be chosen by direct vote of the people and we favor the election of presidential electors by congressional districts.

We denounce the republican party for its system of contract convict labor, whereby it has given to a single individual the monopoly of all the cheap convict labor of this state and brought it into direct competition with the honest toilers of the state. And not content with fastening it upon the people for ten years, this party has leased it for another ten years before the expiration of the first term.

We condemn the giving of bounties and subsidies of every kind as a perversion of the taxing power.

The state of Nebraska has and exercises the right of regulating the sale of intoxicating drinks in the interests of good order throughout the entire commonwealth, but the prohibition of the manufacture and sale of such drinks within the state is contrary to the fundamental principles of social and moral conduct.

We are in thorough sympathy with the toiling interests of the country and we observe with deep solicitude the conflict between capital and labor and charge these conditions to the vicious legislation enacted by the republican party for the purpose of disbursing taxes among the favored few and the maintenance of the privileged classes.

We denounce the employment of Pinkerton hirelings as arbitors of contests between capital and labor and are in favor of a law

making compulsory the settlement by arbitration of all disputes between corporations and their employes.

The democracy of Nebraska demands an open and fair discussion before the public of all political questions and denounces as undemocratic and un-American any attempt to deprive our citizens of their political rights or privileges, as such, because of their race or religious belief.

We congratulate the people of the state upon having secured the Australian ballot, by means of which every citizen is insured the right to cast his vote according to his own judgment, free from intimidation and corruption."

The following supplementary resolutions were handed in by the committee.

Resolved, That we indorse the course of Hon. W. J. Bryan in congress and point with pride to him as a resolute and brilliant champion of the masses against the classes.

Resolved, That we indorse the economy exercised by Gov. James E. Boyd in the management of the public institutions under his control.

Resolved, That the splendid efforts of the New York World and the Omaha World-Herald in aid of the western campaign fund are warmly appreciated by the democracy of Nebraska in convention assembled, and we do cordially commend their work in that behalf.

Nebraska People's Party.

Adopted at Kearney Aug. 3.

Resolved, That we heartily indorse the platform adopted at Omaha, Neb., July 4, 1892, and pledge to it our unanimous support.

Resolved, That we fully indorse the course of Hon. O. M. Kem in congress.

We further offer this additional preamble and resolution;

WHERAS, An armed force, equipped for battle and provisioned for a siege, did on the 6th of July last invade the town of Homestead and massacre several of its inhabitants, having been hired for this purpose by a corporation without color of law or authority, and

WHERAS, They have not been arrested, but are still at large, and their hired mercenaries were allowed to disperse under the protection of law which they had criminally violated; and

WHERAS, The sufferers from this wicked conspiracy are now being persecuted by its infamous authors and abettors, therefore

Resolved, That we tender our heartfelt sympathy and aid to the relatives, friends and fellow-sufferers of the victims of this murderous conspiracy.

2. That we demand the trial and just punishment of its instigators.

3. That we denounce the policy of political parties which has brought this foul blot on our fair country, has fostered monopolies, has concentrated wealth in the hands of the few, has left but a pittance for the laborer, and put him in the hands of merciless and greedy employers, trained assassins and military forces.

4. That we pledge our sacred honor to use every lawful and honorable means to hurl from power and office the men and the political parties who enslave labor, crown capital, and who use law and fraud and violence to make our land the home of the serf and the millionaire.

5. That we recommend that for the "martyrs of Homestead" memorial services be held throughout the country by every organization of the people's party on a day appointed by the national campaign committee and the several state committees, and that the banners of that day be inscribed with the names of the "martyrs" as follows: Martin Foy, David P. Davis, Peter Ferris, Jules Markowsky, John E. Morris, Henry Strieger, Joseph Tupper, Thomas Wayne, Thomas Weldon, and stars for the unknown.

Nebraska Prohibitionists.

Adopted at Hastings Aug. 18.

The prohibitionists of Nebraska, in convention assembled, acknowledge their responsibility to God and to their fellow-men for an honest and conscientious exercise of the elective franchise.

Our government through the rule of corrupt parties has formed a partnership with the wicked for gain, and an alliance with the strong against the weak.

Immense revenues are derived from popular vices, and the vicious class, augmented by the sanction of government, is made the tool of organized wealth to fasten the chains of slavery upon the industrial masses.

To break this unholy alliance should be the first object of every good citizen, and this cannot be accomplished by any party that fears to antagonize the saloon vote.

We therefore most cordially invite all good citizens to unite with us in support of the following propositions:

1. The traffic in intoxicating liquors as a beverage is a public nuisance, and the government has no right to authorize or sanction it. It is a leech on the material prosperity of the nation unequaled by any of the day. It is the power in the hands of corrupt politicians by which their unworthy ends in government are attained. It is the cause of all causes in producing discord, crime, misery, want and degradation in the domestic and social world. It is a deadly foe to all morality, purity and virtue, and good government demands its immediate suppression by law.

2. The right of suffrage is inherent in citizenship, regardless of sex.

3. The money of the country should be issued by the general government only, and in sufficient quantity to meet the demands of business and give full opportunity for the employment of labor. To this end an increase in the volume of money is demanded. No individual or corporation should be allowed to make any profit through its issue. It should be made a legal tender for the payment of all debts, public and private. Its volume should be fixed at a definite sum per capita and made to increase with our increase of population.

4. Railroads, telegraphs and other public corporations should be controlled by the government in the interest of the people and no higher charges allowed than necessary to give fair interest on the capital actually invested.

5. The real estate of the nation should be preserved for its citizens only. Non-resident alien ownership should be absolutely prohibited and all unearned and forfeited land grants should be reclaimed by the government.

6. All trusts should be prohibited and suppressed and all corporations should be controlled by the government so as to protect the rights of individual citizens.

7. Tariff should be levied only as a defense against foreign governments that discriminate against us or bar out our products from their markets, revenue being incidental. The residue of income necessary to an economical administration of government should be raised by levying the burden on what the people possess instead of on what they consume.

8. No alien should be allowed to vote until he becomes a citizen of the United States.

9. The election of United States senators should be by direct vote of the people.

10. Every honorably discharged soldier, sailor and marine merits and should receive a just pension, based upon disabilities and time of service.

11. All persons should be protected by law in their right to one day of rest in seven.

12. Believing that a vote for the candidates of a party is the only true test of party fealty, we ask the suffrages of the electors upon the principles here enunciated.

South Dakota Republicans.

Adopted at Madison July 22.

We, the republicans of South Dakota, in convention assembled, reaffirm the principles enunciated in the platform adopted by the national republican convention held at Minneapolis in June last, and most heartily indorse the administration of President Harrison; and we recognize with pleasure the services rendered by our republican senator and representatives in congress.

We cordially approve of and indorse the able and efficient administration of our state government.

We favor the use of both gold and silver as standard money, under such legislative regulations as will secure the parity of values of the two metals. And we recommend the steps already taken by our government to insure this important object by an international monetary conference.

The republican party is the friend of the working classes, opposed to all legislation hostile to their interests, and ready at all times to adopt any measure that may improve their condition or improve their material prosperity. We deplore the occurrence of any conflicts between labor and capital. We denounce the agitation of demagogues designed to foment and intensify these conflicts, and we most earnestly disapprove of the use of private armed forces in any attempt to settle them. We believe that an appeal to the law and its officers is amply sufficient to protect property and preserve the peace, and a reference to legally created or amicably chosen boards of arbitration the best method of adjusting all disagreements out of which these conflicts have arisen.

We hail the advent of better times in our beloved country, when the operation of republican tariff legislation is looking to the establishment of new industries in our midst and the removal hither of many manufacturing institutions from the old world; when our reciprocity treaties have whitened the seas with the sails of our new and enlarging commerce; when the splendid diplomacy of our state department has secured the acquaintance of European nations with the American hog, as it is now acquainting them with the valuable uses of American corn; when the Providence of God and the industry of man unite in promising us an abundant harvest; when our mines are increasing their output of gold, silver, copper, tin and other valuable metals, and peace and good-will prevail among our people. And we denounce the declarations from the platform of the people's party convention recently held at Omaha, as follows:

"We meet in the midst of a nation brought to the verge of moral, political and material ruin; corruption dominates the ballot-box, the legislature, congress, and touches even the ermine of the bench; the people are demoralized; most of the states have been compelled to isolate the voters at the polling places to prevent universal intimidation or bribery," etc.

These statements are more than false; they are seditious, scandalous, and appeal to the prejudices and passions of unthinking men, and are a slander upon a free, intelligent, self-governed people.

Experience has amply justified the wisdom of the national government in adopting reciprocal trade relations with foreign powers. This policy has very largely augmented the exportations of our manufactured wares and agricultural products, as shown by the unprecedented record of the last year, during which time our export trade reached the enormous total of $2,000,000,000.

We urge upon the general government such legislation as will secure to the several states for agricultural purposes the arid lands within their borders, and we urge upon our senators and representatives in congress to continue their best efforts to secure from the general government liberal aid for the establishment of a system of irrigation by the means of artesian wells.

We demand such legislation by our general and state government as will prevent dealings in options of agricultural products, by speculators, and the forming of combinations and trusts.

We commend the present administration in its management of the affairs of the general land office in promptly securing to the settlers upon the public lands title to their homes, as contrasted with the policy of the late democratic administration to annoy such settlers by delay and vexatious litigation.

The surviving soldiers of the civil war are justly entitled to the grateful care of the national government which these heroes' valor preserved from extinction, and we cheerfully pledge our support to all laws made in recognition of their patriotic sacrifices.

Our revenue laws should be carefully revised by a commission of competent persons representing the principal industries of the state, to the end that all property rightfully subject to taxation may be made to pay its just proportion of the public revenues.

Recognizing the great value and wise economy of well-constructed highways, we suggest to the thoughtful consideration of our people the adoption of such methods on road improvement as will insure the building of durable and substantial roadways, wherever required, in all sections of the state.

We are in favor of the postal telegraph and postal savings-bank system, also of rural free delivery.

We are in favor of laws governing the rates charged by the express companies within this state, to the end that such rates may be reduced.

We favor the election of railroad commmissioners by the people, and we demand the enactment of a law conferring upon said commissioners power to establish local passenger and freight rates. We favor the enactment of such laws for the regulation of railroads within this state as will insure absolute equality to all classes of patrons and to all localities.

South Dakota Democrats.

Adopted at Chamberlain Sept. 1.

The democracy of South Dakota, in convention assembled, reaffirms its devotion to the party as enunciated in the platform of the national democracy at its convention in the city of Chicago June 21, 1892.

We commend the action of that convention in selecting as our standard-bearer in the coming national contest that fearless and matchless leader, Grover Cleveland, and in the selection of Adlai E. Stevenson as the candidate for the vice-presidency.

We denounce the action of the favored beneficiaries of the class legislation of the republican party in usurping governmental

functions by the employment of Pinkerton assassins to take the places of the duly constituted authorities of the state and nation, and we favor such legislation as shall prevent such lawlessness in the future.

We demand that the school funds of our state be loaned to the people of the state upon ample security, at a reasonable rate of interest, and we denounce the action of our republican legislature and state officers in depriving the mass of the people of the use of such funds under proper safeguards and regulations.

We are opposed to all sumptuary legislation either by state or national government.

We are in favor of a resubmission to a vote of the people of article 24 of the constitution relating to prohibition. Until constitutional prohibition is repealed, we advocate such a modification of the present prohibitory law as will best promote the welfare and good morals of our people.

Believing that unnecessary taxation is unjust taxation, we pledge the democracy if intrusted with power to a rigid and economical administration of the trust reposed in them by the people.

We invite the co-operation of all good citizens in assisting the democracy in rescuing the state and nation from misrule and in restoring the government to the control of the people, to the end that it may be administered in the interest of the many and not of the few.

South Dakota People's Party.

Adopted at Redfield June 22.

We declare our allegiance to the St. Louis platform and adopt the demands therein contained as the platform of our party. We stand by the record of the independent party of the south upon all minor questions. We favor a constitutional amendment incorporating the referendum and initiative in our state constitution. The committee respectfully submitted the following resolution:

We oppose the further sale of our school lands. We favor the assessment of mortgages to the holders thereof and the exemption of a like amount from the assessment of the mortgagors; that we favor the enactment of legislation for the protection of mine, railway and manufacturing employes and their indemnification for injuries received not resulting from their own carelessness. We favor the reduction of the maximum rate of interest to 8 per cent. We demand of congress the total extinction of the plutocracy's private armed murderers and thugs, known as the "Pinkertons," by whom private citizens and innocent women and children have been murdered at various places in the nation. We also demand that the existence of such private armies be made treason and felony. We heartily indorse the action of the Hon. J. H. Kyle, our representative in the United States senate, and promise him our earnest support in all his efforts for the emancipation of labor from the power of money to oppress. We are unspeakably proud of the fact that 170 delegates to this convention are representative of that noble host that risked life and limb in defense of their country, and we rejoice that sectionalism is to become a thing of the past among the industrial forces of our common country.

We arraign both old parties for their discrimination against old soldiers and in favor of landholders.

Wisconsin Republicans.

Adopted at Milwaukee Aug. 17.

The republican party of Wisconsin, in convention assembled, affirms: Its approval and support of the platform promulgated by the national republican convention at Minneapolis; its unqualified approval of the splendid administration of President Harrison; its unqualified opposition to the proposition announced in the democratic national platform to repeal the tax levied by the federal law on the circulation of state banks, a policy which, if effected, would again flood the country with wildcat money and again subject people to the annoyance and losses consequent upon a fluctuating, uncertain and depreciated currency; it denounces as without foundation and intended only to mislead the voters of Wisconsin the statement so often made by the democratic press that republican success in this state involves a surrender or compromise of whatever rights the courts may hold to exist in favor of the state upon the bonds of ex-state treasurers, and pledges itself if it shall be intrusted with executive and legislative power in the state to enforce fully the rights of the people in the premises. It favors such amendment of the law authorizing and regulating the deposit at interest in the banks in the state of surplus moneys belonging to the people as shall, without impairing in any wise the security to be given by such banks on such deposits, invite competition among them, to the end that the highest rate of interest attainable may be secured for the people upon the people's money; that the localities on which such deposits are to be made shall not be left solely to the favoritism of state officers, and that the people may more fully know of the disposition of such surplus moneys. It reaffirms and unqualifiedly indorses the declaration of the republican convention held in this city in May last upon the educational question, so called, as correctly and fully defining the position of the republican party of this state. It denounces the outrageous partisanship of the democratic majority at the late extra session of the legislature in forcing the enactment without legislative consideration, deliberation or fair opportunity for debate or amendment of the present so-called apportionment law, in defiance of the plain provisions of the constitution as expounded by the supreme court and in disregard of the rights of the people. It denounces the parsimony of the democratic party of this state in its refusal to make adequate appropriation of money for a fit representation by the state at the World's Columbian Exposition, and calls attention with shame to the action of the democratic majority in congress in refusing to grant liberal appropriation to aid in carrying on to a successful end that great national exhibition of the wealth, progress and civilization of the world, and more especially of the United States. It declares now as heretofore its devotion to all the industries of the state, and its purpose in the future as in the past to foster and protect by all proper and necessary legislation, and denounces all attacks upon them made or attempted by the democratic administration of this state.

It believes that laws should be enacted and enforced guaranteeing to every citizen equal civil and political rights without discrimination as to creed. We denounce and condemn the cruel and barbarous treatment of American citizens of the southern states as tending to corrupt good government and contrary to the spirit of the constitution of the United States.

Wisconsin Democrats.

Adopted at Milwaukee Aug. 31.

Two years ago the democratic convention charged the republican party with extravagance, corruption and unjustifiable interference with individual and constitutional rights, and denounced that party for permitting state

treasurers to appropriate the interest earned by state funds, declaring that the interest on these funds is the money of the people.

We pledge the democratic party to honesty and economy in administration.

To a repeal of the republican assault upon individual rights.

To the payment into the treasury of the interest earned by state moneys; and

To the prosecution of suits to recover to the people the interest money already misappropriated.

We present to the people of Wisconsin the record of the performance of party pledges.

Economy and business methods have characterized every branch of the state government, and the profit results to the tax-payers.

Already more than $60,000 has been saved in administrative and legislative expenses.

The cost of maintaining the several state institutions has also been economized more than $52,000, and their efficiency has been greatly improved.

As a result the democratic treasurer will have on hand at the close of his term a general fund of more than $800,000, instead of the deficiency which existed two years before.

Interest to the amount of more than $42,000 on bank deposits has accrued and been promptly covered into the treasury.

The trust funds have been promptly invested for the benefit of the schools, instead of being held in banks to enrich office-holders and party politicians, and as a result the interest earnings of these funds already exceed those of the last administration by more than $64,000.

Suits have been vigorously prosecuted to establish the right of the people to the interest earned by their money in the treasury, and that right has been adjudged and liability fastened upon the last two state treasurers to the amount of more than $350,000 for interest money misappropriated by them; and, upon the same basis of computation, an aggregate liability will result in the actions now pending of more than $725,000.

The Bennett law has been repealed and the democrats of Wisconsin have shown their loyalty to the cause of popular education in practical form by adding over $100,000 to the school-fund income, and by increasing the appropriations to the state university over $65,000 a year for the next six years.

We are opposed to and will combat the abhorrent doctrine of centralization and paternalism and all mischievous meddling with rights of conscience and religion, especially in the care and education of children.

We oppose sumptuary laws as unnecessary and unwise interference with individual liberty.

We pledge the democratic party anew to continued honesty and economy in the administration of the government.

The record of the present administration is a sufficient assurance that no relinquishment of the rights of the people against the defaulting treasurers need be feared at the hands of the democratic party.

We indorse the action of the national democratic convention in nominating Cleveland and Stevenson for president and vice-president, and give cheerful allegiance to the principles enunciated by the Chicago platform.

Wisconsin People's Party.

Adopted at Milwaukee May 24, 1892.

The people's party of Wisconsin calls attention to the fact that both old parties, having fully accomplished all the objects for which they organized, have outlived their usefulness and have sunk to the level of office-hunting syndicates. This is conclusively proved by their platforms and tactics, which, with the exception of a difference of 5 per cent on the tariff, consist mainly in personal vilification and mutual abuse. The people's party submits that there are questions of far greater importance than the tariff, which amounts to $3.30 per capita per annum, and that this question has very little bearing on economic conditions. It is a matter of notorious fact that under the existing system wealth accumulates in the hands of non-producers in free-trade countries and that labor endures unnecessary hardships in protected countries. The worst oppressive and unjust legislation has centralized the means of production, exchange and transportation in the hands of favored classes, who by special and unnatural privileges are enabled to deprive or restrict the many of equal rights and opportunities. This system makes life to all men one continued struggle for existence; each man is arrayed against his brother and no one is sure that his life will not end in the poorhouse.

The people's party was formed to abolish this unnatural and barbarous struggle and secure to all men and women equal rights and equal opportunities. The platform adopted by the great industrial conference at St. Louis, Feb. 22-24, 1892, as below, is hereby adopted as part of the state platform of Wisconsin:

We demand a national currency, safe, sound and flexible, issued by the general government only, a full legal tender for all debts, public and private, and that without the use of banking corporations, a just, equitable and efficient means of circulation, direct to the people, at a tax not to exceed 2 per cent, as set forth in the sub-treasury plan of the farmers' alliance, or some better system; also by payments in discharge of its obligations or for public improvements.

We demand the free and unlimited coinage of silver.

We demand that the amount of the circulation be speedily increased to not less than $50 per capita.

We demand a graduated income tax.

We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all national and state revenues shall be limited to the necessary expenses of the government, economically and honestly administered.

We demand that postal savings banks be established by the government for the safe deposit of the earnings of the people and to facilitate exchange.

The land, including all the natural resources of wealth, is the heritage of the people and should not be monopolized for speculative purposes, and alien ownership of land should be prohibited. All land now held by railroads and other corporations in excess of their actual needs and all lands now owned by aliens should be reclaimed by the government and held for actual settlers only.

Transportation being the means of exchange and a public necessity, the government should own and operate the railroads in the interest of the people.

The telegraph and telephone, like the post-office system, being a necessity for the transmission of news, should be owned and operated by the government in the interest of the people.

In addition we make the following demands:

1. All public improvements, necessities and conveniences shall be owned and controlled by the public and not be exploited for private gain.

2. We demand the establishment of the initiative and the referendum, by which the people will be enabled to vote down obnoxious laws and remove dishonest and inefficient

officials, thus placing the veto power in the hands of the people, where it belongs.

3. The extraordinary increase in the invention of labor-saving machinery requires a material reduction in the hours of labor in industrial pursuits. In the growth of monopoly the agricultural and industrial classes have received no benefit from labor-saving machinery. It has cheapened production only to benefit the monopolists.

4. A revision of the patent laws giving inventors a premium for their inventions, and then giving its free use to all the people, will prevent the system of monopoly now existing and stop the robbery of both inventors and the people.

5. Arbitration should be generally introduced to take the place of strikes and other injurious means of settling labor disputes; child labor should be prohibited in factories, mines and workshops; no more contractors be permitted to prevent the reformation of convicts or undersell honest manufacturers, by the contracting for the labor of prisoners; convicts should be employed in building roads, or other work that will not enter the market and depress the price of better goods; proper measures be provided for the safety of people working in mines, manufactories and buildings, and the contract system be abolished on public work.

Wisconsin Prohibition.

Adopted at Madison June 1.

Realizing that the great danger in American politics to-day is the corrupt influence of the saloon system and the overreaching of the masses by the few in their desire for wealth, and that this is made feasible largely through a prostitution of the functions of government, the prohibition party of Wisconsin, assembled in state convention this 1st day of June, 1892, acknowledging our reliance upon divine Providence and the sovereignty of American citizenship, do demand:

1. That the traffic in intoxicating liquors as a beverage be forever prohibited and suppressed, and that all laws making either the federal, state or municipal government partner in its profits be repealed.

2. That all money necessary for the steadily growing trade of the nation be issued directly by the federal government, in such form and upon such basis as shall give an ample circulating medium that shall be legal tender for all debts.

3. That the great lines of transportation and communication, including the telegraph and telephone, be controlled by the government; and we favor also an extension of the free mail delivery system.

4. That residence within the nation for such time and education to such extent as will insure intelligent citizenship and the ability to exercise suffrage for the good of the voter and of the state precede the right of franchise, and that no other restriction should be placed upon the ballot.

5. That our present laws relating to highways be amended, to the end that the people may by a new system of supervision be given thoroughly constructed and permanent public roads.

6. That our tariff laws be so changed that no special privileges be granted to one class of citizens at the expense of any other, and that the poor be relieved from any unjust taxes that they are now compelled to pay.

7. We favor a liberal public education in the English language enforced and supervised by the state.

8. Believing that the time has come when good men ought to unite and make a great national party that shall be dominated by the intelligence, morality and patriotism of the nation, we invite and urge all voters of the state to join with us in the present campaign.

LETTERS OF ACCEPTANCE.

Replies of the presidential candidates in accepting their nominations.

PRESIDENT HARRISON'S LETTER.

WASHINGTON, D. C., Sept. 3.—The Hon. W. McKinley, Jr., and Others—Gentlemen: I now avail myself of the first period of relief from public duties to respond to the notification which you brought to me on June 20, of my nomination for the office of president of the United States by the republican national convention recently held at Minneapolis. I accept the nomination, and am grateful for the approval expressed by the convention of the acts of the administration. I have endeavored without wavering or weariness, so far as the direction of public affairs was committed to me, to carry out the pledges made to the people in 1888. If the policies of the administration have not been distinctively and progressively American and republican policies, the fault has not been in the purpose but in the execution. I shall speak frankly of the legislation of congress and of the work of the executive departments, for the credit of any successes that have been attained is in such measure due to others—senators and representatives, and to the efficient heads of the several executive departments—that I may do so without impropriety. A vote of want of confidence is asked by our adversaries; and this challenge to a review of what has been done we promptly and gladly accept. The great work of the 51st congress has been subjected to the revision of a democratic house of representatives and the acts of the executive department to its scrutiny and investigation. A democratic national administration was succeeded by a republican administration and the freshness of the events gives unusual facilities for fair comparison and judgment. There has seldom been a time, I think, when a change from the declared policies of the republican to the declared policies of the democratic party involved such serious results to the business interests of the country. A brief review of what has been done and of what the democratic party proposes to undo will justify this opinion.

DEVISED THE PRESENT CURRENCY.

The republican party during the civil war devised a national currency consisting of United States notes issued and redeemable by the government, and of national bank notes based upon the security of United States bonds. A tax was levied upon the issues of state banks, and the intended result, that all such issues should be withdrawn, was realized. There are men among us now who never saw a state bank note. The notes furnished directly or indirectly by the United States have been the only and the safe and acceptable paper currency of the people. Bank failures have brought no fright, delay or loss to the bill holders. The note of an insolvent bank is as good and as current as a treasury note—for the credit of the United States is behind it. Our money is all national money—I might almost say international, for these bills are not only equally and indis-

criminately accepted at par in all the states, but in some foreign countries. The democratic party, if intrusted with the control of the government, is now pledged to repeal the tax on state bank issues, with a view to putting into circulation again, under such diverse legislation as the states may adopt, a flood of local bank issues. Only those who in the years before the war experienced the inconvenience and losses attendant upon the use of such money can appreciate what a return to that system involves. The denomination of a bill was then often no indication of its value. The bank detector of yesterday was not a safe guide to-day as to credit or values. Merchants deposited several times during the day lest the hour of bank closing should show a depreciation of the money taken in the morning. The traveler could not use in a journey to the east the issues of the most solvent banks of the west, and in consequence a money-changer's office was the familiar neighbor of the ticket office and the lunch counter. The farmer and the laborer found the money received for their products or their labor depreciated when they came to make their purchases, and the whole business of the country was hindered and burdened. Changes may become necessary, but a national system of currency, safe and acceptable throughout the whole country, is the fruit of bitter experiences, and I am sure our people will not consent to the reactionary proposal made by the democratic party.

IMPORTANCE OF REGAINING MARITIME POWER.

Few subjects have elicited more discussion or excited more general interest than that of a recovery by the United States of its appropriate share of the ocean-carrying trade. This subject touches not only our pockets but our national pride. Practically all the freights for transporting to Europe the enormous annual supplies of provisions furnished by this country and for the large return of manufactured products have for many years been paid to foreign ship-owners. Thousands of immigrants annually seeking homes under our flag have been denied a sight of it until they entered Sandy Hook, while increasing thousands of American citizens, bent on European travel, have each year stepped into a foreign jurisdiction at the New York docks. The merchandise balance of trade which the treasury books show is largely reduced by the annual tribute which we pay for freight and passage money. The great ships, the fastest upon the sea, which are now in peace profiting by our trade, are in a secondary sense warships of their respective governments and in time of war would, under existing contracts with those governments, speedily take on the guns for which their decks are already prepared and enter with terrible efficiency upon the work of destroying our commerce. The undisputed fact is that the great steamship lines of Europe were built up and are now in part sustained by direct or indirect government aid, the latter taking the form of liberal pay for carrying the mails or of an annual bonus given in consideration of agreements to construct ships so as to adapt them for carrying an armament and to turn them over to the government on demand, upon specified terms. It was plain to every intelligent American that if the United States would have such lines a similar policy must be entered upon. The last congress enacted such a law and under its beneficent influence sixteen American steamships of an aggregate tonnage of 57,400 tons and costing $7,400,000 have been built or contracted to be built in American shipyards. In addition to this it is now practically certain that we shall soon have, under the American flag, one of the finest steamship lines sailing out of New York for any European port. This contract will result in the construction in American yards of four new passenger steamships of 10,000 tons each, costing about $8,000,000, and will add to our naval reserve six steamships, the fastest upon the seas.

A special interest has been taken by me in the establishment of lines from our South Atlantic and Gulf ports; and, though my expectations have not yet been realized, attention has been called to the advantages possessed by these ports, and when their people are more fully alive to their interests I do not doubt that they will be able to secure the capital needed to enable them to profit by their great natural advantages. The democratic party has found no place in its platform for any reference to this subject and has shown its hostility to the general policy by refusing to expend an appropriation made during the last administration for ocean mail contracts with American lines. The patriotic people, the workmen in our shops, the capitalists seeking new enterprises must decide whether the great ships owned by Americans which have sought American registry shall again humbly ask a place in the English naval reserve; the great ships now on the designers' tables go to foreign shops for construction and the United States loses the now brightening opportunity of recovering a place commensurate with its wealth, the skill of its constructors, and the courage of its sailors in the carrying trade of all the seas.

THE BENEFITS OF RECIPROCITY.

Another related measure as furnishing increased ocean traffic for our ships and of great and permanent benefit to the farmers and manufacturer as well is the reciprocity policy declared by section 3, of the tariff act of 1890 and now in practical operation with five of the nations of Central and South America, San Domingo, the Spanish and British West India islands and with Germany and Austria, under special trade arrangements with each. The removal of the duty on sugar and the continuance of coffee and tea upon the free list, while giving great relief to our own people by cheapening articles used increasingly in every household, were also of such enormous advantage to the countries exporting these articles as to suggest that in consideration thereof reciprocal favors should be shown in their tariffs to articles exported by us to their markets. Great credit is due to Mr. Blaine for the vigor with which he pressed this view upon the country. We have only begun to realize the benefit of these trade arrangements. The work of creating new agencies and of adapting our goods to new markets has necessarily taken time, but the results already attained are such, I am sure, as to establish in popular favor the policy of reciprocal trade based upon the free importation of such articles as do not injuriously compete with the products of our own farms, mines or factories, in exchange for the free or favored introduction of our products into other countries. The obvious efficacy of this policy in increasing the foreign trade of the United States at once attracted the alarmed attention of European trade journals and boards of trade. The British Board of Trade has presented to that government a memorial asking for the appointment of a commission to consider the best means of counteracting what is called "the commercial crusade of the United States."

At a meeting held in March last of the Associated Chambers of Commerce of Great Britain the president reported that the exports from Great Britain to the Latin American countries during the last year had decreased $23,750,000, and that this was not due to tem-

porary causes, but directly to the reciprocity policy of the United States. Germany and France have also shown their startled appreciation of the fact that a new and vigorous contestant has appeared in the battle of the markets and has already secured important advantages. The most convincing evidence of the tremendous commercial strength of our position is found in the fact that Great Britain and Spain have found it necessary to make reciprocal trade agreements with us for their West India colonies and that Germany and Austria have given us important concessions in exchange for the continued free importation of their beet sugar product. A few details only as to the increase in our trade can be given here. Taking all the countries with which arrangements have been made, our trade to June 30, 1892, had increased 23.78 per cent. With Brazil the increase was nearly 11 per cent; with Cuba, during the first ten months, our exports increased $5,702,193, or 54.8 per cent and with Porto Rico, $590,599, or 34 per cent. The liberal participation of our farmers in the benefits of this policy is shown by the following report from our consul-general at Havana under date of July 26th last:

"During the first half of 1891 Havana received 140,056 bags of flour from Spain, and other ports of the island about an equal amount, or approximately 280,112 bags. During the same period Havana received 13,976 bags of American flour, and other ports approximately an equal amount, making about 28,000 bags. But for the first half of this year Spain has sent less than 1,000 bags to the whole island and the United States has sent to Havana alone 168,487 bags and about an equal amount to other ports of the island, making approximately 337,000 for the first half of 1892."

Partly by reason of the reciprocal trade agreement, but more largely by reason of the removal of sanitary restrictions upon American pork, our exports of pork products to Germany increased during the ten months ending June 30 last $2,025,074, or about 32 per cent. The *British Trade Journal* of London, in a recent issue, speaking of the increase of American coal exports and of the falling off of the English coal exports to Cuba, says:

"It is another case of American competition. The United States now supplies Cuba with about 150,000 tons of coal annually, and there is every prospect of this trade increasing as the forests of the island become exhausted and the use of steam machinery on the estates is developed. Alabama coal especially is securing a reputation in the Spanish West Indies, and the river and rail improvements of the Southern States will undoubtedly create an important gulf trade. The new reciprocity policy by which the United States is enabled to import Cuban sugar will, of course, assist the American coal exporters even more effectively than the new lines of railway.

THE ENEMY PLEDGED TO KILL THIS.

The democratic platform promises a repeal of the tariff law containing this provision and especially denounces as a sham reciprocity that section of the law under which these trade arrangements have been made. If no other issue were involved in the campaign this alone would give it momentous importance. Are the farmers of the great grain growing states willing to surrender these new, large and increasing markets for their surplus? Are we to have nothing in exchange for the free importation of sugar and coffee and at the same time to destroy the sugar planters of the south, and the best sugar industry of the northwest, and of the Pacific coast; or are we to have the taxed sugar and coffee, which a "tariff for revenue only" necessarily involves, with the added loss of the new markets which have been opened? As I have shown, our commercial rivals in Europe do not regard this reciprocity policy as a "sham," but as a serious threat to a trade supremacy they have long enjoyed. They would rejoice—and if prudence did not restrain, would illuminate their depressed manufacturing cities—over the news that the United States had abandonded its system of protection and reciprocity. They see very clearly that restriction of American products and trade and a corresponding increase of European production and trade would follow, and I will not believe that what is so plain to them can be hidden from our own people.

The declaration of the platform in favor of "the American doctrine of protection" meets my most hearty approval. The convention did not adopt a schedule but a principle that is to control all the tariff schedules. There may be differences of opinion among protectionists as to the rate upon particular articles necessary to effect an equalization between wages abroad and at home. In some not remote national campaigns the issue has been—or, more correctly, has been made to appear to be—between a high and a low protective tariff—both parties expressing some solicitous regard for the wages of our working people and for the prosperity of our domestic industries. But, under a more courageous leadership, the democratic party has now practically declared that if given power it will enact a tariff law without any regard to its effect upon wages or upon the capital invested in our great industries. The majority report of the committee on platform to the democratic national convention at Chicago contained this clause:

"That when custom-house taxation is levied upon articles of any kind produced in this country the difference between the cost of labor here and abroad, when such a difference exists, fully measures any possible benefits to labor and the enormous additional impositions of the existing tariff fall with crushing force upon our farmers and workingmen."

Here we have a distinct admission of the republican contention that American workmen are advantaged by a tariff rate equal to the difference between home and foreign wages and a declaration only against the alleged "additional impositions" of the existing tariff law.

DEMOCRATIC FREE-TRADE POLICY EXPOSED.

Again this majority report further declared: "But in making reduction in taxes it is not proposed to injure any domestic industries, but rather to promote their healthy growth. * * * Moreover, many industries have come to rely upon legislation for successful continuance, so that any change of law must be at every step regardful of the labor and the capital thus involved."

Here we have an admission that many of our industries depend upon protective duties "for their successful continuance" and a declaration that tariff changes should be regardful of the workmen in such industries and of the invested capital. The overwhelming rejection of these propositions, which had before received the sanction of democratic national conventions, was not more indicative of the new and more courageous leadership to which the party has now committed itself than the substitute which was adopted. This substitute declares that protective duties are unconstitutional—high protection, low protection—all unconstitutional. A democratic congress holding this view cannot enact, nor a democratic president approve, any tariff schedule, the purpose or effect of which is to limit importations or to give any advantage to an American workman

or producer. A bounty might, I judge, be given to the importer under this view of the constitution in order to increase important importations, and so the revenue—for "revenue only"—is the limitation. Reciprocity, of course, falls under this denunciation, for its object and effect are not revenue, but the promotion of commercial exchanges, the profits of which go wholly to our producers. This destructive, un-American doctrine was not taught or held by the historic democratic statesmen whose fame as American patriots has reached this generation—certainly not by Jefferson nor Jackson. This mad crusade against American shops, the bitter epithets applied to American manufacturers, the persistent disbelief of every report of the opening of a tin-plate mill or of an increase of our foreign trade by reciprocity, are as surprising as they are discreditable. There is not a thoughtful business man in the country who does not know that the enactment into law of the declaration of the Chicago convention on the subject of the tariff would at once plunge the country into a business convulsion such as it has never seen; and there is not a thoughtful workingman who does not know that it would at once enormously reduce the amount of work to be done in this country by the increase of importations that would follow, and necessitate a reduction of his wages to the European standard. If anyone suggests that this radical policy will not be executed if the democratic party attains power what shall be thought of a party that is capable of thus trifling with great interests?

CALAMITY HOWLER VS. TRADE REPORTER.

The threat of such legislation would be only less hurtful than the fact. A distinguished democrat rightly described this movement as a challenge to the protected industries to a fight of extermination, and another such rightly expressed the logic of the situation when he interpreted the Chicago platform to be an invitation to all democrats, holding even the most moderate protection views, to go into the republican party.

And now a few words in regard to the existing tariff law. We are fortunately able to judge of its influence upon production and prices by the market reports. The day of the prophet of calamity has been succeeded by that of the trade reporter. An examination into the effect of the law upon the prices of protected products and of the cost of such articles as enter into the living of people of small means has been made by a senate committee composed of leading senators of both parties, with the aid of the best statisticians, and the report, signed by all the members of the committee, has been given to the public. No such wide and careful inquiry has ever been before made. These facts appear from the report:

1. The cost of articles entering into the use of those earning less than $1,000 per annum has decreased, up to May, 1892, 3.4 per cent, while in farm products there has been an increase in prices, owing in part to an increased foreign demand and the opening of new markets. In England during the same period the cost of living increased 1.9 per cent. Tested by their power to purchase articles of necessity, the earnings of our working people have never been as great as they are now.

2. There has been an average advance in the rate of wages of .75 of 1 per cent.

3. There has been an advance in the price of all farm products of 18.67 per cent, and of all cereals 33.99 per cent.

The ninth annual report of the chief of the bureau of labor statistics of the state of New York, a democratic officer, very recently issued, strongly corroborates as to that state the facts found by the senate committee. His extended inquiry shows that in the year immediately following the passage of the tariff act of 1890 the aggregate sum paid in wages in that state was $6,577,975 in excess and the aggregate production $31,315,130 in excess of the preceding year.

NOT BURDENS BUT ADVANTAGES.

In view of this showing of an increase in wages, of a reduction in the cost of articles of common necessity and of a marked advance in the prices of agricultural products it is plain that this tariff law has not imposed burdens, but has conferred benefits upon the farmer and the workingman.

Some special effects of the act should be noticed. It was a courageous attempt to rid our people of a long-maintained foreign monopoly on the production of tin-plate, pearl buttons, silk plush, linens, lace, etc. Once or twice in our history the production of tin-plate had been attempted and the prices obtained by the Welsh makers would have enabled our makers to produce it at a profit. But the Welsh makers at once cut prices to a point that drove the American beginners out of the business and when this was accomplished again made their own prices. A correspondent of the Industrial World, the official organ of the Welsh tin-plate workers, published at Swansea, in the issue of June 10, 1892, advises a new trial of these methods. He says:

"Do not be deceived. The victory of the republicans at the polls means the retention of the McKinley bill and means the rapidly accruing loss of the 80 per cent of the export American trade. Had there been no democratic victory in 1890 the spread of the tin-plate manufacture in the United States would have been both rapid and bona fide. * * * It is not yet too late to do something to reduce the price of plates. Put them down to 11 shillings per box of 100, 14x20, full weight basis. Let the workmen take half-pay for a few months and turn out more, then let the masters forego profits for the same time."

And again that paper says: "It is clearly the interest of both (employer and workman) to produce these plates, tariff or no tariff, at a price that will drive all competition from the field."

But, in spite of the doubts raised by the elections of 1890, and of the machinations of foreign producers to maintain their monopoly, the tin-plate industry has been established in the United States, and the alliance between the Welsh producers and the democratic party for its destruction will not succeed. The official returns to the treasury department of the production of tin and terne-plates in the United States during the last fiscal year show a total production of 13,240,830 pounds, and a comparison of the first quarter, 836,922 pounds, with the last, 8,000,000 pounds, shows the rapid development of the industry. Over 5,000,000 pounds during the last quarter were made from American black plates, the remainder from foreign plates. Mr. Ayer, the treasury agent in charge, estimates as the result of careful inquiry that the production of the current year will be 100,000,000 pounds, and that by the end of the year our production will be at the rate of 200,000,000 pounds per annum.

WHAT THE M'KINLEY BILL HAS DONE.

Another industry that has been practically created by the McKinley bill is the making of pearl buttons. Few articles coming to us from abroad were so distinctly the product of starvation wages. But without unduly extending this letter I cannot follow in detail the influences of the tariff law of 1890. It has trans-

planted several important industries and established them here, and has revived or enlarged all others. The act gives to the miners protection against foreign silver-bearing lead ores, the free introduction of which threatened the great mining industries of the Rocky Mountain states, and to the wool-growers protection for their fleeces and flocks, which has saved them from a further and disastrous decline. The House of Representatives at its last session passed bills placing these ores and wool upon the free list. The people of the West well know how destructive to their prosperity these measures would be.

This tariff law has given employment to many thousands of American men and women and will each year give employment to increasing thousands. Its repeal would throw thousands out of employment and give work to others only at reduced wages. The appeals of the free-trader to the workingman are largely addressed to his prejudices or to his passions and not infrequently are pronouncedly communistic. The new democratic leadership rages at the employer and seeks to communicate his rage to the employe. I greatly regret that all employers of labor are not just and considerate and that capital sometimes takes too large a share of the profits. But I do not see that these evils would be ameliorated by a tariff policy the first necessary effect of which is a severe wage-cut and the second a large diminution of the aggregate amount of work to be done in this country.

If the injustice of his employer tempts the workman to strike back he should be very sure that his blow does not fall upon his own head or upon his wife and children. The workmen in our great industries are, as a body, remarkably intelligent and are lovers of home and country. They may be roused by injustice or what seems to them to be such or be led for the moment by others into acts of passion; but they will settle the tariff contest in the calm light of their November firesides and with sole reference to the prosperity of the country of which they are citizens and of the homes they have founded for their wives and children.

No intelligent advocate of a protective tariff claims that it is able of itself to maintain a uniform rate of wages without regard to fluctuations in the supply of and demand for the products of labor, but it is confidently claimed that protective duties strongly tend to hold up wages and are the only barrier against a reduction to the European scale.

IT HAS BENEFITED THE SOUTH.

The southern states have had a liberal participation in the benefits of the tariff law and, though their representatives have been generally opposed to the protection policy, I rejoice that their sugar, rice, coal, ores, iron, fruits, cotton cloths and other products have not been left to the fate which the votes of their representatives would have brought upon them. In the construction of the Nicaragua canal, in the new trade with South and Central America, in the establishment of American steamship lines, these states have also special interests and all these interests will not always consent to be without representation at Washington.

Shrewdly but not quite fairly our adversaries speak only of the increased duties imposed upon tin, pearl buttons and other articles by the McKinley bill, and omit altogether any reference to the great and beneficial enlargement of the free list. During the last fiscal year $458,000,772 worth of merchandise or 55.35 per cent of our total importations came in free (the largest percentage in our history), while in 1889 the percentage of free importations was only 34.42 per cent The placing of sugar upon the free list has saved to the consumer in duties in fifteen months, after paying the bounties provided for, $87,000,000. This relief has been substantially felt in every household, upon every Saturday's purchase of the workingman.

One of the favorite arguments against a protective tariff is that it shuts us out from a participation in what is called, with swelling emphasis, "the markets of the world." If this view is not a false one how does it happen that our commercial competitors are not able to bear with more serenity our supposed surrender to them of the "markets of the world," and how does it happen that the partial loss of our market closes foreign tin-plate mills and plush factories that still have all other markets? Our natural advantages, our protective tariff and the reciprocity policy make it possible for us to have a large participation in the "markets of the world" without opening our own to a competition that would destroy the comfort and independence of our people.

DECLARES FOR HONEST MONEY.

The resolution of the convention in favor of bimetallism declares, I think, the true and necessary conditions of a movement that has, upon these lines, my cordial adherance and support. I am thoroughly convinced that the free coinage of silver at such a ratio to gold as will maintain the equality in their commercial uses of the two coined dollars would conduce to the prosperity of all the great producing and commercial nations of the world. The one essential condition is that these dollars shall have and retain an equal acceptability and value in all commercial transactions. They are not only a medium of exchange, but a measure of values; and when unequal measures are called in law by the same name commerce is unsettled and confused and the unwary and ignorant are cheated. Dollars of unequal commercial value will not circulate together. The better dollar is withdrawn and becomes merchandise. The true interest of our people, and especially of the farmers and working people, who cannot closely observe the money market, is that every dollar—paper or coin—issued or authorized by the government shall at all times and in all its uses be the exact equivalent, not only in debt-paying but in purchasing power of any other dollar. I am quite sure that if we should now act upon this subject independently of other nations we would greatly promote their interests and injure our own.

The monetary conditions in Europe within the last two years have, I think, tended very much to develop a sentiment in favor of a larger use of silver, and I was much pleased and encouraged by the cordiality, promptness, and unanimity with which the invitation of this government for an international conference upon this subject was accepted by all the powers. We may not only hope for but expect highly beneficial results from this conference, which will now soon assemble. When the result of the conference is known we shall then be able intelligently to adjust our financial legislation to any new conditions.

In my last annual message to congress I said:

"I must yet entertain the hope that it is possible to secure a calm, patriotic consideration of such constitutional or statutory changes as may be necessary to secure the choice of the officers of the government to the people by fair apportionments and free elections. I believe it would be possible to constitute a commission, non-partisan in its membership and composed of patriotic, wise, and impartial men, to whom a consideration of the questions of the evils connected with

our election systems and methods might be committed with a good prospect of securing unanimity in some plan for removing or mitigating those evils. The constitution would permit the selection of the commission to be vested in the Supreme court, if that method would give the best guarantee of impartiality. This commission should be charged with the duty of inquiring into the whole subject of the law of elections as related to the choice of officers of the national government, with a view to securing to every elector a free and unmolested exercise of the suffrage and as near an approach to an equality of value in each ballot cast as is attainable. * * * The demand that the limitations of suffrage shall be found in the law, and only there, is a just demand and no just man should resent or resist it."

INSISTS ON A FREE BALLOT.

It seemed to me that an appeal to our people to consider the question of readjusting our legislation upon absolutely fair nonpartisan lines might find some effective response. Many times I have had occasion to say that laws and election methods designed to give unfair advantages to the party making them would some times be used to perpetuate in power a faction of a party against the will of the majority of the people. Of this we seem to have an illustration in the recent state election in Alabama. There was no republican ticket in the field. The contest was between white democrats. The Kolb party say they were refused the representation guaranteed by law upon the election boards; and that when the courts by mandamus attempted to right this wrong, the appeal could not be heard until after the election made the writs ineffectual. Ballot boxes were thrown out for alleged irregularities, or destroyed, and it is asserted on behalf of one-half, at least, of the white voters of Alabama, that the officers to whom certificates have been given were not honestly elected. There is no security for the personal or political rights. The power of the states over the question of the qualification of electors is ample to protect them against the dangers of an ignorant or depraved suffrage, and the demand that every man found to be qualified under the law shall be made secure in the right to cast a free ballot and to have that ballot honestly counted cannot be abated. Our old republican battle cry, "A free ballot and a fair count," comes back to us, not only from Alabama but from other states and from men who, differing from us widely in opinions, have come to see that parties and political debate are but a mockery if, when the debate is ended, judgment of honest majorities is to be reversed by ballot-box frauds and tally-sheet manipulations in the interest of the party or party faction in power.

These new political movements in the states and the recent decisions of some of the state courts against unfair apportionment laws encourage the hope that the arbitrary and partisan election laws and practices which have prevailed may be corrected by the states, the law made qual and non-partisan, and the elections free and honest. The republican party would rejoice at such a solution, as a healthy and patriotic local sentiment is the best assurance of free and honest elections. I shall again urge upon congress that provision be made for the appointment of a non-partisan commission to consider the subject of apportionments and elections in their relation to the choice of federal officers.

THE CIVIL-SERVICE SYSTEM.

The civil-service system has been extended and the law enforced with vigor and impartiality. There has been no partisan juggling with the law in any of the departments or bureaus, as had before happened, but appointments to the classified service have been made impartially from the eligible lists. The system now in force in all the departments has for the first time placed promotions strictly upon the basis of merit, as ascertained by a daily record, and the efficiency of the force thereby greatly increased.

The approval so heartily given by the convention to all those agencies which contribute to the education of the children of the land was worthily bestowed and meets my hearty approval, as does also the declaration as to liberty of thought and conscience, and the separation of church and state. The safety of the republic is in intelligent citizenship; and the increased interest manifested in the states in education, the cheerfulness with which the necessary taxes are paid by all classes, and the renewed interest manifested by the children in the national flag are hopeful indications that this coming generation will direct public affairs with increased prudence and patriotism. Our interest in free public schools open to all children of suitable age is supreme and our care for them will be jealous and constant.

The public-school system, however, was not intended to restrain the natural right of the parent, after contributing to the public-school fund, to choose other educational agencies for his children. I favored aid by the general government to the public schools, with a special view to the necessities of some of the southern states. But it is gratifying to notice that many of these states are, with commendable liberality, developing their school systems and increasing their school revenues to the great advantage of the children of both races.

The considerate attention of the farmers of the whole country is invited to the work done through the state and agricultural departments in the interest of agriculture. Our pork products had for ten years been not only excluded by the great continental nations of Europe, but their value discredited by the reasons given for this exclusion. All previous efforts to secure the removal of these restrictions had failed, but the wise legislation of the Fifty-First congress, providing for the inspection and official certification of our meats and giving to the president power to forbid the introduction into this country of selected products of such countries as should continue to refuse our inspected meats, enabled us to open all the markets of Europe to our products.

The result has been not only to sustain prices by providing new markets for our surplus, but to add 50 cents per 100 pounds to the market value of the inspected meats. Under the reciprocity agreement special favors have been secured for agricultural products, and our exports of such products have been greatly increased, with a sure prospect of a further and rapid increase. The agricultural department has maintained in Europe an agent whose special duty it is to introduce there the various preparations of corn as articles of food, and his work has been very successful.

The department has also sent skilled veterinarians to Liverpool to examine in connection with the British veterinarians the live cattle from the United States landed at that port, and the result, in connection with the sanitary methods developed at home, has been that we hear no more about our cattle being infected with pleuro-pneumonia. The judicious system of quarantine lines has prevented the infection of northern cattle with the Texas fever. The tariff bill of 1890 gives better protection to the farm products subject to foreign competition than they ever had before.

and the home markets for such products have been enlarged by the establishment of new industries and the development of others. We may confidently submit to the intelligent and candid judgment of the American farmer whether in any corresponding period as much has been done to promote his interests, and whether in a continuance and extension of these methods there is not a better prospect of good to him than in the invitation of the democratic party to give our home market to foreign manufacturers and to abandon the reciprocity policy, and better also than the radical and untried methods of relief proposed by other parties which are soliciting his support.

SHIP CANAL A NECESSITY.

I have often expressed my strong conviction of the value of the Nicaragua ship canal to our commerce and to our navy. The project is not one of convenience but of necessity. It is quite possible, I believe, if the United States will support the enterprise, to secure the speedy completion of the canal without taxing the treasury for any direct contribution, and at the same time to secure to the United States that influence in its management which is imperative.

It has been the purpose of the administration to make its foreign policy not a matter of partisan politics but of patriotism and national honor, and I have very great gratification in being able to state that the democratic members of the committee of foreign affairs responded in a true American spirit. I have not hesitated to consult freely with them about the most confidential and delicate affairs, and I frankly confess my obligation for needed co-operation. They did not regard a patient but firm insistence upon American rights and upon immunity from insult and injury for our citizens and sailors in foreign ports as a policy of "irritation and bluster." They did not believe, as some others seem to believe, that to be a democrat one must take the foreign side of every international question if a republican administration is conducting the American side. I do not believe that a tame submission to insult and outrage by any nation at the hands of any other can ever form the basis of a lasting friendship—the necessary element of mutual respect will be wanting.

MINISTER EGAN'S COURSE JUSTIFIED.

The Chilean incident, now so happily and honorably adjusted, will, I do not doubt, place our relations with that brave people upon a more friendly basis than ever before. This already appears in the agreement since negotiated by Mr. Egan for the settlement by commission of the long-unsettled claims between the two governments. The work of Mr. Egan has been highly advantageous to the United States. The confidence which I refused to withdraw from him has been abundantly justified.

In our relations with the great European powers the rights of the United States and of our citizens have been insisted upon with firmness. The strength of our cause and not the strength of our adversary has given tone to our correspondence. The Samoan question and the Bering sea question, which came over from the preceding administration, have been, the one settled and the other submitted to arbitration upon a fair basis. Never before, I think, in a like period have so many important treaties and commercial agreements been concluded, and never before I am sure have the honor and influence, national and commercial, of the United States been held in higher estimation in both hemispheres.

The union soldiers and sailors are now veterans of time as well as of war. The parallels of age have approached close to the citadels of life and the end for each of a brave and honorable struggle is not remote. Increasing infirmity and years give the minor tone of sadness and pathos to the mighty appeal of service and suffering. The ear that does not listen with sympathy and the heart that does not respond with generosity are the ear and heart of an alien and not of an American. Now soon again the surviving veterans are to parade upon the great avenue of the national capital and every tribute of honor and love should attend the march. A comrade in the column of the victors' parade in 1865, I am not less a comrade now.

I have used every suitable occasion to urge upon the people of all sections the consideration that no good cause can be promoted upon the lines of lawlessness. Mobs do not discriminate and the punishments inflicted by them have no repressive or salutary influence. On the contrary, they beget revenges and perpetuate feuds. It is especially the duty of the educated and influential to see that the weak and ignorant when accused of crime are fairly tried before lawful tribunals. The moral sentiment of the country should be aroused and brought to bear for the suppression of these offenses against the law and social order.

CARE IN RECEIVING IMMIGRANTS.

The necessity for a careful discrimination among the immigrants seeking our shores becomes every day more apparent. We do not want and should not receive those who by reason of bad character or habit are not wanted at home. The industrious and self-respecting, the lovers of law and liberty, should be discriminated from the pauper, the criminal, and the anarchist, who come only to burden and disturb ou communities. Every effort has been made to enforce the laws and some convictions have been secured under the contract-labor law.

The general condition of our country is one of great prosperity. The blessing of God has rested upon our fields and upon our people. The annual value of our foreign commerce has increased more than $400,000,000 over the average for the preceding ten years, and more than $210,000,000 over 1890, the last year unaffected by the new tariff. Our exports in 1892 exceeded those of 1890 by more than $172,000,000, and the annual average for ten years by $265,000,000. Our exports of breadstuffs increased over those of 1890 more than $144,000,000; of provisions over $4,000,000, and of manufactures over $8,000,000. The merchandise balance of trade in our favor in 1892 was $202,944,342. No other nation can match the commercial progress which those figures disclose. Our compassion may well go out to those whose party necessities and habits still compel them to declare that our people are oppressed and our trade restricted by a protective tariff.

It is not possible for me to refer even in the briefest way to many of the topics presented in the resolutions adopted by the convention. Upon all that have not been discussed I have before publicly expressed my views. A change in the personnel of a national administration is of comparatively little moment. If those exercising public functions are not able, honest, diligent and faithful, others possessing all these qualities may be found to take their places. But changes in the laws and in administering policies are of great moment. When public affairs have been given a direction and business has adjusted itself to those lines, any sudden change involves a stoppage and new business adjustments. If the change of direction is so radical as to

bring the commercial turn-table into use, the business changes involved are not readjustments but reconstructions.

A PROGRAMME OF DEMOLITION.

The democratic party offers a programme of demolition. The protective policy—to which all business, even that of the importer, is now adjusted, the reciprocity policy, the new merchant marine, are all to be demolished—not gradually, not taken down, but blown up. To this programme of destruction it has added one constructive feature, the re-establishment of state banks of issue. The policy of the republican party is, on the other hand, distinctively a policy of safe progression and development—of new factories, new markets and new ships. It will subject business to no perilous changes, but offers attractive opportunities for expansion upon familiar lines.

Very respectfully yours,
BENJAMIN HARRISON.

MR. CLEVELAND'S LETTER.

To the Hon. William L. Wilson and Others, Committee, Etc.—Gentlemen: In responding to your formal notification of my nomination to the presidency by the national democracy I hope I may be permitted to say at the outset that continued reflection and observation have confirmed me in my adherence to the opinions which I have heretofore plainly and publicly declared touching the questions involved in the canvass.

This is a time, above all others, when these questions should be considered in the light afforded by a sober apprehension of the principles upon which our government is based and a clear understanding of the relation it bears to the people for whose benefit it was created. We shall thus be supplied with a test by which the value of any proposition relating to the maintenance and administration of our government can be ascertained and by which the justice and honesty of every political question can be judged. If doctrines or theories are presented which do not satisfy this test loyal Americans must pronounce them false and mischievous.

PROTECTION OF THE PEOPLE.

The protection of the people in the exclusive use and enjoyment of their property and earnings concededly constitutes the especial purpose and mission of our free government. This design is so interwoven with the structure of our plan of rule that failure to protect the citizen in such use and enjoyment, or their unjustifiable diminution by the government itself, is a betrayal of the people's trust.

We have, however, undertaken to build a great nation upon a plan especially our own. To maintain it and to furnish through its agency the means for the accomplishment of national objects, the American people are willing, through federal taxation, to surrender a part of their earnings and income.

BURDEN OF TARIFF TAXES.

Tariff legislation presents a familiar form of federal taxation. Such legislation results as surely in a tax upon the daily life of our people as the tribute paid directly into the hand of the tax-gatherer. We feel the burden of these tariff taxes too palpably to be persuaded by any sophistry that they do not exist or are paid by foreigners.

Such taxes, representing a diminution of the property rights of the people, are only justifiable when laid and collected for the purpose of maintaining our government and furnishing the means for the accomplishment of its legitimate purposes and functions. This is taxation under the operation of a tariff for revenue. It accords with the professions of American free institutions and its justice and honesty answer the tests supplied by a correct appreciation of the principles upon which these institutions rest.

This theory of tariff legislation manifestly enjoins strict economy in public expenditures and their limitation to legitimate public uses, inasmuch as it exhibits as absolute extortion any exaction, by way of taxation, from the substance of the people beyond the necessities of a careful and proper administration of government.

DOGMA OF THE REPUBLICANS.

Opposed to this theory the dogma is now boldly presented that tariff taxation is justifiable for the express purpose and intent of thereby promoting especial interests and enterprises. Such a proposition is so clearly contrary to the spirit of our constitution, and so directly encourages the disturbance by selfishness and greed of patriotic sentiment, that its statement would rudely shock our people if they had not already been insidiously allured from the safe landmarks of principle. Never have honest desire for national growth, patriotic devotion to country, and sincere regard for those who toil been so betrayed to the support of a pernicious doctrine. In its behalf the plea that our infant industries should be fostered did service until discredited by our stalwart growth; then followed the exigencies of a terrible war, which made our people heedless of the opportunities for ulterior schemes afforded by their willing and patriotic payment of unprecedented tribute; and now, after a long period of peace, when our overburdened countrymen ask for relief and a restoration to a fuller enjoyment of their incomes and earnings, they are met by the claim that tariff taxation for the sake of protection is an American system, the continuance of which is necessary in order that high wages may be paid to our workingmen and a home market be provided for our farm products.

SHOULD NO LONGER DECEIVE.

These pretenses should no longer deceive. The truth is that such a system is directly antagonized by every sentiment of justice and fairness of which Americans are preeminently proud. It is also true that while our workingmen and farmers can—the least of all our people—defend themselves against the harder home life which such tariff taxation decrees, the workingman suffering from the importation and employment of pauper labor instigated by his professed friends, and seeking security for his interests in organized co-operation, still waits for a division of the advantages secured to his employer under cover of a generous solicitude for his wages, while the farmer is learning that the prices of his products are fixed in foreign markets, where he suffers from a competition invited and built up by the system he is asked to support.

The struggle for unearned advantage at the doors of the government tramples on the rights of those who patiently rely upon assurances of American equality. Every governmental concession to clamorous favorites invites corruption in political affairs by encouraging the expenditure of money to debauch suffrage in support of a policy directly favorable to private and selfish gain. This, in the end, must strangle patriotism and weaken popular confidence in the rectitude of republican institutions.

QUESTION OF MORALS INVOLVED.

Though the subject of tariff legislation involves a question of markets, it also involves

a question of morals. We cannot with impunity permit injustice to taint the spirit of right and equity, which is the life of our republic; and we shall fail to reach our national destiny if greed and selfishness lead the way.

Realizing these truths the national democracy will seek by the application of just and sound principles to equalize to our people the blessings due them from the government they support, to promote among our countrymen a closer community of interests, cemented by patriotism and national pride, and to point out a fair field where prosperous and diversified American enterprise may grow and thrive in the wholesome atmosphere of American industry, ingenuity and intelligence.

STILL FOR TARIFF REFORM.

Tariff reform is still our purpose. Though we oppose the theory that tariff laws may be passed having for their object the granting of discriminating and unfair governmental aid to private ventures, we wage no exterminating war against any American interests. We believe a readjustment can be accomplished, in accordance with the principles we profess, without disaster or demolition. We believe that the advantages of freer raw material should be accorded our manufacturers, and we contemplate a fair and careful distribution of necessary tariff burdens, rather than the precipitation of free trade.

IMPOSSIBLE FREE TRADE.

We anticipate with calmness the misrepresentation of our motives and purposes, instigated by a selfishness which seeks to hold in unrelenting grasp its unfair advantage under present tariff laws. We will rely upon the intelligence of our fellow-countrymen to reject the charge that a party comprising a majority of our people is planning the destruction or injury of American interests, and we know they cannot be frightened by the specter of impossible free trade.

FEDERAL POWER IN ELECTIONS.

The administration and management of our government depend upon popular will. Federal power is the instrument of that will—not its master. Therefore the attempt of the opponents of democracy to interfere with and control the suffrage of the states through federal agencies develops a design which no explanation can mitigate, to reverse the fundamental and safe relations between the people and their government. Such an attempt cannot fail to be regarded by thoughtful men as proof of a bold determination to secure the ascendency of a discredited party in reckless disregard of a free expression of the popular will. To resist such a scheme is an impulse of democracy. At all times and in all places we trust the people. As against a disposition to force the way to federal power we present to them as our claim to their confidence and support a steady championship of their rights.

SOUND AND HONEST MONEY.

The people are entitled to sound and honest money, abundantly sufficient in volume to supply their business needs. But whatever may be the form of the people's currency, national or state—whether gold, silver or paper—it should be so regulated and guarded by governmental action, or by wise and careful laws, that no one can be deluded as to the certainty and stability of its value. Every dollar put into the hands of the people should be of the same intrinsic value or purchasing power. With this condition absolutely guaranteed both gold and silver can be safely utilized upon equal terms in the adjustment of our currency.

In dealing with this subject no selfish scheme should be allowed to intervene and no doubtful experiment should be attempted. The wants of our people, arising from the deficiency or imperfect distribution of money circulation, ought to be fully and honestly recognized and efficiently remedied. It should, however, be constantly remembered that the inconvenience or loss that might arise from such a situation can be much easier borne than the universal distress which must follow a discredited currency.

CIVIL-SERVICE REFORM.

Public officials are the agents of the people. It is therefore their duty to secure for those whom they represent the best and most efficient performance of public work. This plainly can be best accomplished by regarding ascertained fitness in the selection of government employes. These considerations alone are sufficient justification for an honest adherence to the letter and spirit of civil-service reform. There are, however, other features of this plan, which abundantly commend it. Through its operation worthy merit in every station and condition of American life is recognized in the distribution of public employment, while its application tends to raise the standard of political activity from spoils-hunting and unthinking party affiliation to the advocacy of party principles by reason and argument.

PENSION ROLL OF HONOR.

The American people are generous and grateful, and they have impressed these characteristics upon their government. Therefore all patriotic and just decisions must command liberal consideration for our worthy veteran soldiers and for the families of those who have died. No complaint should be made of the amount of public money paid to those actually disabled or made dependent by reason of army service. But our pension roll should be a roll of honor, uncontaminated by ill desert and unvitiated by demagogic use. This is due to those whose worthy names adorn the roll and to all our people who delight to honor the brave and the true. It is also due to those who in years to come should be allowed to hear, reverently and lovingly, the story of American patriotism and fortitude illustrated by our pension roll. The preferences accorded to veteran soldiers in public employment should be secured to them honestly and without evasion, and, when capable and worthy, their claim to the helpful regard and gratitude of their countrymen should be ungrudgingly acknowledged.

WHOLESOME PARENTAL AUTHORITY.

The assurance to the people of the utmost individual liberty consistent with peace and good order is a cardinal principle of our government. This gives no sanction to vexatious sumptuary laws which unnecessarily interfere with such habits and customs of our people as are not offensive to a just moral sense and are not inconsistent with good citizenship and the public welfare. The same principle requires that the line between the subjects which are properly within governmental control and those which are more fittingly left to parental regulation should be carefully kept in view. An enforced education, wisely deemed a proper preparation for citizenship, should not involve the impairment of wholesome parental authority nor do violence to the household conscience. Paternalism in government finds no approval in the creed of democracy. It is a symptom of misrule, whether it is manifested in unauthorized gifts or by an unwarranted control of personal and family affairs.

REGULATION OF IMMIGRATION.

Our people, still cherishing the feeling of human fellowship which belonged to our beginning as a nation, require their government to express for them their sympathy with all those who are oppressed under any rule less free than ours.

A generous hospitality, which is one of the most prominent of our national characteristics, prompts us to welcome the worthy and industrious of all lands to home and citizenship among us. This hospitable sentiment is not violated, however, by careful and reasonable regulations for the protection of the public health, nor does it justify the reception of immigrants who have no appreciation of our institutions and whose presence among us is a menace to peace and good order.

NICARAGUA SHIP CANAL.

The importance of the construction of the Nicaragua ship canal as a means of promoting commerce between our states and with foreign countries, and also as a contribution by Americans to the enterprises which advance the interests of the world of civilization, should commend the project to governmental approval and indorsement.

NATIONAL PRIDE IN THE WORLD'S FAIR.

Our countrymen not only expect from those who represent them in public places a sedulous care of things which are directly and palpably related to their material interests, but they also fully appreciate the value of cultivating our national pride and maintaining our national honor. Both their material interests and national pride and honor are involved in the success of the Columbian Exposition, and they will not be inclined to condone any neglect of effort on the part of their government to insure in the grandeur of this event a fitting exhibit of American growth and greatness and a splendid demonstration of American patriotism.

RECORD AS A PUBLIC SERVANT.

In an imperfect and incomplete manner I have thus endeavored to state some of the things which accord with the creed and intentions of the party to which I have given my life-long allegiance. My attempt has not been to instruct my countrymen or my party, but to remind both that democratic doctrine lies near the principles of our government and tends to promote the people's good. I am willing to be accused of addressing my countrymen upon trite topics and in homely fashion, for I believe that important truths are found on the surface of thought and that they should be stated in direct and simple terms. Though much is left unwritten, my record as a public servant leaves no excuse for misunderstanding my belief and position on the questions which are now presented to the voters of the land for their decision.

Called for the third time to represent the party of my choice in a contest for the supremacy of democratic principles, my grateful appreciation of its confidence less than ever effaces the solemn sense of my responsibility.

If the action of the convention you represent shall be indorsed by the suffrages of my countrymen I will assume the duties of the great office for which I have been nominated, knowing full well its labors and perplexities, and with humble reliance upon the divine Being, infinite in power to aid and constant in a watchful care over our favored nation.

Yours very truly,

GROVER CLEVELAND.

Gray Gables, Sept. 26, 1892.

GEN. WEAVER'S LETTER.

To the People of the United States: Having been nominated respectively for the offices of president and vice-president of the United States by the national convention of the people's party, which assembled at Omaha July 4, 1892, we take this method of formally notifying the public of our acceptance of the nominations and of our appreciation of the honor conferred upon us by the action of the convention. We are heartily in accord with the platform of principles adopted by that convention, and if elected will endeavor to faithfully carry out the demands in letter and spirit.

We have been requested by the national committee to visit the various states of the union so far as it shall be within our power, and to address the people upon the political situation and the issues presented in the platform. We are now in the discharge of that duty, having already, one or both of us, visited fifteen states in the northwest and south, and if health and strength are spared we intend to continue the work until the campaign is closed. We have been received with marked cordiality. The enthusiasm everywhere is without parallel and extends to every part of the union we have visited.

FREELY AND WITHOUT RESERVE.

By contact with the people we have become acquainted with their wants and sufferings and have been brought face to face with the manifold perils which so seriously threaten our civilization and the overthrow of popular government. We wish to express our judgment freely and without reserve in order that we may stand acquitted before our fellowmen and our own conscience touching the whole matter.

The people are in poverty. Their substance is being devoured by heartless monopolists, trusts, pools and money sharks. Labor is largely unemployed, and where work is obtainable the wages paid are for the most part unremunerative and the products of labor not paying the costs of production. This is a matter of serious concern to the whole people.

OLD PARTIES AND MONOPOLY.

The leaders of the heretofore dominant parties are everywhere controlled by the great monopoly and money centers and manifest utter disregard for the wants and wishes of the people. The parties are hostile camps arrayed on sectional lines and the present bitterness and the cruelties of the past; every four years discussing the issues of the late war, which should long since have been allowed to pass from the political discussions of the day. Notwithstanding the bitterness existing between the old parties they vie with each other in their subservience to capitalistic and corporate greed. They are incapable of dealing sincerely with the vast problems evolved by the growth of the last quarter of a century.

Upon the general economic questions of the age they are practically the same in purpose, differing just enough to enable them to carry on a sham battle, while the work of robbery and spoliation proceeds unabated. In the meantime the farmers and planters north and south and wage-earners everywhere are proscribed, maltreated, brought into competition with convict labor, and in many instances shot down by hired mercenaries acting under orders of arrogant corporations which have unblushingly usurped the functions of government and presumed to act in its stead. These corporations dominate the daily press and control the lines of daily communication with the people.

DISHONESTY IN ELECTIONS.

We hold that the right of a free ballot and a fair count are rights preservative of all rights, and upon their inviolability rests the perpetuity of free institutions and representative government. We are pained to discover in the public mind of the southern states through which we have passed a widespread loss of confidence on the part of the people in the integrity of the judges of elections in receiving the ballots of the people and counting them for the candidates of their choice. We think that this evil must be corrected by the intelligence and integrity of the people of the country, otherwise scenes of violence and perhaps bloodshed may follow these efforts of parties in charge of the ballot-boxes to defraud the will of the voter. They will lead to a serious collision, and that quickly.

After consultation with the people we believe it to be true, beyond reasonable question, that the majority of white voters are with the people's party in every southern state thus far visited, and our information leads us to believe that the same thing is true in the other states. The white people are leaving the old parties and casting their lots with us, and our numbers are constantly increasing.

KOLB WAS COUNTED OUT.

We are informed by a large number of intelligent and reputable people that in the recent state election in Alabama Capt. Kolb was chosen governor by over 40,000 majority, and yet his opponent was counted in by a majority of 10,000. County tickets throughout the state were counted out and others counted in. By the same unblushing methods we are informed that in the state election which occurred in Arkansas on Sept. 5 at least 50,000 of the qualified voters of the state were deprived of the right of suffrage, that the returns were inaccurate, that at this election the people's party, a party polling a large vote, was denied representation in the appointment of judges and commissioners by whom the election was to be conducted. In consequence of these methods the will of the legally authorized voters of the state has been defeated.

FRAUDS AND IRREGULARITIES.

The only thing that our friends in that state have to guide them is in the few counties where they were able to force an honest count. In every one of these counties our vote ran fully up to expectations. In Washington, Independence, White, Clark, Nevada, Crawford, Sebastian and Scott, populous white counties, the people's party polled an immense vote, their ticket leading the republican largely and was about equal with the democratic. We believe that a fair count would have shown similar conditions throughout the state.

These frauds and irregularities in the state referred to, though local, are yet matters worthy of the serious consideration of the people of the whole United States. The deplorable condition of affairs cannot be remedied from without. The solution must come from the people within these states, supported by a healthy public sentiment everywhere, and we believe it to be the duty of all people without regard to section to stand by these noble people of the south who have risen up to demand good government and honest elections.

NEITHER OLD PARTY TRUSTED.

After an experiment of many years it is apparent that neither the republican party nor the democratic party can or will accomplish the much-desired end—to wit, the restoration of the ballot to a fair and honest basis in the states of the union. The people's party alone can secure the desired end. If the people of the whole country who desire honest elections and the repeal of class laws will rally to the support of this great industrial movement, and place the party in power under whose banner the white people of the south are now marshaling themselves, this vexed question will be settled forever.

It is certain that the people of the south will not join the ranks of the republican party. It is equally certain that the republicans will not unite with the democratic party. The people's party affords the only solution of these important matters.

INDUSTRIAL AND FRATERNAL MOVEMENT.

All who desire the revival of business; all who wish for the return of prosperity to our country; all who desire to relieve the depressed industries and wage-workers of our common country; all who desire an adequate increase of our currency and the free coinage of silver; all who desire the abolition of banks of issue and the constitutional control of the great instruments of commerce by the government of the United States; all who desire that the laws of taxation shall be equitably adjusted to the property of the country; all who desire that the public domain shall be sacredly held in trust for the people; all who desire that the highways between the states shall be rendered subservient to the popular good, and, finally, all who desire the restoration of fraternity among the people and the obliteration of sectional animosities, should at once regard it as their conscientious duty to align themselves under the banner of this great industrial and fraternal movement.

JUSTICE AND GOOD GOVERNMENT.

It seems to us to be quite impossible that the liberty and justice loving people of this country should longer cast their ballots for the corporations and money-changers. It would seem impossible that they should refuse to make common cause with the fair-minded majority of the people of the south who have risen up to demand justice and good government in their respective states. And it further seems quite impossible that the producers and laboring people of the United States shall deliberately go to the polls in November and cast their votes in harmony with the corporations and money power who have systematically and cruelly robbed them for so many years, vote in harmony with their despoilers, who made war against even their right to organize for the protection of themselves and families.

With the aggressions of capital on the one hand and the overthrow by fraud of free elections on the other, how is it possible for our civilization to last? The new party has its face turned to the glorious future. Its sublime mission is to usher in an era of fraternity and justice among men. In the presence of such an opportunity to emancipate our country from misrule of every kind let party lines be forgotten and let the generous flame of a common patriotism nerve every heart and move every soul.

JAMES F. WEAVER.
JAMES G. FIELD.

GEN. BIDWELL'S LETTER.

Mr. Chairman and Gentlemen of the Committee: By your polite letter of this date, which I have the honor to receive at your hands, I am formally notified that the national prohibition convention, in session in the city of Cincinnati, adopted a platform of principles for the coming political campaign, and thereupon conferred upon me the distinguished honor of its nomination for president of the United States.

In accepting the nomination, which I do with misgivings as to my ability to meet the just expectations of the people, permit me to thank you, gentlemen, for the courteous and kindly manner in which you have been pleased to discharge the trust assigned you, and through you to embrace the occasion to express to the members of the convention and the friends of prohibition and reform throughout the country whom you represent my grateful acknowledgment.

It is scarcely necessary to add that I am overwhelmed with a keen sense of the responsibility which I assume.

Mistakes are possible, but I trust the cause may not suffer in my hands. All I have to plead is unswerving devotion to those great principles and needed reforms which have brought into existence the prohibition party of the nation.

Those who witnessed the convention in Cincinnati need not be reminded that something of unusual moment had aroused the nation and brought together a representative body of men and women the equal of which for intelligence and patriotic earnestness has seldom if ever been seen at any former period.

In 1776 our fathers made proclamation of the birth of the nation. Now, having grown to be one of the greatest powers of the earth, the freest and best government ever devised, the hope of the world, the "grandest governmental fabric of human invention," our beloved American nation is, in the minds of most thoughtful and intelligent people, drifting unmistakably toward decay, if not to sure and swift destruction.

Prohibition comes, therefore, to proclaim, as we believe, the only way of salvation.

AN IMMEASURABLE EVIL.

There are well-founded apprehensions that this nation which we love—this mighty empire of sovereign states—cannot survive unless redeemed from the dangers that jeopard its existence, prominent among which are that immeasurable evil, the monster liquor traffic, and the numerous forms and phases of the monopolistic combinations, creating immense wealth in the hands of a few and impoverishing the many. The same causes and processes which have created increasing numbers of millionaries will, if unchecked under the rule of the old political parties, in time turn over the entire nation into the hands of an aristocracy of monster billionaires.

Labor creates the wealth of the country. Without labor there can be no development of resources, no national prosperity. The liquor traffic robs, impoverishes, and demoralizes labor, thereby sapping the very foundations of the national fabric.

The liquor traffic is an enormous incubus upon the nation, amounting in cost and consequences to the annual sum of not less than $2,000,000,000—four times the amount requisite to pay the annual expenses of the national government, even under the recent expensive administrations.

But it is not necessary further to enumerate. Suffice it to say, the liquor traffic is a standing curse—a danger to public health; the prolific source of untold political corruption, crimes, diseases, degradation and death; a public nuisance and a public immorality. In a word, it is an unmitigated and measureless evil without a redeeming feature.

Every consideration of justice, the public welfare, protection to labor, all cry out against this great wrong. The only adequate remedy lies in the entire overthrow of the liquor traffic in every state and territory.

The liquor power leads, corrupts and dominates both the old political parties. Without the liquor support neither could make another political fight or win a victory.

The prohibition party asks the intelligent and patriotic people of this nation this question: Are not these charges true? And, if true, have you not a right to ask: How can any good man consistently support the infamous saloon business by longer clinging to the destinies of those parties?

PROTECT THE HOME.

The family is the unit of civilized government. Protect the home and the nation will be protected.

In the name of right and humanity, then, let not free, enlightened and Christian America longer injure and degrade woman by withholding from her that which is her inalienable right; that which will elevate American womanhood; that which will enlarge her usefulness; that which will impart to her greater ability to be the helper and co-worker with man under all circumstances and conditions; that which alone will make woman man's equal before the law and place in her hands the most efficient weapon with which to defend her rights and protect her home. I allude, of course, to that priceless heritage, the ballot.

In doing this Americans should lose no time. Americans, of all people under the sun, are the most nearly ready.

Our women know what the ballot is and its power; they are, as a class, intelligent, virtuous, self-reliant, womanly and modest.

If we delay England will take the lead in the emancipation of woman.

The nation that first gives woman equal rights with man will earn a crown of imperishable glory.

The old parties, controlled as they are by the liquor power and by vast monopolistic and other influences, cannot, dare not even propose, much less seriously purpose, to overthrow the saloon, grant equal suffrage, or do any other act in the direction of a beneficent reform antagonistic to these controlling influences.

They need them this year for re-election, they will need them next time, and so on as long as they have an existence. Powerful political parties invariably become corrupt and utterly helpless to right themselves. The only real service they can do is to go out of existence. It is a singular phenomenon that good men will remain in affiliation with such parties and thus lend aid and comfort to the liquor business.

THE MONEY QUESTION.

The financial question in our platform is briefly and fairly stated and broad enough to satisfy all reasonable men in these words: "The money of the country should consist of gold, silver and paper." Also that it be "issued by the government only." It should, of course, be in sufficient quantity to meet all demands, and the volume be so increased and adjusted as at all times to respond to the conditions of the country.

Of all the forms used by men to overreach each other in the scramble for wealth there is none more oppressive and blighting to labor and business generally than the monopoly of money. Combinations to lock up capital with the view to raise the rate of interest or to reduce the price of labor or commodities should be made illegal.

Take farmers, for example. As a class they are compelled to be and as a rule are frugal. Yet there is little doubt that the mortgages which cover their farms indicate with almost unerring certainty the overcharge of interes they are obliged to pay.

The legal rate of interest should be made

low and reasonable for the benefit of all classes, occupations and industries, and be uniform in all the states. No man ought to be compelled to pay exorbitant interest because he is poor. If his security is doubtful, exacting from him high interest will not increase his ability to pay. As a matter of equity all who honestly and promptly pay should have the benefit of the legal low rate of interest. If combinations may be formed ad libitum to accumulate and hoard the wealth of the country they will soon have it in their power to stop the very wheels of progress—to exercise dangerous control over legislatures, courts, and congresses, if not virtually to dictate all the affairs of the nation.

In a wide sense all who pursue useful occupations, professions or callings are laborers. In the busy hive of national industry there is a place for the merchant, the mechanic, the doctor, the teacher, the learned professor, the lawyer, the legislator—in a word, for all who in any manner perform useful or valuable service.

In the common conception of the term laborers (which I may use) it is usually applied to those who labor with their hands. Happily, in this land of freedom and equal rights all labor is regarded as honorable, and none more useful than manual labor.

RESTRICTION OF IMMIGRATION.

In order to relieve the labor of the country of its abnormal and often congested condition there should be the earliest possible revision and restriction of the immigration and naturalization laws of the United States. These laws, so inimical to American labor and the best interests of all, if not purposely enacted, have doubtless been kept in force for partisan considerations—for fear of detriment to partisan interests—till our country has become the almost daily scene of riots, lawlessness and bloodshed, and not infrequently on such a scale as to portend, if permitted to go unchecked, the possible subversion of all authority. The discord between capital and labor cannot safely be allowed to continue. No matter what the cause, it is imperative to remove it.

The general welfare and even the fate of the nation demand that a remedy be found and applied, whether by arbitration or otherwise. Tribunals of adequate jurisdiction can be provided to decide all differences between men or bodies of men, be they large or small, capitalists and laborers or employers and the employed.

Labor itself has the deepest interest in the general welfare. All its hopes are inseparably associated with the prosperity and destiny of the nation. All intelligent and patriotic Americans concede that the laboring classes and all classes have the right to ask and to receive ample and adequate protection under just and equal laws.

Intelligent laboring men, being in the majority at the polls, must bear in mind their own responsibility in making the laws to which they themselves and all others are bound to yield obedience.

That capital sometimes overreaches and oppresses labor is doubtless true. There seems to be no limit to human greed.

That labor is sometimes unreasonable and even vicious is also probably true. But lawlessness and lawless combinations of men, the only effects of which are to enervate and destroy, must at once be put under the ban of severe public disapprobation if this country is to prosper.

In the national hive there should be no drones. There should be room—and there is room—for all to labor, and all ought to have and must have the right to labor. It is a duty and a right that all men have, to earn their bread and support their families. If it be necessary to have organizations as a defense against capital or competing labor, such organizations should be authorized and regulated by law.

PARTY POSITION ON TARIFF.

Whatever tariffs may do they do not seem adequately, if at all, to protect labor. Except the partial effort to check the introduction of Mongolians our ports are open to all the world to come and compete with American labor. There is no tariff on labor.

We must concede that all nations have the right to levy tariffs. As Americans we are in favor of protecting all American interests. The tariff proposed by the democratic party and that of the republican party differ only in degree—both are sufficiently high to be termed protective.

To the objection that tariffs bear unequally—that is to say, that under them the rich pay comparatively nothing and the masses nearly all the revenue so derived to support the national government—must be added the further objection that they are blinding and deceptive.

Under the present tariff there is not a man in the United States who can tell what he pays toward the support of the national government. Impressed with this fact, which all intelligent citizens ought to know and all the people must sooner or later learn, the tariff is doubtless destined to undergo constant and numerous revisions by congress in the impossible effort to equalize all its burdens and benefits.

Our national convention wisely justifies tariff as a defensive measure, which practically can but mean reciprocity.

In a country of such vast and varied resources as ours such a tariff system could not fail to yield a very considerable revenue.

A further provision of the platform contains a measure of revenue of such transcendent importance as to commend itself to the favor of all classes, and especially the masses, in these words: "The residue of means necessary to an economical administration of the government should be raised by levying a burden on what the people possess instead of upon what they consume."

The platform fairly, and as I think with great wisdom, embraces the policy of laying the burden of public revenue where it justly belongs and precisely where the ability lies to pay—namely, "on what the people possess"; in other words, on their wealth, the value of which will generally be measured in dollars by the revenue or net income it yields to the possessor.

WHY AN INCOME TAX IS FAVORED.

An income tax can do no injustice, work no oppression, for where there is no income there will be nothing to pay; the rich will pay most and the poor least or nothing. This mode of revenue is no experiment in this country. During the great rebellion when every source of revenue was strained to sustain the armies of the union an income tax was resorted to and it worked like a charm.

It helped them to save the union and will help to save the nation now in another rebellion—the classes against the masses.

Some men, of course, will always try to evade the payment of their just taxes. But no honest man, I think, can ever make any reasonable objection to a well regulated income tax.

The effect of this mode of raising national revenue cannot fail to be beneficent. It will relieve the poor without oppressing the rich. Perhaps no other measure possible to be de-

vised will work greater reform or give greater impetus to general prosperity than a wisely regulated income tax. One of its results would be to favor the equal distribution of wealth; it would go far to heal the growing discord between labor and capital.

A further important effect to flow from a revenue system based on "what the people possess instead of upon what they consume" would be that it would at once become to the interest of all, rich and poor alike, to align themselves on the side of the strictest economy in all branches of the public service.

There is perhaps no one issue in all the broad array of prohibition principles embraced in our national platform of more vital concern to the material prosperity of our whole country than that of transportation. Hence we declare in favor of government control of "railroad, telegraph and other public corporations" in the interest of all the people. If railroads cannot otherwise be so controlled, then it becomes the imperative duty of government to acquire and exercise absolute ownership, especially of the great trunk lines, for we mean practical and efficient control—nothing less.

So essential is this instrumentality to our national life and prosperity in this stage of rapid transit that whatever powers own and control the railways of the United States, intimately associated as they are with other great monopolistic interests, will have it within their sway virtually to own and control the government.

DANGER FROM CORPORATIONS.

It is well known that railways and their natural affiliations (the great moneyed and other corporate powers) have already a most dangerous influence in all elections and in every department of the government. They are absolutely corrupting. We boast that ours is the freest and best government, and so it is.

But the question comes home to every thoughtful mind: Is it safe for the people to surrender their rights into the hands of great corporations?

The transportation question has and ever will have an important effect in adding strength to the bonds of the national union by multiplying the facilities for travel and the commingling of the people of all sections, thereby dissipating prejudices, forming and connecting friendships, unifying the people in language, in national spirit and love of country through the constant medium of more intimate, social and business relations.

For these considerations transportation must be controlled—owned if necessary—by the government of the United States.

The general diffusion of morality and intelligence is essential to the preservation of the rights and liberties of the people. One state constitution has it in these words:

"A general diffusion of knowledge and intelligence being essential to the preservation of the rights and liberties of the people, the legislature shall encourage by all suitable means the promotion of intellectual, scientific, moral and agricultural improvement."

Another state constitution has the same declaration, thus: "Knowledge and learning generally diffused throughout the community being essential to the preservation of a free government, it shall be the duty of the general assembly to encourage by all suitable means moral, intellectual, scientific and agricultural improvement."

We have, therefore, ample reason for the conclusion that this free popular government—this mighty empire of sovereign states—can only be preserved on the basis of morality and intelligence.

The demand is therefore imperative that ample means of education upon such basis be provided at the public expense and placed within the reach of every child in the nation.

The transcendent importance of the common school cannot be too firmly emphasized.

PROMOTION OF THE PUBLIC SCHOOLS.

Our national convention has therefore wisely made prominent in its platform the American public school, which should be, if possible, the most prevalent and conspicuous object in the nation. Over it the flag of freedom should ever be unfurled, for it should be a school of patriotism as well as of intelligence and morality. The teachings of the American public school should be in accord with American ideas—with American civilization, which of course is a Christian civilization, but they must be strictly—absolutely—non-sectarian. The standard of morality must accord with our civilization and pervade all the books and teachings of the public school, which must not in any phase be a school of immorality.

Complaint has been made from various sources that American public schools are godless and immoral and therefore not good enough to suit some people. The remedy is to make them good enough. Place them on a high moral standard. Eliminate from the public school every feature that has the slightest tendency to immorality; ever bearing in mind that under our form of government the conditions essential to our existence as a nation make it imperative that our public schools be free from every sectarian influence.

In the interest of national unity there should be a national language—and that, of course, the English.

No other should be the language of the public school. A knowledge of the national language so far as to read and write the same fairly well should, in addition to good moral character, be made a condition of naturalization and the inestimable right of suffrage.

Taking our rank as we do foremost among Christian nations, we ought not as a nation to ignore the Christian sabbath. The closing of the World's Fair on Sunday is important to show to the world America's rank among the nations.

THE TRIALS OF THE TIMES.

This magnificent republic, with an area equal to that of all Europe, with a population already of nearly 65,000,000, with industries and resources vast, varied and almost limitless; and with more than a century of unexampled prosperity and remarkable history, and destined in the providence of God, as we believe, to become the leading power of the world, is even yet regarded by other nations as in the experimental stage. The enemies of free government still predict and doubtless hope to see America's downfall. America was never more on trial than she is to-day.

Dangers are ever present. The eyes of the world are upon us to see whether or not America possesses in a measure equal to or greater than monarchies the elements of strength and perpetuity to carry our government through all present and possible emergencies.

The same patriotism and wisdom that laid the foundation will be required to preserve the temple of liberty. Our foes are more numerous than at the beginning and our dangers are multiplied. Eternal vigilance was never more necessary. The important question of the hour is: How can this republic be tided over all the dangers that threaten and be preserved to bless the world?

The far-seeing patriot makes answer: Banish alcohol and make the nation sober. Make the people intelligent, moral and law-abiding.

Control all monopolies in the interest of the

people. Banish anarchy, punish all crimes, suppress all lawless combinations. Restrict foreign immigration. Rest the right of suffrage and citizenship on the sure basis of morality and intelligence.

Teach all children in the American public school the sacredness of the ballot, of obedience to law, of willing submission to rightful authority and the settlement of differences between men by arbitration.

That all great national questions must be settled, and all dangers averted, and all needful reforms achieved by the same sacred principle of unreserved acquiescence in the majority rule. Majorities make the laws. Majorities repeal them.

We fondly believe ours to be the best government the world has seen. On the principle stated of adhering sacredly to obedience to law and the arbitrament of all questions to majorities there can be no reason why our free popular government may not, under the blessing of God, endure till the close of time. The principle is of such vital moment that we cannot begin too soon to make it a feature in the curriculum in all American public schools.

Making this the inflexible rule of our faith and practice, this proud republic, with all its vast concerns, may be easily held together by the bonds of common interest, even were our boundaries enlarged and our population and our national affairs indefinitely multiplied.

THE PROHIBITION PLATFORM IS COMPLETE.

The principles of our prohibition platform, as far as I have been able to refer to them, are ample to show that they cover as entirely as ought to be desired in a brief outline of party policy many if not the most of the prominent problems pressing for solution at the present hour.

Our platform warrants unyielding opposition to all speculations in margins to "the cornering of grain, money and products," to "pools, trusts," etc., and by implication to lotteries and all modes of gambling, public and private.

But further allusion to our principles is not necessary. We cover a wider field than any other political party. We claim that ours is the only party that promises anything whatever in the line of real reform.

In 1776 we needed immigration. The complaint against England was that immigration had been obstructed. But times have changed.

We make no war against foreigners as such. This is a world of competition. Each nation is competing with all other nations. Some are favored nations. Ours is one. All the world has been and still is coming to us.

But we must now begin to close the doors in self-defense. We do not want the world faster than we can Americanize the world. We have already quite enough of imported nihilism, anarchism and pauperism.

We do not ask foreigners coming to this land of freedom to change their faith. We do not intend to protestantize or Romanize or in any manner sectarianize them. But we do insist that they shall not destroy our liberties by any attempt to foreignize or anarchize us or our government; that they should appreciate our liberties and privileges; that as a condition of citizenship they should learn to speak our national language and to read and write it fairly well.

UNDENOMINATIONAL AND NON-SECTIONAL.

Our safety and our future demand that our government shall never in any manner become denominational or sectional.

Unfortunately, at present, labor in this country is divided against itself. Banish the saloon, restrict immigration, and relief will soon follow.

Prohibition is the greatest friend of labor. No other can achieve in full measure entire relief.

We propose to make labor moral, intelligent and united in the common prosperity.

To save and perpetuate this nation our hope is in the masses—in the labor and not monopolies.

Wealth is boundless in its ambition to gain wealth, and would if it could monopolize the very earth. Therefore, we say that the hope of this nation is in the many and not in the few—the many are they who labor.

Our appeal is to the good and intelligent voters of all political parties.

Religious denominations are all invited to unite in conquering our country for temperance. They can vie with each other in beneficent rivalry. Their field is our whole country and the world. We appeal to the courageous young manhood of the nation before it casts its first ballot and to the older and veteran voters before they cast their latest—and perhaps their last vote—to vote against the saloon; that is to say, vote with the prohibition party, for that is the only political party that dares oppose the liquor power.

JOHN BIDWELL.

THE PROTECTIVE TARIFF ON INTOXICATING LIQUORS.

The following table, from the annual report of the chief of the United States Bureau of Statistics in regard to imported merchandise, for the year ended June 30, 1891, gives the value of alcoholic liquors imported into this country since 1880 and the amount of customs revenue from the same under our protective tariff system:

YEAR ENDED JUNE 30.	MALT LIQUORS.		DISTILLED SPIRITS.		WINES.		TOTAL LIQUORS.	
	Values.	*Ordin'ry Duty.*	*Values.*	*Ordin'ry Duty.*	*Values.*	*Ordin'ry Duty.*	*Values.*	*Ordin'ry Duty.*
1880	$678,507	$283,296	$1,751,134	$2,788,531	$5,649,033	$3,091,926	$8,078,674	$6,163,753

THE NATIONAL LEAGUE FOR THE PROTECTION OF AMERICAN INSTITUTIONS.

President—Wm. H. Parsons.
Vice-President—William Strong.
General Secretary—James M. King.
Treasurer—William Fellowes Morgan.
Law Committee—William Allen Butler, Dorman B. Eaton, Cephas Brainerd, Henry E. Howland and Stephen A. Walker.
Offices—140 Nassau street, New York.

The league, which is entirely non-partisan and unsectarian, was incorporated Dec. 24, 1889, under an act of the New York legislature. Its objects are "to secure constitutional and legislative safeguards for the protection of the common-school system and other American institutions and to promote public instruction in harmony with such institutions and to prevent all sectarian or denominational appropriations of public funds." As an important step to this end the league proposes to secure the passage of the following amendment to the constitution of the United States:

"No state shall pass any law respecting an establishment of religion or prohibiting the free exercise thereof or use its property or credit or any money raised by taxation or authorize either to be used for the purpose of founding, maintaining or aiding by appropriation, payment for services, expenses or otherwise, any church, religious denomination or religious society, or any institution, society or undertaking which is wholly or in part under sectarian or ecclesiastical control."

It will also endeavor to secure similar amendments to the state constitutions.

The league has been in active operation since May, 1890, and already has many thousands of adherents distributed throughout every state and territory. Many religious and patriotic organizations have formally approved its principles.

State leagues are being organized and local secretaries appointed in all the states, and correspondence and co-operation is invited from thoughtful citizens throughout the country.

RAILROAD BUILDING.

Number of miles of railroad in operation in each state and territory of the United States during the years ended Dec. 31, 1860, 1870, 1880, and from 1887 to 1891, inclusive.

[From Poor's Railroad Manual.]

The Supreme Court.

The Supreme court consists of seven judges, elected for a term of nine years, one from each of the seven districts into which the state is divided. The election is held in June of the year in which any term expires.

The state is divided into three grand divisions, southern, central and northern, in which the terms of the court are held. One clerk for each of the three grand divisions is elected for a term of six years.

The court sits at Mount Vernon, Springfield and Ottawa.

AMERICAN WONDERS.

The greatest cataract in the world is the Falls of Niagara, where the water from the great upper lakes forms a river of three-quarters of a mile in width, and then being suddenly contracted plunges over the rocks in two columns, to the depth of 170 feet each. The greatest cave in the world is the Mammoth cave in Kentucky, where any one can make a voyage on the waters of a subterranean river and catch fish without eyes. The greatest river in the world is the Mississippi, 4,100 miles long. The largest valley in the world is the valley of the Mississippi; it contains 500,000 square miles and is one of the most fertile and profitable regions of the globe. The greatest city park in the world is in Philadelphia; it contains over 2,900 acres. The greatest grain port in the world is Chicago. The largest lake in the world is Lake Superior, which is truly an inland sea, being 430 miles long and 1,000 feet deep. The longest railroad in the world is the Pacific railroad, over 3,000 miles in length. The greatest natural bridge in the world is the Natural Bridge over Cedar creek, in Virginia; it extends across a chasm 80 feet in width and 250 feet in depth, at the bottom of which the creek flows. The greatest mass of solid iron in the world is the Iron mountain of Missouri; it is 350 feet high and two miles in circuit. The best specimen of Grecian architecture in the world is the Girard college for orphans, Philadelphia. The largest aqueduct in the world is the Croton aqueduct in New York; its length is forty miles and a half and it cost $12,500,000. The largest deposits of anthracite coal in the world are in Pennsylvania, the mines of which supply the market with millions of tons annually and appear to be inexhaustible.

Illinois State Legislature.

1892-1893.

List of Members of the Thirty-Eighth General Assembly.
Session Begins Jan. 4, 1893.

SENATE (by Districts).

Republicans, 22. Democrats, 29.

Dist.	Name.	Postoffice.	County.
1.	E. T. Noonan	Chicago	Cook.
2.	C. P. Johnson	Chicago	Cook.
3.	*George Bass*	Chicago	Cook.
4.	Moses Salomon	Chicago	Cook.
5.	J. P. Mahoney	Chicago	Cook.
6.	H. C. Bartling	Chicago	Cook.
7.	*Jno. Humphrey*	Orland	Cook.
8.	*Reub. W. Coon*	Waukegan	Lake.
9.	*Philip Knopf*	Chicago	Cook.
10.	*David Hunter*	Rockford	Winnebago.
11.	Emil Thiele	Chicago	Cook.

Massachusetts elects a governor and state officers.

New Jersey elects a treasurer, comptroller and superintendent of public instruction.

New York elects secretary of state, comptroller, treasurer, attorney-general, state engineer.

Ohio elects a governor, lieutenant-governor and treasurer.

Rhode Island elects governor and state officers.

The World's Columbian Exposition.

SOME OF THE LEADING FEATURES OF THE FAIR.

If a man familiar with all peoples and all countries were to describe all he had seen and knew he might barely approach the variety and magnificence of the exhibits that will be seen at the World's Columbian Exposition. Diamonds in their native clay from Cape Town, Africa; Esquimaux families from the region of the frozen seas; Maoris and Papuans from South Sea islands; Japanese and the products of Japan; Turks. East Indians, Australians, natives of South and Central America, with the wares of their own making; Russians, with exhibits covering the vast range of the empire from its western boundary to the easternmost line of Siberia; Patagonians of mythic stature—all these, with contributions from their native lands, will be represented in the great convocation of the nations of the earth.

In such a bewildering prospect it would be impossible to distinguish as to what will most interest the individual visitor. Thirteen great exhibits departments offer a choice of subjects as wide as the differing tastes of the millions who will go to see them. Agriculture, forestry, horticulture, live stock, fish, mines, machinery, transportation, manufactures, electricity, fine arts, liberal arts, ethnology, are the departments and their subdivisions cover the field outlined by the act of congress providing for "an exhibition of arts, industries, manufactures and products of the soil, mine and sea."

At the time of this publication, four months before the opening of the Exposition, the total value of the assured exhibits is estimated at $300,000,000. France alone has arranged for $5,000,000 of insurance on her displays. Nearly fifty separate governments and colonies, excluding our own, have made appropriations aggregating $6,000,000 for Exposition purposes. Counting the $18,000,000 to be expended in Jackson park before the gates open on May 1 the governmental and private outlay of money represents the greatest expenditure ever recorded for purely pacific purposes.

DEPARTMENT OF AGRICULTURE.

None but the unique features of such a vast aggregation of exhibits could be described in a single publication. Beginning with agriculture, perhaps the most interesting collection in the building over which Chief Buchanan presides will be exhibits from thirty-five or forty states and territories, showing the best product of each state and offering a comparison of soil products from every important agricultural community in the country. These exhibits have been secured by competition at state and county fairs and promise to be an exposition in themselves. In another part of the building will be model government experiment stations illustrating the methods pursued by the department of agriculture in its quest for scientific knowledge of agricultural conditions and results. Thirty-three foreign governments are to make a great showing. Australia will exhibit wool and, incidentally, the way sheep are handled in that country. The Central and South American states will have their crop products on view; France will establish her own experiment stations on the grounds; Canada will have a great display of farm products, including the biggest cheese ever made—a monster 6 feet high, 9 feet in diameter and weighing so much that a special foundation has been built for it.

The dairy school, a branch of the agricultural exhibit, is in a building by itself. Here tests are to be made under government supervision of the comparative value of all the dairy breeds of cattle and the product will be sold in the building.

Live stock, a separate department, has innumerable entries from Australia, Canada, France, Germany, Russia, Sweden, Great Britain and our own country. Something like $200,000 has been set aside for special prizes distributed among every class from the blooded dogs, pigeons and goats up to awards for the best cattle and horses.

Agricultural implements and machinery will be on view. Windmills of every type, from the old-fashioned Dutch "sailor" to the latest development of turbine. Russian reapers and mowers will stand beside their American rivals; and the whole civilized world will have its peaceful weapons of the field in the competition.

DEPARTMENT OF FORESTRY.

The department of forestry is a departure from Exposition methods in that it is separate and distinct from agriculture and horticulture. The Forestry building is unique in itself. The framing, including roof and roof-girders, is put together with wooden pegs and wedges and without the use of nail, spike or screw. Within the building will be seen rough and sawed timbers from every wood-producing country—barks, corks, gums, resins, lichens and mosses. There will be models of mills, kilns, dikes, flumes and lumbering apparatus. California is to send a section of tree big enough for a good-sized cottage; Oregon and Maine propose to send ship timbers; the South American countries will exhibit rubber and cocoa trees and the Central American states their veneering woods and barks from which dyes are obtained. In addition to these material exhibits there will be data for the intelligent study of forestry, the effect of climate and soil upon trees and the value of tree-planting in arid and waste lands.

THE TRANSPORTATION EXHIBITS.

Chicago's Exposition was mapped out on so large a scale that whole departments and separate buildings are devoted to displays that in former fairs have had little space and comparatively no prominence. The transportation exhibits is an instance of this. Representing more capital than any other industry, it has generally been relegated to a corner in the machinery section; here, however, it is given a magnificent hall of its own with a great annex and equipment in keeping with its dignity.

The Golden Door of this building will be the most gorgeous entrance at the grounds. It is a series of recessed arches, exquisitely decorated with panels in bas-relief, representing periods in the history of transportation, the whole being covered with gold leaf at a cost of something like $60,000.

The exhibits themselves will be among the most interesting in the Exposition. Transportation as a subject embraces every method of carrying passengers or merchandise. Chief Willard A. Smith has developed the plans of the department to cover the entire subject. With the assistance of United States ministers and consuls the world over, aided also by special commissioners of the Fair, he has secured either models or actual types illustrating almost every mode of travel and means of traffic under the sun from days of old down to the present time. How primitive and curious some of these methods are may be inferred when it is known that Chief Smith has discov-

ered the existence of fishermen in India who use bladders as floats for themselves when they go fishing. The floats are peculiarly fitted up and some of them will be seen in the transportation exhibit. Another thing that will interest the latter-day curiosity-seekers is an old Roman chariot which has been preserved in Florence with pole and neck-yokes complete. A miniature Egyptian canoe found in a tomb will be reproduced. Jinrikshas and palanquins, sedan chairs and litters of the east; old-fashioned stage coaches and quaint carriages of state from England; sledges and sleighs, with vehicles of buzz-saw nomenclature from Russia; howdahs that surmount the royal elephants of Siam and shelter the king in his expeditions of state—all manner of equipment will be seen, as old in origin as civilization itself and yet new to most people this side the ocean. The ox-cart of the days of Moses will be shown in model and the ox-carts of South America will show that mankind in some parts of that country has not advanced far beyond the days of the patriarchs.

In contrast with these will be the very finest carriages and coaches that can be turned out by the big builders of Europe and America. Of course, these are only indications of the lines the display will take.

The railroad section, while entirely modern, will cover a span of progress as great as almost any historical feature. The oldest railway ticket is already secured. It is a brass check, octagonal in shape and has stamped on it: "L. & S. Railway, Bagwout, No. 29." The ticket was found not long ago behind the wood paneling of the oldest station in the world at Leicester, England, and is a relic of the Leicester and Swannington road. The great English lines are collecting historic relics to show how their business has grown from the days of the strap-rail and walking-beam engine to the era of "The Flying Scotchman" and other noted express trains. They will show, too, an English "limited" train on a track alongside the very finest vestibuled express that the great Pullman shops can build.

Each state of this country has been allotted its own space on one side of the main floor and foreign nations will exhibit just across the main avenue, in competitive proximity. With the wealth that centers in mines has come a friendly rivalry and effort by each mining center to outvie its rivals. The result is sure to be gratifying, both in a commercial and artistic sense. The Kimberly mines of Cape Colony, South Africa, are arranging a novelty. They will ship a cargo of diamondiferous blue clay from their mines. With the cargo will come Kaffir natives and the machinery they use in washing the diamonds from the clay. The process of diamond-washing will go on throughout the Exposition and as the uncut stones are separated from the clay and sorted they will be taken by lapidaries and cut and polished ready for sale.

Gold and silver mining will be shown in the same way. Quartz will be carried through all the stages of reduction just as it is in California, Colorado, Montana and other mining states. Beside the modern machinery used for this purpose will be shown the crude machinery of early days when a mule furnished crushing power by dragging large stones around a pit containing the ore.

Pneumatic and electric drills will touch elbows with their forerunners, the pick and hand-drill. In hoisting-machinery the contrast afforded will be a revelation. The straight ladder up which the Mexican peon carries his basket of ore, the bucket and windlass, the iron cage with steam drum, and last the water-conveyer with its practically limitless capacity will show as nothing else could the remarkable advance of mining methods in recent years.

Then, too, there will be a great exhibit of pigments, asbestos, oil and its machinery, graphite granite and the thousand and one products of each of these materials. The collection of precious stones alone is so valuable that steel vaults are being built for their safekeeping. In the galleries of the building where the engineering societies are to hold forth will be a great scientific library for which a special appropriation was made. Another scientific feature is the chemical laboratory, fitted up especially for assays and tests of various kinds as a factor in the work outlined by the department.

LIBERAL ARTS.

The liberal arts section includes education, engineering, public works, constructive architecture, music and the drama—all of which, excepting the last two, will be shown largely in pictures, drawings and similar representation. The exhibit of public-school, college and university work promises to be of the widest possible scope. For the first time Harvard and the other great universities have undertaken to show their methods and results; nearly all the states and territories are preparing collective displays illustrating their educational systems. Most effective and attractive displays are to be made of technical work by means of a manual training school in active operation with students at work. Plans, drawings and designs will show the greatest engineering and architectural works of modern times. Music and the drama will include some rare relics in manuscripts of famous authors and instruments used by great composers. Theodore Thomas, head of the bureau of music, has arranged for programmes to be given in Music hall throughout the Exposition, and Prof. W. L. Tomlins, choral director, has announced choral performances by the best societies of this country and possibly some societies of foreign countries. The Welsh society, the Eistedfod of the United States, the Scandinavian singing societies and the German societies are all expected to give special performances.

Still another great exhibit will be in effect a history of man. It is the ethnological and archæological section, in charge of Prof. F.W. Putnam of Harvard college. The history does not exploit the battles, the treaties and political affairs of mankind; its domain is an exemplification of the habitations, customs, weapons, utensils and garb of the race from prehistoric times. It is a most interesting study and amply developed in this particular section. The American exhibit is to be out of doors and will comprise native Indians, living in houses, tents or tepees of their own construction and following the every-day modes of life they are accustomed to in their own domiciles. Those tribes that have peculiar manufactures will make and dispose of their wares on the grounds—the Navajos weaving their blankets, the Pueblos making pottery and other tribes in their chosen lines.

Lieut. Peary of arctic fame has secured a great display from Greenland in the way of Esquimau weapons, implements and costumes with pictures of native types and their habitat. Then there will be natives from South America—whole families of queer and almost unknown savages; people from Central America who live in huts built over the water so they may be safe from attack; Aleuts from the North Pacific, whose fame as seal-fishers is almost the only knowledge the civilized world has of them.

The collection of relics in this exhibit will of itself be priceless. Exploring expeditions under the direction of the departments have

been at work in this country and the Latin-American countries securing specimens of the greatest value, showing how prehistoric man lived. When the Exposition is closed the exhibit, it is expected, will go to make a nucleus for a great museum to be established in Chicago.

MACHINERY DEPARTMENT.

Some idea of the magnitude of the machinery display may be gathered by a simple comparison. At the Centennial the power plant occupied a space fifty feet square; at Chicago the power machinery—engines and dynamos—occupies 112,000 square feet. This plant will be the largest ever installed. It will have a total capacity of 14,000 horse-power, 8,000 of which is electric and 6,000 steam. The largest engine has been built at the Allis works, in Milwaukee, and has a capacity of 2,000 horse-power. The smallest exhibit is an engine weighing less than half an ounce. The dimensions of this marvel of minuteness are: From dial to cylinder, 1-10 in.; length of stroke, 3-16 in.; the cylinder, cross-head and beam are of gold, the boiler of sheet-silver, five sheets, riveted with gold.

Another mechanical novelty will be a paper-mill grinding wood and turning out the finished product. The paper is taken direct from the mill to the printing presses near by, where newspapers will be printed for sale on the grounds. Book-binding machinery and type-setting machines in operation will also be running during fixed hours. Every conceivable form of engine will be represented in the building. Three huge electric cranes traveling overhead down the main nave of the building will show the best modern type of carrying and hoisting machinery; cotton-mill presses, sugar-crushing and refining machines, derricks, windlasses, hoists, hydraulic applications of force—the whole range of steam and electric development in commercial use, will be covered. Pneumatic power will also be demonstrated and its energy applied to various practical purposes about the grounds, including the running of locomotives in the Transportation building.

France will show eight locomotives and a complete train service; Germany will send a fine collection, illustrating the entire system of government roads, together with special postal and ambulance cars, the latter for service in case of accidents or battles.

The best American roads will very naturally seize the opportunity to advertise their facilities. Chief among the exhibitors of this country will be the Pennsylvania, the Baltimore & Ohio and the Vanderbilt lines.

The Pennsylvania is to construct on the grounds a model section of a four-track road, with suburban and city stations of the very latest improved type. One of the stations will be a complete exposition of the methods of railroad operation and management. Signals will also be shown and every feature of equipment and operation. Showing in the concrete the great and rapid development of railroad systems the Vanderbilt lines plan a unique exhibit. At one end of their track will be a fac-simile of the old station at Schenectady; at the other a station of to-day. Between the two stations will be a reproduction of the early-day trains—a string of stage-coaches on rails. The antithesis of this is to be on a parallel track and will consist of a Wagner vestibuled train, headed by a monster Mogul engine.

Most interesting because most complete of all in an historical sense will be the Baltimore & Ohio railroad's exhibit. The old "Peter Cooper," an engine built in the infancy of railroading and which won fame in a race with a horse-car, is to be reproduced. Sections of track, from the flat strap-rail and rail with a groove to serve as a flange down to the ninety-pound steel marvel, will be offered for study. There will be stations and cars of all sorts and sizes; "grasshopper" locomotives with walking-beams; engines with cabs of various design and weird execution; and, of course, modern trains for a climax to the collection. Altogether it will be the most complete exhibit of railroads and railroading ever seen.

For their special contribution, aside from mechanical displays, the Chicago roads have combined to establish a model union ticket office in the building and with it a bureau of information. George H. Heafford of the Chicago, Milwaukee & St. Paul originated the idea and has carried its plans to completion. Visitors will be able to get any information they want about any subject at the office. They can buy tickets for New Zealand or South Africa and learn exactly when the first train starts, as well as the connections they can make.

A separate section of the department is devoted to exhibits of marine transportation. The ordinary citizen will probably get lost if he attempts to remember all the queer things he sees in this section. There will be log-boats, flat rafts, logs bound together by withes and used for surf-fishing off the coasts of South America. Very much like these jangadas, as they are called, are the Chinese sampans. Dug-outs from everywhere will show the coincidence of primitive types. There will be boats of sheep-skin from the Euphrates, walrus-skin Kyaks from Esquimau land and bedarkas from Alaska. Italy will send gondolas, Norway has made a full-sized model of the vessels used by the Vikings in their voyages of conquest and exploration; Egypt and Turkey, also, will be represented by picturesque craft from the Nile and the Bosphorus.

The great Atlantic and Pacific steamship companies have made great preparations for their displays, which will embrace models, pictures, trophies and fac-similes of salons of the famous ocean flyers of to-day. Uncle Sam has a unique marine display of his own in the shape of a cruiser built on piling and brick foundations with every detail of her armor and equipment in exact reproduction of the battleship Illinois. Marines will man the exhibit under command of naval officers, and their daily drill will be one of the great sights, especially to those whose inland lives have deprived them of such scenes.

THE ELECTRICAL DEPARTMENT.

No section of the Fair will have as much of novelty to startle and amaze the sight-seer as the electrical department. At the Centennial, in 1876, electricity played so little part that it was scarcely noticed. In 1889 at the Paris exposition it was the great attraction, and at the Columbian Exposition it promises to eclipse anything ever attempted. Eight thousand of the 14,000 horse-power required to operate the machinery of the Fair will be applied by electricity. Edison's exhibit is a mystery known only to himself and the department chief but it is said he will show as one feature a new invention that will revolutionize the commercial use of electrical power. In the very center of the Electricity building will be a pagoda of glass illuminated by electric lights and dazzling in its brilliancy, costing, it is said, $30,000. One firm is to build a model house in which all the cooking, washing, ironing, scrubbing, sweeping and other household labor will be done automatically.

In another section of the building will be an audience room with seating capacity for three or four hundred persons. Telephones in the room, with microphone attachments, connect with New York concert-halls and visitors in Chicago will hear programmes by Seidl's or-

chestra in New York as distinctly as if they were in the same hall with the musicians. Capping the towers of the building will be great search-lights—the most powerful ever constructed and capable, it is said, of illuminating towns fifty miles away.

MINES AND MINING.

When the classification committee of the national commission provided for a separate department of mines and mining exhibits, some people declared it a waste of space and money. The outcome of the plan, however, shows the wisdom of the committee's scheme. F. J. V. Skiff of Denver, who was chosen to manage the department, has followed the very broadest lines in the collection of exhibits and is assured of a wonderfully complete and interesting array of methods and products, showing the historical development of mining industries.

MANUFACTURES DEPARTMENT.

Thirty-three groups, with 233 distinct classes of exhibits, are embraced in the manufactures department. The hall in which they will be shown is the largest building ever erected. The entire floor area, including galleries, is forty acres, and the total length of outside walls lacks less than three hundred feet of a mile. It would, of course, be impossible to enumerate or describe the prospective contents of such a building. They will include every manufactured product of every industry under the sun. From pulpits to pianos, from marvels to stained glass, the whole range of human industry as exemplified in the product of the loom, the spindle, the mill, the human hands, will be on view. Here are some of the main groups: Chemical products, paints and colors, type-writers and stationery, furniture and upholstery, ceramics and mosaics, marble and metal work, glassware, carvings on wood, ivory and glass, gold and silver wares, jewelry and ornaments, watches and clocks, silk fabrics, fiber products, cotton, woolen and linen goods, clothing, lace, embroideries, hair work, traveling equipments, rubber goods, toys, leather manufactures, scales, weights and measures, materials of war, lighting, heating and cooking apparatus, refrigerators, metal and other utensils, wire goods, vaults, safes, hardware, edge tools, cutlery, plumbing and sanitary materials.

It needs only the knowledge of these groups and the assurance that the skilled workmen and manufacturers of all countries will compete in them to convince the intending visitor that this one section will require days of careful study if he expects to do it justice.

FISHERIES DEPARTMENT.

Fish, fisheries, fish products and fishing apparatus are the subjects included in what is known as department D. The head of the exhibit is Capt. Joseph Collins, an old sea-captain who resigned his place on the United States fish commission to take charge at the Exposition. The home of the finny collection is designed especially for the purpose. Two great circular tanks in wings of the Fisheries hall will contain the live, fresh and salt water fish Uncle Sam has been collecting especially for the display. Other tanks will be devoted to special displays. There will be big, live tarpon from the Florida coast; barracuda from the Pacific; oysters and clams, cod, mackerel, shad and herring; bluefish and flounders; turtles from the ocean and turtles from inland rivers. Then there will be bass, whitefish, trout, even the humble catfish and the unresisting "buffalo" will be in the aquaria. It will be a rarely interesting display, especially to people whose lives have been spent inland, away from the associations of rod and reel.

The scientific collections of the department will be of special value to the student. They will show specimens, fresh or reproduced in casts, of algæ, sponges, corals, star-fishes, sea-urchins, worms used for bait, reptiles, whales, otters and seals. The fishing apparatus will be gathered from all parts of the globe and will include the gear used in the great fisheries off the banks of Newfoundland, the hooks, jigs, nets and seines, oyster-dredges and other special apparatus. The rods, reels and tackle used in fly fishing will have a section to themselves and a great fly-casting tournament on the waters of the Lagoon near the building is among the probabilities.

In addition to all this the manipulation of the fisheries products will be illustrated by models of curing and canning establishments.

The propagation of fish on modern scientific methods is also to be part of the general display.

HORTICULTURAL DEPARTMENT.

Unquestionably the most picturesque of all displays will be made by the Horticultural department and its bureaus of floriculture, pomology and viticulture. The chief of the department is John M. Samuels, who has had a wide experience as a grower of fruits in California, Florida and Kentucky. His aids are men of international reputation. John Thorpe, superintendent of floriculture, is probably the best known florist in the world and has the honor of having introduced the chrysanthemum into this country. H. M. LaRue of California is in charge of the Viticulture department.

The Horticultural building is already filled with one of the best collections of plants in the world. Australia has sent its quaint tree ferns thirty feet high, its palms of all varieties and sizes. Central America contributes a group of orchids as valuable as they are rare. South America sends rubber and cocoa trees. England, France and Germany contribute bulbs and seeds innumerable, among them 10,000 primroses that turned the winter greenhouses into a bewildering bower of beauty. Persian violets and pansies from all lands; chrysanthemums in profusion—almost every beautiful plant that grows is of the company.

When the Exposition opens, the visitor, looking from the main entrance to the Horticultural hall to the opposite bank of the Wooded Island across the Lagoon, will see a kaleidoscopic mass of pansies, one hundred thousand or more in number. As the season changes the panorama will vary, ending in the last month of the Fair with a glorious display of chrysanthemums grown for the purpose. In another part of the island is another great show—the flower-garden—where the flowers of the world will vie with each other in the gorgeous beauty of their displays.

These are only incidents. The outdoor nursery will cover fourteen acres, while in the sheltered wings of the hall will be orange groves in all stages of development, one grove from California and another from Florida.

The central space under the great dome of the hall has been built up as a miniature mountain, with a fountain at its crest, the water running off in a waterfall to the base. On the mountain's sides are the spectacular plants contributed by the conservatories of George W. Childs, Shaw's garden in St. Louis, Central park, New York, and parks throughout the country.

THE FINE ARTS.

An attempt to describe the fine-arts exhibits fully would be as futile as a description of a sunset. The great galleries of Europe, the modern schools of every nation, are all to be represented, and Japan, old and new, is preparing

to rival the best work shown. Paintings, sculpture, architecture and decoration will tell the story of art achievement in all countries and in all times.

Athens, through the government of Greece, will send casts and reproductions of the best sculpture in that home of sculptors. France has promised an exhibit outrivaling anything French art has ever attempted at exhibitions. Holland has its art commissioner in Chicago completing plans for the reception of a magnificent array of art works. Italy, Germany, Austria, Spain and Russia are all in the field. Cruisers of the United States navy are now in European waters collecting the most valuable of these displays, for which the government has assumed responsibility. The Scandinavian nations, Great Britain, Belgium—indeed, every government making any claim to national art—has applied for and received space in the fine-arts galleries.

MISCELLANEOUS.

Aside from the main exhibition halls there will be innumerable exhibits of interest. In the Government building will be shown the original draft of the Declaration of Independence, the constitution of the United States, the famous treaties and other important public documents in the custody of the state department. Old Liberty bell from Independence hall in Philadelphia will also have a place of honor.

The Woman's building will naturally be the center of attraction for women. Little has been announced of the plans of exhibits here, the woman's board apparently preferring to promise little and realize much. It is an assured fact, however, that charities and allied benevolent works will have a conspicuous place and large space in the hall. A model hospital with trained nurses, a model kindergarten and training school, a pharmacy established and managed by women, specimens of woman's handiwork from all civilized nations and representative exhibits showing the best achievements of woman in art, science, literature and the industries will be in evidence. A valuable adjunct will be statistics showing the organizations of women in every country and the percentage of labor performed by women in every manufactured product exhibited in the main exhibition halls.

CLASSIFICATION OF EXHIBITS.

DEPARTMENT A.

AGRICULTURE, FOOD AND ITS ACCESSORIES, FORESTRY AND FOREST PRODUCTS, MACHINERY AND APPLIANCES.

Group 1.—Cereals, grasses and forage plants.
Group 2—Bread, biscuits, pastes, starch, gluten, etc.
Group 3—Sugars, sirups, confectionery, etc.
Group 4—Potatoes, tubers and other root crops.
Group 5—Products of the farm not otherwise classed.
Group 6—Preserved meats and food preparations.
Group 7—The dairy and dairy products.
Group 8—Tea, coffee, spices, hops and aromatic and vegetable substances.
Group 9—Animal and vegetable fibers.
Group 10—Pure and mineral waters, natural and artificial.
Group 11—Whiskies, cider, liquors and alcohol.
Group 12—Malt liquors.
Group 13—Machinery, processes and appliances of fermenting, distilling, bottling and storing beverages.
Group 14—Farms and farm buildings.
Group 15—Literature and statistics of agriculture.
Group 16—Farming tools, implements and machinery.
Group 17—Miscellaneous animal products, fertilizers and fertilizing compounds.
Group 18—Fats, oils, soaps, candles, etc.
Group 19—Forestry, forestry products.

DEPARTMENT B.

HORTICULTURE, VITICULTURE, POMOLOGY, FLORICULTURE, ETC.

Group 20—Viticulture, manufactured products, methods and appliances.
Group 21—Pomology, manufactured products, methods and appliances.
Group 22—Floriculture.
Group 23—Culinary vegetables.
Group 24—Seeds, seed raising, testing and distribution.
Group 25—Arborculture.
Group 26—Appliances, railroads, etc.

DEPARTMENT C.

LIVE STOCK—DOMESTIC AND WILD ANIMALS.

Group 27—Horses, asses, mules.
Group 28—Cattle.
Group 29—Sheep.
Group 30—Goats, llamas, camels and other domesticated animals.
Group 31—Swine.
Group 32—Dogs.
Group 33—Cats, ferrets, rabbits, etc.
Group 34—Poultry and birds.
Group 35—Insects and insect products.
Group 36—Wild animals.

DEPARTMENT D.

FISH, FISHERIES, FISH PRODUCTS AND APPARATUS OF FISHING.

Group 37—Fish and other forms of aquatic life.
Group 38—Sea fishing and angling.
Group 39—Fresh-water fishing and angling.
Group 40—Products of the fisheries and their manipulation.
Group 41—Fish culture.

DEPARTMENT E.

MINES, MINING AND METALLURGY.

Group 42—Minerals, ores, native metals, gems and crystals, geological specimens.
Group 43—Mineral combustibles, coal, coke, petroleum, natural gas, etc.
Group 44—Building stones, marbles, ornamental stones and quarry products.
Group 45—Grinding, abrading and polishing substances.
Group 46—Graphite and its products, clay and other fictile materials and their direct products, asbestos, etc.
Group 47—Limestone, cements and artificial stone.
Group 48—Salts, sulphur, fertilizers, pigments, mineral waters and miscellaneous useful minerals and compounds.
Group 49—Metallurgy of iron and steel and their products.
Group 50—Aluminium and its alloys.
Group 51—Copper and its alloys; metallurgy.
Group 52—Metallurgy of tin, tin-plate, etc.
Group 53—Metallurgy of zinc, nickel and cobalt.
Group 54—Metallurgy of antimony and other metals not specifically classed.
Group 55—Extraction of gold and silver by milling.
Group 56—Extraction of gold and silver by lixiviation.
Group 57—Extraction of gold and silver by fire.
Group 58—Quarrying and working stone.

Group 59—Placer, hydraulic and "drift" mining.
Group 60—Tools and appliances of underground mining, timbering and supporting.
Group 61—Boring and drilling tools and machinery, and apparatus for breaking out ore and coal.
Group 62—Pumps, engines and apparatus used in mining for pumping, draining and hoisting.
Group 63—Moving, storing and delivering ores, coals, etc.
Group 64—Apparatus for crushing and pulverizing.
Group 65—Sizing appliances.
Group 66—Assaying apparatus and fixtures.
Group 67—History and literature of mining and metallurgy.
Group 68—Originals or reproductions of early and notable implements and apparatus used in mining and metallurgy.

DEPARTMENT F.

MACHINERY.

Group 69—Motors and apparatus for the generation of power; hydraulic and pneumatic apparatus.
Group 70—Fire engines; apparatus and appliances for extinguishing fires.
Group 71—Machine tools and machines for working metals.
Group 72—Machinery for the manufacture of textile fabrics and clothing.
Group 73—Machines for working wood.
Group 74—Machines and apparatus for typesetting, printing, stamping, embossing, and for making books and paper working.
Group 75—Lithography, zincography and color printing.
Group 76—Photo-mechanical and other mechanical processes of illustrating, etc.
Group 77—Miscellaneous hand tools, machinery and apparatus used in various arts, like clocks, watches, buttons, pins, needles, etc.
Group 78—Machines for working stone, clay and other minerals.
Group 79—Machinery used in the preparation of foods, etc.

DEPARTMENT G.

TRANSPORTATION—RAILWAYS, VESSELS, VEHICLES.

Group 80—Railways, railway plants and equipments.
Group 81—Street cars and other short line systems.
Group 82—Miscellaneous and special railways.
Group 83—Vehicles and methods of transportation on common roads.
Group 84—Aerial, pneumatic and other forms of transportation.
Group 85—Vessels, boats—marine, lake and river transportation.
Group 86—Naval warfare and coast defense.

DEPARTMENT H.

MANUFACTURES.

Group 87—Chemical and pharmaceutical products; druggists' supplies.
Group 88—Paints, dyes, colors and varnishes.
Group 89—Type-writers, paper, blank books, stationery.
Group 90—Furniture of interiors, upholstery and artistic decorations.
Group 91—Ceramics and mosaics for clays and other materials (see group 46).
Group 92—Marble, stone and metal monuments, mausoleums, mantels, etc.—caskets, coffins and undertakers' furnishing goods.
Group 93—Art metal work—enamels, etc.
Group 94—Glass and glassware.
Group 95—Stained glass in decoration.
Group 96—Carving in various materials.
Group 97—Gold and silver ware, plate, etc.
Group 98—Jewelry and ornaments.
Group 99—Horology—watches, clocks, etc. (see also group 151).
Group 100—Silk and silk fabrics.
Group 101—Fabrics of jute, ramie and other vegetable and mineral fibers.
Group 102—Yarns and woven goods of cotton, linen and other vegetable fibers.
Group 103—Woven and fitted goods of wool and mixtures of wool.
Group 104—Clothing and costumes.
Group 105—Furs and fur clothing.
Group 106—Laces, embroideries, trimmings, artificial flowers, fans, etc.
Group 107—Hair work, coiffures and accessories of the toilet.
Group 108—Traveling equipments—trunks, valises, toilet cases, fancy leather work, canes, umbrellas, parasols, etc.
Group 109—Rubber goods, caoutchouc, gutta-percha, celluloid and zylonite.
Group 110—Toys and fancy goods.
Group 111—Leather and manufactures of leather.
Group 112—Scales, weights and measures.
Group 113—Materials for war; ordinance and ammunition; weapons and apparatus for hunting, trapping, etc.; military and sporting small arms.
Group 114—Lighting apparatus and appliances.
Group 115—Heating and cooking apparatus and appliances.
Group 116—Refrigerators, hollow metal ware, tinware, enameled ware.
Group 117—Wire goods and screens, perforated sheets, lattice work, etc.
Group 118—Wrought-iron and thin metal exhibits.
Group 119—Vaults, safes, hardware, edge tools, cutlery.
Group 120—Plumbing and sanitary materials.
Group 121—Miscellaneous articles of manufacture not heretofore classed.

DEPARTMENT J.

ELECTRICITY AND ELECTRICAL APPLIANCES.

Group 122—Apparatus illustrating the phenomena and laws of electricity and magnetism.
Group 123—Apparatus for electrical measurements.
Group 124—Electric batteries, primary and secondary.
Group 125—Machines and appliances for producing electrical currents by mechanical power—dynamical electricity.
Group 126—Transmission and regulation of the electrical current.
Group 127—Electric motors.
Group 128—Application of electric motors.
Group 129—Lighting by electricity.
Group 130—Heating by electricity.
Group 131—Electro-metallurgy and electro-chemistry.
Group 132—Electric forging, welding, stamping, tempering and brazing.
Group 133—Electric telegraph and electric signals.
Group 134—The telephone and its appliances; phonographs.
Group 135—Electricity in surgery, dentistry and therapeutics.
Group 136—Application of electricity in various ways not hereinbefore specified.
Group 137—History and statistics of electrical inventions.
Group 138—Progress and development in electrical service and construction as illustrated by models and drawings of various countries.

DEPARTMENT K.

FINE ARTS—PAINTING, SCULPTURE, ARCHITECTURE AND DECORATION.

Group 139—Sculpture.
Group 140—Painting in oil.
Group 141—Painting in water colors.

Group 142—Painting on ivory, on enamel, on metal, on porcelain or other wares; fresco painting on walls.
Group 143—Engraving and etchings; prints.
Group 144—Chalk, charcoal, pastel and other drawings.
Group 145—Antique and modern carvings; engraving in medallions or in gems; cameos, intaglios.
Group 146—Exhibits of private collections.

DEPARTMENT L.

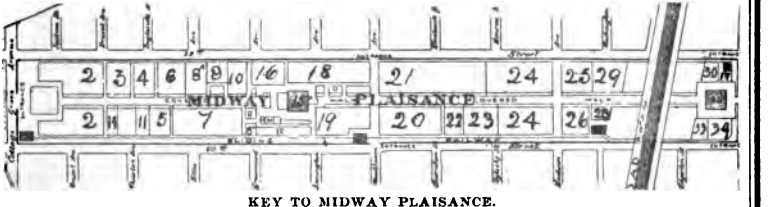
LIBERAL ARTS—EDUCATION, LITERATURE, ENGINEERING, PUBLIC WORKS—MUSIC AND THE DRAMA.

Group 147—Physical development, training and condition; hygiene.
Group 148—Instruments and apparatus of medicine, surgery and prosthesis.
Group 149—Primary, secondary and superior education.
Group 150—Literature—books, libraries, journalism.
Group 151—Instruments of precision, experiment, research and photography; photographs.
Group 152—Civil engineering, public works, constructive architecture.
Group 153—Government and law
Group 154—Commerce, trade and banking.
Group 155—Institutions and organizations for the increase and diffusion of knowledge.
Group 156—Social, industrial and co-operative associations.
Group 157—Religious organizations and systems; statistics and publications.
Group 158—Music and musical instruments; the theater.

DEPARTMENT M.

ETHNOLOGY, ARCHÆOLOGY, PROGRESS OF LABOR AND INVENTION.

Group 159—Views, plans or models of prehistoric architectural monuments and habitations.
Group 160—Furniture and clothing of aboriginal, uncivilized and but partly civilized races.
Group 161—Implements of war and the chase, (see also groups 86 and 113).
Group 162—Tools and implements of industrial operations.
Group 163—Athletic exercises; games.
Group 164—Objects of spiritual significance and veneration; representations of deities; appliances of worship.
Group 165—Historic archæology; objects illustrating the progress of nations.
Group 166—Models and representations of ancient vessels, particularly of the period of the discovery of America.
Group 167—Reproduction of ancient maps, charts and apparatus of navigation.
Group 168—Models and representations of ancient buildings, cities or monuments of the historic period anterior to the discovery of America.
Group 169—Models and representations of habitations and dwellings built since the discovery of America.
Group 170—Originals, copies or models of graphic representations of notable inventions.
Group 171—Objects illustrating generally the progress of the amelioration of the conditions of labor and life.
Group 172—Woman's work.
Group 173—State, national and foreign government exhibits.
Group 174—The North American Indian.
Group 175—Portraits, busts and statues of great inventors and others who have contributed largely to the progress of civilization and the well-being of man.
Group 176—Isolated and collective exhibits.



KEY TO MIDWAY PLAISANCE.

1. Depot.
2. Nursery exhibit.
5. Dahomey village, 150x195.
6. Captive balloon, 205x225.
7. Austrian village, 195x510.
8 Indian village.
4. American or Indian village.
8a. Chinese village and theater, 150x225.
8b. Chinese tea house, 55x100.
9. Morocco exhibits, 150x150.
10. Panorama of Volcano Kilauea, 135x225.
11. Roman house.
12. Ice railway, 60x400.
13. French cider press, 40x50.
15. Ferris wheel.
16. Algeria and Tunis, 165x280.
17. Fire and guard station.
18. Street in Cairo, 223x391.
19. Moorish palace.
20. Turkish village, 190x450.
21. German village, 223x780.
22. Panorama of Bernese Alps.
23. Natatorium.
24. Dutch settlement.
25. Japanese bazaar.
26. Hagenbeck animal show.
27. Railroad station.
28. Venice Murano company.
29. Libby Glass company.
30. Bohemian Glass company.
32. Circular railroad tower.
33. Adams Express company.
34. Exhibit of Irish Industries.
35. Model St. Peter.
14. National Hungarian Orpheum.
31. Persian concession.

MIDWAY PLAISANCE.

This is a strip of land 600 feet wide and seven-eighths of a mile long, between 59th and 60th streets, containing 80 acres, connecting Jackson and Washington parks. In this section of the Exposition site will be located all the amusements and other attractions of the Fair outside the main exhibition buildings. The following concessions will operate in the Midway Plaisance:

AUSTRIAN VILLAGE.—This village represents a section of a street in old Vienna, called "Der Graben." The character of this concession is similar to that of the German village.

BOHEMIAN GLASS FACTORY.—The entire process of making the celebrated Bohemian glass ware will be shown, the workmen being native Bohemians. The building is a reproduction of the native factories.

CAPTIVE BALLOON.—This has a capacity of carrying from twelve to twenty people to a height of 1,500 feet. The latest machinery known to aerial navigation will be introduced in connection with this balloon and it is also proposed to demonstrate to what practical uses balloons can be put.

DAHOMEY VILLAGE—Consists of a settlement of from thirty to sixty natives, of both sexes, including a king and several chiefs. It is the purpose that these people shall perform their various dances, give their war-cries and perform such rites and ceremonies as are peculiar to them.

They will also have the privilege of selling such native merchandise as they may produce. This will consist of hand-made carvings, utensils of warfare and domestic utility.

DUTCH SETTLEMENT—Is a practical demonstration of the habits and customs of the people of the South Sea islands. The natives will sell their manufactured articles and give entertainments peculiar to their race.

EAST INDIA SETTLEMENT.—Similar in character to the Dutch settlement. Natives will show their mode of living, will sell their wares, and typical jugglers and snake-charmers will perform.

FERRIS WHEEL.—This attraction is a wheel 250 feet in diameter swung on an axle, which rests upon towers 135 feet high. The purpose of the wheel is that there shall be hung from it, at different points on the perimeter, cars similar in character to those used in elevators, the lowest car resting on the ground as the people get into it. The wheel is then started in motion and the people make the complete circuit of 250 feet. The weight of this revolving mass is 2,300 tons.

GERMAN VILLAGE—Consists of a group of houses representative of a German village of the present time, and in connection with this a German town of mediæval times. There are the houses of the Upper Bavarian mountains, the houses of the Black Forest, the Hessian and Altenburg house of Silesian Bauern, representing the middle Germans, the Westphalen Hof, the Lower Saxons, the Hallighaus, the Friesen, and the house from the Spreewald and Niederdeutsche. All are combined in a village. In the various houses is installed original household furniture, so characteristic as to be readily distinguished as belonging to particular tribes.

HAGENBECK ANIMAL SHOW.—This exhibit comes from Germany. Mr. Hagenbeck has a trained troupe of from sixty to ninety animals, including lions, tigers, dogs, cattle, horses, elephants, etc., at play about the cage. They go through many athletic performances, the accomplishment of which can be believed only after it has been seen. Mr. Hagenbeck is recognized all over Europe as pre-eminently the leader in the domestication of wild animals.

ICE RAILWAY.—The railway is built on an incline, and is a practical summer toboggan slide. The ice which covers the surface of the incline is made and perpetuated by machinery.

IRISH INDUSTRIES.—This is an exhibit of the Irish cottage industries. There is in connection with this a reproduction of the ruins of Donegal Castle, making habitable such rooms as may be possible without destroying the historical beauty of the ruins. The purpose is to demonstrate the progress of the cottage industries of Ireland.

JAPANESE BAZAARS.—Here are shown the Japanese people, their customs and merchandise. The bazaars are operated under contract with the Imperial Japanese Commission.

LIBBEY GLASS EXHIBIT.—The company will demonstrate the production of glassware, except plate and window-glass. Between fifty and seventy-five of the best cutters from the Toledo and Findlay shops will be employed. The building will be largely constructed of glass and the exterior set with prisms of cut-glass, like great diamonds. The plant has a sixteen-pit furnace, cutting, etching, engraving and decorating shops, and a great display of glassware which will be for sale.

MINARET TOWER—A reproduction of a Turkish structure, the concession being operated by Turks. Among the attractions here is a silver bed once owned by a sultan. It is said to weigh two tons and to be composed of 2,000 pieces. There will also be shown an immense embroidered tent once owned by a shah of Persia.

MOORISH PALACE.—This building will be in design after the style of old Moorish temples, the remains of which are still found in some portions of Spain and northern Africa. It is proposed to introduce into this building various novelties in the line of illusions, camera obscura, etc. There is also a restaurant which is capable of seating 500 people. One of the great attractions in this building is the exhibit of $1,000,000 in gold coins.

MOROCCO.—Similar to the other national sections.

NATATORIUM.—The building is 190 to 250 feet, and has a large swimming-pool. There is a cafe and bakery in connection with the Natatorium.

NURSERY EXHIBIT.—This is the final exhibit in the Plaisance, occupying about five acres in the western end of the tract. It will be sought here to show the most artistic effects possible in a combination of flowers and shrubbery.

PANORAMA OF THE BERNESE ALPS.—This shows the scenery of the Alps, and in connection with this feature is an exhibition of the manufactured products of the country.

PANORAMA OF THE VOLCANO OF KILAUEA.—This volcano is supposed to have the greatest crater in existence. The visitor is taken to an island in the center of the crater, and, while surrounded by a sea of fire, views the scenery around the volcano.

POMPEIIAN HOUSE—A reproduction of a typical house of ancient Pompeii. Installed in the house is an exhibit of articles gathered from the excavated ruins of the ancient city.

SLIDING RAILWAY.—This is on the southern edge of the Plaisance and extends its entire length. It is a French invention and was first given a practical demonstration in the Paris exposition of 1889. It is an elevated road, the cars having no wheels. The rail is eight inches wide, the substitute for the wheel being a shoe which sets over the side of the rail and is practically water-tight. Immediately behind each shoe is a pipe connection in which is water under a pressure of about 150 pounds. This water is forced under the shoe, and produces a film which raises the entire train about one-sixteenth of an inch from the rail. Connected with every second car is a turbine motor which gets its water-power from the same source as does the pipe connecting with the shoe. The power is delivered from a main pipe extending the extreme length of the road and lying under the track in sections of fifty feet; that is, the application power is changed at every interval of that distance. The speed claimed by the inventors is 120 to 160 miles per hour.

STREET IN CAIRO.—The street is constituted in reproductions of historic buildings in the Egyptian city. Shops, mosques, a theater, a dancing-hall, etc., are installed in the buildings. The customs of the people are shown; many attractions peculiar to Arabia and the Soudan are introduced and curiosities from the museums in Cairo and Alexandria are exhibited.

TOWER OF BABEL.—Height, 400 feet; diameter at base, 100 feet. The ascent of the tower is made by a double-track circular electric railway, by elevators, and by a broad walk. At the top a chime of bells is installed and meteorological experiments are conducted.

TUNISIAN AND ALGERIAN SECTION.—Typical people of northern Africa show here their mode of life, their amusements and their manufactures. Several tribes are represented, each having its chief or sheik. The minaret tower is in this section.

TURKISH VILLAGE.—A reproduction of one of the old street squares in Stamboul. The people and the goods of Turkey in Europe and Turkey in Asia are shown. Entertainments peculiar to the people are given.

GENERAL INFORMATION.

ADMISSION FEE—25 cents during period of construction; 50 cents during the Exposition, from May 1 to October 30, 1893.

AREA OF BUILDINGS.—The total exhibition area under roof of all the buildings erected by the Exposition company is 199.9 acres; of this about 50 acres are in galleries and 40 acres in the live-stock sheds.

AREA OF THE GROUNDS—671 acres; of this 80 acres are in the Midway Plaisance and 553 acres in Jackson park. There are available for buildings 556 acres, there being 77 acres in the wooded island and the interior waterways.

BOATS.—The interior waterways of the ground will be equipped with speedy small boats for pleasure and transportation purposes. The boats will be driven by steam and electric power. Every principal building on the grounds can be reached by water, and there is an ornamental landing for each. There will be in the service a fleet of forty electric launches, carrying twenty-five people each. These will be known as "omnibus" boats, making round trips of the waterways and touching at each landing. A fleet of twenty "express" boats will make round trips, stopping only at each end of the route. A fleet of twenty 50-foot steam launches will ply in Lake Michigan, entering the grounds at the upper and lower inlets to the interior waterways. On the interior waterways, also, there will be a fleet of gondolas, manned by picturesque Venetians. These boats can be hailed at any point and engaged for time service, similar to the street cab. All Exposition boats are under the direction of Capt. Arthur H. Clark, with title of commodore.

BUILDING MATERIAL.—In the erection of the Exposition buildings it is estimated 75,000,000 feet of lumber are required. This represents 5,000 acres of standing trees. The structural iron and steel required is 20,000 tons.

BUREAU OF PUBLIC COMFORT.—An official department of the Exposition, acting under the direction and control of the ways and means committee. Its purpose is to provide rooms and lodgings (without meals) for visitors to the Exposition in 1893, in hotels, boarding-houses and private residences. The bureau, acting as agent on the payment of a fee, engages rooms for the visitor for any period of the Exposition. In October the bureau had listed above 8,000 rooms. During the Fair the bureau will have charge of the Casino building, on the Exposition grounds, and will control the stationery, shoe-blacking and baggage-checking privileges.

COLUMBIAN GUARDS.—A military organization under the control and direction of the Exposition company and having no connection with the city police department. The guards are under command of Col. Edmund Rice, U. S. army, whose title in the guards is commandant. The guards do police and fire-patrol duty inside the grounds. The force increases in number as the construction work progresses. In October, 1892, it numbered about 350 men. In May, 1893, it will probably number 2,000 men.

COST OF EXPOSITION.—The total cost of the Exposition to its close and the winding up of its affairs is estimated at $22,000,000. The cost of the buildings is estimated at $8,000,000.

ELECTRICITY.—17,000 horse-power for electric lighting is provided for the Exposition. This is three times the electric lighting power in use in Chicago and ten times that provided for the Paris exhibition of 1889. There is 9,000 horse-power for incandescent lights, 5,000 for arc lights and 3,000 for machinery power. This supplies 93,000 incandescent lights and 5,000 arc lights. The buildings provided with electric power are: Mines, Electricity, Agriculture, Transportation and Manufactures. The electric plant cost $1,000,000.

ESQUIMAU VILLAGE—Is located just within and north of the 57th-street entrance on the shore of the north pond. The village will consist of a Moravian chapel and twelve huts, occupied by sixty-one natives of Labrador—men, women and children. The native dogs, sledges, tools and implements will be shown. The people will demonstrate their domestic life and manufactures and sell goods. The men will give exhibitions of skill in handling canoes on the water of the pond. This feature of the Fair is a concession and a fee will be charged for admission.

FIRE DEPARTMENT.—During the construction work consists of eighteen men, three engine-houses, three two-horse engines, one one-horse engine, one sixty-gallon hand-tank (at the Forestry building), twenty-six hose-carts, with 13,250 feet of hose and 470 chemical hand-extinguishers. The fire pressure is 100 pounds to the square inch supplied by the engines in the temporary power-house. In the complete system of fire protection there will be in each building a water stand-pipe extending from the ground to the roof. Attached to the pipe on each floor, gallery and roof is a reel of hose which throws water automatically with the unreeling of the hose. During the installation of exhibits and during the Fair there will be a fire patrol on every floor, gallery and roof. The city fire department is at the call of the Exposition force.

FLOWERS.—There will be displays of flowers in all parts of the grounds, but particularly around the Horticulture building and on the wooded island. Here will be the rose garden with more than 50,000 rose-bushes in it. Here also will be every variety of flowering shrub and tree, with aquatic plants along the lagoon shores. There will be a "procession" of flowers throughout the six months of the Fair, special attention being devoted to each in its season. The Fair will open in May with 1,000,000 tulips in bloom around the Horticulture building, and will close in October with a great chrysanthemum show. Inside the Horticulture building the Fair will open with the greatest show of orchids ever seen.

FOREIGN BUILDINGS.—Nearly all the great nations of the earth will erect special buildings on the ground. Many of them will be reproductions of world-renowned structures.

FOREIGN PARTICIPATION.—The following nations and colonies will be represented:

Argentine Republic	$100,000
Austria-Hungary	102,300
Belgium	57,900
Bolivia	30,700
Brazil	200,000
Bulgaria	.....
China	500,000
Chile	.....
Colombia	100,000
Congo	.....
Costa Rica	150,000
Denmark	67,000
Danish West Indies	1,200
Ecuador	125,000
Egypt	.....
France	733,400
Algeria	.....

Switzerland	23,160
Transvaal	.....
Turkey	17,466
Uruguay	24,000
Venezuela	.....
Total	$5,956,449

Fifty nations. Thirty-seven colonies.

GRADING AND DREDGING.—In this preparatory work about 1,200,000 cubic yards of earth were handled. The work began in February, 1891, and was finished the following July. Cost, $495,000. The ground was originally a series of sand ridges covered with scrub oak trees.

INTERIOR WATERWAYS.—Include eight divisions of water within the grounds, connecting with one another. The "basin" extends east from the Administration building to Lake Michigan. It contains 10¾ acres. The "south canal"—2⅛ acres—extends south from the head of the basin. The "north canal"—3¼ acres—extends north from the head of the basin. The lagoon around the wooded island contains 23 acres. The lagoon north of the island, running to Lake Michigan, contains 3 4-5 acres. The lagoon south of the Agricultural building contains 8¾ acres; the lake south of the Fine Arts building, 7½ acres. The pond in the north part of the grounds contains 1⅛ acres. Total area of interior waterways, 61 acres.

MEDICAL AND SURGICAL BUREAU.—A model hospital, fully equipped, is in operation, where visitors and employes requiring treatment are given the best.

POWER.—24,000 horse-power of steam is provided for the Exposition. The engines are in the power-house outside of Machinery hall, and one of them is about twice the size and power of the celebrated Corliss engine. Oil will be used for fuel. The boilers present a solid bank 600 feet long. Of the 24,000 horse-power 17,000 is provided for electricity.

RESTAURANTS.—During the Exposition there will be restaurants and dining-rooms in all the main buildings. There will be a dairy lunch in the Dairy building and a railroad lunch-counter in the Transportation building. There will be six restaurant buildings on the esplanade facing the Manufactures building on the lake shore. The capacity of the restaurants will be about 30,000 persons per hour.

STAFF.—A composition of plaster, cement and hemp, or similar fiber. All the Exposition buildings and many of the state buildings will be covered with staff. It is lighter than wood, is fire-proof, water-proof, and, if kept painted, will last many years. The architectural and sculptural designs in the covering of the buildings are first modeled in clay, from which model molds are made, and the staff covering is then cast very much as iron is cast. Staff has been used for more than 100 years as a covering for buildings, notably in South America. The amount of this work on the main Exposition buildings is equal to the covering of one wall of a four-story building fifteen miles long.

STATE PARTICIPATION.—All states and territories will participate in the Exposition. The following thirty-one states and two territories have made appropriations through their legislatures:

Arizona	$ 30,000
California	300,000
Colorado	100,000
Delaware	10,000
Idaho	20,000
Illinois	800,000
Indiana	75,000
Iowa	130,000
Kentucky	100,000
Louisiana	35,000
Maine	40,000
Maryland	60,000
Massachusetts	150,000
Michigan	100,000
Minnesota	50,000
Missouri	150,000
Montana	50,000
Nebraska	50,000
New Hampshire	25,000
New Jersey	70,000
New Mexico	25,000
New York	300,000
North Carolina	25,000
North Dakota	25,000
Ohio	125,000
Pennsylvania	300,000
Rhode Island	50,000
Vermont	15,000
Virginia	25,000
Washington	100,000
West Virginia	40,000
Wisconsin	65,000
Wyoming	30,000
Total	$3,441,000

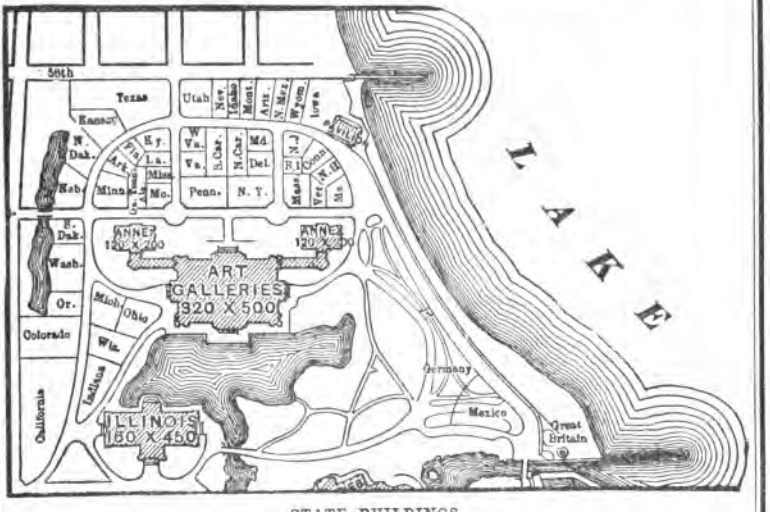
The following eight states are raising funds by stock subscriptions:

Alabama	$20,000
Arkansas	40,000
Florida	50,000
Georgia	100,000
Kansas	100,000

Oregon	$50,000
South Dakota	25,000
Texas	30,000
Total	$415,000

The states which have made appropriations, many of them, are raising additional amounts to expend upon their representation at the Fair. These additional amounts aggregate more than $750,000. The total expenditure by the states and territories will be nearly $5,000,000.

STATUE OF THE REPUBLIC.—By Daniel C. French. The statue is 60 feet high and stands on a pedestal 40 feet high at the entrance to the basin from Lake Michigan.



STATE BUILDINGS.

ARKANSAS.—The design of the building follows classic models, it being in the French "rococo" style of architecture, as Arkansas was originally settled by the French. The exterior is in plaster and ornamental staff work, tinted in light color. The interior is tinted and the ornamental work is brought out in gold. The building has a ground area of 66 by 92 feet. From a large circular veranda, which runs the width of the building, an elliptical entrance opens to the rotunda, 30 by 30 feet, lighted by a central dome. In the center of the rotunda is a fountain of Hot Springs crystals lighted by electricity. Flanking the rotunda are six rooms 15 feet square. Five of these will be used as exhibit rooms, with the registry room on the right of the entrance lobby. Opening from the rotunda, by triple arches, is the hallway, 11 by 55 feet, with the stairways on each side of the arched entrance. At the rear of the building is the assembly hall, 25 by 65 feet, which is entered from the hallway through triple arches. In this hall, opposite the entrance, is a ten-foot mantel of Arkansas white onyx. Columns and vases of the same material are placed in various parts of the building. On the second floor are parlors for men and women, a library, committee and officers' rooms. All of these rooms open on a broad gallery, over the rotunda, lighted from the central dome. Cost, $15,000.

CALIFORNIA.—Next to the building for Illinois, this is the largest of the state buildings. Its dimensions are 144 by 425 feet. It is in the style of architecture of the old California mission buildings. The exterior is of plain plaster, artificially seamed and cracked, giving it the appearance of the old mission buildings, while recessed entrances give the walls that appearance of depth and solidity characteristic of the old buildings. The south front is a reproduction of the old mission church at San Diego. The main tower is an exact reproduction of the San Diego church tower, while the remaining towers on the corners and center of the building are all studied from the mission architecture. This building is not of the clubhouse character of most of the other state buildings. The entire first floor is open and is devoted to the California state display, principally of fruits and canned goods. There are three fountains on the ground floor, one in the center and one at either end. The central hall is surrounded by a wide gallery and on the gallery floor in the north end of the building is the banquet hall, a kitchen and an assembly room. In the south end are four servants' rooms and there is a cafe in the gallery. The building is severely plain, there being no interior or exterior decorations of any kind. The walls are whitewashed within and without. The central portion of the roof is devoted to a garden, 144 feet square, surrounding the central dome. On either side of the main entrances are elevators running to the roof garden. These elevators are a California product, the power being a combination of steam and water. The roof is of California red tile. Cost, $75,000.

COLORADO.—Is in the Spanish renaissance, this style of architecture being considered most suitable for the southwestern states. The whole exterior of the building is in staff

of an ivory color and in the salient features of the design profusely ornamented, the ornamentation comparing to fine advantage with the broad, plain surfaces of the building. The striking feature of the design is two slender Spanish towers, 98 feet high, rising from either side of the main entrance, on the east. The tower roofs and the broad, overhanging roof of the building are covered with red Spanish tiles. The building is 125 feet long, including the end porticoes, with a depth of 45 feet, and 26 feet to the cornice line. The front vestibule opens to the main hall of the building. On either side of the entrance are stairways to the floor above. At the rear of the hall is a large onyx mantel, flanked by glass doors, leading to offices. At the ends of the hall are a men's smoking room and a women's reception room, each opening into an uncovered terrace, surrounded by a balustrade. On the second floor is the assembly room, extending the entire length of the building in the center. This room has a high vaulted ceiling, rising above an ornamented cornice. Over this cornice will be rows of electric lights, giving a diffused light, by reflection from the vault above. On the ends of this assembly room are a reading and a writing room, which open to the hanging balconies on the ends of the building, forming one of the most attractive exterior features. Broad, low casement windows open from the assembly rooms to the front and rear balconies, the front one extending between the towers, 24 feet, and over the main entrance. The rear balcony extends along the entire length of the building. Staircases lead to the lanterns in the tower, where a fine view of the grounds is had. Cost, $85,000.

CONNECTICUT.—In the colonial style, the building being a type of the Connecticut residence, with the addition of circular windows on the north and south and a circular piazza on the rear. It has a ground area of 72 by 73 feet, including the piazza, and is two stories high. The exterior is weather-boarded and painted white. The roof contains five dormer windows and is decked on top. The deck is surrounded by a balustrade and from its center rises a flagstaff. The main entrance is off a square porch, covered by the projecting pediment, which is supported by heavy columns. The interior is finished in colonial style, with tiled floors, paneled walls and Dutch mantels. The plumbing and carpenters' hardware in the building are in special designs and are donated as exhibits by Connecticut manufacturers. On the first floor is a reception hall, 21 by 48 feet, with a light-well in the center. In the rear of the hall is a stairway with a landing half-way up. Flanking the hall are parlors for men and women. The second floor is divided up into living rooms and will be occupied by the executive World's Fair officer of Connecticut and his family during the Fair. Cost, $12,000.

FLORIDA.—The building is a reproduction in miniature of old Fort Marion, in St. Augustine. Fort Marion is the oldest structure in North America, the most interesting specimen of Spanish supremacy in this country, and the only example of medieval fortification on the continent. Its erection was begun in 1620 and continued for 100 years. To equip it as a garrison required 100 guns and 1,000 men. It was never taken by a besieging force. The fort covers an area of four acres. The building on the Fair grounds occupies one-fifth that space. It is in the form of a four-bastioned fortress. Including the moat the site is 155 feet square. The building proper is 137 feet square. The frame is of pine, covered with plaster and coquina shells, in imitation of the original. The interior is divided into parlors for men and women, committee and exhibit rooms, and is furnished in Florida's native woods. The interior court is planted in bamboo, orange, lemon and other tropical trees. The ramparts furnish space for promenades and hanging gardens. In the moat is a sunken garden, where will be produced miniature fields of cotton, sugar, rice, tobacco, etc., showing the natural resources of the state. Cost, $20,000.

IDAHO.—The style of this building is the Swiss chalet. It has a frontage of 50 feet and an extreme depth of 80 feet with gallery porticoes on front and sides of second floor 10 feet wide, the extended second floor giving space for a roof garden 29 by 50 feet. The first floor consists of a loggia or open vestibule 7 by 10 feet, four office rooms (two 14 feet 2 inches by 16 feet and two 15 feet 6 inches by 16 feet) and two toilet rooms. The second floor consists of a women's reception room 24 by 48 feet and a men's reception room 27 by 48 feet. On the third floor is the exhibition room, 48 feet 4 inches by 50 feet. The gentlemen's reception room will represent a typical hunters' lodge, and will be artistically ornamented and decorated with all the paraphernalia and trappings incident to the camp. The building will be largely furnished with rustic furniture prepared in the state, and in its construction will appear all the varieties of wood, stone and brick found for building and manufacturing purposes within the state. The ladies' reception room (24 by 48 feet) will be furnished and ornamented entirely by the skillful and deft hands of the ladies of Idaho. On the third floor (48 feet 4 inches by 50 feet) will be made an exhibition of taxidermy, consisting of a complete collection of all the birds and animals native to the state.

ILLINOIS.—Dimensions, 160 by 450 feet; floor area, 3.2 acres; cost, $250,000; height of dome, 234 feet. This building is by far the most pretentious of the state buildings and can be classed as one of the great Exposition structures. The plan of the building forms a Greek cross, whose main axis is 450 feet long by 160 feet wide, and lies east and west, while the shorter axis is 285 feet long with an average width of 98 feet. At the intersection of the arms of the cross rises the dome, with a diameter of 75 feet at the base, and a height of 152 feet to the top of inner dome. This dome has, besides, a continuation of the gallery, 15 feet above the floor, that runs around the main hall, and another, 96 feet above the floor, reached by two circular stairs in piers of dome. At the east and west are two large public entrances, at either side of which are rooms extending the entire width of the building, and about 29 feet deep, occupying the whole heighth, which is divided into three stories. The rooms at the east end are chiefly used for school exhibition purposes, a large one on the ground floor being fitted up as a model kindergarten. Beyond this extends the great exhibition hall, 381 feet long, the central portion, 75 feet wide, being flanked by aisles 40 feet wide. The central division is lighted by windows in the clerestory, and by roof lights, it being 67 feet from the floor to the roof. The hall has a continuous gallery 16 feet wide and 15 feet above the floor. The aisles are lighted by large semi-circular windows on the side walls. The southern part of the short arm of the cross is 121 feet wide and extends 75 feet beyond the walls of the main building. The lines of its cornice, being extended back across the main building, form the external base from which the dome springs. Its three stories are subdivided into rooms, halls, corridors, etc. This is the official part of the building, where the governor of the state and his suit and the members of the board of commissioners meet to transact business. Some of the rooms have been set aside for the accommodation of the woman's board. The northern arm of the

NEW HAMPSHIRE

RHODE ISLAND

cross is a fire-proof building, 75 feet wide and extending 50 feet beyond the main building. Its walls are brick, covered with staff; its roof is galvanized iron and glass, supported by steel trusses. This building is called the Memorial-Hall, and is intended to contain memorials of the state that are now preserved in the state capitol at Springfield. The design of the building is an adaption of Italian renaissance. The exterior accentuates the plan and construction of the building, no seemingly constructional feature being added for effect. Advantage has been taken of the plastic character of the outside covering in a lavish use of ornament, the solids, as a rule, being highly enriched, with here and there a severe treatment for contrast. The base of the dome rises from a series of steps, upon which is a double support to the drum, the outer one being an order of Corinthian columns, the inner being a wall pierced by windows. Above the entablature rises the drum, which is covered with galvanized iron; the trusses are accented on the outside by prominent ribs and the intermediate spaces are paneled. A round lantern on top, 12 feet in diameter and 35 feet high, is the crowning feature.

INDIANA.—The building is in the French gothic style of architecture, such as is seen in the chateaux in France. It has two imposing towers, 120 feet high, and many gothic gables. The building has three stories, built of pine and Bedford stone, and is covered with ornamental staff. The roof is of gray and red shingles. The floors are of tile. The main assembly hall on the first floor is elaborately finished in the baronial style. All of the material used in the building comes from Indiana, much of the hard woods for interior decorations, tile floors, the roofing material, and the mantels being donated by Indiana manufacturers. The ground area is 100 by 150 feet. The main entrance opens into a wide hall extending across the building. To the right of the hall is a large assembly room, occupying the entire south end of the building. The north end of the building is devoted to parlors and reception rooms for men and women. The second floor has reading and writing rooms and rooms for the men and women boards of state commissioners. The third floor is devoted to bedrooms and a hall for dining and lunching. There are immense fireplaces in the entrance hall and assembly rooms. Cost, $60,000.

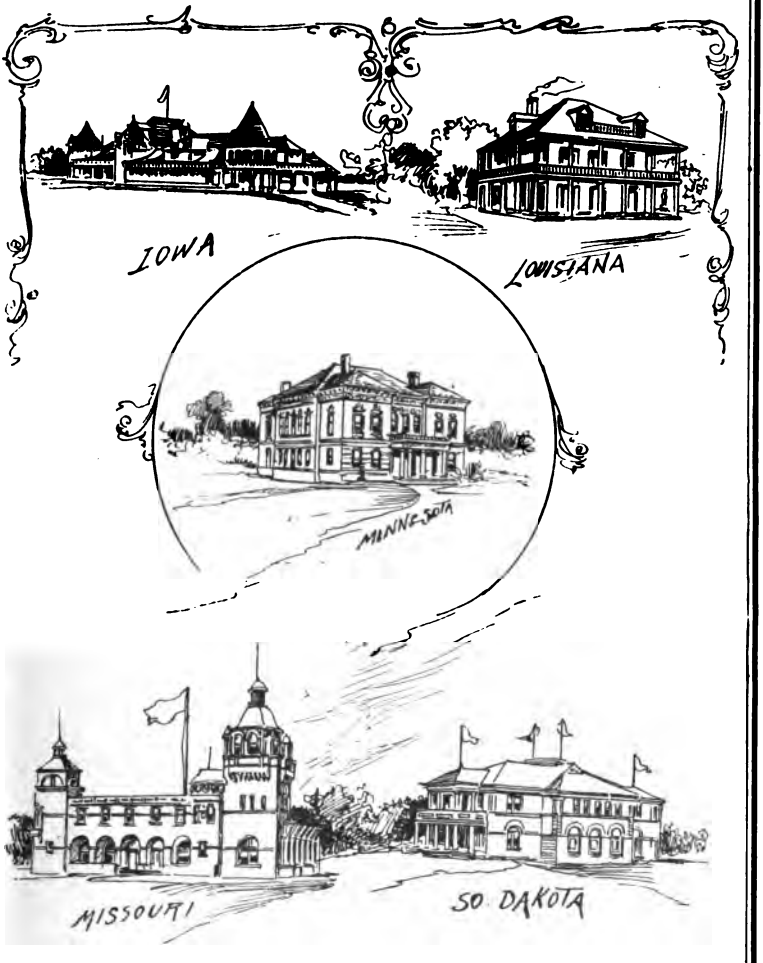
IOWA.—A large part of the Iowa building is constituted in what is known as the Jackson park "Shelter." The building belongs to the park commission. It is a granite structure with a slate roof, with conical towers or pavilions at the corners. It is 77 by 123 feet in size. The new structure is on the west of the "Shelter." It is 60 by 100 feet in size and two stories high. It is in wood and staff, with towers and roof corresponding to the "Shelter," so that the two structures combine harmoniously after the style of a French chateau. The "Shelter" will be used for a state exhibit, corresponding in character to the Sioux City corn palace exhibition. In the new part, on the first floor, are reception rooms for men and women, commissioners' offices, committee rooms, postoffice, writing and baggage rooms. On the second floor are the assembly hall, photographic exhibit, reading and reporters' rooms. Cost, $35,000.

KANSAS.—The ground plan of this building is irregular. It approaches a square, one side being straight and the other three forming irregular angles. It has a ground area of 135 by 138 feet. It is two stories high, built of frame and staff and is surmounted by an elliptical dome. The main exhibition hall occupies nearly all of the first floor and extends through to the glass dome. A balcony from the second story overhangs the main entrance on the south and a second balcony extends around the base of the dome. The north end of the main floor is occupied by a natural history collection. There are also offices for the boards of commissioners on the first floor. Four flights of stairs lead to the second floor, where are rooms for the woman's exhibit, a school exhibit and parlors for men and women. Cost, $25,000.

MAINE.—The building is octagonal in form with a ground area of 65 feet square. It is two stories in height, the roof surmounted by a lantern in the center and four corner towers. The first story is of granite. The exterior finish of the rest of the building is in wood and staff. The roof is of slate. The central tower or lantern is 86 feet to its highest point. While the first story is octagonal in form the second story presents but four sides, each with a loggia opening to the rooms within. The second-story floor overhangs the first story one foot. The main entrance of these arched doorways faces the southeast. Over it projects a boat's bow in staff. Within the entrance is an octagonal rotunda open to the roof-line, its ceiling being an ornamental colored skylight. On the first floor are parlors and reception rooms for men and women, toilet rooms and two commissioners' rooms. A railed gallery extends around the rotunda. The interior finishing is in hard wood. The granite and roof slate used in construction, the skylight in the rotunda and the mantels over the fireplaces are from Maine and are donated by manufacturers. Cost $20,000.

MARYLAND.—The state building is a facsimile of the capitol at Annapolis.

MASSACHUSETTS.—Is in the colonial style and is largely a reproduction of the historic John Hancock residence, which, until the year 1867, stood on Beacon hill, Boston, near the state capitol. The building is three stories high, surmounted in the center by a cupola. The exterior is of staff, in imitation of cut granite. It follows the lines of the old house sufficiently faithful to recall the original to the minds of those who have seen it. Like the original, it is surrounded by a terrace, raised above the street, and has in front and on one side a fore-court, filled with old-fashioned flowers and foliage, in keeping with the character of the building. It is approached by two flights of steps—one leading from the street to the terrace, the other from the court to the house. The main entrance opens to a spacious, well-studded hallway, with a tiled floor. Facing the entrance is a broad, colonial stairease, leading to the second floor. An old fashioned bull's-eye window gives light to the stairway. On the right of the hall is a large room, constituting a registration room, postoffice and general reception room. The fittings and furnishings of this room are unique. Its marble floor, its tiled walls, its uncovered beams, and its high mantel recall the old Dutch rooms found in western Massachusetts, as well as in New York and Pennsylvania. On the left of the front door, or main entrance, are two large parlors, which, when thrown together, form a room 80 by 25 feet in size. The front parlor is furnished by the Essex Institute of Salem, an old historical society. The back parlor is more especially a reading room for men. The second floor is given over almost entirely to the use of women. There is a large and a smaller parlor and two bedrooms for the use of the women's board. The entire floor is furnished in old-fashioned furniture and in the bedrooms are four-post bedsteads. On the third floor are rooms for servants. A liberty pole, 85 feet high, stands in the fore court and a gilded codfish serves as a vane on the top of the cupola. Cost, $50,000.



IOWA
LOUISIANA
MINNESOTA
MISSOURI
SO. DAKOTA

MICHIGAN.—The Michigan building is 104 by 144 feet, including a 12-foot veranda on all sides, and located at the north end of the group of state edifices. It is a frame building, with staff or carved ornaments. The ground floor contains a vestibule, main entrance hall, landing, lavatory, barber-shop, secretary's office, bureau of information, gentlemen's room, alcoves, check room, news-stand, postoffice, ladies' parlors, reading retiring and toilet rooms. The second floor is also surrounded by verandas. It contains an alcove, grand hall and a large open well or court in the center, while on each side adjoining is a hall running the entire length of the building and about twenty feet in width which can be thrown open so as to form part of the grand hall. On the north side the assembly and board and committee rooms are located. The south side is apportioned off for exhibits. The third floor is divided off into apartments containing sleeping and bath rooms for the accommodation of the officers. While most of the state buildings have been erected at a much greater expense few if any are larger or more complete. The work has been done by Michigan contractors, who have not endeavored to make any money out of it. Cost, $25,000.

MINNESOTA.—Is designed in the Italian renaissance style, two stories high, with a mezzanine story in the rear. The frame is of wood, covered with staff. The roof is of Spanish tile. The ground dimensions are 78 by 91 feet. The main entrance is on the south. In the recess within the entrance is a sculptural group, symbolizing the legend of Minnehaha and Hiawatha. On the first floor is the exhibition hall, 52 by 78 feet, a postoffice, baggage and ticket rooms and superintendent's room. The main stairway is in the rear, opposite the entrance, and on the landing, halfway up, is a semi-circular bay alcove lighted with large glass windows. On the second floor is a reception hall, 30 by 33 feet, parlors and retiring rooms for men and women and a committee room. In the mezzanine story are four bedrooms and two bath rooms. The interior walls are plastered, decorated in fresco, in plain tints, and finished in pine. The women's rooms have color decorations done by women of the state. Cost, $30,000.

MISSOURI.—The ground plan of the building is square, with a quarter circle taken out of the southeast corner, to correspond with the form of the juncture of the two avenues on which it faces.

To the south of the building is the palace of Fine Arts, and to the east, across the avenue, is Pennsylvania's building. The building is 86 by 86 feet, two stories high. In the front and over the main entrance is an elliptical dome 70 feet high, flanked by smaller octagonal domes 48 feet high. The main entrance, which is in the southeast corner of the building, facing both avenues, is of cut brownstone from the quarries of Warrensburg, Mo. The balance of the structure is frame, covered with staff, and the columns and pilasters are of the same material. Within the main entrance is a rotunda with a mosaic tile floor. On either side of the main entrance are minor entrances, the one on the left leading to the headquarters of western Missouri and Kansas City, and the one on the right leading to the headquarters of eastern Missouri and St. Louis. Within the rotunda are the telegraph office and the postoffice, occupying the space under the octagonal dome. On either side of the rotunda is a fountain. On the left of the rotunda are two exhibit rooms 30 by 20 feet and 28 by 17 feet. On the right is a journalists' room, a reading room, a library and bureau of information. Entrance is had to the rotunda from all of these rooms by tiled halls. Two flights of stairs, very handsome, in red and white oak, lead to the second floor. A promenade balcony with a marble floor overhangs the main entrance. A large auditorium room, irregular in shape, occupies the center and larger portion of the second floor. The southeast bay is occupied by a parlor and reading-room for women, the southwest bay by a similar room for men. There are also toilet rooms and a committee room and a special room for the governor of Missouri. On the balcony floor are six bedrooms, three in each bay, and a kitchen. The building contains thirty-two rooms. It is very handsome and richly ornamented. The glass is all plate. This plate-glass, as well as the tile for the roof, and flooring, the plumbing and the cut stone are donated by Missouri manufacturers. Cost $45,000.

MONTANA.—Is in the Romanesque style of architecture, one story in height. It has a ground area of 62 feet front by 113 deep. The structure is frame, covered with staff, the interior being ornamented with heavy, projecting pilasters, with Roman caps and bases, and Roman arches. The roof is of tin and canvas, and the building is surmounted by a glass dome 22 feet in diameter and 38 feet high. The front of the building, facing the south, presents two side wings, with a large arched entrance in the center. The fronts of the wings are ornamented with heavy, scrolled pediments. The entrance arch is 12 by 12 feet, supported by heavy columns. Within is the vestibule, with marble floor and ceiling paneled in staff. It presents a series of three arched doorways, the center one opening into the rotunda, under the dome, the side doors leading to the men's and women's parlors. On either side of the entrance arch are balustrades, inclosing the vestibule. Flanking the arch are two panels, 4 by 5 feet in size, one bearing the state motto, "Oro y Plata"—gold and silver—and the other "1893" in Roman figures. These panels are now in staff, but at the opening of the Exposition will be replaced in pure sheet gold. Above the entrance arch, and practically on the roof of the building, is the figure of an elk, of heroic size, cast in staff. The interior is finished in Georgia pine. The walls are tinted in oil. All the main rooms open onto the rotunda, under the central dome. In the rear is a banquet hall, 40 by 50 feet, covered by a large skylight. In the center of this floor stands a group of three mounted elks. A wide gallery extends around the hall, and in the gallery a state exhibit will be made. Cost, $16,000.

NEBRASKA.—The style of architecture is classical and of the Corinthian order. The building has a ground area of 60 by 100 feet and is two stories high. The exterior is of staff. On the east and west fronts are wide porticoes, approached by flights of steps. Over the porticoes are projecting gables, supported by six columns 25 feet high, the full distance from the cornice to the floor. In each pediment is the state seal, in bas-relief, 5 feet in diameter. From each portico three large double doors of oak give entrance to the exhibit hall. This room is 60 by 70 feet, and in it an agricultural display will be made. On the first floor, also, are a reception room, commissioner's office, baggage room and postoffice. A double stairway, 9 feet wide, leads from the center of the exhibit hall to the second floor. Here is an exhibit room 60 by 70 feet, used for an art exhibit. On this floor are a woman's parlor, reading room, smoking room and toilet rooms. Cost, $20,000.

NEW HAMPSHIRE.—The mountains of New Hampshire probably suggested the Swiss cottage for a World's Fair club-house. The building, like the state, is comparatively small—53 by 84 feet. The pitched, shingled roof is broken by five gables. The exterior is weather-

UTAH
KENTUCKY

MICHIGAN

ARKANSAS
TEXAS

boarded in stained Georgia pine, above a line seven feet from the ground. This first seven-foot course is in New Hampshire granite. Each of the two stories is surrounded on all sides by a wide piazza. The rooms on the second floor open to the piazza through hinged windows opening to the floor. The entrance is on the east, facing the drive on Lake Michigan. On the first floor is a reception hall, 22 by 36 feet. It has two unique fireplaces in pressed granite brick. To the rear of the hall is a wing of the main building, two stories high, the second story being a wide balcony or gallery to the main floor. The roof is a glass skylight. A state exhibit, a picture collection and a large state map will be shown here. Besides the reception hall on the first floor there are parlors for men and women. These rooms are celled, while the reception hall opens to the roof and is covered with a skylight. The second floor has a reception room and six board and committee rooms. Cost, $8,000.

NEW JERSEY.—The building is not intended for exhibition purposes, but will be more in the nature of a club-house for the use and convenience of all Jersey people. Large and inviting piazzas on the front and rear. The main entrance opens into a large general assembly hall, two stories high, with a circular balcony looking down from second story. This hall contains the postoffice and hat and cloak counter, a large open fireplace, nearly ten feet across, and the main staircase, this latter being made a feature of the design. On the right-hand side of the building are located the rooms set apart especially for the ladies; these consist of the general meeting room of the ladies' board of managers, two parlors on second floor, with lavatories and bathrooms. On the left-hand side of the building are the rooms set apart for gentlemen, the secretary's office, board room, president's room, committee-rooms and lavatories. In the third story are the care-takers' apartments and storerooms for documents, etc. Those familiar with the appearance of the Washington headquarters in Morristown will recognize it as the nucleus of the design; and while it will not be attempted to make any exact reproduction of this building its general lines and details will be adhered to. The historical interest of the Morristown building will no doubt be somewhat shared in by the New Jersey building at the Exposition, and it seems that the state could not do better than it has done in selecting the old headquarters as a starting-point for the design of its Chicago building, to be returned to New Jersey and located at the state camp, when it is remembered that under the roof of the old Morristown house more of the noted characters of the revolution have gathered than under any other roof in America.

NEW YORK.—The architectural idea in this building is that of a big summer-house after the manner of an Italian villa. Among the state buildings it ranks in size next to Illinois and California. It is three stories high, being 57 feet from the ground to the cornice. The exterior is in staff in imitation of marble and in keeping with the style of the main Exposition buildings. Its decked roof is surmounted and confined by a heavy balustrade. Each pedestal of the balustrade supports a large Italian vase in which grows a bay-tree, giving the building, together with its other characteristics, the air of a Pompeiian house. The flat, decked roof furnishes a promenade and summer garden. From its center rises a clear-story over the banquet hall, and above the clearstory are two belvideres. On the north and south ends of the building are circular porticoes, in each of which is a fountain. The general dimensions are 160 feet front by 185 feet deep. A broad flight of steps, guarded by Roman lions, leads to the arched entrance. About this entrance is concentrated all the exterior ornamentation of the building. In the circular niches, on either side of the arch of the entrance, are busts of Hudson and Columbus. Above the keystone of the arch is the American eagle, and dependent from a staff projecting above the bird is a flag bearing the state's arms. The barreled, arched vestibule forming the entrance to the building opens to a columned hall 56 by 80 feet in size. From this hall entrance is had to all the rooms on the floor. In the rear a 10-foot staircase leads to the second floor. Here is the banquet hall, 46 by 80 feet, highly ornamented in staff, its groined ceiling 45 feet from the floor. Depending from the ceiling are two electroliers, 18 feet long, forming great clusters of incandescent lights. In the basement of the building is a large relief map of New York. On the first floor are parlors and toilet rooms for men and women, postoffice, information and baggage-rooms. On either end of the banquet hall, on the second floor, are board rooms. The third floor is devoted to bedrooms, kitchen and servants' rooms. Cost, $77,000.

NORTH DAKOTA.—North Dakota's state building is designed somewhat upon the lines of the later colonial work, in which the columns that extend through two stories, forming the porch on the front and the balcony on the second story, give the dignified effect so often found among this class of buildings. This idea was carried out through the structure, the principal ornamentations that are used on the exterior being in the form of a band between the first and second story windows, in which wheat, the principal staple of North Dakota, is used in a conventionalized form as the basis of the decoration. The building occupies an exceptionally fine site and the grounds will need but little landscape gardening to render them a suitable frame for the building. The building itself is 60 by 90 feet in size on the ground, and one enters at once into a large room occupying the entire main floor, which will be used for the purpose of a state exhibit, and is fitted with glass cases and tables to show the exhibit to the best advantage. The decorations of the room will be made entirely from the productions of the state and will consist largely of the cereals and grasses arranged in decorative forms. Immediately opposite the entrance is a handsome fireplace, with wide staircases at each side of it, joining overhead into one staircase, which gives access to the second floor. This floor is devoted to the use of reception rooms for both ladies and gentlemen, and also committee rooms, press rooms and toilet rooms. The construction of the building throughout is similar to that of most of the other Fair buildings, being built of frame and covered with staff.

OHIO.—Is colonial in style, two stories high, of wood and staff, with tile roof. The ground area is 100 feet front by 80 feet deep. The main entrance, on the east, is within a semi-circular colonial portico, 33 feet high, the roof supported by eight great columns. The tile roof, mantels, finishing woods, and much of the visible material are the gift of Ohio producers. The main entrance opens on a lobby, on the left of which is the women's parlor and on the right a committee room. Occupying the central portion of the building is the reception hall, 23 by 36 feet, and 28 feet high, extending through to the roof. The coved ceiling of the hall is ornamented. Back of the reception hall is an open court 36 feet square, inclosed on three sides, the north and south sides being formed by the wings of the building. All of the north wing is occupied by the information bureau. The room is 30 by 59 feet and is divided into offices by wire railings. In the south wing is the parlor for men,

a writing room, a smoking room, and toilet rooms. On the second floor of the north wing is the assembly room, 30 by 42 feet. The second floor of the south wing has a press correspondents' room, servants' rooms, bed and bath rooms. Cost, $30,000.

PENNSYLVANIA.—The structure is in the colonial style of architecture, while the front is an exact reproduction of old Independence Hall, having its entrances, bell-tower and spire. Independence bell hangs in the tower. The rotunda within the entrance is finished in tile and slate like the old hall. The building is rectangular in form, two stories high, with a ground area of 110 by 166 feet. The corners of the front are quarter-circled in. Piazzas 20 feet wide surround the building, and over them are verandas, with protecting balustrades. Outside staircases, right and left to the rear, lead to the garden on the roof. This roof is covered with American-made tin produced in Philadelphia. The outer walls to the roof line are of Philadelphia pressed brick. Above the main entrance is the coat of arms of the state, in bas-relief, and on either side of it are heroic statues of Penn and Franklin. The front is further ornamented with two free groups of statuary, one emblematic of the arts and sciences, the other of mines and manufacture. The interior finishing represents, in the floors, native marble and hardwoods from Pennsylvania, and the walls are wainscoted in wood, frescoed and heavily corniced. The women's rooms are finished in maple and the men's in oak. The walls of the women's rooms are ornamented with mural paintings by Pennsylvania women. All the ceilings are of stamped metal and the staircases are of quartered oak. On the main floor is the reception-room, 33 by 56 feet, and on either side are parlors for men and women. On the second floor are rooms for the governor, the press correspondents, the treasurer of the commission and the board of commissioners. There are three bedrooms in the tower. The building is supplied with 800 electric lights. Cost, $60,000.

RHODE ISLAND.—The Rhode Island building is after the Greek manner, with columnar porticoes on four sides of the building, that on the west or front side semicircular in plan, with arched openings between the Ionic pilasters, the latter being of the full height of the two stories. The building is amphiprostyle in that the north and south porches—each of the full width of the building—consist of four fluted Ionic columns, each 24 inches in diameter and 21 feet high, while the rear entrance is between Ionic fluted pilasters, the same as in front. The columns are surmounted by an enriched Ionic entablature with decorated moldings, modillions and dentils, and above the entablature the building is finished with a balustrade surrounding the four sides of the roof, with ornamental urns over each pedestal in the balustrade. The building has a ground area of 32 by 50 feet, two stories high, in wood and staff, in imitation of granite. Entrance is had to the building from all sides through French windows opening to the floor. The main hall is 18 by 25 feet and is open to the roof. The parlor for women and the secretary's office are on the first floor. On the second floor are two committee-rooms and a gallery around the main hall. The governor's room occupies what may be called the second story of the porch on the west front. All the floors are hard wood and the interior is finished in cypress. Cost, $7,000.

SOUTH DAKOTA.—The building has a ground area of 70 by 126 feet and is two stories high. The structure is frame, the exterior being covered with Yankton cement, in imitation of stone work. The roof is of corrugated iron and the cornice and brackets are pressed zinc. The main entrance is on the east, along which front extends a wide porch with heavy columns supporting a balcony from the second story. On the left of the main entrance is a women's parlor, on the right a men's reception room. In the main body of the building is the exhibition hall, 44 by 58 feet. Six feet above the main floor is an entresol, having committee rooms for the two boards of commissioners. In the northwest corner of the main floor is a room for press correspondents. The rotunda in the center of the building extends through to the roof and is covered with a skylight. The second floor is devoted to rooms for the woman's exhibit and for special state exhibits. Cost, $15,000.

TEXAS.—The Texas state building will be one of the handsomest state buildings situated on the right of the north entrance to Jackson Park. It will contain an assembly room 56 feet square, 28 feet high, provided with large art glass skylight in ceiling, with mosaic Texas star in center. The rostrum, anterooms, etc., will be finished in the natural woods of Texas. The administration wing will contain rooms for bureau of information, register, messenger, telephone, telegraph, directors, Texas Press association headquarters, president and executive committee, lobby, historical museum and library, also toilet rooms, county collective exhibits, etc. The main entrances are through vestibules, flanked on either side by niches and colonnades. The main vestibules terminate in a large auditorium, connecting with the rooms mentioned above. In the treatment of the design the architect has not deflected from the history of the Lone Star state, which from its foundation, has been marked by a Spanish tinge, whose architectural feeling and beautiful botanical effects lay down a chain of thought far too beautiful to be forsaken for that of the present day; therefore the architect has designed the building, colonnades, grounds, fountains, foliage, etc. The building will cost $30,000.

UTAH.—The building is frame, covered with staff; is two stories high, and has an area of 46 by 82 feet. In style the facade is modern renaissance. The foundation, columns, pilasters, cornice and other ornamental parts are made in imitation of the different kinds of stone in Utah. The walls are lined off in imitation of adobes. On the first floor is an exhibit hall, 41 by 45 feet, open to the roof and covered with a skylight. In the rear of this hall is a circular bay, and in this is the main stairway. On the first floor are rooms for commissioners, a reception room, secretary's office and women's parlor. The second floor is similar in arrangement to the first, there being an exhibition room, 41 by 45 feet, and various office rooms. Cost, $10,000.

VERMONT.—The Vermont state building in its general style is Pompeiian, an attempt being made to preserve classic ideas and adapt them to the peculiar use contemplated. Its dimensions on the ground are 65 feet front by 85 feet deep. It comprises an open central court surrounded by passageways and corridors, with a semicircular hall in the rear. The necessary committee rooms and waiting rooms will be provided. The court is 31 by 27 feet in the clear and will display in its center a marble fountain of native stone. Marble also will be freely used in the internal construction of the building. It will be a structure in which the people of Vermont who visit the Fair, as well as the former citizens of that state now residing elsewhere, will take great pride and which they will find adapted in every respect to their necessities and comfort. The expense of the building complete will probably be from $15,000 to $20,000.

VIRGINIA.—This building is a fac-simile of Washington's home at Mount Vernon, with which every one is familiar.

WASHINGTON.—The building has a ground area of 118 by 208 feet. It consists of a main structure with a pitched roof, two stories in height, with a tower on each corner, flanked by two wings one story high. The main building is 72 feet wide and the wings are 140 feet wide. The structure is frame, with panels of plain plaster. The principal architectural feature of the building is its foundation. It is made of five tiers of logs above the ground. The logs in the lower tier are four feet in diameter and 121 feet long. These lower logs have the bark on. The four upper tiers of smaller logs are peeled. This foundation constitutes a timber exhibit from Washington. The two wings form a single room each and will be devoted to state exhibits. Nearly all of the first floor of the main building will be devoted to a reception room, while in the second story are committee rooms, parlors, reception and toilet rooms. The roof is of shingles and the interior is finished in cedar and in fir. All of the material used in the building comes from Washington. Cost, including value of donated material, $100,000.

WEST VIRGINIA.—The building is in the colonial style, two stories high, with a pitched roof, the outer walls being weather-boarded and painted. It is a representative of the West Virginia residence. The roof is shingled. The interior is finished in hardwoods, the walls are plastered and the ceilings are of ornamental iron work from Wheeling. All of the exposed material in the building is the product of the state. The main entrance is on the west, on a platform porch. Above the entrance is the coat of arms of the state in bas-relief. Within the entrance is a vestibule, with rooms for the boards of commissioners on either side. Beyond the vestibule is a large reception hall flanked by parlors for women and men. Back of these parlors are toilet and retiring rooms. On the second floor front are two committee rooms, and the balance of the floor constitutes an assembly room and reception hall, 34 by 76 feet in size. There are four large fireplaces in the building, two on each floor, with very handsome carved wood mantels. The building has a ground area of 58 by 123 feet, including the semicircular verandas on the north and south. Cost, $20,000.

WISCONSIN.—In architecture this building represents the Wisconsin home, being designed in no special style. All the visible material comes from Wisconsin. The exterior is of Ashland brown stone, Menomonee pressed brick, and hardwoods from various sections of the state. The roof is covered with dimension shingles. The window glass is plate. It is practically three stories high, but apparently only two, one story being in the roof. Its ground area is 80 by 90 feet, exclusive of the verandas on the east and west, which are 18 feet wide. The semi circular verandas on the north and south are entered only from the interior of the building. The second and third stories have verandas on the east and west. The main entrance faces the east and is 18 feet wide. The interior is finished entirely in oiled hardwood. The first floor is tiled and the ceiling is paneled in hardwood. On this floor are three fireplaces, with mantels in oak and maple. The first floor has a large reception room, men's and women's parlors and toilet rooms, an intelligence office and a postoffice. The second floor has a historical room and offices for the commissioners. On the west side of the floor is a large stained-glass window, presented by the city of West Superior. On this floor are two mantels in pressed brick. The third floor has eight bedrooms. Cost, $30,000.

A DIRECTORY OF NATIONAL COMMISSIONERS.

Local Directors, Officers and Committees of the World's Columbian Exposition.

OFFICERS.

President—THOMAS W. PALMER of Michigan.

1st Vice-President	Thos. M. Waller, Conn.	*5th Vice-President*	Alex. B. Andrews, N. C.

Trinidad	Sir Frederick Broome, K. C. M. G.
Turkey	Hakky Bey.
Uruguay	Sen. Don Federico R. Vidiella.

THE WORLD'S CONGRESS AUXILIARY.

In the Daily News Almanac for 1892 (page 233) the president of the congress, C. C. Bonney, Esq., gave the scope, aims and objects of the congress auxiliary. The following gives more in detail the subjects to be discussed and the date of the meetings of the various congresses:

1. The Department of Woman's Progress includes all the fields in which women have achieved success and will embrace a general congress of representative women of all countries commencing May 15, 1893.

2. The Department of the Public Press includes the general divisions of the daily press, weeklies and magazines, the religious press, trade journals, scientific and professional journals, etc. The congresses of this department will be held during the week commencing May 22, 1893.

3. The Department of Medicine includes the general divisions of general medicine and surgery, homeopathic medicine and surgery, eclectic medicine and surgery, medico-climatology. The congresses of these divisions will be held during the week commencing May 29. The congresses of dentistry, pharmacy and medical jurisprudence have been transferred for special cause to the week commencing Aug. 14, 1893. Public health will precede the agricultural congresses in October and has been given a separate department on account of its interstate and international relations, and deferred to that late date because the public health officers cannot well leave their posts of duty during the summer.

4. The Department of Temperance includes the general divisons of the Woman's Christian Temperance union; the Catholic Temperance societies; the National Temperance Society; the Independent Order of Good Templars; the Sons of Temperance; the Templars of Honor and Temperance; the Royal Templars of Temperance; the Non-Partisan W. C. T. U.; the Law and Order leagues; Vegetarian societies and like organizations. The congresses of this department will be held during the week commencing June 5, 1893.

5. The Department of Moral and Social Reform includes the following subjects embraced in the work of the International Congress of Charities, Correction and Philanthropy and the National Conference of Charities and Correction, viz.: The public treatment of pauperism; the care of neglected, abandoned and dependent children; the care and treatment of juvenile delinquents; the hospital care of the sick, the training of nurses, dispensary work and first aid to the injured; the commitment, detention, care and treatment of the insane; the custodial care and the training and development of idiots and feeble-minded children; the prevention and repression of crime and the punishment and reformation of criminals; preventive work among the poor and the organization and affiliation of charities in cities, towns and villages. This department also includes the work of orders and associations of all kinds whose object is the amelioration of social conditions, as, for instance, Humane societies, the King's Daughters, the Society of St. Vincent de Paul and the salvation army. The congresses of this department will begin June 8, 1893, and continue during the following week.

6. The Department of Commerce and Finance includes the general divisions of banking and finance, boards of trade, stocks and bonds, water commerce, railway commerce, commercial clubs and kindred organizations, insurance, building associations, mercantile business, etc. The insurance congresses will include fire insurance, marine insurance, life and accident insurance, mutual benefit and assessment associations, fidelity and employers' liability insurance and insurance specialties. The congresses of this department will commence on June 19, 1893. The water commerce congress will be transferred to the first week of August in order that it may be held in parallel with the engineering congress.

7. The Department of Music includes the general divisions of orchestral art, choral music and training, songs of the people, organ and church music, musical art and literature, musical criticism and history, opera houses and music halls. The congresses of this department will be held during the week commencing July 3, 1893.

8. The Department of Literature includes the general divisions of libraries, history, philology, authors, folk-lore and copyright. The congresses of this department will commence on July 10, 1893.

9. The Department of Education includes the general divisions of higher institutions of learning and university extension; public instruction, the kindergarten, manual and art training, business and commercial education, education in civil law and government, instruction of the deaf, education of the blind, representative youth of public schools, college and university students, college fraternities; psychology, experimental and rational; physical culture, domestic and economic eaucation, agricultural education, authors and publishers. The general division of public instruction in music is transferred to the department of musical art. The congresses of these general divisions will commence on July 17, 1893, and will be followed by the world's general educa-

tional congress, in which all the departments of education will be properly represented.

10. The Department of Engineering includes the general divisions of civil engineering, mechanical engineering, mining engineering, metallurgical engineering, electrical engineering, military engineering, marine and naval engineering, aerial navigation, engineering education. The congresses of this department and the water commerce congress will be held during the week commencing on Monday, July 31, 1893.

11. The Department of Art includes the general divisions of architecture, painting, sculpture, decorative art, photographic art, governmental patronage of art (art museums, art education, etc.). The congresses of this department will be held in parallel with those of the department of engineering, commencing July 31, 1893, the places of meeting being adequate, as mentioned below.

12. The Department of Government includes the general divisions of jurisprudence and law reform, political and economic reform, city government, executive administration, intellectual property, arbitration and peace. The general division of jurisprudence and law reform will include the laws of nations, expatriation, naturalization and extradition, international privileges of citizenship, the administration of justice, etc. The general division of political and economic reform will include political economy and economic science, profit-sharing, social science, the single-tax and other theories, public revenues, statistics, weights and measures and coinage, postal service, suffrage in republics, kingdoms and empires; civil-service reform, etc. The general division of city government will include municipal order, the public service, public works, police protection, public revenues and expenditures, and other important subjects. The general division of executive administration will include the nature, office and application of executive power in municipal, state and national government. The general division of intellectual property will include trade-marks and patents, both national and international. The subject of copyright has been transferred from the department of government to the department of literature. The general division of arbitration and peace will include the establishment of permanent international courts of justice, the substitution of arbitration for war, the establishment of courts of conciliation and arbitration for the voluntary settlement of private controversies, etc. The congresses of this division will commence on Aug. 7, 1893, and may extend into the following week.

13. General Department. In this department are included congresses, not properly belonging to any other department, and also congresses which for any special cause could not be held in their appropriate places in the other departments, among which are the dental congress, the pharmaceutical congress, the congress of medical jurists, the congress on the African continent and people, the horticultural congress and the chess congress. The congresses of this department will commence on Aug. 14, 1893. The congress of pharmacists will be deferred to the following week, in order that it may be held in connection with the congress of chemists. Any time during this week, not otherwise occupied, will be used for congresses of the following department.

14. The Department of Science and Philosophy includes the general divisions of general physics, astronomy and mathematics, meteorology, geology, geography, chemistry, electricity, botany, zoology, microscopy, anthropology, ethnology and archæology, Indian ethnology, African ethnology, physical science, philosophy. The congresses of this department are assigned to the week commencing on Monday, Aug. 21, 1893. The congress of African ethnology, and perhaps others, will be commenced in the preceding week.

15. The Department of Labor includes the general divisions of the historic development of labor, labor organizations, conflicts of labor and capital, labor economics and legislation, woman's work and wages, domestic economy, child labor, education, public opinion and progress. The congresses of this department will be held in the last days of August and the first days of September, closing on "Labor Day," Monday, Sept. 4, 1893.

16. The Department of Religion includes, to this date, the following general divisions, subject to several additions now in course of formation and to others that may be hereafter proposed: Baptist, catholic, congregational, Christian, Evangelical association, evangelical church, Friends, Jews, Lutheran general council, Lutheran general synod, Lutheran synodical conference, methodist episcopal, New Jerusalem, presbyterian, protestant episcopal, Reformed Church of North America, Dutch reformed church, reformed episcopal, Swedish evangelical, United Brethren, unitarian, universalist, missions, Evangelical alliance, Young Men's and Young Women's Christian associations, Society of Christian Endeavor, Epworth league, Brotherhood of Christian Unity. The catholic congress will commence on Tuesday, Sept. 5. The World's Parliament of Religions will commence on Monday, Sept. 11, 1893. The denominational congresses will commence on Thursday, Sept. 21. The missionary congresses will commence on Thursday, Sept. 28, and will be followed by the congresses of the Evangelical alliance and other bodies named.

17. The Department of Sunday Rest includes the general divisions of the physiological relations, the economic and business relations, the governmental and political relations, the social and moral relations and the religious relations of the weekly rest day. These congresses will be held in October, 1893, immediately after those of the religious societies above named.

18. The Department of Public Health includes the general divisions of sanitary legislation, public health authorities, governmental administration in relation to epidemics and contagions, food inspection and other food problems. The congresses of this department will follow that of the department of Sunday rest, in October, 1893. The exact date will be announced hereafter.

19. The Department of Agriculture includes the general divisions of farm culture and cereal industry, animal industry, agricultural organizations and governmental departments of agriculture; agricultural education and experiment, good roads, household economics and horticulture, the latter of which has been transferred to the general department, as above noted. The congresses of this department are assigned to commence on Monday, Oct. 16, 1893.

The World's Congresses of 1893 will be held in the permanent Memorial Art Palace, erected on the lake-front park through the co-operation of the Art Institute of Chicago, the city of Chicago and the directory of the World's Columbian Exposition. This "World's Congress Art Palace" will have two large audience-rooms, arranged to seat about three thousand persons each, and more than twenty smaller rooms, which will accommodate from three hundred to seven hundred persons each. Meetings of such a character as to draw a large popular audience will be held in the main audience-rooms, while meetings of chapters or sections of different congresses for

the discussion of subjects of a more limited interest, will be held in the smaller rooms. It will thus be possible to have two general congresses and twenty special congresses or conferences in session at the same time and to have three times as many meetings within a single day by arranging different programmes for morning, afternoon and evening sessions but it is not anticipated that so many daily meetings will be required in any department of the World's Congress work, nor that, as a general rule, any congress or section will desire to meet more than once or twice in a given day.

THE PENSION OFFICE.

Work of the department for the fiscal year 1892.

By the report of the commissioner of pensions it appears there were on June 30, 1892, 876,068 pensioners borne upon the rolls of the 18 pension agencies, being 199,908 more than were carried on the rolls at the close of the last fiscal year. These pensioners are classified as follows:

Widows and daughters of revolutionary soldiers	22
Army invalid pensioners	389,748
Army widows, minor children, etc.	108,658
Navy invalid pensioners	5,046
Navy widows, minor children, etc.	2,600
Survivors of the war of 1812	165
Widows of soldiers of the war of 1812	6,651
Survivors of the Mexican war	15,215
Widows of soldiers of Mexican war	7,282

ACT OF JUNE 27, 1890.

Army invalid pensioners	288,734
Army widows, minor children, etc.	44,696
Navy invalid pensioners	9,334
Navy widows, minor children, etc.	2,917

The total amount expended for pensions during the fiscal year was $139,635,612.68. The amount due 20,435 pensioners on the rolls June 30, 1892, who were not paid for want of time, and who will be paid out of the funds appropriated for the fiscal year 1893, is $2,822,234.76. The commissioner estimates that the appropriation for 1893 of $144,956,000 will leave a deficiency of $10,508,621. The estimate for 1894 is $165,000,000.

ACT OF JUNE 27, 1890.

From the date of the passage of this act up to date of October 12, 1892, there were filed under it 920,957 claims, and the certificates issued were as follows:

Army—Invalid, original	269,398
Invalid, additional, etc.	63,570
Widows, etc., original	56,664
Widows, etc., reissue	261
Navy—Invalid, original	9,467
Invalid, additional, etc.	1,173
Widows, etc., original	3,311
Widows, etc., reissue	15
Total	403,859

The amount of money paid for pensions under this law to September 30, 1892, was $76,494,443.58. The commissioner states that many claimants under this law were seriously disabled from manual labor and living upon charity, but could not establish service origin of their disabilities and were unable to obtain pensions under the old law, although they had undergone military service. He suggests, in answer to the unfavorable comment and predictions of bankruptcy indulged in by some persons, that the payment of these pensions was one of the two great financial obligations which rested upon the government at the close of the war. The other was the repayment of the securities held by those who had advanced the money to carry on the war. Pensions are now paid to 22 venerable women who are widows and daughters of soldiers of the revolution; to 165 soldiers of 1812; to the survivors of the Mexican war and the Indian wars since 1832, and to their widows, and to the disabled soldiers and the widows and orphans of deceased soldiers.

ANNUAL VALUE OF DROPPED PENSIONS.

The 25,306 pensioners dropped from the rolls during the year were in receipt of pensions of a monthly average of $26.39 and an annual value of $8,016,044.92, showing a great mortality among that class of pensioners who were in receipt of the highest rates.

DISBURSEMENTS, 1892.

Amount disbursed at United States pension agencies during the fiscal year ended June 30, 1892.

AGENCIES.	ARMY.		NAVY.		ARREARS OF PENSIONS.		*Grand Total.*
	Pensions.	*Total.*	*Pensions.*	*Total.*	*Army.*	*Total.*	
Augusta	$2,993,343.38	$3,004,344.58					$3,004,344.58

In 1888 Curtis (Am.) received 1,591 votes for President.

NOTE.—The republican vote given is that of the highest elector on their ticket, and he was the only republican elector elected. The Electoral College of California consists of one republican and eight democrats. The vote for electors stood:

	Highest.	*Lowest.*
Republican	117618	117196
Democratic	117908	117580
Prohibition	8056	7881
Populist	25226	25085

FOR REPRESENTATIVES IN CONGRESS, 1892.

1. Counties of Del Norte, Humboldt, Lassen, Marin, Mendocino, Modoc, Napa, Plumas, Shasta, Sierra, Siskiyou, Sonoma, Tehama, Trinity.
   - E. W. Davis, *Rep.* 13,123
   - T. J. Leary, *Dem.* 19,906
   - C. C. Swafford, *Pro. and Peo.* 1,546

2. Counties of Alpine, Amador, Butte, Calaveras, El Dorado, Inyo, Mariposa, Mono, Nevada, Placer, Sacramento, San Joaquin, Sutter, Tuolumne, Yuba.
   - John F. Davis, *Rep.* 16,781
   - A. Caminetti, *Dem.* 20,741
   - C. H. Dunn, *Pro.* 1,260
   - H. B. Riggins, *Peo.* 21
   - J. H. White, *Ind.* 122

3. Counties of Alameda, Colusa, Contra Costa, Glenn, Lake, Solano, Yolo.
   - S. G. Hilburn, *Rep.* 13,163
   - W. B. English, *Dem.* 13,138
   - L. B. Scranton, *Pro.* 671
   - J. L. Lyon, *Peo.* 3,496

4. County of San Francisco.
   - C. O. Alexander, *Rep.* 13,226
   - J. G. Maguire, *Dem.* 14,997
   - H. Collins, *Pro.* 296
   - P. E. Burman, *Peo.* 1,980

5. Counties of San Francisco (part), San Mateo, Santa Clara.
   - E. F. Loud, *Rep.* 14,660
   - J. W. Ryland, *Dem.* 13,694
   - W. Kelly, *Pro.* 771
   - J. J. Morrison, *Peo.* 2,484

6. The counties of Los Angeles, Monterey, San Luis Obispo, Santa Barbara, Santa Cruz and Ventura.
   - H. Lindley, *Rep.* 14,271
   - Marion Cannon, *Dem.-Peo.* 20,676
   - O. R. Dougherty, *Pro.* 1,905

7. The counties of Fresno, Kern, Merced, Orange, San Benito, San Bernardino, San Diego, Stanislaus and Tulare.
   - W. W. Bowers, *Rep.* 15,856
   - Olin Wellborn, *Dem.* 14,869
   - M. B. Harris, *Pro.* 1,844
   - H. Hamilton, *Peo.* 5,578

Theodore F. Cuno, *Soc. Lab* 510
John M. Snook, *Peo* 324

5. Part of the city of Brooklyn.
C. G. Bennett, *Rep* 14,448
John H. Graham, *Dem* 16,675
Frank L. Brown, *Pro* 498
Henry Kuhe, *Soc. Lab* 878
William G. Bourke, *Peo* 279

6. Part of the city of Brooklyn.
John Greaney, *Rep* 12,139
Thomas F. Magner, *Dem* 17,151
Frederick J. Brittain, *Pro* 423
Gustav Schroeppendich, *Soc. Lab* 574
James Allen, *Peo* 310

7. County of Richmond.
Samuel A. Brown, *Rep* 7,122
Franklin Bartlett, *Dem* 14,905
Stephen A. Riddle, *Pro* 441

8. Part of the city of New York.
Austin E. Ford, *Rep* 7,132
Edward J. Dunphy, *Dem* 15,287
William A. Crane, *Pro* 238
Joseph K. Newmayer, *Soc. Lab* 200
H. Alden Spencer, *Peo* 199

9. Part of the city of New York.
John J. Phelan, *Rep* 7,175
Timothy J. Campbell, *Dem* 16,897
Timothy N. Holden, *Pro* 253
Aaron Henry, *Soc. Lab* 1,175

10. Part of the city of New York.
Charles E. Coon, *Rep* 12,224
Daniel E. Sickles, *Dem* 18,452
George Gethin, *Pro* 329
Philip Schaettgen, *Soc. Lab* 500
George W. Reid, *Peo* 287

11. Part of the city of New York.
A. K. Sarasohn, *Rep* 8,355
Amos J. Cummings, *Dem* 16,780
Browne C. Hammond, *Pro* 174
George Sieburg, *Soc. Lab* 1,125
James Bahan, *Peo* 192

12. Part of the city of New York.
Daniel Butterfield, *Rep* 7,766
William Bourke Cockran, *Dem* 16,515
Richard W. Turner, *Pro* 208
William Klingenberg, *Soc. Lab* 371
John J. Daly, *Peo* 221
Arthur Dennie, *Ind* 120

13. Part of the city of New York.
W. C. Roberts, *Rep* 11,181
John DeWitt Warner, *Dem* 18,979
James M. Orr, *Pro* 255
John J. Flick, *Soc. Lab* 569
David Rousseau, *Peo* 225

14. Part of the city of New York.
H. C. Ulman, *Rep* 17,442
John R. Fellows, *Dem* 26,267
Benjamin T. Rogers, Jr., *Pro* 449
John W. Bauman, *Soc. Lab* 829
George A. Hunter, *Peo* 500

15. Part of the city of New York.
H. G. Robinson, *Rep* 15,872
Ashbel P. Fitch, *Dem* 27,741
George B. Hillard, *Pro* 364
Enoch K. Thomas, *Soc. Lab* 992
William W. Gleason, *Peo* 328

16. Part of New York and Westchester county.
Geo. A. Brandreth, *Rep* 19,312
William Ryan, *Dem* 25,795
Francis Crawford, *Pro* 1,106
Howard Balkham, *Peo* 676

17. Counties of Rockland, Orange and Sullivan.
Francis Marvin, *Rep* 17,806
Henry Bacon, *Dem* 17,659
Joseph M. Leeper, *Pro* 1,243

18. Counties of Putnam, Dutchess and Ulster.
Jacob Lefevre, *Rep* 21,034
Isaac N. Cox, *Dem* 20,115
George Q. Johnson, *Pro* 1,536

19. Counties of Columbia and Rensselaer.
John A. Quackenbush, *Rep* 19,104
Charles D. Haines, *Dem* 20,757
J. Wesley Jones, *Pro* 1,111

20. County of Albany.
John A. Ward, *Rep* 17,883
Charles Tracey, *Dem* 19,509
William G. Dickenson, *Pro* 622
William F. Steer, *Ind* 348
Daniel F. Lawlor, *Ind* 392

21. Counties of Greene, Schoharie, Otsego, Montgomery and Schenectady.
Erastus F. Beadle, *Rep* 23,181

Rockfire, July 4, 1891; *34s., W. F. Gassler, against time, Hartford, Conn., July 11, 1890; 43s., R. Howell, Springfield, Mass., Sept. 25, 1885.

¼ mile—England: *1:07 2-5, J. Osmond, July 31, 1891; 1:18 1-5, A. P. Engleheart, Coventry, June 13, 1888; *1:13 3-5, E. Leitch, against time, Paddington, June 17, 1890. America: *57 4-5s, W. W. Windle, paced by wheelmen, circular track, Springfield, Mass., Oct. 8, 1892; *59⅘s, J. S. Johnson, paced by running horse, in sulky, Independence, Ia., kite track, Sept. 15, 1892; *1:04 3-5, W. W. Windle, Springfield, Oct. 17, 1891; 1:11 3-5, W. F. Murphy, Springfield, Sept. 2, 1891; *1:13 1-5, P. J. Berlo, against time, Sept. 15, and C. E. Kluge, against time, Sept. 16, 1890, Peoria, Ill.; 1:22, R. Howell, Springfield, Mass., Sept 25, 1885.

⅓ mile—England: 1:53 3-5, F. W. Allard, Coventry, May 12, 1888; *1:52 4-5, R. J. Mecredy, Paddington, July 9, 1890. America: *1:28, J. S. Johnson, paced by running horse in sulky, Independence, Ia., kite track, Sept. 2, 1892; 1:30 4-5, W. W. Windle, paced by wheelmen, Springfield, Mass., Oct. 7, 1892; 1:38 3-5, W. W. Windle, Springfield, Oct. 17, 1891; 1:41, same place; 2:01 4-5, R. Howell, Springfield, Mass., Sept. 25, 1885; *1:51, P. J. Berlo, against time, Sept. 15, and C. E. Kluge, against time, Sept. 16, 1890, Peoria, Ill.

1 mile—America: *1:56 3-5, J. S. Johnson, paced by running horse in sulky, Independence, Ia., kite track, Oct. 7, 1892; *2:02 3-5, W. W. Windle, paced by wheelmen, Springfield, Mass, Oct. 7, 1892; *2:15, W. W. Windle, against time, Springfield, Mass., Oct. 17, 1891; *2:30, P. J. Berlo, against time, Peoria, Ill., Sept. 15, 1890; *2:43, R. Howell, Springfield, Mass., Sept. 25, 1885. England: *2:46, F. J. Osmond, against time, Home Hill, July 13, 1891; 2:31 4-5, S. J. Whittaker, Long Eaton, Sept. 18, 1888; *2:36 1-5, W. Price, Paddington, Aug. 30, 1890.

2 miles—America: *4:28 3-5, W. W. Windle, Springfield, Mass., Sept. 30, 1892; *4:49⅘, A. B. Rich, Springfield, Mass., Oct. 10, 1891; *5:46 3-5, A. P. Engleheart, Springfield, Mass., Sept. 10, 1885; 5:55 2-5, R. Howell, Springfield, Mass., Sept. 8, 1885. England: 5:18 2-5, S. G. Whittaker, Long Eaton, Sept. 11, 1888; *5:20 3-5, W. Price, Paddington, July 22, 1890.

3 miles—America: *7:04 3-4; W. W. Windle, Springfield, Mass., Sept. 29, 1892; *7:49 2-5, A. A. Zimmerman, Peoria, Ill., Sept. 22, 1891.

4 miles—America: *8:26 3-5, W. W. Windle, Springfield, Mass., Sept. 29, 1892; 10:27, A. A. Zimmerman, Peoria, Ill., Sept. 22, 1891.

5 miles—America: 11:41, W. W. Windle, Springfield, Mass., Sept. 29, 1892; *12:36 4-5, A. A. Zimmerman, Peoria, Ill., Sept. 22, 1891; *13:51 3-5, A. B. Rich, against time, Peoria, Ill., Sept. 15, 1890.

10 miles—*Professional*: 24:16, Henry Fournier, Paris, France, Aug. 13, 1892. America: *26:46 3-5, C. W. Dorntge, Peoria, Ill., Sept. 23, 1891; 37:30, T. W. Eck, Minneapolis, Dec. 10, 1887. England: 27:05 2-5, S. G. Whittaker, against time, Long Eaton, Sept. 11, 1888; *27:33 3-5, H. E. Laurie, against time, Paddington, June 18, 1890.

20 miles—*Professional*: 49:1, Henry Fournier, Paris, France, Aug. 13, 1892. America: *53:50 2-5, C. W. Dorntge, Peoria, Ill., Sept. 23, 1891.

25 miles—*Professional*: 25m., 1:1:21, Henry Fournier, Paris, France, Aug. 13, 1892; 1.1:05 1-5, S. G. Whittaker, against time, Long Eaton, Eng., Sept. 18, 1888. *Amateur*: 25m., 1.14:57 1-5, J. E. L. Bates, Paddington, July 30, 1889.

26 to 50 miles—England: *Professional*—R. I. Ede, Herne Hill track, London, July 14, 1891, 26m., 1.8:39 2-5; 30m., 1.19:57 2-5; 40m., 1.47:42 1-5; 50m., 2.17:1 4-5. *Amateur*—J. E. L. Bates, London, July 30, 1889, 26m., 1.17:39; 30m., 1.30:33; 40m., 2.05:56 4-5; 50m., R. A. Lloyd, Paddington, 2.41:47. America—Thomas W. Eck, Minneapolis, Minn., Dec. 10, 1887, 26m., 1.39:12; 40m., 2.57:28; 45m., 2.58:45; 50m., 3.18:50.

1 hour—23m. 126yds., F. J. Osmond, Herne Hill track, England, July 15, 1891.

25-mile road record—1.19:13, Hoyland Smith, Boston, Mass. Oct. 3, 1891.

100-mile road record—5.27:38, T. A. Edege, Great North road, England, Oct. 20, 1890.

1,000-mile road record—5d. 11h. 38min., Land's End to John o' Groats, 900 miles, and back over same road 100 miles, T. A. Edege, England, June 6 to 11, 1892.

23¼ miles without dismounting, W. J. Morgan, Minneapolis, Minn., Dec. 30, 1886.

Greatest six-day record—1,466 2-5 miles, William Martin, Madison Square garden, New York, Oct. 18 to 24, 1891.

TANDEM SAFETY BICYCLE.

440 yards—*40 2-5s, S. E. Williams and E. E. Glover, against time, Paddington, Eng., Sept. 20, 1890.

880 yards—*1:18 1-5, S. E. Williams and E. E. Glover, against time, Paddington, Eng., Sept. 20, 1890.

1,320 yards—*1:58 3-5, S. E. Williams and E. E. Glover, against time, Paddington, Eng., Sept. 20, 1890.

1 mile—America: *2:27, Hoyland Smith and W. F. Murphy, against time, Peoria, Ill., Sept. 15, 1890. England: *2:40, S. E. Williams and E. E. Glover, against time, Paddington, Sept. 20, 1890.

1¼ miles—*3:53 1-5, Bert Myers and L. Masi, against time, Peoria, Ill., Sept. 16, 1890.

2 miles—America, *5:15 3-5, Bert Myers and L. Masi, against time, Peoria, Ill., Sept. 16, 1890. England: *5:37 2-5, E. B. Turner and Scheltema-Beduin, Paddington, Aug. 30, 1889.

3 miles—England: *8:30 2-5, R. A. Lloyd and E. E. Glover, Paddington, Sept. 4, 1890. America: *9:47 4-5, A. A. Zimmerman and S. B. Bowman, Bergen Point, N. J., May 31, 1890.

4 miles—*11:16 1-5, R. A. Lloyd and E. E. Glover, against time, Paddington, Eng., Sept. 4, 1890.

5 to 10 miles—England: 5 miles, *14.02 2-5; 10m., 28:24 4-5, R. A. Lloyd and E. E. Glover, Paddington, Sept. 4, 1890; 15m., 46:43; 20m., 1.02:16 3-5, D. Albone and E. E. Glover, against time, London, Eng., Oct. 15, 1888. America: 5 miles, *14:05, W. F. and C. A. Murphy, Syracuse, N. Y., Sept. 2, 1890.

TANDEM ROAD RIDING.

30 miles—*1.59:00, D. Albone and R. Tingey, safety, Great North Road, Eng., Oct. 9, 1888.

50 miles—*2.40:34, P. C. Wilson and E. Dangerfield, safety, Great North road, Eng., Aug. 18, 1890.

100 miles—*6.57:32, S. F. Edge and G. L. Morris, Great North road, Eng., Oct. 25, 1887.

TRAP-SHOOTING.

100 single pigeons killed in succession, E. D. Fulford, 30yds rise (12-gauge gun), Marion, N. J., Nov. 12, 1891. Al. Bandle, Hurlingham rules (except 10-gauge gun), 5 ground traps, 30yds rise, using fence (80yds.) for boundary, Cincinnati, O., Dec. 25, 1888.—99 pigeons killed out of 100, single, A. H. Bogardus, 30yds rise, 80yds fall, 5 ground traps, Coney Island, July 2, 1880. 99 killed out of 100 single, E. D. Fulford, Marion, N. J., Nov. 17; same manner and same time and place, J. L. Brown.

94 pigeons killed out of 50 pairs, John Taylor, match, Greenville, N. J., Nov. 23, 1885.

49 birds out of 50, single, 25yds, Miss Annie Oakley, Gloucester, N. J., July 30, 1888.

23½ pigeons killed out of 250, A. L. Fulford, Woodlawn Park, N. Y., Dec. 12, 1891.

186 inanimate targets broken in succession, Rolla O. Heikes, Corry, Pa., Aug. 20, 1890.

300 glass balls broken in succession, A. H. Bogardus, Lincoln, Ill., July 4, 1877.

500 glass balls broken in 24m. 2s. out of 514, J. C. Haskell, two traps, 12ft apart, 14yds—Lynn, Mass., May 30, 1881.

500 blue rocks broken in 40m., 40s., R. O' Heiks, Dayton, O., April 9, 1892

501 clay pigeons broken in 34m. 7s. out of 543 A. H. Bogardus, loading his own guns, one bird sprung at a time and thrown fair from three to ten feet above the ground; several traps; 444 pigeons in 30m.—Cincinnati, O., April 15, 1882.

999 glass balls broken out of 1,000 shot at, A. H. Bogardus, 3 traps, 14yds—Bradford, Pa., Nov. 20, 1879.

1,000 glass balls broken in 1h. 1m. 54s., A. H. Bogardus, loading himself, changing barrels at end of every hundred, 15yds, two traps, 12 ft apart — N. Y. City, Dec. 20, 1879. In 1h. 6m. 59s., A. H. Bogardus, three guns, two traps, 15 yds—London, Eng., June 26, 1878.

1,003 bats killed out of 1,200, in 1h. 11m., Dr. W. F. Carver, four guns, loading himself, bats thrown up in pairs—New Orleans, La., March 9, 1884.

5,500 glass balls broken in 7h. 19m. 2s., out of 5,854 shot at — A. H. Bogardus, 15yds, two traps, 12 ft apart, changing barrels about 54 times. He broke 1,500 balls in 1h. 37m. 20s., 2,000 in 2h. 14m. 43s., 3,000 in 3h. 34m. 40s., 3,500 in 4h. 10m. 16s., 4,000 n 4h. 48m. 43s., 4,500 in 5h. 32m. 45s., and 5,000 .n 6h. 22m. 30s.—N. Y. City, Dec. 20, 1879. In 7h. 30m. 30s., out of 6,222 shot at, W. F. Carver, Winchester repeating rifles, assistants loading—Brooklyn, N. Y., July 13, 1878.

64,017 balls broken with rifle between 6:30 a. m. Sept. 7 and 5:30 p. m. Sept. 12, 1889—B. A. Bartlett, International Fair, Buffalo, N. Y.

60,000 wooden balls hit out of 60,670 shot at—W. F. Carver, Minneapolis, Minn., Dec 24 to 30, 1888.

OCEAN STEAMSHIPS.

Liverpool and Queenstown to New York—5d., 14hrs., 24min., mean time, City of Paris, Inman line; left Liverpool 3:10 a. m., Queenstown (Daunts Rock light) 3:14 p. m., Oct. 13; arrived, Sandy Hook light abeam, 12.38 a.m., Oct. 19, 1892; mean time computed, adding difference, from Daunts Rock light to Sandy Hook light; average speed 20.7 knots per hour; largest day's run ever recorded, 530 miles, Oct. 18; fastest ocean passage ever made, both from Liverpool and Queenstown.

New York to Queenstown—5d., 19hrs., 57min., mean time, City of New York, Inman line; left Sandy Hook light 8:20 p. m. (Greenwich mean time) Aug. 17; arrived Daunts Rock light 4:17 p. m. (Greenwich mean time) Aug. 23, 1892; averag. speed 20.11 knots per hour; fastest eastward passage.

ROWING.

Performances by amateurs are designated by an *.

¼ mile—*0:57, Edwin Hedley, straightaway, Newark, N. J., July 19, 1891; *1:19, single-scull, straightaway, dead water, John F. Corbet, Iroquois Boat club, July 23, 1890.

¾ mile—*4:27½, six-oared barge, straightaway, Iroquois Boat club, Lake Calumet, Pullman, Ill., May 30, 1890.

1 mile—5:01, Ellis Ward, Savannah river, June 24, 1868.

1½ miles—*7:41, eight oars, straightaway, Atalanta Boat club, Lake Calumet, Pullman, Ill., Aug. 9, 1889. [The Cornell University crew rowed the distance in 7:03, at Philadelphia, July 4, 1889, but the conditions were unfair, the current running very strong.] 8:01¼, four oars, straightaway, Fairmount Rowing association, Albany, N. Y., July 21, 1886. [The Watkins crew rowed the distance in 7:46¾, at Detroit, Mich., Aug. 15, 1887, but the current was very strong.] *7:59, double scull, straightaway, J. Buckley and W. O'Connell, Portland, B. C., Lachine, Canada, Aug. 21, 1882. *8:36, single scull, straightaway, Joseph Laing, Lachine, Canada, Aug. 19, 1882. *8:30¼, four oars, turn, still water, Modoc Boat club, Salt Lake, Utah, Aug. 30, 1888. *8:41, pair-oared shell, straightaway, J. H. Clegg and F. D. Standish, Excelsior B. C., Lachine, Canada, Aug. 19, 1882.

2 miles—*9:43¼, eight oars, straightaway, Columbia College crew, New London, Conn., June 26, 1884. *12:16, double-scull, turn, F. E. Yates and C. E. Courtney, Saratoga, N. Y., Aug. 8, 1876. *12:20¾, pair-oar, straightaway, J. H. Riley and J. A. Kennedy, Greenwood lake, N. Y., Oct. 9, 1876. *13:21¼, single scull, turn, J. H. Riley, Saratoga, Aug. 9, 1876.

2½ miles—*12:57, eight oars, straightaway, Yale University crew, New London, Conn., June 29, 1888.

3 miles—*15:25, eight oars, straightaway, Yale University crew, New London, Conn., June 29, 1888. *15:37¼, four oars, straightaway, Argonaut R. A., Kill von Kull, N. J., Sept. 8, 1875. *16:32 4-5, six oars, straightaway, Amherst university, G. E. Brewer, B. L. Brown, L. Bradley, Jr., F. M. Wilkins, A. J. Benedict, W. Negley, Springfield, Mass., July 24, 1872. *17:34¾, eight oars, straightaway, Cornell University crew, Owasco lake, N. Y., July 17, 1878.

RAILROADING.

1 mile—37s., Philadelphia & Reading railroad, Nov. 20, 1892; engine had 6¼-foot drivers; train, one combination car, two day coaches and a Pullman car.

2 miles—1m., 15s., same train; second mile in 38s.

3 miles—1m., 54s., same train; third mile in 39s.

5 miles—3m., 25s., same train, five consecutive miles, an average of 37.8 miles an hour; this train also ran five miles on a section having a heavy grade in 4 minutes, an average of 75 miles an hour.

1 mile—39 4-5s., Philadelphia & Reading railroad, Aug 27, 1891; 50¾s. during run of special train from West Philadelphia to Jersey City Sept. 4, 1879.

2.1 miles—1m. 30s., engine 366 and an ordinary day coach, P. & R. R. R., Yardley to Trenton Junction, N. J., March 10, 1890.

2.9 miles—2m., engine 3.6 and an ordinary day coach, P. & R. R. R., Somerton to Neshoay Falls, N. J., March 10, 1890.

3.1 miles—2m., engine, two parlor cars and dining-room car, P. R. R., Aberdeen to Perryman's, N. J., March 10, 1890.

4.1 miles—3m., engine 366 and an ordinary day coach, P. & R. R. R., Skillman to Belle Mead, N. J., March 10, 1890.

6.1 miles—4m. 30s., engine 366 and an ordinary day coach, P. & R. R. R., Bethayres to Neshoay Falls, N. J., March 10, 1890.

10 miles—8m. 38., Skillman to Weston, N. J., engine 366 and one ordinary day coach, P. & R. R. R., March 10, 1890.

14 miles—11m., locomotive Hamilton Davis and six cars, N. Y. Central R. R., 1885.

18 miles—15m., special train conveying the Duke of Wellington, Paddington to Slough, Eng.

27.1 miles—26m., special extra 953 and two cars, Pennsylvania R. R., Morrisville to Germantown Junction, Pa., May 6, 1885.

36.7 miles—34m., special extra 953 and two cars, Pennsylvania R. R., Rahway to Trenton, N. J., May 6, 1885.

44 miles—43m. 30s., special train conveying newspaper correspondents, last 16¾ miles in 14m., Washington Junction to Washington, D. C., June 10, 1884.

53¾ miles—47m., broad-gauge engine Great Britain, 4 carriages and vans, Paddington to Didcot, Eng., May 11, 1848.

54.9 miles—49m. 30s., engine 366 and one ordinary day coach, P. & R. R. R., Wayne Junction, Pa., to Bound Brook, N. J., March 10, 1890.

59.2 miles—56m., engine 366 and one ordinary day coach, P. & R. R. R., Philadelphia (Ninth and Green streets) to Bound Brook, N. J., March 10, 1890.

89.4 miles—91m. (actual running time 85m.), special train, engine 366 and one ordinary day coach, P. & R. R. R., Ninth and Green streets, Philadelphia, to Jersey City, N. J., March 10, 1890.

90 miles—1h. 37m. (actual running time 90m.), special extra 953 and two cars, Pennsylvania R. R., Jersey City to Broad Street Station, Philadelphia, May 6, 1885; 1h. 47m., train 19, engine 733 and six cars, two regular stops, Jersey City, N. J., to Broad street, Philadelphia, Feb. 12, 1889.

111 miles—98m., Fontaine engine and two coaches, Amherstburg to St. Thomas, Canada, May 5, 1881; 109m., locomotive, baggage car, one coach and one Pullman palace car, St. Thomas to Amherst urg, Sept. 13, 1877.

118 miles—120m., engine No. 10, special palace car; 17m (Welland to Victoria), in 14½m; St. Thomas to Victoria, Canada, 153m., Fontaine engine and two coaches, in 251m., St. Thomas to Victoria, May 5, 1881. The schedule time from London to Bristol, Eng., 118¼ miles, by the train known as "The Flying Dutchman," is 120m.

157.74 miles—165m., special train, Niagara Falls to Syracuse, N. Y., March 1, 1876. 158 miles in 178m., West Coast Flyer, London to Crewe, Eng., Aug. 6, 1888.

228 miles—A Pennsylvania railway train consisting of one Pullman combination car, a parlor car and an observation car made the run from New York to Washington, Nov. 28, 1891, in 4h. 11m. The 11m. was consumed in stops and changing locomotives, making the actual running time 4h., an average of 57 miles an hour.

229.9 miles—4h. 18m., including stops. A. M. Palmer's special theater train, two parlor cars and a Pullman dining car, Pennsylvania R. R., Jersey City to Washington, D. C., March 10, 1890. Made return trip same day in 4h. 18m.

401 miles—7h 25m., West Coast Flyer, London to Edinburgh, Scotland, Aug. 6, 1888.

436 miles—New York to Buffalo, New York Central & Hudson River railroad (actual running time), 7h. 42m., Sept. 14, 1891. This is the most wonderful run on record. The train consisted of engine No. 870, weight 100 tons; private car No. 347, weight 88,500 lbs.; Wagner Palace Car company's private cars Traveler, weight 77,300 lbs., and Mariquita, weight 93,300 lbs. Total weight of train, 230 tons, about equal to that of an ordinary passenger train of five cars. The run from New York to Albany, 143 miles, which was made without stop, occupied 140m.; the distance from Albany to Syracuse, 148 miles, was covered in 146m., and that from Syracuse to East Buffalo, 146 miles, in 147m. 30s. The change of engines at Albany required 3m. 28s., the change at Syracuse 2m. 58s., and a hot journal at Fairport occasioned a delay of 7m. 50s. The gross time of the trip from New York to East Buffalo, 436¼ miles, was 439.6m. (7h. 49m.), including all stops, while the actual running time, exclusive of all stops, was 425m. 44s. (7h. 41m. 10s.) for the 436⅝ miles. An accurate schedule of the time between stations was kept by a disinterested party. The 4.08 miles between Kirkville and Chittenango were made in 3m. 34s., or at the rate of 68.63 miles an hour. The 5.37 miles between West Batavia and Corfu were made in 4m. 20s., a speed of 74.35 miles an hour. The run from Forks to East Buffalo, 3.25 miles, was made in 2m. 36s., a rate of 75 miles an hour.

486.7 miles—Council Bluffs to Chicago, April 22, 1891, Jay Gould's special train including baggage car, one ordinary passenger coach, and Mr. Gould's private car. The entire distance was made in a little less than ten hours, including stops, an average of 49.6 miles per hour; actual running time averaged 52.9 miles per hour.

813 miles—23h. (actual running time, 19h. 30m.) special train conveying Washington newspaper correspondents from convention, Chicago, Ill., to Washington, D. C., June 7 and 8, 1884.

Jersey City to San Francisco, Cal., 83h. 39m. 16s. Jarrett & Palmer's train, combination passenger, mail and baggage car and Pullman hotel car, June 1 to 4, 1876. No stop between Jersey City and Pittsburg, Pa.

MISCELLANEOUS.

BASE-BALL.

Largest number of innings played, 24, Harvard vs. Manchester, Boston, Mass., May 11, 1877; Grand Forks, Dak. vs. Fargo, 25 innings, 0 to 0, Devil's Lake, S. D., July 18, 1891.

Quickest played game, 47m., Dayton vs. Ironton, Dayton, O., Sept. 19, 1884.

Greatest distance ball thrown, 133yds. 1ft. 7½in., John Hatfield, Brooklyn, N. Y., Oct. 15, 1872.

Largest number of games played by a club in any one season, 188, by the Detroit club, from March 11 to Oct. 25 inclusive, 1887.

Largest number of games ever credited to a player in any one season, 184, by S. L. Thompson of the Detroit club in 1887.

FOOT-BALL.

Highest score: England—17 goals to 0, Nottingham Foresters, match, Derbyshire, March 30, 1881. America: 158 points to 0, Harvard college, match with Exeter, Exeter, Mass., Nov. 3, 1886.

H. A. F. Chambe.s dribbled the ball around the hurdle forming the 120yds. hurdle course in 44⅘s., Finchley, Eng., May 18, 1878.

Place kick, with a run—*200ft. 8in., Wm. P. Chadwick, Exeter, N. H., Nov. 29, 1886. *187ft. 10in., R. Young, Glasgow, Scotland, July 2, 1881. 174ft., S. Pritchard, Brisbane, Australia, October, 1882; S. Brutton, aged 14 years, placed 13 goals out of 14 attempts, Leatherhead, Eng., March, 1884.

Drop kick—172ft. 8in., F. Hardgrave, Queen's Park, Brisbane, Australia, October, 1882. *161 ft. 9in., M. Cooper, Cambridge university, Cambridge, Eng., Nov. 21, 1881. *168ft 7½in., J. E. Duffy, Ann Arbor, Mich, May 22, 1886.

TYPE-WRITING.

Chas. H. McGurrin memorized sentences, 208 correct words in one minute before the London Press Club, London, Eng., on No. 2 Remington, Sept. 15, 1892.

John S. Cass, memorized sentences, 145 words in one minute; same, blindfolded, 136 words in one minute; new matter from dictator, 136 words per minute; on Remington typewriter; accurate work; at Illinois state fair, Peoria, Sept. 29, 1892.

Miss Mae E. Orr, writing five minutes each on legal testimony and ordinary correspondence, wrote 987 words, averaging nearly 99 words per minute—Toronto, Can., Aug. 13, 1888.

8,709 words in 1h. 30m.; 4,294, or 95.55 per minute from dictation, and 4,415, or 98.11 per minute, from copy, 45m. each; Frank E. McGurrin, Cincinnati, O., July 25, 1888.

SHORT-HAND.

Isaac S. Dement, writing one minute on new matter, at Clear Lake, Iowa, on July 22, 1890, 309 words and read his notes accurately.
Same conditions, at Dayton, Ohio, Aug. 26, 1890, 315 words.
In a private test at same place and same conditions, on Aug. 29, 1891, 347 words with perfect accuracy.
Same conditions, at Chicago, Oct. 4, 1891, 350 words.

BASE-BALL, 1892.

The National League and American Association of Base-Ball Clubs, including twelve clubs, was organized Dec. 15, 1891. It included Baltimore, Boston, Brooklyn, Chicago, Cincinnati, Cleveland, Louisville, Philadelphia, Pittsburg, New York, St. Louis and Washington, which are considered the best base-ball cities in the country. This organization virtually did away with the American Association, which had been in existence since 1882. The season was divided into two sections, the first extending from April 12 to July 15, the second from July 15 to Oct. 15, the winners of each section to play for the championship. The financial results of the season were disastrous, however, and many reductions in salaries were made. Following is a tabulated statement of the games for the season of 1892:

FIRST SEASON, APRIL 12 TO JULY 13.

	Boston.	Brooklyn.	Philadelphia.	Cincinnati.	Cleveland.	Pittsburg.	Washington.	Chicago.	New York.	St. Louis.	Louisville.	Baltimore	Games Won.	Per Cent.
Boston	..	4	3	4	4	5	4	5	5	3	5	5	52	.703
Brooklyn	3	..	3	4	4	3	5	5	4	3	3	5	47	.652

TRADE, COMMERCE AND MANUFACTURES IN 1892.

Following are brief reviews of the general conditions prevailing in various important lines of finance, trade, commerce and manufactures in 1892:

MONEY.

The year 1892 opened with money in good demand at full rates and gradually changed to an easier condition as spring approached. Increasing deposits and a lighter demand for loans during the summer months caused a decided falling off in rates and money ruled exceptionally low until the first of October, from which time until the close of the year an active market prevailed, at times almost approaching stringency. The situation indicated something more than a healthy reaction from the unwholesome plethora of midsummer. It was apparent that the failure of the international silver conference to reach any agreement as to a plan for the increased use of the white metal as money and the further depreciation of the price of silver bullion tended to promote a feeling of unrest in eastern financial circles. Heavy exportations of gold to Europe at a time when this country usually imports it caused some apprehension. No serious financial disturbance was looked for, a careful survey of the field leading to the conclusion that alarm was created by unscrupulous operators in stocks for the promotion of selfish ends, and that the effect of such really unfavorable conditions as existed had been discounted. With the opening of the new year there is every reason to look for an increase in bank deposits, an easier money market and renewed activity in all departments of business. Clearing-house returns show that for the year ended Sept. 30, 1892, the transactions at New York increased 6.5 per cent, at Boston 2.2 per cent and at Chicago 14.3. In total clearings for the period Chicago exceeded Boston by more than $58,000,000, ranking second only to New York.

GRAIN MARKETS.

The exports of wheat were not as enormous as in 1891, owing to the loss of the crop in some of the leading European countries in that year. But had it not been for the great movement of last year the exports from the Atlantic ports this year would have been considered very large. Speculation was more brisk than in 1891 and the firms engaged in this part of the business made money. Prices dropped steadily from the first of the year and wheat especially sold at a remarkably low price. A great portion of the crop of 1892 would not grade No. 2, or contract grade, in Chicago; the prices obtained for the next grade, or No. 3, were at a discount of from 5 to 13 cents a bushel. Chicago still holds the supremacy in the grain trade. Minneapolis, Duluth, St. Louis and other cities where receipts

of grain are large wait for Chicago quotations; so does Liverpoool. And it is likely this will continue to be the case on account of this city's superior water and railroad transportation facilities.

A new factor in the grain trade was Kansas No. 2 hard wheat. It never proved to be of much importance in Illinois, where it was grown years ago under the name of Turkish hard wheat, but it has flourished in Kansas to an unusual degree. In 1892 that state and Nebraska raised 80,000,000 bushels of a very choice quality of this wheat, ranging from sixty to sixty-five pounds to the bushel.

While it is unquestionably true that there is a tendency nowadays for business to drift into the larger and more powerful houses, at the same time it is a fact, especially in the grain trade, that a large percentage of each crop is handled by the smaller commission men in the various markets of the country.

The warehousemen years ago built their elevators at the primary grain centers and made ironclad contracts with railroad systems, so that grain had to be forced to their elevators and no others. Such a thing as competing for business was unknown. Now this is entirely changed. All the elevator systems are eagerly competing, which, of course, helps by far to swell the total volume of business.

PACKING.

Business in the packing line was good. The supply of hogs was short but that of beef cattle was very large. Our friendly relations with Germany and France, so far as the great American hog is concerned, still continue, but the short crop of grain in those countries in 1891 reduced the purchasing powers of consumers of American pork and to a certain degree prevented the enlargement of trade which was promised when our pork products were admitted into those countries. England has been a good customer and has taken a very large percentage of our products. Packers are heartily co-operating with the government in meat inspection and the result is the establishment of a higher standard for Chicago food products.

Perhaps to no particular item of the packing and provision industry has the last year been better than to the development of the "meat-extracts" feature of the business. This business is assuming large proportions. The goods turned out are superior to any in the world and this is speaking within bounds. According to chemical analyses made at various times meat extracts manufactured outside of the United States are short of the nourishing principle—the albuminoids. The reason for this is clear. The extracts are largely made in South America, where the temperature and degree of humidity are such that decomposition in the beef progresses so rapidly that it is in the beef before the first step in the operation of manufacturing the extract begins. To neutralize any harmful consequences to the extract that might come from decomposition in the raw material the extract is scorched. Thus, while the animal salts—the stimulating agent—remains the albuminoids are burned out and such beef extract is simply a stimulant and not both nourishing and stimulating, as is the product of Chicago, Omaha and other places where beef extract is prepared. American ingenuity has evolved a method for preparing beef extracts which is absolutely free from all dangers of decomposition and where perfect cleanliness, a necessity in the preparation, prevails. It is a common error that such extracts are used for medicinal purposes alone, but the last year has gone far to familiarize the public with the use of beef extracts for culinary purposes in the making of soup stocks, gravies, etc. The fact that large packing establishments are going largely into the manufacture of beef extracts is indicative of the tendency of the age to prepare food for the consumer in the most convenient and complete form, requiring the least amount of labor in preparing it at home for the table.

The manufacture of canned goods is increasing steadily and the growing demand shows the popularity of such goods. Methods employed in manufacturing these products are constantly being improved, to the betterment of the manufacturer, merchant and consumer.

Although the scarcity of hogs in some instances has brought about a reduction in the working forces of some establishments, the year has been one of continued pleasant and active co-operation between employers and employes, to the satisfaction of both.

LIVE STOCK.

The number of cattle received in Chicago in 1892 was about three million six hundred thousand head, or 330,000 head more than in 1891. The producers of cattle had a rather unfavorable year, as prices for feed during the greater part of the time were high, while the prices ruled low. Owing to the comparatively low prices current in 1890 and 1891 the desire to liquidate became general among owners of cattle. This state of affairs usually follows seasons of depression, causing discouragement on all sides, but it is believed that the end of this wholesale liquidation is not far away.

The year opened with enormous stocks of hog products and very low prices, with liberal receipts in sight for some months. Feed was comparatively high and as prices for hogs had been low for several years the farmers marketed their stock freely and many of them abandoned the business. The export demand under the new inspection law improved and prices advanced. The spring of 1892 was a very wet one and the mortality among pigs great. The rainfall also interfered largely with the planting and cultivation of corn and farmers figured that the crop would be short and therefore high in price. They had lost money the two preceding years by feeding high-priced corn to low-priced hogs and they set about to wean their pigs and fatten their old hogs thirty to sixty days earlier than usual. This caused large receipts during the latter part of the summer but the demand was urgent and prices advanced until the latter part of August, when the cholera scare in Europe caused a sharp break in prices. It was apparent at the opening of the packing season that the spring pig crop was short and that old hogs were comparatively scarce. In October the receipts showed a shortage of 25 per cent, in November 37 per cent and in December 30 per cent. Prices consequently again advanced until at the close of the year they averaged $2.50 to $2.75 a hundred higher than at the same time in 1891. The receipts of hogs in Chicago were about 7,730,000 head or 870,000 head less than in 1891.

The sheep market was well supplied, the receipts being about the same as in 1891, or 2,150,000 head. Prices averaged a little higher than those of 1891.

FLOUR.

The season started out with low-priced wheat, which enabled millers to produce flour at a reduction in price as compared with last year, so that jobbers were inclined to buy only as their immediate wants demanded, thereby saving themselves and making a more steady market. The increase in the consumption of flour is due largely to the low prices as compared with other food. Flour has actually been sold as low as potatoes, pound for pound.

The high price of fruit, vegetables and other foods has been a factor in increasing the volume of consumption. The poor man has been highly favored so far as flour is concerned; his bread, at least, has been assured.

Patent flours fell from $4.75 a barrel to $3.75, winter wheat flour from $4.25 to $3.25, rye flour from $4.80 to $2.90 and Red Dog, the lowest grade, from $2.25 to $1.25. On account of the light weight of the wheat of the crop of 1892 the millers have been obliged to use more wheat to produce a barrel of flour, thereby increasing the quantity of low-grade flour, and the depression has been more marked on the low than in the better grades because of the inability on the part of consumers in this country to dispose of the same except to exporters. The poor quality of wheat this year, there being but a comparatively small quantity produced that was sufficiently good to enter into the speculative grades, the fact that the demand was not sufficient to absorb the volume of the lower grades offered or thrust upon the market, and the further fact that the farmers were obliged to sell one-third more in bushels this year to produce the same amount of money as last year has enabled the millers to buy these lower grades of wheat and produce flour at a price below the usual standard as compared with the No. 2 wheat. And as the volume of wheat thrown upon the market increased buyers have been able to make their own prices, and offers to Europe have been on a constantly declining scale, until values have reached the lowest price ever known to the trade.

HORSES.

Chicago is becoming one of the best horse markets in the country. Buyers now come here from the east, west and south, from Mexico and from Europe, to secure farm mares, coach and driving horses and fancy teams. A great many western-branded horses were sold here in the course of the year. These horses were generally under 1,000 pounds and most of them not even halter-broken but they sold at prices varying from $30 to $50. Large barns for the exhibition and sale of horses were built at the Union stock yards and in the down-town district.

BOOTS AND SHOES.

Boot and shoe manufacturers and merchants had a prosperous and satisfactory year. Few failures occurred among retail shoe dealers and the majority of them paid their bills promptly. More congress or elastic-side shoes were sold than lace-ups or balmorals and button shoes. In Chicago, the west and northwest the production of boots and shoes increased rapidly during the last year. There are factories flourishing in Omaha, Denver, Salt Lake City, as well as in many small towns in Illinois, Wisconsin, Iowa, Minnesota, the Dakotas and Michigan where a few years ago it would have been thought unwise to start such enterprises. Chicago is turning out some of the finest and most artistic shoes made in this country; formerly the east monopolized this business. Many manufactured here sell at $1 to $1.50 wholesale—durable, solid, all-leather goods. The dollar shoe for men is very popular. The cost of the most expensive grade for men, such as patent leathers, does not exceed $4. A serviceable and fashionable calf shoe, containing the best material, can be had in quantities at $2 a pair. Shoes for women are principally made of goatskin or morocco; certain tannages of such skins now on the market may be boiled for half an hour in water without suffering damage. This may seem incredible but it is true. For school-children the cheap and reliable grain-leather shoes are as much in favor as ever.

LEATHER AND HIDES

Leather ruled lower in 1892 than ever before. The situation in sole leather became so serious last spring that the leading tanners in the east, where the red sides are produced in great quantities, carried out their agreement to refrain from putting hides into process for sixty days. This prudence resulted as desired—purchasers were stimulated to operate, surplus stocks diminished and prices steadied and strengthened. While 1892 was not a bonanza year by any means for the leather traffic, it might have been worse; the new year promises to yield a decided improvement. As to hides and skins, Chicago is the greatest market in the world for green-salted hides—the stock yards furnishing vast numbers of hides, taken off and cured in the best possible manner. Prices have ruled low, comparatively speaking.

Owing to free trade on foreign hides and skins Chicago tanners and others all over the country have been able to use hides and skins from Europe, Asia, South America, etc., in order to supply the demand for special leathers. This wide range of supplies is frequently of assistance to enterprising manufacturers. A hide "trust" is thus rendered impossible.

WOOL.

Low prices prevailed in the wool business during the year, the prospect of free-wool legislation being the main cause. This helped the eastern manufacturers, who bought cheap raw material and did not materially reduce their prices on the finished cloth. They made more money than the jobbers. Missouri, Wisconsin and Illinois unwashed wool sold at 22 cents to 25 cents a pound. Notwithstanding the low prices dealers handled more wool than ever before and on the whole had a prosperous year. As compared with 1891 the number of sheep in the country increased from 43,430,000 to 44,938,000; the United States clip increased from 307,401,507 pounds to 333,018,505 pounds. The total stock in the country is but 68,354,000 pounds domestic and 18,388,875 pounds foreign, against 78,991,400 pounds domestic and 21,154,866 pounds foreign Dec. 31, 1891. The consumption of all grades of wool by American mills shows an increase of 59,000,000 pounds over 1891.

GROCERIES.

During the first six months of 1892 the grocery business was unsatisfactory, owing to the heavy rains and consequent bad roads in the spring. In the latter half of the year trade was good. The demand was unusually heavy and merchants found it difficult to get goods shipped quickly enough. Collections were in the main satisfactory. The character of the goods handled by wholesale grocers in this part of the country is steadily improving in quality and variety. Many lines of fancy goods are now in demand, the west having developed a taste for high-grade groceries. This can be illustrated by the one article, cheese. The west is rapidly supplanting New York state in the marketing of fine cheese, not only in that territory naturally tributary to Chicago but in those sections of the country where, by reason of shorter freight hauls, New York should obtain the business. This is especially true of southern trade. One Chicago firm, which in 1891 sold but 7,000 boxes of fine cheese, sold 200,000 boxes in 1892. Chicago grocers have been extending their trade territory toward the east and now find a market for their wares even in the state of New York. This city is the greatest market for Japan teas in the country. New York still leads on green and black teas but Chicago is gaining on China teas. There has been an increase of at least 10 per cent in the wholesale grocery business

during the year and the outlook was never better. A large expansion of the volume of trade is looked for on account of the World's Fair.

PIG-IRON.

At the opening of 1892 the pig-iron market was reasonably active at what then seemed to be low prices, but almost steadily through the year, while the tonnage consumed was large, prices slowly declined and the year ended with the markets at as low prices as were ever known in the history of the trade. The encouraging feature was a continuance of consumption of a large tonnage and a fair outlook in that direction for the future. Though prices remain low, and they are likely to do so if the consumption keeps up, progressive manufacturers will be able to continue in the field. During the year several new industries were started in the Chicago district, and others are contemplated, all of which will add materially to the consumption of pig-iron here.

MINING MACHINERY.

There was some dullness in the iron-ore business in the Lake Superior district and the outlook for silver mines was poor, but with these exceptions the conditions governing the mining machinery trade were favorable. Prices were gradually scaled down, the large concerns increasing their output by reason of augmented facilities for manufacturing. In this connection it is interesting to note that the standardizing (making all parts interchangeable) of mining machinery by American makers is becoming so general that there is not a well-known maker of American mining machinery whose business is not conducted entirely on the interchangeable system. This has had the effect of wonderfully expanding the sales in foreign markets, because large consignments can be shipped with the certainty that breakages and wear can be readily repaired out of stock. Many types of heavy mining machinery in which the cost of the iron is the largest factor are now made near mining localities to lessen freight charges, and this practice is becoming more and more general. It naturally increases the manufacturing business in the west and northwest. Mining engineers and operators are exhibiting a great deal of interest in the use of electricity in mining operations and while the somewhat extravagant claims of oversanguine electricians have not been realized much improvement is noted. The limitations of the practical application of electrical power to mining operations are better understood and the directions in which it can be applied more fully appreciated.

HEAVY HARDWARE.

The heavy-hardware trade of the year was excellent. Merchants in this line of business attributed it to the results of the good crops of 1891 and 1892, which enabled the farmers to buy agricultural implements more freely than usual. There was also an increased call for iron for building construction and inside finish, such as grill and ornamental work in elevators and offices. So far as prices were concerned, the market for the year was a settled one. The Carnegie strike had something to do with this firmness but the general all-around demand had more to do with it.

Another cause of the year's prosperity was the shortage in freight cars. At no time did railroads have enough cars, and car-building consumed large quantities of metal. Naturally we came in for a good share of the demand thus caused for bar-iron, chains and other goods handled by heavy-hardware dealers and used in the manufacture of freight cars. One remarkable feature of 1892 was the general scarcity of stock. All mills were loaded up with orders and at the present time have not caught up with back orders. Another peculiarity of the year was the fact that each month showed a large increase over the corresponding month of the previous year, and there appears to be nothing in the way to stop this increasing trade. Generally a presidential year shows a decrease in business, but this has been an exceptional one, for instead of a shrinkage there has been an expansion in the heavy-hardware business, due to one thing at least—confidence. The wagon and vehicle trade was remarkably good. The abundant crops enabled farmers to replace their old wagons with new. Collections were good and few failures reported.

SHELF HARDWARE.

In shelf hardware the sales for the first nine or ten months of the year showed an increase, as compared with the same months last year. This increase was largely in builders' hardware, mechanics' tools, tinners' stock, nails and barbed wire. The explanation seems to be that many of the smaller towns in the great northwest are expanding into manufacturing centers. This has concentrated many mechanics and factory hands, which fact has necessitated the erection of many dwellings, and the sale of a large amount of hardware has been the result. Values averaged somewhat lower than in 1891. The greatest decline was in plain and barb wire and wire nails. Cut-steel nails declined but little. Certain lines of door-locks were higher in price. Tin-plate ruled about the same. The increase of sales of hardware in 1892 over 1891 was probably from 12 to 15 per cent.

ELECTRICAL APPLIANCES.

The general prosperity of the country resulted in the putting in of many new electric plants for lighting and power purposes, and old plants were increased. Manufacturers of dynamos and motors had more orders than they could fill and the same was true of dealers in electrical supplies. The consolidation of the Thomson-Houston and Edison General companies was, it is claimed, a boon to outside manufacturers and dealers in supplies, as it put a stop to the keen competition indulged in by them and extending not only to the larger kinds of machinery but to all the petty sundries which make up the supply man's stock in trade. The incandescent lamp is growing in favor and is freely used in private houses as well as in stores and offices. It is also in demand for illuminated signs and show-window decorations. Railway companies are also awakening to the benefits and possibilities of electric lighting and are using it for the illumination of yards and tracks. Motors of all styles and sizes were in demand. A 900-horse-power locomotive was built for a western road and in several factories electric motors were substituted for steam-power shafting. Bridges, passenger elevators and street cars are being operated more extensively than ever by electricity, and some progress has been made toward utilizing it for heating and cooking purposes.

BICYCLES.

The spring rains all but paralyzed the bicycle industry at the very time customers had to be found. This affected the retailer more directly than the jobber, for the reason that the output of the factory, if sold at all, is sold a month or two in advance of retail trade. The damper which the wretched spring of 1892 cast upon cycle dealers throughout the entire west left its record upon the sales books of every retail cycle dealer, and it was only the marvelous natural growth of the business that helped many a struggling agent out of

the mire. It is a curious fact that the retail trade was in a much healthier condition in November than in June. A few insecure concerns were drowned out by the high water of the early part of the year—a severe process but in the main beneficial to the trade at large. In the face of a year marred by a bad beginning the results of the traffic in Chicago were yet almost marvelous. There are in the neighborhood of seventy-five concerns in Chicago that deal in bicycles. This will include those who are and who are not exclusive dealers. Taking a list of about thirty dealers and makers and not counting those whose sales duplicate the sales of the original handlers, the total number of wheels either made or handled in Chicago for the year amounts to about 50,000. This will, of course, include all grades, from highest to lowest, and upon a fair average list price will represent a total purchase of nearly $4,000,000 on the part of the people who ride.

LUMBER.

Chicago is still the first lumber market in the world in all respects. The receipts here for the year aggregated 2,200,000,000 feet or about 50,000,000 more than ever before. The shipments amounted to 2,300,000,000 feet, leaving a shortage of between 60,000,000 and 100,000,000 feet. This shortage in stocks will have a tendency to continue the firmness existing throughout the year. Southern pine is receiving more attention from large lumber dealers than in former years and the hardwood interest has increased. It would appear on the surface that the phenomenal increase in the use of steel for wood in structural operations would have a depressing effect on the large timber market but this has not been the case. In the first place, mill construction with modern modifications is more popular than ever; and, again, the World's Fair has consumed a large amount of heavy timbers. As a matter of fact, the building of the World's Fair was a highly important factor in the year's business. The figures representing the large amount of lumber used there naturally went into the statistical department known as "city consumption," increasing the total very considerably.

LAKE MARINE.

The year's business on the lakes was only moderately satisfactory. Profits did not average much above 10 per cent on the capital invested. This was true of the larger class of steamers, and the sail fleet made an even poorer showing. Seamen's wages were higher than usual and there was more than the average number of storms, involving the loss of life and property and causing expensive delays. The business was in excess of any previous season of navigation on the lakes. That rates were not higher was due to the rapid increase of tonnage, which more than kept pace with the transportation demands. The year was a disappointment so far as the shipment of grain was concerned, prices at the east being unfavorable to a free movement. The shipments of lumber did not increase because the supply adjacent to the lakes is becoming exhausted.

COAL.

Owing to the operations of the Reading trust the price of hard coal was advanced even over the high figures of 1891. Efforts to break the eastern "combine" were fruitless. During 1892 41,000,000 gross tons of anthracite coal were mined and about 130,000,000 tons of soft coal. Western dealers suffered from the shortage of cars on the eastern lines and had difficulty in meeting the demands upon them.

FURNITURE.

Furniture manufacturers and dealers had a fairly good year. People bought a better class of goods—not ornamental or luxurious merely, but solid, substantial articles with worth and wear in them. The introduction of furniture into dry goods and apartment stores has not affected the legitimate furniture trade materially. It has some effect on the line of cheaper goods but the bulk of buyers want a variety to choose from.

GLASS.

The glass trade for 1892 was very large—much larger that in any previous year. This is true not of Chicago alone but of all the larger cities throughout the west and northwest. Prices were fair but profits were not what they should have been; in fact, they were relatively smaller than at any time during the preceding five years. This condition was the result of misunderstanding and dissension among the manufacturers. For instance, the window-glass manufacturers, who had agreed to shut down during June, changed their minds and worked the extra month, overstocking the market and injuring the trade. The jobbing trade of Chicago amounted to about $5,000,000. There was a tremendous increase in the demand for first-class building glass. In Chicago the new buildings are planned with a view to more light and less dead wall. An immense quantity of cheap glass has been sold by city jobbers to the Exposition contractors, but this has not amounted in value to what would be used in the construction of three modern office buildings down-town. Fancy, decorated and cathedral glass was in good demand during the year, but the bulk of the increase was in plate and building glass.

RAILROADS.

Railroad earnings on through and local freights showed a satisfactory increase. Travel during the year maintained about an equal proportion in both directions, but there was a heavier west-bound freight business than usual. The car famine in the western and northwestern states only temporarily embarrassed railroads. It is well known that there are times of sudden demand for freight cars by shippers anxious to realize on a rising market which would tax more than the full capacity of all the roads. As a matter of fact, business was exceedingly well handled by all lines, probably with as little complaint as in any year that preceded it.

DRY GOODS.

The year was one of the most satisfactory wholesale dry-goods merchants have had for some *time*. The principal cause was the abundant crops of 1891, the results of which were felt the following spring. Having raised a large crop and realized larger prices merchants came into the market freer of debt than usual and with a feeling of confidence in the future prosperity of the country. The only damaging features were the heavy floods of the late spring, which caused merchants to buy their fall goods somewhat later than is customary.

So much for the demand. As for the supply of merchandise for the first year, in many places the cotton machinery has not been large enough to easily gratify the wants of the people. On account of the small profits made three and four years ago and the panic of two years ago few mills have been built, while the country has been steadily growing.

Print cloths, which may be accepted as a "market barometer," have risen from 3 cents a year ago to 4 1-16 cents, an advance of almost 40 per cent. Cotton goods in general have risen almost 10 per cent. Most of this increase has been during the last sixty days, when the people discovered that not only was there a short supply of cotton goods but the cotton crop was at least 2,500,000 bales short

of the crop last year. The increased demand and the short supply have enabled jobbers to do a business on a rising market, and, further, with an increase of business, two factors that made the year what it has been.

The general prosperity of the country made collections much better. In this connection there has been a tendency among all jobbers to sell on short time and to restrict dating. This has always been the policy of the Chicago jobbers, and in July of this year the New York jobbers united in following the sound business principles established by Chicago merchants.

RETAIL CLOTHING.

In the clothing trade the sales were far in excess of those of 1891. The demand was for the better grade of goods and prices were firm. In Chicago especially business in this line was good and merchants here look forward to still better times next year.

MILLINERY.

In the millinery trade business was profitable and encouraging. The jobbing business of Chicago approximated $7,000,000 and most of the houses here made money. One concern failed but two new establishments entered the field. Expensive novelties in the way of gilts, laces and straw braids are on the programme for 1893 and jobbing houses look for increased sales and higher prices.

MEN'S FURNISHING GOODS.

Dealers in men's linen collars, cuffs and shirts agree in saying that the year 1892 showed an increase in sales of fully 20 per cent. Collections were good and general results most satisfactory.

About nine-tenths of all the collars and cuffs made in the United States are the products of Troy factories, of which the daily output is 17,000 dozens, requiring, to produce, the labor of 11,000 persons. Prior to 1876 the dealer in men's furnishing goods in this city and the west obtained his supply of collars and cuffs directly from Troy or from the Chicago jobber. In the fall of that year one of Troy's oldest manufacturers established a salesroom here and from this point sent travelers throughout the western country. Other firms soon followed this example and to-day ten of Troy's largest firms have salesrooms in the World's-Fair city.

It is not many years ago that a salesman carrying only men's linen collars and cuffs was regarded as a commercial curiosity and was asked frequently if he expected to make a living on that line alone. In those days an order for thirty dozens of collars was more of a wonder than a 500-dozen order is to-day. In Chicago there are salesrooms that have stocks of collars and cuffs ranging from 5,000 to 60,000 dozens. One Troy firm, through its Chicago salesroom, has increased its business from $30,000 for its first year to $600,000 for 1892. What has been said of the growth of the linen collar-and-cuff business in Chicago applies with equal force to the shirt business. In this industry, however, no particular city can claim a monopoly of manufacture; yet Troy, no doubt, produces more shirts than any other city, its daily output being 2,000 dozens, giving employment to about six thousand people.

CARPETS AND RUGS.

Prices for nearly all grades of carpets were higher in 1892 than in 1891. The cholera epidemic in Europe, which prevented the importation of the coarse Russian wool so much used, has raised prices for woolen carpets fully 5 per cent. In the cheaper grades there has been an advance of almost one-tenth, due to the expected shortage in next year's crop of cotton. The McKinley law has also been instrumental in causing part of the fluctuations. Its first effect was a general rise in all the prices but they have now fallen back to their former relative positions. It has also had the effect of greatly enlarging the sale of home-made goods at the expense of imported European grades. There has been one marked change in the demands of the public. The advent of polished hardwood floors has made rugs of all descriptions far more popular than carpets. The higher grades of oriental rugs have sold at prices that are simply surprising. The limited supply and the wide and constant demand has made it possible to secure almost any amount of money for a fine specimen.

FURS.

The fur season was one of prosperity. The year's business showed an increase of more than a third over that of 1891. There were no marked fluctuations in prices. Contrary to all expectations, the sale of sealskins began with remarkable firmness and continued increasing until it had gone far beyond the records of previous years. Goods cut to order advanced in price while ready-made garments declined, owing to competition with the big department stores.

JEWELRY.

During the year 1892 the demand for fine jewelry has grown in a greater degree than in any other year in the last decade. By fine is not meant extraordinarily costly or elaborate ornaments, but artistically designed jewelry wrought by the best workmen and exquisitely finished. A striking illustration of the tendency of buyers toward the purely artistic and away from the sham and pinchbeck is the largely increased demand for the semi-precious stones, such as the garnet, cat's-eye, topaz and amethyst. In silver trinkets and toilet articles there has been a strong inclination toward the more chaste and finely finished designs, and a decided increase in the demand for "sterling." The growing appreciation of good designing and excellent manufacture has stimulated producers to add a great deal to the stock of table silver, many of the old pieces being shown in novel shapes of exceeding beauty and several new utensils being put forward. Silver for men's jewelry has grown in popularity during the year, especially for business and outing wear, while unbounded popularity has been enjoyed by the trinkets of silver designed to be carried in the masculine pockets, and which now include almost everything a man can carry about with him, from nail files to match-boxes, from mustache combs to fountain pens.

Financially last year was very satisfactory. Sales of jewelry and kindred goods were without doubt larger than ever before. And while receipts increased the number of items increased still more, showing a greater number of buyers. The late winter and early spring business was heavy, but the rainy days of May and June caused a great decrease in receipts. The autumn trade was fair and the holiday business exceedingly heavy, although the Christmas shoppers as a rule did not begin to buy until late and the bulk of the sales were compressed into the week before Christmas.

MUSICAL INSTRUMENTS.

The sales of musical instruments and musical merchandise in Chicago last year aggregated between $12,000,000 and $13,000,000, and of that amount of business three houses do fully one-half, which will exceed on an average $2,000,000 each. No single musical instrument establishment outside of Chicago in the United States does a business of $2,000,000, so that Chicago is unique in this respect. Chicago and vicinity makes as many organs as all the rest of the country combined and has about fifteen piano factories, large and

small. In its output of pianos it is only exceeded by New York and Boston, and the industry in Chicago is still in its infancy. Chicago also has the largest factory in the United States for making string instruments and, to complete the list, Chicago has the largest general musical house in the world. Such facts as these may appear incredible to one unacquainted with Chicago progress but they are facts.

STATIONERY.

In spite of many drawbacks the last year in all branches of the stationery and lithographing business has seen an almost unprecedented growth. It may be safely stated that the proportion of increase in the volume of business will exceed 25 per cent. Much of this has undoubtedly come through the stimulating effects of the World's Fair. Merchants, real-estate men men, promoters and railroad companies have been preparing special advertisements for next year. Nothing but the very best materials has been ordered and for beauty of design and execution the lithographing and printing to be used for attracting the World's Fair business has never been excelled. This demand for beautiful advertising novelties has also had the effect of promoting a more active trade in the higher grades of goods—better letter heads, finer engravings and more expensive blank books. The price of high-class goods advanced materially—in some cases as much as 10 per cent. The cheaper grades held firmer, with but a slight rise, in sympathy with goods of a finer quality. The fluctuation was due almost entirely to the cholera scare. Nearly all the paper mills in the east use foreign rags, especially for the more expensive grades. As soon as the government prevented importation from continental Europe the price of paper went up.

BOOKS AND ART GOODS.

The demand for books, pictures and all kinds of art goods was greater than in 1891. This was due chiefly to the prosperous condition of the country generally and the advancement of the people in taste and culture. Prices remained about the same. Chicago is the head center for encyclopedias and according to statistics over 90 per cent of all the sales made in America of encyclopedias are issued from a Chicago house. The Werner company, which is the head of the R. S. Peale company; Belford-Clarke company, Werner Printing and Lithographing company, People's Publishing company and the Webster's Dictionary company turn out annually over two million volumes of encyclopedias.

JOB PRINTING.

In the job-printing line the year was a prosperous one, particularly in Chicago, where the demand exceeded the capacity of the offices. Many establishments had to run overtime and as a consequence prices were good. Printers attribute this condition of things to the general prosperity of the country and to demand for World's-Fair advertising of all kinds. There were no serious labor troubles. Press-feeders asked and were granted an advance of 25 cents a day and the price of piece composition was advanced 10 per cent. A feature of the year in Chicago was the movement toward fine book printing. As good work can be done by some of the plants recently established here as by the best presses of New York and Boston.

CIGARS AND TOBACCO.

Throughout the United States the cigar industry has prospered. The report of Internal Revenue Commissioner Mason shows that there has been an increase of nearly 74,000,000 in the number of cigars manufactured and of 13,600,000 pounds in the quantity of smoking and chewing tobacco produced during the fiscal year. In Chicago manufacturers, jobbers and retailers of cigars and tobacco have shared, with the remainder of the mercantile community, the general prosperity. In 1892 the cigar-manufacturing industry here has progressed with unusually rapid strides, until from a comparatively unimportant position this district has become the third largest in the United States in production. During the last fiscal year 187,612,000 cigars were made here. Most especially has the growth become apparent in the manufacture of fine clear Havana cigars and several large plants are now producing cigars made of Havana tobacco which are equal to any made elsewhere. Consumers can buy cigars made in Chicago which are sold as high as $30 per 100.

LIMIT OF PERPETUAL SNOW AND GROWTH OF TREES.

On the Andes, in latitude 2 degrees, the limit of perpetual snow is 14,760 feet. In Mexico, latitude 19 degrees, the limit is 13,800 feet; on the peak of Teneriffe, 11,454 feet; on Mount Etna, 9,000 feet; on the Caucasus, 9,900 feet; on the Pyrenees, 8,400 feet; in Lapland, 3,100 feet; in Iceland, 2,890 feet.

The walnut ceases to grow at an elevation of 3,600 feet; the yellow pine at 6,200 feet; the ash at 4,800 feet, and the fir at 6,700 feet. The loftiest inhabited spot on the globe is the Port House of Ancomarca, on the Andes, in Peru, 16,000 feet above the level of the sea. The fourteenth peak of the Himalayas, in Asia, 25,695 feet high, is the loftiest mountain in the world.

PRESIDENTIAL VOTES. 1828--1892.

COINAGE IN 1892.

The coinage of the mints during the fiscal year 1892 aggregated 113,556,124 pieces, valued as follows:

Gold	$35,506,987.50
Silver	8,329,467.00
Subsidiary silver	6,659,811.60
Minor coins	1,296,710.42
Total	51,792,976.52

POPULAR VOTE

For presidential candidates from 1824 to and including 1892. Prior to 1824 electors were chosen by the legislatures of the different states.

1824—J. Q. Adams had 105,321 to 155,872 for Jackson, 44,282 for Crawford, and 46,587 for Clay. Jackson over Adams, 50.551. Adams less than combined vote of others, 140,869. Of the whole vote Adams had 29.92 per cent, Jackson 44.27, Clay 13.23, Crawford 13.23. Adams elected by House of Representatives.

1828—Jackson had 647,231 to 509,097 for J. Q. Adams. Jackson's majority, 138,134. Of the whole vote Jackson had 55.97 per cent, Adams 44.03.

1832—Jackson had 687,502 to 530,189 for Clay, and 33,108 for Floyd and Wirt combined. Jackson's majority, 124,205. Of the whole vote Jackson had 54.96 per cent, Clay 42.39, and the others combined 2.65.

1836—Van Buren had 761,549 to 736,656, the combined vote for Harrison, White, Webster, and Maguin. Van Buren's majority, 24,893. Of the whole vote Van Buren had 50.83 per cent, and the others combined 49.17.

1840—Harrison had 1,275,017 to 1,128,702 for Van Buren, and 7,059 for Birney. Harrison's majority, 139,256. Of the whole vote Harrison had 52.89 per cent, Van Buren 46.82, and Birney .29.

1844—Polk had 1,337,243 to 1,299,068 for Clay and 62,300 for Birney. Polk over Clay, 38,175. Polk less than others combined, 24,125. Of the whole vote Polk had 49.55 per cent, Clay 48.14, and Birney 2.21.

1848—Taylor had 1,360,101 to 1,220,544 for Cass, and 291,263 for Van Buren. Taylor over Cass, 139,577. Taylor less than others combined, 151,706. Of the whole vote Taylor had 47.36 per cent, Cass 42.50, and Van Buren 10.14.

1852—Pierce had 1,601,474 to 1,386,578 for Scott, and 156,149 for Hale. Pierce over all, 58,747. Of the whole vote Pierce had 50.90 per cent, Scott 44.10, and Hale 4.97.

1856—Buchanan had 1,838,169 to 1,341,264 for Fremont, and 874,534 for Fillmore. Buchanan over Fremont, 496,905. Buchanan less than combined vote of others, 377,629. Of the whole vote Buchanan had 45.34 per cent, Fremont 33.09, and Fillmore 21.57.

1860—Lincoln had 1,866,352 to 1,375,157 for Douglas, 845,763 for Breckinridge, and 589,581 for Bell. Lincoln over Breckinridge, 491,195. Lincoln less than Douglas and Breckinridge combined, 354,568. Lincoln less than combined vote of all others, 944,149. Of the whole vote Lincoln had 39.91 per cent, Douglas 29.40, Breckinridge 18.08, and Bell 12.61.

1864—Lincoln had 2,216,067 to 1,808,725 for McClellan (eleven states not voting, viz.: Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas, and Virgina). Lincoln's majority, 408,342. Of the whole vote Lincoln had 55.06 per cent and McClellan 44.94.

1868—Grant had 3,015,071 to 2,709,613 for Seymour (three states not voting, viz.: Mississippi, Texas and Virginia). Grant's majority, 305,458. Of the whole vote Grant had 52.67 per cent and Seymour 47.33.

1872—Grant had 3,597,070 to 2,834,079 for Greeley, 29,408 for O'Conor and 5,608 for Black. Grant's majority, 725,975. Of the whole vote Grant had 55.63 per cent, Greeley 43.83, O'Conor .15, Black .09.

1876—Hayes had 4,033,950 to 4,284,885 for Tilden, 81,740 for Cooper, 9,522 for Smith, and 2,636 scattering. Tilden's majority over Hayes, 250,935. Tilden's majority of the entire vote cast, 157,057. Hayes less than the combined vote of others, 344,833. Of the whole vote cast Hayes had 47.95 per cent, Tilden 50.94, Cooper .97, Smith .11, scattering .03.

1880—Garfield had 4,449,053 to 4,442,035 for Hancock, 307,306 for Weaver, and 12,576 scattering. Garfield over Hancock, 7,018. Garfield less than the combined vote for others, 313,864. Of the popular vote Garfield had 48.26 per cent, Hancock 48.25, Weaver 3.33, scattering .15.

1884—Cleveland had 4,874,986 to 4,851,981 for Blaine, 150,369 for St. John, 173,370 for Butler. Cleveland had over Blaine 23,005. Cleveland had 48.48 per cent, Blaine 48.22, St. John 1.49, Butler 1.74.

1888—Harrison had 5,441,902 to 5,538,560 for Cleveland, 249,957 for Fisk, 147,521 for Streeter, 3,073 for Cowdrey, 1,591 for Curtis, and 9,845 scattering. Harrison had 96,658 less than Cleveland. Of the whole vote Harrison had 47.83 per cent, Cleveland 48.63 per cent, Fisk 2.21 per cent, and Streeter 1.30 per cent.

1892—Cleveland had 5,556,562 to 5,162,874 for Harrison, 264,066 for Bidwell, 1,055,424 for Weaver and 22,613 for Wing. Of the whole vote Cleveland had 45.73 percentum, Harrison 42.49 percentum, Bidwell 2.17 percentum and Weaver 8.67 percentum.

Of the presidents, Adams, Federalist; Polk, Buchanan, and Cleveland, Democrats; Taylor, Whig; Lincoln, Hayes, Garfield, and Harrison, Republicans, did not, when elected, receive a majority of the popular vote. The highest percentage of popular vote received by any President was 55.97 for Jackson, Democrat, in 1828, and the lowest 39.91 for Lincoln, Republican, in 1860; Harrison, Republican, next lowest, with 47.83. Hayes and Harrison, with the exception of John Quincy Adams, who was chosen by the house of representatives, were the only Presidents ever elected who did not have a majority over their principal competitors, and Tilden and Cleveland the only defeated candidates who had a majority over the President-elect.

RATES OF POSTAGE.

LETTERS.—Prepaid by stamps, 2 cents each ounce or fraction thereof to all parts of the United States and Canada; forwarded to another postoffice without charge on request of the person addressed; if not called for, returned to the writer free, if indorsed with that request. If the stamp is omitted the letter is forwarded to the Dead-Letter office and returned to the writer. For registering letters the charge is 10 cents additional. Drop letters at letter-carrier offices, 2 cents per ounce or fraction thereof; at other offices, 1 cent per ounce or fraction thereof. On insufficiently prepaid matter mailed in Canada, 3 cents per ½ ounce or fraction thereof. Stamped postal cards, furnished only by government, 1 cent each; if anything except a printed address slip is pasted on a postal card, or anything but the address written on the face, letter postage is charged. Postage on all newspapers and periodicals sent from newspaper offices to any part of the United States, to regular subscribers, must be paid in advance at the office of mailing.

SECOND-CLASS MATTER. — Periodicals issued at regular intervals, at least four times a year, and having a regular list of subscribers, with supplement, sample copies, 1 cent a pound; periodicals, other than weekly, if delivered by letter-carrier, 1 cent each; if over 2 ounces, 2 cents each. When sent by other than publishers, for 4 ounces or less, 1 cent.

THIRD-CLASS MATTER (not exceeding 4 pounds). — Printed matter, books, proof-

sheets, corrected or uncorrected, unsealed circulars, inclosed so as to admit of easy inspection without cutting cords or wrappers, 1 cent for each 2 ounces.

FOURTH-CLASS MATTER.—Not exceeding 4 pounds, embracing merchandise and samples, excluding liquids, poisons, greasy, inflammable, or explosive articles, live animals, insects, etc., 1 cent an ounce. Postage to Canada and British North American states, 2 cents per ounce; must be prepaid; otherwise, 6 cents.

POSTAGE RATES TO FOREIGN COUNTRIES.—To the countries and colonies which, with the United States, comprise the Universal Postal Union, the rates of postage are as follows: Letters, per 15 grams (½ ounce), prepayment optional, 5 cents; postal cards, each, 2 cents; newspapers and other printed matter, per 2 ounces, 1 cent. Commercial papers—First 10 ounces or fraction thereof, 5 cents; every additional 2 ounces, 1 cent. Samples of merchandise—First 4 ounces, 2 cents; every additional 2 ounces, 1 cent. Registration fee on letters or other articles, 10 cents. All correspondence other than letters must be prepaid at least partially.

Printed matter other than books received in the mails from abroad under the provisions of postal treaties or conventions is free from customs duty.

Dutiable books forwarded to the United States from the Postal Union are delivered to addresses at postoffices of destination upon payment of the duties levied thereon.

POSTAL MONEY ORDERS.—The limit of a single money order is $100, instead of $50, as formerly. The fees charged are as follows:

For orders not exceeding $10..... 8c
For orders from $10 to $15.....10c
For orders from $15 to $30.....15c
For orders from $30 to $40.....20c
For orders from $40 to $50.....25c
For orders from $50 to $60.....30c
For orders from $60 to $70.....35c
For orders from $70 to $80.....40c
For orders from $80 to $100.....45c

To Switzerland, Germany, Belgium, Portugal, Canada, Newfoundland, Italy, France, Algeria, New South Wales, Victoria, Tasmania, New Zealand, Jamaica: Fees, for not exceeding $10, 15 cents; $10 to $20, 30 cents; $20 to $30, 45 cents; $30 to $40, 60 cents; $40 to $50, 75 cents. To Great Britain and Ireland and adjacent islands: Fees, for not exceeding $10, 25 cents; $10 to $20, 50 cents; $20 to $30, 70 cents; $30 to $40, 85 cents; $40 to $50, $1. To British India: Fees, for sums not exceeding $10, 35 cents; not exceeding $20, 70 cents; not exceeding $30, $1; not exceeding $40, $1.25; not exceeding $50, $1.50.

Appended are brief descriptions of notable buildings begun or projected in Chicago in 1892:

PUBLIC LIBRARY.

On July 28 work was begun on the foundations for the new public library building to occupy Dearborn park. This is to be a massive structure of the Roman classic style of architecture, with the principal facade extending 400 feet on Michigan avenue. The Randolph and Washington street sides will each be 140 feet long and the height of the building 90 feet. The main entrance will be on Washington street through an imposing arched opening having a depth of eight feet. The Randolph street entrance will be less elaborate. The exterior is to be of blue Bedford stone, finely dressed, excepting the water table, which will be of granite. Ionic columns will form the colonnade, which will be surmounted by a frieze, on which are to be chiseled the names of famous writers. The floor of the entrance and corridors will be of marble mosaic, and marble is also to be used in the walls of the main vestibules and in the staircases. The ceiling will be of a light, cream-colored terra-cotta. Around the delivery-room there will be a marble wainscoting 11 feet 6 inches high, and above it will be a low elliptical dome serving as a skylight. The large reading-room will have a marble base, and the wall surfaces, treated in the form of pilasters, will be in light-colored terra-cotta, with a modeled frieze and enriched ceiling of terra-cotta. The reference-room will have substantially the same treatment. The walls of the stock-room will be of white enameled brick and the floor of unglazed tile. The patent record, public document, bound newspaper and other rooms of that class will be on the ground floor, and the librarian's, secretary's, registry and directors' rooms on the main floor. Masonry piers and arches will be used in construction as far as possible and girders will be placed only where it is absolutely necessary. Heavy walls will divide the building into four sections. The cost of the building without machinery or fixtures is estimated at $1,250,000. To put it into complete order for use will require a total expenditure of about $1,800,000. Shepley, Rutan & Coolidge of Chicago and Boston are the architects.

ILLINOIS CENTRAL STATION.

Work on the new Illinois Central passenger station was begun in March and at the close of the year the structure was half completed. It stands on Park row, facing the south side of the Lake-Front park and having a frontage of 80 feet. The office part of the building is seven stories high and surmounted by a fine clock tower, while the iron train shed is 600 feet long and 150 feet wide. The exterior design is massive, the main feature being the thirty-six-foot arch over the driveway from Park row into the large covered court. Liberal provision has been made for the ingress and egress of both suburban and regular passengers. The principal ticket office is on the street level and the train platforms may be reached by means of subways without going up-stairs into the waiting-rooms, which are located above the tracks in a wing of the building. Private waiting-rooms for ladies, a smoking-room for men, a lunch-room and restaurant and all other conveniences are provided for. The rotunda or main waiting-room is 100 feet in width by 150 in length, with a fine circular dome. It is the largest in the city. The building is designed to be fire-proof. The first three stories of the part facing Park row are of dark speckled granite and the superstructure is of buff speckled brick. The roofs are covered with dark Spanish tile. In the clock tower are fire-proof storage vaults. The interior will be finished in a style to correspond with the magnificent exterior, marble, iron and hard woods being liberally used. The cost of the building is placed at $1,000,000. It was designed by Bradford L. Gilbert of New York, who has made the architecture of railroad stations a special study for many years.

ART INSTITUTE.

The new Art Institute building, designed by Shepley, Rutan & Coolidge of Boston, has a frontage of 320 feet on Michigan avenue, with the main entrance opposite Adams street. It extends backward from 175 to 208 feet, with a large court at the back, but in the main having the form of a parallelogram. The base of the building is rusticated as far as the top of the first floor. Above this is a plain band of chiseled stone surmounted by panels filled with sculptures. Above these panels is an entablature and cornice richly decorated, the effect of which is highly increased by the plain surface below. The roof is of copper and glass. The main entrance and the entrance hall are finished in marble and mosaic. The two galleries are entered through arch openings on either side of the entrance hall. One of the galleries is designed for plaster casts, sculptures, busts and models and the other, which is lighted by skylights from above, for pictures. The interior walls are of hollow brick planked and covered with maroon cloth. The main galleries are twenty-seven feet wide and the second galleries twelve feet. The main staircase is directly in front as the visitor enters. On one side is a lecture-room capable of seating 1,000 persons, and on the other is a reference library room. The building, which is lighted by electricity, is constructed of stone, iron and brick, and is fire-proof. Its total cost is about $800,000.

MEDINAH TEMPLE.

Work on the Medinah Temple building, on the northeast corner of Jackson street and 5th avenue, was begun in December, the old buildings on the site having been removed. The structure, according to the plans of Beers, Clay & Dutton, the architects, will have a frontage of 115 feet on Jackson street, 110 feet on 5th avenue, and will be twelve stories high, entirely fire-proof throughout, with a skeleton steel and iron construction encased with a rich yellow pressed brick and terra-cotta. The style of architecture is Spanish-Moresque. The first and second stories will be used for stores and shops; the next eight stories are designed for manufacturers' agents, the location in the vicinity of the great wholesale district being most suitable for this purpose, the eleventh and twelfth stories will be occupied by the secret order from which the temple gets its name, and will contain a complete and carefully studied arrangement of rooms especially adapted to their purposes and finished in the most elaborate manner. The building is projected by the Medinah company, of which Messrs. May, Stiles, Luce, Eddy and Powell are among the leading spirits. The cost of the structure when completed will be in the neighborhood of $500,000.

CRIMINAL COURT

The corner-stone of the new Criminal Court building was laid on Oct 15. The structure covers an area having a frontage of 204 feet on Michigan street and 75 feet on Dearborn avenue. It rests on a foundation of Streesville cement and is seven stories high. The first two stories are faced with blue Bedford stone, while the remaining five stories are buff in color and of the same material, all rock-faced and laid in 10 by 12 inch courses. The main entrance is through a twenty-foot, massive archway extending through two stories and elaborately carved. The interior is constructed of steel beams and tile archways and partitions, supported and incased by columns finished in scagliola, treated to represent marble. All corridors are finished in mosaic and wainscoted with selected marbles. Three general passenger elevators and one private elevator for prisoners are provided. In the basement are a battery of five boilers, engine and dynamo rooms and two large storage vaults. On the first floor are the rooms of the state's attorney, clerk of the Criminal court and sheriff's officers, all having large vaults. The five upper floors are divided into ten court-rooms, each about forty-eight feet square, with light and air from two sides. There are also thirteen jury rooms, ten waiting-rooms, ten judges' rooms, ten clerks' rooms and ten large vaults, besides twelve large offices for various purposes. The grand-jury room and ante-rooms for witnesses are on the top floor. The cost of the building is $450,000. Otto H. Matz is the architect.

Y. M. C. A. BUILDING.

The new home of the Young Men's Christian association of Chicago is a handsome thirteen-story building having a frontage of 54 feet on LaSalle street and extending back 154 feet on Arcade court. It covers the ground occupied by the old Farwell hall and the building on the Andrews property. The LaSalle street facade terminates in a stunted quadrangular spire with turrets on each of the four corners. The first three stories are of heavy granite blocks, with large arched windows. The iron framework of the rest of the structure is covered with terra-cotta. The six stories above the first three have each two triple groups of windows on each side of the tower. The tenth story is treated separately, and in the remaining three the masonry is diversified and enriched. The main entrance occupies the northern half of the front on the ground floor. The south half of the LaSalle street front is planned for a bank. In the rear of this is a swimming tank, 22 by 71 feet, which will take up the ground floor and the basement. Around the natatorium are a bowling alley, engines, electric plants and elevator machinery. The reading-rooms of the association are on the second floor, together with the reception-rooms and offices. On this floor is also the hall for the noonday prayer-meeting, with a seating capacity of 250, and behind it is the main auditorium, which, including the gallery, accommodates 1,000 persons. The entrance to this hall for members is on the second floor and for the public is through wide doorways on Arcade court. The third floor is also occupied by the association, the rear part being taken up with the balcony of the auditorium. On the fourth floor are thirty-five bath-rooms, dressing-rooms and a large number of locker-rooms. The gymnasium occupies the fifth and sixth floors and is provided with a twenty-lap running track. The offices of the general board of the association and classrooms take up the seventh floor. The remainder of the building is devoted to offices. The cost of the structure, which is fire-proof, is $800,000. Jenney & Mundie are the architects.

MONADNOCK EXTENSION.

The new portion of the Monadnock block, extending from the present structure south to Van Buren street, occupies a lot 68 feet wide by 200 feet long, fronting on Dearborn street, Custom House place and Van Buren street. The building connects with the Monadnock by means of hallways and is virtually a part of it. The structure is separated into two sections by a division wall 100 feet north of Van Buren street, each section having independent elevators, steam plant, water service and other appliances, but all appointments are connected so that one division may be operated by the apparatus of the other section if so desired. The building is sixteen stories high, with basement and attic, all finished throughout. The cornice line of the new structure is level with the cornice line of the older portion of the block. The basement is 8 feet 6 inches high, the first story 10 feet 8 inches, the second and third 11 feet 10 inches and the other stories from the fourth up are 10 feet 4 inches each. These measurements are in the clear between floor and ceiling lines. The building is completely fire-proof, with foundations arranged on the isolated plan, each pier and column having an independent footing resting upon the firm clay at about fourteen feet below inside grade. The lower course of the foundation consists of a layer of concrete about two feet thick on which rests a course of steel "I" beams, filled in between beams and over the same with concrete. On this course of beams is another course of steel "I" beams laid at right angles to the lower course, which is also filled in with concrete. Resting on the upper course of beams are plates of cast-iron supporting the columns and piers of the building. The outside piers of the north half of the structure are entirely of masonry and carry the whole external construction. The space between the external piers in both sections is supported by means of steel beams carrying the entire brick facing, windows, terra-cotta, etc. All columns surmounted by masonry are independently fire-proof with fire-clay hollow tile, securely attached and so arranged that, should the brick facing be removed, all steel and iron work will be independently protected with fire-proofing. All columns on the inside of the north section and all external and inside columns of the south section of the building are of mild steel

of the shape known as "Z-bar columns," thoroughly riveted throughout. These columns are firmly riveted together at each floor, and so arranged that the "I" beams of the floors, together with the columns, form practically a bridge construction, which is further reinforced by means of wind-braces in each division, extending from wall to wall through the building and from the basement to the roof space. The piers of the north section of the building are laid up in extra hard fire-clay brick, with Portland cement mortar, and are self-supporting. They also carry the loads between piers throughout the walls of this section of the building. The outside covering consists of terra-cotta in the first, second and third stories, inclusive, incasing the columns, piers and spaces between the windows. There are also terra-cotta bands at the window heads, and terra-cotta sill courses throughout the rest of the building, and the cornice and attic story are practically all terra-cotta. The remainder of the external columns are of brown pressed brick to correspond with the first-constructed part of the block in color. The design of the building has, however, been materially changed. The floor construction consists of hollow tile arches supported by the "I" beams of the steel floor construction. All tile arches are so arranged that the under side of beams is thoroughly protected with fire-proof material. In fact, all columns, lugs of columns, braces, ties, wind-braces, etc., throughout the entire construction, from basement to roof, inclusive, are covered with fire-proof material. The partitions are of porous hollow tile, ranging from three to five inches in thickness, according to the situation. The halls throughout the building have mosaic floors and Italian marble wainscoting. The first-story entrances and the main corridors of both sections of the building are ceiled overhead and on the side walls with paneled Italian marble and have floors of specially designed mosaic. The inside woodwork throughout is of red oak highly finished. The glass for the outside is of polished plate, and inside double chipped plate glass is used in all corridors and corridor door lights. There are four hydraulic elevators in each section, running from the first story to the attic space. The cars are of aluminum, and the elevator inclosures of the first story are of the same material. All work is hand-chased and finely finished. The remainder of the elevator inclosures, from the second story up, is of wrought iron, Bower-Barffed in finish. The steam plant for each section is complete in itself, and consists of boilers in the basement with the most approved direct steam-heating apparatus arranged in the one-pipe overhead system. The sections are connected with each other and also with the older part of the building, so that any section or sections may be run with any bank of boilers. Toilet-rooms finished in marble and supplied with the most improved sanitary devices are located on the eighth and sixteenth floors. The toilet-room on the top floor is lighted by means of a skylight, and has in connection with it a complete barber-shop. At the end of the year the work on the extension of the Monadnock block was fairly under way, about one-third of the construction being completed. The building, the cost of which is about $1,000,000, is the property of the Brooks estate of Boston, and is in charge here of Aldis, Aldis & Northcote. Holabird & Roche are the architects. The extension to the Monadnock makes it the largest office building in the city, its total street frontage being 240 feet.

THE OLD COLONY.

The Old Colony building, on which work was in progress for several months of the year, is located on the southeast corner of Dearborn and Van Buren streets and also has a frontage on Plymouth place. The lot is about 68 feet wide by 149 feet long. The building is sixteen stories, attic and basement, in height. The basement is 9 feet high, the first story 10 feet 8 inches, the second and third stories 13 feet, and from the fourth story up each story is 10 feet 6 inches high. The construction consists of steel columns throughout. It is what is known as the "light construction," all the exterior masonry being supported upon a steel skeleton. The columns will be incased in fireproofing and also with brick-work or terra-cotta. The entire building is wind-braced throughout with steel, but has no internal division walls. The foundations and walls are similar to those in the Monadnock block extension. The architects, Messrs. Holabird & Roche, call attention to the fact that this method of constructing foundations is that which is used in the very heaviest of buildings, notably the Monadnock, the Masonic Temple and the Tacoma. It was, as a matter of history, first used in the Tacoma. These foundations have proved the most satisfactory in Chicago; buildings erected on them having settled more uniformly and with fewer cracks than in cases where other kinds of foundations have been tried. The external covering of the Old Colony building consists of blue Bedford stone from the first to the fourth story, inclusive. The fifth to the sixteenth story, inclusive, are of cream brick with white terra-cotta sill and window head courses. The entire attic story, together with the cornice, is of white terra-cotta. The floor construction, partitions, marble and mosaic, inside wood finish and glass are substantially the same as in the extension of the Monadnock block. The elevators are six in number, running from the first to the attic stories, inclusive. The cabs are of iron, fire-gilded, the first-story elevator inclosures being treated in the same manner. The rest of the elevator inclosures are of wrought iron, Bower-Barffed in finish. The steam plant is complete in itself and similar to that in the Monadnock extension. The Old Colony has one mail chute and the Monadnock two. Francis Bartlett of Boston is the owner of the Old Colony and Bryan Lathrop is the agent in Chicago. The building cost $600,000.

THE COLUMBUS.

At the southeast corner of State and Washington streets is the Columbus building, owned by Messrs. Higgins and Furber. The lot on which it stands is 100 by 90 feet, the longer front being on State street. The building, which was designed by W. W. Boyington, is fourteen stories high, the top of the corner tower being 240 feet above the sidewalk. It is constructed of stone, steel and terra-cotta, according to the newest approved methods. The two stores on the ground floor on either side of the main entrance are unusually large. Each is forty feet wide and brilliantly decorated at a cost of $175,000. At the rear of each store is a glass mosaic made in Venice, one showing Columbus at the court of Isabella and the other his landing in America. The ceiling beams are of bronze, supporting Mexican onyx ceilings. Above the entrance to the building a fine ten-foot bronze statue of Columbus is to be placed. The floors throughout the building are all of mosaic and the interior finish is of marble and iron. On top of the tower is a globe made of opalescent glass with the continents marked in colors and lighted by a 3,000 candle-power electric lamp. All the floors except that on the street level are planned for offices. The cost of the building is about $800,000.

SECURITY BUILDING.

The Security building, on the southeast corner of Madison street and 5th avenue, is

of steel construction, fourteen stories high and fire-proof. The first three stories are of rough-faced granite and the remainder of pinkish-yellow brick and terra-cotta. Over the third story is a heavy stone balcony running around the street fronts. On the Madison street side is a single row of bay windows and on the 5th avenue side a double row extending from the third to the eleventh story. A massive cornice crowns the whole, giving the building a symmetrical and handsome appearance. The lot on which it stands has a frontage of 48 feet on Madison street and 100 feet on 5th avenue. The ground floor is designed for stores, the second for a bank and the others for offices. The interior finish will correspond to that of others of its class. Charles H. Marshall & Co. are the owners and C. J. Warren the architect. The cost is figured at $450,000.

THE TEUTONIC.

The old Teutonia building, on the southeast corner of 5th avenue and Washington street, was torn down in May and work begun on a new ten-story structure to be known as the Teutonic. The lot has a frontage of 60 feet on 5th avenue and 80 feet on Washington street. The construction of the new building is of steel, with pressed-brick fronts and terra-cotta trimmings. Instead of having a heavy cornice, as usual in modern office buildings, it has a receding attic. The corridors have marble wainscoting and mosaic flooring. There are three passenger elevators with cabs and iron-work finished in Bower-Barffed style. The main entrance is on Washington street and is very ornate in style and finish. Above the ground floor the interior will have 42,000 square feet of floor space, divided into 160 offices, each complete in itself with vault, toilet and other appointments. The building is owned by William C. Seipp and T. J. Lefens, and will have cost, when completed, about $500,000. J. K. Cady is the architect.

ARMOUR INSTITUTE.

The Armour Institute is located on Armour avenue near 33d street. The building is five stories high and cost $250,000. It is fire-proof, being constructed of brick and iron, and is beautifully finished. The wainscoting on every floor is of marble and marble columns and arches appear in profusion. In the basement is the electric plant and appliances to be used by students in forging and iron work. On the first floor is the library-room, sixty feet square, and wood-working rooms, as well as apartments for the president are also here. On the second floor are the chemical laboratory, the physical-apparatus room, the physical lecture-room, and electrical-rooms. The third floor contains rooms for students in free-hand drawing, mechanical and architectural drawing, and in commerce and business. The fourth floor is devoted to the domestic sciences, there being departments of cooking, dress-making, millinery and kindred studies. There are also several recitation, lecture and class rooms. At one end of the fifth floor is the gymnasium, 60 by 53 feet, and at the other the technical museum. Connecting the two are dressing-rooms for the gymnasium and elaborate bath-rooms fitted up in white marble. The building was erected by Philip D. Armour from plans made by himself in conjunction with George W. Childs of Philadelphia. Mr. Armour has endowed this school of science, art and technical training with $1,400,000 for apparatus, teachers and general running expenses.

HISTORICAL SOCIETY'S BUILDING.

Work on the Chicago Historical society's new building, on the northeast corner of Dearborn avenue and Ontario streets was begun in August and the corner-stone laid on Nov. 12. The plans, drawn by Architect Henry Ives Cobb, provide for a structure two and a half stories high, with a frontage of 120 feet on Dearborn avenue and 100 feet on Ontario street. It is of brick and light-colored granite and thoroughly fire-proof. The high roof is covered with red tiling. The general style of architecture is Romanesque. A marble vestibule leads to a large hall with a dome. In the basement is a reading-room, containing files of Chicago newspapers and directories conveniently arranged. On the first floor are reading-rooms on the south, a large auditorium with accommodations for 600 persons on the north, and the library on the west. The museum, art gallery, stock-rooms and directors' offices are on the second floor. The cost of the building is placed at $150,000.

BOYCE BUILDING.

The W. D. Boyce office building, at 112 and 114 Dearborn street, is twelve stories high, with attic and high pitched roof. Its framing is of rolled steel and the exterior of terra-cotta. All the materials of construction are fire-proof. In place of plaster, mahogany, paneling and French-plate mirrors are used. There are four elevators, three passenger and one freight. They are run by electricity, which also furnishes motive-power for other purposes throughout the building. The ground dimensions are 40 by 90 feet. The cost of the structure is estimated at $250,000. The first five floors will be used for Mr. Boyce's publishing business and the other stories for offices. Henry Ives Cobb is the architect.

GILLESPIE BUILDING.

The P. F. Gillespie office building, at 331 and 333 Dearborn street, is twelve stories high, of iron and steel construction and fire-proof. The exterior is of pressed brick and terra-cotta. The structure stands on a lot having a frontage of 50 feet and a depth of 67 feet. On the ground floor are two stores, the rest of the building being devoted to offices, which are reached by two passenger elevators. The cost of the structure, which was planned by James J. Eagan, was about $150,000.

DEXTER BUILDING.

The Dexter office building is on the south side of Adams street, adjoining the Owings block on the east. It is eight stories high, of iron and steel construction and is practically fire-proof. The partitions are of expanded metal and cement and the floors are of hardwood. The exterior design is in the Spanish renaissance style of architecture, the front being of ornamental brick and terra-cotta. The ground floor is occupied by stores, the basement by a restaurant and the vaults of the Dexter Safe Deposit Vault company, who own the building, and the remainder by forty-two suites of offices. The entrance has a mosaic floor and marble walls and ceilings. There are two passenger elevators trimmed in aluminum. The building was planned by Mayo & Curry and cost $100,000.

KEDZIE BUILDING.

The Kedzie building, on the south side of Randolph street, thirty feet east of Clark, is eight stories high, of steel construction, and covers a lot 50 by 70 feet. The first and second stories of the exterior are of granite, pressed brick and terra-cotta being used in the upper stories. The entrance is in the center and leads to two passenger elevators. The floor of the entrance is of mosaic and the walls are of marble. The first story is divided into stores and the remainder of the building into sev-

enty-five offices. The cost of the structure, which was planned by Edmund R Krause for the Kedzie Safety Deposit company, is placed at $100,000.

THE ISABELLA.

The Isabella is a ten-story building with high hip roof. It is of iron and steel construction and stands on a lot having a forty-foot front on the south side of Van Buren street between State and Wabash, and a depth of eighty feet along the alley back of the big Leiter building. The style of its architecture is known as the French chateau gothic. Two stores, the ceilings, walls and floors of which are to be of polished Italian marble, will take up the whole of the ground floor with the exception of room for an entrance between them to the upper stories. These are divided into handsome office suites finished in first-class style, marble, mosaic and onyx being liberally used in corridors and passage ways. The top story contains a society hall twenty-four feet high. L. Z. Leiter is the owner and Jenney & Mundie are the architects. $200,000 represents the cost.

THE ELLSWORTH.

The Ellsworth building is fourteen stories high and stands on a lot 76 by 66 feet. It is located on the east side of Dearborn street, about fifty feet north of Harrison, and extends back to Plymouth place. The building, which is of iron and steel construction, contains about 70,000 feet of floor space and is divided into 140 suites of rooms, each complete in itself. There are three elevators in a closed shaft. All the halls are finished in marble and the floors in Roman mosaic. The woodwork is of oak. The fronts on both Dearborn street and Plymouth place are alike in style, though the material is somewhat different. The first three stories are of brown-stone and the remainder of brown brick and terra cotta. On the Plymouth place front the stone used is buff Bedford and the brick and terra-cotta red to match. Two rows of bay-windows run up from the third to the thirteenth story. The top is surmounted by a heavy cornice. J. W. Ellsworth is the owner and the architects are J. M. Van Osdell & Co. The cost of the structure, which is fire-proof throughout, is about $300,000.

MARSHALL FIELD'S STORE.

Marshall Field & Co.'s new building, the plans for which were prepared by D. H. Burnham, has a frontage of 151 feet on Washington street and 108 on Wabash avenue. It consists of a basement and nine stories, the line of the roofing being 148 feet above the sidewalk. The exterior is in the style of Italian renaissance. The first two stories are built of pink granite, and the floors above of terra-cotta and light-yellow brick. The granite piers are covered at the second story with a broad cornice of the same material. Between the piers are great sheets of plate-glass, giving the interior an abundance of light. At the corners are huge arched entrances provided with a series of swinging-doors through which customers have easy ingress and egress. On both the Washington street and Wabash avenue fronts the windows in the center of the fourth, fifth and sixth stories are grouped in three large arched openings, the piers of which extend through the first three stories. At the extremities of the facades the windows are square-headed and grouped in couples. The windows in the central arched openings are supported with bronze frames, the panels of which are set with polished marble. In the eighth and ninth stories are a series of arched openings with piers extending through the two stories. Above is a richly ornamented cornice surmounting a wide frieze in which are placed the windows lighting the ninth story. The basement and first four stories are fitted up for Field's retail dry goods store, and the five upper floors for offices. All the machinery required to run the passenger and freight elevators and electric lights is placed in an adjoining building. The cost of the structure itself is $800,000, but including the site and long-term leases the total outlay will be nearly $2,000,000.

MOLLERS BUILDING.

The new Mollers building is seven stories high and has a frontage of 165 feet on Market street, 180 feet on Quincy and 140 feet on Jackson. It extends back to the river and consequently has direct light on all sides. The construction is of steel throughout and the exterior is largely made up of glass. All the shipping is done from the Quincy street side where the freight elevators are located and where a glass awning has been erected over the sidewalk. The entire structure is used for the wholesale dry goods business. The cost is in the vicinity of $300,000. Flanders and Zimmerman are the architects and J. A. Mollers is the owner.

THE LUDINGTON.

The Ludington building is eight stories high, of steel fire-proof construction and planned for store and general mercantile purposes. It has a frontage of 120 feet on Wabash avenue and 165 feet on Harmon court. The street and alley fronts are largely of plate-glass. The piers are reduced to the size necessary to thoroughly fire-proof the steel columns, and the glass extends from two feet above the floor to within six inches of the ceiling in all the stories above the stores, for the purpose of obtaining the maximum amount of light. The building is provided with three passenger and two freight elevators, steam-heating apparatus, electric plants and other appliances, making it first-class in all respects. The cost is about $400,000. Jenney & Mundie are the architects.

THE VAN BUREN.

The Van Buren is the name of a ten-story mercantile building on the north side of Van Buren street, on the west side of the alley between 5th avenue and Franklin street. It has a frontage of 53 feet and a depth of 80 feet. The exterior is of brick and stone, the main feature of the front being two tiers of bay-windows. The building was designed by Flanders & Zimmerman, for a syndicate. The cost was $150,000.

KUH, NATHAN & FISCHER BUILDING.

The Kuh, Nathan & Fischer building is in the form of an L, with the fronts on Franklin and Van Buren streets and extending around the building on the northwest corner. It is seven stories high, has a frontage of fifty feet on each street, and has a depth of 150 feet from Franklin and 100 feet from Van Buren street. Mill construction is used for the frame and the walls are of pressed brick and terra-cotta. Both fronts are highly ornamented. The cost of the building was $150,000. Charles S. Frost was the architect.

THE MAYER BUILDING.

The Mayer building, at the southwest corner of Van Buren and Franklin streets, is seven stories high and occupies the whole of a lot 120 by 163 feet, with the exception of a court, 40 by 68 feet, in the rear, for receiving and shipping freight. The exterior has a solid and massive appearance, owing to the heavy pillars between the large plate-glass windows. The walls are of light-colored pressed brick, supported by

Of Every Description

Is to be had on my counters. My facilities for handling subscriptions are far superior to anybody's in the city and I guarantee prompt delivery on all such orders. In connection with my large line of periodicals I also make a specialty of binding, and a trial of same will fully convince you that I do the best and cheapest work in the city. Mail orders solicited and promptly attended to.

iron columns, and the whole is surmounted by a heavy cornice, of rich design. Large stone pillars grace the entrance which is at the corner of the streets. The interior is of mill construction and is finished in hardwood. The building, which is devoted to the use of the wholesale clothing trade, has two passenger elevators and four for freight, is warmed by steam and lighted by electricity from a plant located beneath the court, in the rear. Its architects are Adler & Sullivan and its cost is $250,000. The property belongs to the William Mayer estate.

AUDITORIUM ANNEX.

The Auditorium annex, at the southwest corner of Michigan avenue and Congress street, covers an area of 172½ feet by 114½ feet. Its foundations are of steel rails and cement. It is ten stories high, with an extra floor in the rear to be occupied by servants. The construction is of steel and iron and the exterior of blue Bedford stone. It contains 1,342 iron girders. In its general appearance the new hotel resembles the Auditorium, though it has some characteristics of its own. There are bay-windows on all sides, running from the second to the sixth story on the north and east and from the second to the eighth on the south and west. The windows on the seventh floor, fronting Michigan avenue and Congress street, are arched, and the marble slabs are richly carved in fancy figures. The main entrance is on Michigan avenue and is built of the finest marbles with elaborate carvings and a ceiling of mosaics studded with electric lights. On the first floor is the restaurant, finished off in satin wood, and separate dining-rooms for ladies, children and nurses. In the front half the stories are high but in the rear a half story is built for billiard and other less important rooms. Halls, vestibule, main staircase, waiting and reception rooms are vaulted. For guests 450 spacious rooms, most of them en suite, are provided. Steam, water and other pipes are not visible. All rooms contain a fire-place, are well ventilated and are lighted by electricity. There will be two front passenger elevators, one at the rear, and two for baggage. In the finishing of the building, the colored marbles used include Egyptian, Numidian, porphyry and serpentine, the last a Russian sea-green stone. The grand staircase is opposite the two main elevators. A long tunnel, reached by marble steps from the main office and brilliantly illuminated by means of electric lights, connects the annex with the Auditorium hotel, proper, and is one of the features of the building. The building was planned by Architect C. J. Warren for the Auditorium association. Its cost is in the neighborhood of $1,000,000.

THE LAKOTA.

On the southeast corner of 30th street and Michigan avenue stands the Lakota, of which Beers, Clay & Dutton are the architects. It has a ground area of 95 feet on Michigan avenue by 119 feet in depth on 30th street to an alley. The building is entirely isolated and consequently has light all around. It is ten stories and basement high, with a lofty attic, the total height being 140 feet above the sidewalk line. The material is fine cut buff Bedford stone up to the fifth-story window-sills; above this is a cream-colored pressed-brick with terra-cotta trimmings, capped with an exceedingly rich terra-cotta cornice. The pressed-brick work and cornices extend entirely around, giving the building the same effect from every point of view. The four corners are finished by richly ornamented terra-cotta domes, the first used in this city. Light to the interior rooms is obtained by two liberal-recessed courts from the north and south. The structure is entirely fire-proof and finished throughout in the most elegant manner. Upon the lower floor is a public rotunda, lounging-room, cafe, grand dining-room and kitchen. On the second floor is an elegant public parlor and several private dining-rooms, together with suites of rooms for guests. Above this the building is laid out in suites of apartments, ranging from two to four rooms, ingeniously arranged so that any one may be used separately and independently from the public halls. The building is intended for an exceedingly high-class private hotel. In the finish of the various suites quite a variety of woods is used, the building differing in this particular from any other in the city. There is used mahogany, curly maple, red birch, quarter-sawed oak and other fine grades of finishing woods. The building is owned by the Lakota company, of which J. Foster Rhodes is the leading spirit, and is managed by Mr. James R. Keenan, lately of the Shoreham hotel, Washington, D. C. The plant represents a total outlay of about $750,000, and the furnishings, which are to be very elaborate, will cost about $200,000.

MOSHER HOTEL.

The elegant apartment building at the northwest corner of Wabash avenue and 28th street, constructed for the Mosher Apartment company, has a novel interior arrangement. The architects, Messrs. Beers, Clay & Dutton, made it a study to reach a large number of apartments upon one floor by means of a single entrance and elevator system, thus concentrating the management and greatly economizing in the running expenses. The result is highly gratifying and the apartments have a spaciousness and effectiveness not often equaled. The dimensions of the building are 100 feet on Wabash avenue and 140 feet on 28th street, most of the apartments having a south frontage. The exterior is of buff Bedford stone and a cream-colored brick. The interior is semi-fire-proof, all of the bearings being either of iron and steel or solid masonry. The main partitions are of tile and the residue, together with the floor joists, is thoroughly fire-proofed. The staircases are of iron. The building is finished very elaborately with hardwoods throughout, including the floors. The bath-rooms are tiled, as are also the main entrances and public halls. The building is heated by steam and hot water, and electric lights are furnished. The cost is $250,000, the walls and interior bearings being built of sufficient strength to carry three additional stories.

THE POTOMAC.

The Potomac apartment building, on the southwest corner of Michigan avenue and 30th street, is eight stories high and is constructed of steel, brick, terra-cotta and stone. The exterior design is an elaborate one, both fronts being highly ornamented in a combination of the Romanesque and renaissance styles, and every expedient for obtaining the greatest amount of light being utilized. It contains forty complete suites of apartments, all finished in hard woods, and supplied with modern sanitary plumbing, hot-water heating, electric light and other appliances. The halls and vestibules are finished in marble and tile. It has two passenger elevators and one for freight. The Potomac is owned by a syndicate headed by James E. Moore, of the firm of Moore Bros. It was built from plans furnished by Julius de Horvath at a cost of about $450,000.

VENDOME CLUB.

The Vendome Club building is eight stories and basement high. It stands on the southwest

corner of Oglesby avenue and 62d street, having a frontage of 90 feet on the former and 166 feet on the latter thoroughfare. It is built in the Italian renaissance style. The exterior is of stone and buff brick relieved by numerous bay windows. There are two fine entrances finished in mosaic and marble, the main one being from Oglesby avenue. All the rooms have outside windows. The building, which was designed by F. B. Townsend, is owned by Chapman brothers and is to be used as a family hotel. It cost, exclusive of furnishings, about $200,000.

REYNOLDS APARTMENT BUILDING.

On the northeast corner of Cottage Grove avenue and 52d street is a seven-story apartment house belonging to Dr. H. J. Reynolds. It fronts 120 feet on the avenue overlooking Washington park. The outer walls are of cut stone, pressed brick and terra-cotta. The entrances, which are on the avenue and 52d street, are finished in tile and marble. The interior has been cut into about four hundred rooms, to which light is afforded by four light-shafts extending from the first story to the roof. The building is equipped with steam heat, elevator service and other modern appliances. Its cost was about $300,000. J. J. Kouhn was the architect.

CORBIN APARTMENT HOUSE.

The apartment house built for Maj. Daniel Corbin from plans drawn by John M. Van Osdel is eight stories and basement high and stands on a lot 100 by 130 feet on the north side of 51st boulevard, 100 feet east of Cottage Grove avenue. The first story is of pink Kasota limestone, while the upper stories including the bays, are of brick and terra-cotta. The interior is of semi-fire-proof construction and is finished in hardwood and Arkansas pine. The entrances are of marble. The cost is placed at about $200,000.

THE GROVELAND.

The Groveland, on the southwest corner of Groveland avenue and 31st street, covers a lot 100 by 110 feet. It was planned by Edbrooke & Burnham and built for P. J. Long, Frank H. Ray and Dennis, Netling & Co. Its total cost was not far from $335,000. The two street fronts are of stone, the first story being of granite and the other floors of pink Kasota stone. Nine tiers of bays run up through the three street and alley fronts and are connected by iron balconies. The building is eight stories high and contains fifty-six suites of five, six and seven rooms each. The halls are floored with tile and mosaic and lined with marble.

RUBENS APARTMENT BUILDING.

The apartment house owned by Harry Rubens, at the southwest corner of Cass street and Walton place, is 105 by 63½ feet, seven stories and a basement high, and constructed of stone, iron, steel, brick and terra-cotta. The partitions are of macolite tile and the rooms are finished in hardwood. The building, which was planned by Edmund Krause, cost about $150,000.

THE MINEOLA.

The Mineola apartment house, on the southwest corner of LaSalle avenue and Oak street, is seven stories and basement high. It is built of stone, pressed brick and terra-cotta, is heated by steam and lighted by electricity, and contains all the usual modern improvements. Dr. Charles A. Pusheck is the owner. The structure was planned by Tromman & Jebsen and cost about $125,000.

STRINGFIELD APARTMENT HOUSE.

The eight-story apartment house on the northwest corner of Wabash avenue and 12th street is owned by F. M. Stringfield and stands on a fifty-foot lot leased to him by Walter L. Peck. It is of brick, iron and stone, and elegantly finished. The building was designed by Julius de Horvath and the cost was $150,000.

KOCHS APARTMENT BUILDING.

The apartment house built for Theodore A. Kochs is six stories and basement high and stands on a lot 47 by 82 feet at the corner of LaSalle avenue and Locust street. The first story is of stone and the remainder of light-colored pressed brick, with a terra-cotta cornice of rich design. The building cost about $100,000.

TATTERSALLS.

The Chicago American Horse Exchange, which is a branch of Tattersalls, London, owns the barn on Dearborn street extending from 16th to 17th street and back to the alley. The structure is four stories high and 364 feet long by 152 feet deep. It has an arched roof and is built of iron, steel and brick, at a cost of $100,000. It contains rooms for the storage of carriages and has 400 stalls for horses. Lienan & Nash of New York, represented here by Carl L. Lehmann were the architects.

CHICAGO UNIVERSITY BUILDINGS.

Work was begun on the Walker museum, a three-story structure, 76 by 120 feet in dimensions. It is to be fire-proof and will cost $150,000. The erection of Snell hall, Kelly hall and Beecher hall, all of which are four-story dormitories, with dining-rooms on the first floor and parlors and sleeping apartments on the other floors, was also commenced. These structures are all of blue Bedford stone, and their architecture corresponds with that of Cobb hall and the older buildings of the university. Each dormitory will cost about $50,000. Henry Ives Cobb is the architect.

WORLD'S FAIR HOTELS.

In the vicinity of Jackson park a large number of hotels and apartment houses are either under way or projected. As they are of a more or less temporary character, and subject to change in plan and purpose, detailed descriptions are not called for. Some of the more important of these structures are: Chicago Beach hotel, on 51st street near the lake, six stories, 880 feet long, cost $400,000; Hotel Endeavor on Bond avenue and 75th street, 305 feet square, 630 rooms, three stories, cost $75,000; Raymond & Whitcomb Grand hotel, on Midway plaisance and Washington avenue, four stories, cost $200,000; Midway Plaisance hotel, Midway plaisance and South Park court, six stories, cost $200,000; Hotel Epworth, Midway plaisance and Monroe avenue, four stories, 600 rooms, $100,000; the Windemere, 56th street and Cornell avenue, seven stories, cost $500,000; Gladstone apartment building, six stories, cost $100,000; and Exposition depot and hotel, 71st street between Selpp avenue and Avenue B, three stories, cost $140,000.

WILSON BUILDING.

The Wilson building, on the southwest corner of 5th avenue and Jackson street, is ten stories high. The exterior is of pressed brick and terra-cotta. The interior is fitted up for the wholesale men's furnishing-goods business. The building cost $250,000.

Special assessment on city property	1,887.02
Special assessment fund	6,222,900.68
Street lamp fund	303,525.71
Sewerage fund	568,458.31
Salaries	180,151.37
Suspense account	451.65
Special deposit fund	1,000.00
Washingtonian Home	27,500.00
Water fund	3,891,033.48
Total	$28,115,931.83

CHICAGO AS A RAILROAD CENTER.

The following interesting statement showing the number of railroad lines entering Chicago and total number of passenger trains leaving from and arriving at Chicago daily via all lines, compiled in June, 1892, by Stoelkers' Travelers', Shippers' and Mail Guide, proves clearly that Chicago is the greatest railway center in the world:

Railroads.	Through Express and Mail.	Accommodation and Suburban.	Railroads.	Through Express and Mail.	Accommodation and Suburban.
Atchison, Topeka & Santa Fe	12	2	C., M. & St. P.—Milwaukee division	18	2
Baltimore & Ohio	8	4	C., M. & St. P.—North Chicago line	.....	12
Belt R'y of Chicago (transfer line)	.....	.....	Chicago, Madison & Northern	.....	.....
Chicago & Alton	10	2	Chicago, Rock Island & Pacific	12	36
Chicago & Calumet Terminal	.....	.....	Chicago, St. Paul & Kansas City	4	2

Chicago, Burlington & Northern	8	.....	Wabash	6	10
Chicago Central	.....	.....	Wisconsin Central	8	2
C., M. & St. P.—C. & C. B. div	6	16	Total train service	1,360	660

These twenty-eight railroad companies operate nearly 40,000 miles of railroad lines. There is no other city on the globe to compare with Chicago, either in the number of companies operating, in the great number of trains of all classes leaving and arriving daily, or in the vast mileage centering in the city.

CAPITAL, $2,000,000.

FACULTY

HON. JOSEPH M. BAILEY, LL. D.
(Chief Justice of Supreme Court of Illinois).

HON. THOMAS A. MORAN
(Late Justice of Appellate Court, First District of Illinois).

HON. HENRY M. SHEPARD
(Justice Appellate Court, First District of Illinois).

AND OTHERS.

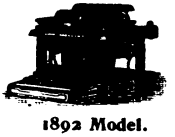
Sessions are held each week-day evening in the Athenæum Building, 18-26 Van Buren Street.

The Undergraduate Course of two years begins the first Monday in September annually and continues ten months.

The Post-Graduate Course of one year begins the first Tuesday in October annually and continues eight months.

Diplomas granted on two years' attendance admit to the Bar of this State on motion. For further information address the secretary,

ELMER E. BARRETT, LL. B.,
1501-4 Unity Building, 79 Dearborn Street, Chicago.



1892 Model.

Remington Typewriter

The history of the Remington shows a steadily rising tide of popularity and success. It is absolutely unrivaled for all the essential qualities of a first-class writing machine.

1867 First invention of the Typewriter now known as the REMINGTON STANDARD. A few machines made by hand during this and following years.

1873 The repeated experiments of the inventors having somewhat improved upon the first crude attempts, it was brought to the Remington factory at Ilion. N. Y.

1874 After more than a year of painstaking labor on the part of many able mechanical experts the first Remington-made machines were put upon the market.

1880 Six years after only 1,000 machines had been sold. The public were slow to realize the value of the invention.

1882 The number increased to 2,300 machines.

1885 Five thousand machines sold this year. It grew in popular favor. In

1890 Sales had risen to 20,000 machines per annum.

1892 Finds our standing orders to our factory of 100 machines per day inadequate to meet the rapidly increasing demand.

Chicago, Rock Island & Pacific Railway.

BEST DINING-CAR SERVICE IN THE WORLD

The Rock Island is foremost in adopting any advantage calculated to improve speed and give that luxury, safety and comfort that popular patronage demands. Its equipment is thoroughly complete, with vestibuled trains, magnificent dining-cars, sleepers and chair coaches all the most elegant and of recently improved patterns.

Faithful and capable management and polite, honest service from employes are important items. They are a double duty—to the company and to travelers—and it is sometimes a task difficult of accomplishment. Passengers on this line will find little cause for complaint on that ground.

A very popular train on the Chicago, Rock Island & Pacific Railway leaves Chicago daily at 10 p. m. It is called "THE BIG FIVE," is only one day out and passengers arrive at Denver, Pueblo or Colorado Springs early the second morning.

The Rock Island has become a popular Colorado line and the train above referred to is vestibuled and carries the Rock Island's excellent dining-car service.

For full particulars as to tickets, maps, rates apply to any coupon ticket office in the United States, Canada or Mexico, or address

The Chicago News Record

Prints ALL the News. It is a member of the Associated press. Its facilities for news-gathering are unsurpassed by any Chicago daily.

It is a short-and-to-the-point paper. Its matter of all kinds is closely edited, with the view of giving the reader all the news of the day and eliminating the merely trivial and inconsequential. It is designed to be a daily paper for busy people.

It is an independent newspaper. It aims to be fair and impartial in discussing men and measures and to give its readers all political news free from the taint of partisan bias.

It is pre-eminently a family newspaper. It is clean throughout, and, in addition to "all the news" tersely told, every issue contains more or less entertaining matter of a literary and general character of common interest to the family circle.

Sold by Newsdealers and Agents

Everywhere in Chicago and the northwest.

VALUATION OF CHICAGO.

The following is a statement of the valuation of taxable real estate and personal property, and the amount of taxes levied each year, from 1837 to 1891, inclusive:

YEAR	*Real Estate.*	*Person'l Prop'rty*	*Total Valuat'n*	*Tax Levy.*	YEAR	*Real Estate.*	*Person'l Prop'rty*	*Total Valuat'n.*	*Tax Levy.*

*The circulation for 1892 comprises only the evening issue—THE CHICAGO DAILY NEWS.

Advertisements of Special Wants

THE CHICAGO DAILY NEWS is the principal medium of Chicago and the Northwest for the publication of small "WANT" ADVERTISEMENTS.

THE DAILY NEWS publishes a larger number of advertisements of this character during the year than any other paper in the United States, the New York Herald and World alone excepted. It is therefore the well-recognized channel of communication in Chicago and throughout the tributary Northwest for the supplying of SPECIAL WANTS, such as Situations Wanted, Help Wanted, Agents Wanted, Boarding, Rooms to Rent, Real Estate for Sale or to Rent, Financial, Business Chances, to Exchange, Partners Wanted, Lost and Found, Information Wanted, Instruction, Personal Notices, to Buy or Sell Horses, Carriages, Machinery, Store and Office Fixtures, Household Furniture, etc.

MANUFACTURERS and all others throughout the Northwest employing labor will find the "Want" columns of THE DAILY NEWS especially efficient in supplying their needs. Those seeking employment will always find therein a large number and choice of offers from employers, while those who wish to make their own personal application for employment can through its columns most easily, cheaply and effectively address the largest possible number of employers. The "Want" columns of THE DAILY NEWS are, in fact, a BUREAU OF EXCHANGE where labor and capital most easily meet and execute their mutual exchange of value.

For ALL the various kinds of SPECIAL WANTS THE CHICAGO DAILY NEWS is the leading and recognized medium of communication.

Advertising rates will be mailed upon application.

Suggestions

FOR

THE DAILY NEWS ALMANAC

FOR **1894**

Purchasers of THE DAILY NEWS ALMANAC are invited to send suggestions for its improvement to the Editor of The Chicago Daily News Almanac, 123 Fifth Avenue, Chicago.

THE

EQUITABLE TRUST COMPANY

185 Dearborn Street,
CHICAGO.

CAPITAL, Paid Up . . $500,000
SURPLUS $50,000

CHARTERED BY THE STATE OF ILLINOIS to act as Executor, Administrator, Conservator, Trustee, Guardian, Assignee or Receiver and to receive and execute Trusts of every character from courts, corporations and individuals. A legal depository for court and trust funds. Acts as agent for the registration and transfer of bonds and stocks of corporations and payment of coupons, interest and dividends. Takes entire charge of estates. Wills receipted for and safely kept without charge.

INTEREST ALLOWED ON DEPOSITS of money, which may be made at any time and withdrawn after five days' notice or at a fixed date and will be entitled to interest for the whole time they remain with the company. Executors, administrators or trustees of estates as well as religious and benevolent institutions will find this company a convenient depository for money. It does not receive deposits payable on demand and does not do a banking business.

MONEY LOANED only on improved real estate in the city of Chicago and on cash collaterals.

TRUST FUNDS AND INVESTMENTS are kept separate and apart from the assets of the company.

J. R. WALSH, President. **CHAS. H. HULBURD, Vice-President.**
FRANKLIN HATHEWAY, Sec'y. **SAMUEL D. WARD, Treasurer.**
LYMAN A. WALTON, Cashier.
